Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

A Secure Base - John Bowlby 2012-11-12

As Bowlby himself points out in his introduction to this seminal childcare book, to be a successful parent means a lot of very hard work. Giving time and attention to children means sacrificing other interests and activities, but for many people today these are unwelcome truths. Bowlby's work showed that the early interactions between infant and caregiver have a profound impact on an infant's social, emotional, and intellectual growth. Controversial yet powerfully influential to this day, this classic collection of Bowlby's lectures offers important guidelines for child rearing based on the crucial role of early relationships.

Patterns of Attachment - Mary D. Salter Ainsworth 2015-06-26

Ethological attachment theory is a landmark of 20th century social and behavioral sciences theory and research. This new paradigm for understanding primary relationships across the lifespan evolved from John Bowlby's critique of psychoanalytic drive theory and his own clinical observations, supplemented by his knowledge of fields as diverse as primate ethology, control systems theory, and cognitive psychology. By the time he had written the first volume of his classic Attachment and Loss trilogy, Mary D. Salter Ainsworth's naturalistic observations in Uganda and Baltimore, and her theoretical and descriptive insights about maternal care and the secure base phenomenon had become integral to attachment theory. *Patterns of Attachment* reports the methods and key results of Ainsworth's landmark Baltimore Longitudinal Study. Following upon her naturalistic home observations in Uganda, the Baltimore project yielded a wealth of enduring, benchmark results on the nature of the child's tie to its primary caregiver and the importance of early experience. It also addressed a wide range of conceptual and methodological issues common to many developmental and longitudinal projects, especially issues of age appropriate assessment, quantifying behavior, and comprehending individual differences. In addition, Ainsworth and her students broke new ground, clarifying and defining new concepts, demonstrating the value of the ethological methods and insights about behavior. Today, as we enter the fourth generation of attachment study, we have a rich and growing catalogue of behavioral and narrative approaches to measuring attachment from infancy to adulthood. Each of them has roots in the Strange Situation and the secure base concept presented in

Patterns of Attachment. Its inclusion in the Psychology Press Classic Editions series reflects *Patterns of Attachment's* continuing significance and insures its availability to new generations of students, researchers, and clinicians.

Mediated Deviance and Social Otherness - Kylo-Patrick R. Hart 2009-01-14

If, in fact, "Lizzie Borden took an axe and gave her [step]mother forty whacks," why (from a representational standpoint) did her stepmother deserve it? If older gay men in Internet chat rooms regularly provide much-needed acceptance and advice to younger gay males during the coming-out process, how is it that they continually reinforce racist ideologies and powerless subjectivities while doing so? What sorts of media images are commonly presented of individuals and groups that are regarded as being deviant in society, and whose interests do they ultimately serve? The answers to these important questions and many others are provided in the pages of *Mediated Deviance and Social Otherness: Interrogating Influential Representations*, which explores provocative representations of deviance in various media forms—including books, films, musical offerings, news accounts, television programs, and Internet sites—and their substantial cultural, political, and social consequences for the lived realities of individuals of different backgrounds and lifestyles. The eye-opening chapters of this book enable readers to more fully realize the regularity with which media representations continuously contribute, in powerful ways, to the formation and perpetuation of influential social constructions of deviance and otherness as they pertain to delinquents, criminals, and individuals of all ages, classes, genders, races, sexual orientations, and health/(dis)ability statuses. "*Mediated Deviance and Social Otherness: Interrogating Influential Representations* is a thought-provoking anthology that offers fresh insight and new approaches to critically analyzing social constructions of deviancy across a variety of media forms. While scholars have long examined the relationship between media and deviancy, this collection of essays features a range of theoretical perspectives through which to investigate deviancy and its various interpretations in original ways. In the process, it deepens our understanding of how deviancy has been constructed across time and in differing social/cultural milieus. The essays in this anthology reflect the diverse disciplines of their contributing scholars. At the same time, the anthology does not waver from its clear focus on deviancy, lending it substantial coherence and readability. The book is expertly structured and edited. Each of the essays draws inspiration from a refreshing variety of sources and fields of study. The anthology is accordingly divided into six distinct yet related sections that mark its coherence and readability. Simultaneously, the essays within each section are quite different from one another, allowing the reader to make thought-provoking connections between representations of deviancy both within sections and among them. *Mediated Deviance and Social Otherness: Interrogating Influential Representations* is an important text. Considering the growth of new media forms, its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical contribution to the field of media and cultural studies. Given its breadth and scope, the anthology represents a highly significant scholarly contribution that will greatly benefit scholars, students, and interested individuals of all levels. It offers eye-opening insights to anyone with an interest in cultural studies, disease and disability studies, film and television studies, LGBT studies, criminal justice, sociology, and related fields." Brief Reviewer Bio: Metasebia Woldemariam, Ph.D., is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness. "*Mediated Deviance and Social Otherness: Interrogating Influential Representations* is an erudite collection offering critical and cultural analysis of media representations within various media forms, including journalism, film, documentary, television, fiction, music, and the Internet. The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize: (1) Age; (2) Crime and Criminals; (3) Disease and Disability; (4) Gender, Race, and Class; (5) Sexual Orientation; and (6) "Other" Forms of Deviance, which include masochism, carnival "spectaculars," and cultures of violence. While some chapters feature links to topics common to media studies, such as the Motion Picture Production Code, what is powerful about the collection is how varied the interpretive standpoints of the contributors are. An example

of one such unique interpretive perspective comes from Linda K. Fuller, whose chapter examines the sexual-political aspects of African AIDS-related films based on her work in West Africa “with a sexologist collating and critiquing appropriate media for Life Skills.” This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis: the collection offers analysis of classic as well as popular literature, popular as well as veiled news media, award-winning as well as obscure television series, and outlaw country music as well as rap music. Because “media” is so broadly interpreted within the collection, readers are encouraged to view mass media as a crucial cultural landscape for meaning making. Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts, or even through analysis of representations in multiple media forms. For example, Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case, Borden’s stepmother. Editor Kyo-Patrick R. Hart’s own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas. Rather than focusing on stereotypical categories of deviance and otherness, the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media. This is evident through Christopher J. Pérez’s ethnographic observation of instant messages from Gay.com participants, which dispels the notion that such online communities allow for positive expressions of gay identity. Through its broad interpretation of media, the collection offers an ample array of less commonly acknowledged media genres, as evident in Margaret Weigel’s class analysis of the electric-bulb advertising sign “spectaculars” in Manhattan from 1892 to 1917; Wendy Korwin’s visual analysis of a set of four image plates used within prescriptive literature; and Amanda Klein’s cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film. Incorporated also are unique perspectives on traditional news media representations, as in Thomas Grochowski’s interpretation of celebrity defendant perspectives of O.J. Simpson. Occasionally, common themes thread particular chapters together, allowing opportunities to understand how critics view the same or similar media differently. For example, David Sealy and Georges-Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ. Additionally, contemporary moral dilemmas and societal issues are covered as they appear in various media representations, as when Barbara Barnett’s discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff’s analysis of the textured view of abortion provided by the film Vera Drake. Hart’s collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social, cultural, historical, and even technological contexts. The issue of the detrimental effects of “shared notions of deviance and social otherness” is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging, graduate-level classroom discussions. Also, because the collection includes literary analysis, it could serve well those with interest in literary criticism." ELESJA RUMINSKI, Ph.D., is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication, film studies, and visual communication.

Beyond Political Correctness - Michael S. Cummings 2001

The reason that the right dominates debates on crime, family values, and economic freedom while the left defends diversionary policies such as affirmative actions and equivocates on ecology and the political empowerment of the young, argues Cummings (political science, U. of Colorado) is that too many progressives have avoided politically sensitive issues, thus condemning themselves to intellectual atrophy and political ineffectiveness. c. Reasons My Kid is Crying - Greg Pembroke 2013-11-07

It all started when busy father Greg Pembroke posted a few pictures online of his three-year-old son, mid-tantrum, alongside the reason his son was crying: He had broken his bit of cheese in half. This book collects together photos sent to Greg from parents around the world, documenting the many, completely logical

reasons why small children cry. ('I let him play on the grass' . . . 'We told him the pig says "oink"' . . . 'The neighbour's dog isn't outside'). Together, they are both a fond portrait of the universal, baffling logic of toddlers - and a reminder for burned-out parents everywhere that they are not alone.

Sex and the City - Candace Bushnell 2013-04-01

"Relationships in New York are about detachment, so how do you get attached when you decide you want to?" "Honey, you leave town." Meet Carrie, Miranda, Sam and their stylish friends. Successful, attractive, thirty-something career women living the high life in New York; blazing a glorious cocktail trail from the Bowery Bar to the Baby Doll Lounge; holidaying in the Hamptons and going to Aspen by Lear Jet. But they have more in common than just their enviable lifestyle; they're all searching for lasting love. Finding it is easier said than done in a town full of gorgeous, single, rich men, none of whom want to settle down. Toxic bachelors and serial daters are a perennial problem - but maybe Mr. Big will be different?

Kiss and Cry - Mina V. Esquerro 2019-03-01

Calinda met Ramirez when she was 20 and he was 22. She was the rising star of women's skating, and he was the superstar forward of men's hockey. Her parents and coach were against their relationship, and because Calinda wanted to prove that no hot guy would ever distract her from her dream, she chose skating over him — and also avoided him all together. Ten years later, they meet again as gold medalists and prominent sports advocates, still single and undeniably attracted to each other. It's still not a good time for them, because Ramirez is retiring from hockey and moving back to the United States. Calinda doesn't do relationships, really, and proposes they use his final three weeks in Manila to explore what might have been, and do all the things they wish they'd done (there's a list!). Then he can leave for good, and they can both move on with their lives without this one regret.

Nobody Cares - Anne T. Donahue 2018-09-18

Witty and painfully honest essays about perfection vs. reality: “Hilarious...[an] incredibly distinctive voice.” —Emma Gannon, bestselling author of Olive From the author of the popular newsletter That's What She

Said, *Nobody Cares* is a candid personal essay collection about work, failure, friendship, and the messy business of being alive in your twenties and thirties. As she shares her hard-won insights from screwing up, growing up, and trying to find her own path, Anne T. Donahue offers all the honesty, laughs, and reassurance of a late-night phone call with your best friend. Whether she's giving a signature pep talk, railing against summer, or describing her own mental health struggles, Anne reminds us that failure is normal, saying no to things is liberating, and we're all a bunch of beautiful disasters—and she wouldn't have it any other way. "Her essays about the less photogenic moments of her life contain their own sort of beauty, the kind that comes from failing and persevering. From breaking down her anxiety disorder to getting in touch with helpful and well-deserved female rage, Donahue is as inspiring as she is droll."

—Vulture "Frank, funny, observations." —Cosmopolitan "I don't know how anyone could read her and not immediately fall in love." —Scaachi Koul, author of *One Day We'll All Be Dead and None of This Will Matter Sassy In The City Box Set* - Erin McCarthy 2022-06-06

In a city of eight million people, finding love should be as easy as hailing a cab, right? Not exactly... This box set includes five full length novels plus one bonus novella as a group of college besties try to rom com their way to happily-ever-after. *Weekend Wife* Billionaire businessman in need of a fake fiancée... It should be the easiest job ever for an out-of-work actress, right? All I have to do is pose as Grant Caldwell (the Third)'s fiancée for a fancy-pants weekend in the Hamptons. Easy. Wear designer clothing and sip champagne? Don't mind if I do. Flirting with Grant? It's so delicious I should be paying him. Nothing can go wrong as long as I can keep my hands off of him. *Five First Dates* *Five First Dates* is a romantic comedy with a tattooed bad boy roommate, a feisty heroine, and an adorable baby. *Forty Day Fiancé* *Forty Day Fiance* is a romantic comedy with a smoking-hot doctor, a fast-talking English heroine, and a surprise pregnancy. *Who's the Boss?* When your enemy becomes your boss, tensions are bound to boil over... And when a *Best Chef* competition pits the two of us against each other, it's either going to be a sizzler--or a recipe for disaster. *Holiday Husband* This is a holiday prequel to *Halftime Husband*, featuring a grumpy boss and a heroine down on her luck. *Halftime Husband* I'm in need of a major life makeover. Or at least a

sexy distraction. Cue the hot guy who has it all together and makes my toes curl in bed. Who then disappears before I wake up. When he reappears five months later as head coach of a pro football team he wants a secret romance (aka a no-one-can-ever-know bangfest) while I'm a nanny for his wild-child daughters. He just might be my one true love... or my biggest mistake yet.

Child Health Assessment: The first year of life - Kathryn E. Barnard 1974

Sex at Dawn - Christopher Ryan 2021-01-05

The 10th-anniversary edition of the book that radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. Shocking, enlightening, and ultimately inspiring, *Sex at Dawn* offers a revolutionary understanding of why we live and love as we do.
