The Magicians Lev Grossman 2009-10-08 Quentin Coldwater is brilliant but miserable. Obsessed with the fantasy novels he read as a child, he finds the real world just doesn't compare. Sex and the City and Us Jennifer Keishin Armstrong 2019-05-07

The bestselling author of *Seinfeldia* offers a fascinating retrospective of the iconic and award-winning television series, *Sex and the City*, in a “bubbly, yet fierce cultural dissection of the groundbreaking show” (Chicago Tribune). This is the story of how a columnist, two gay men, and a writers’ room full of women used their own poignant, hilarious, and humiliating stories to launch a cultural phenomenon. They endured shock, slut-shaming, and a slew of nasty reviews on their way to eventual—if still often begrudging—respect. The show wasn’t perfect, but it revolutionized television for women. When Candace Bushnell began writing for the *New York Observer*, she didn’t think anyone beyond the Upper East Side would care about her adventures among the Hamptons-hopping media elite. But her struggles with singlehood struck a chord. Beverly Hills, 90210 creator Darren Star brought her vision to an even wider audience when he adapted the column for HBO. Carrie, Miranda, Charlotte, and Samantha launched a barrage of trends, forever branded the actresses that took on the roles, redefined women’s relationship to sex and elevated the perception of singlehood. Featuring exclusive new interviews with the cast and writers, including star Sarah Jessica Parker, creator Darren Star, executive producer Michael Patrick King, and author Candace Bushnell, “Jennifer Keishin Armstrong brings readers inside the writers’ room and into the scribes’ lives...The writing is fizzy and funny, but she still manages an in-depth look at a show that’s been analyzed for decades, giving readers a retrospective as enjoyable as a \$20 pink cocktail” (The Washington Post). *Sex and the City and Us* is both a critical and nostalgic behind-the-scenes look at a television series that changed the way women see themselves.

workers, and farmers, the University of Washington's eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys' own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man's personal quest.

Pop City Youjeong Oh 2018-12-15 Pop City examines the use of Korean television dramas and K-pop music to promote urban and rural places in South Korea. Building on the phenomenon of Korean pop culture, Youjeong Oh argues that pop culture-featured place selling mediates two separate domains: political decentralization and the globalization of Korean popular culture. The local election system introduced in the mid 90s has stimulated strong desires among city mayors and county and district governors to develop and promote their areas. Riding on the Korean Wave—the overseas popularity of Korean entertainment, also called Hallyu—Korean cities have actively used K-dramas and K-pop idols in advertisements designed to attract foreign tourists to their regions. Hallyu, meanwhile, has turned the Korean entertainment industry into a speculative field into which numerous players venture by attracting cities as sponsors. By analyzing the process of culture-featured place marketing, Pop City shows that urban spaces are produced and sold just like TV dramas and pop idols by promoting spectacular images rather than substantial physical and cultural qualities. Popular culture-associated urban promotion also uses the emotional engagement of its users in advertising urban space, just as pop culture draws on fans' and audiences' affective commitments to sell its products. Oh demonstrates how the

speculative, image-based, and consumer-exploitive nature of popular culture shapes the commodification of urban space and ultimately argues that pop culture-mediated place promotion entails the domination of urban space by capital in more sophisticated and fetishized ways.

From the private papers of Mark Twain and Mozart to those of Robert Browning and Nelson, Love Letters of Great Men collects together some of the most romantic letters in history. For some of these great men, love is a ‘delicious poison’ (William Congreve); for others, ‘a nice soft wife on a sofa with good fire, & books & music’ (Charles Darwin). Love can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one’s heart like a cooling rain (Flaubert). Every shade of love is here, from the exquisite

eloquence of Oscar Wilde and the simple devotion of Robert Browning, to the wonderfully modern misery of the Roman Pliny the Younger, losing himself in work to forget how much he misses his beloved wife, Calpurnia. Taken together, these Love Letters of Great Men show that perhaps men haven't changed so very much over the last 2,000 years; passion, jealousy, hope and longing are all represented here - as is the simple pleasure of sending a letter to, and receiving one from, the person you love most.

Show Sold Separately Jonathan Gray 2010-01-01 Highlights the trailers, merchandising and cultural conversations that shape our experiences of film and television It is virtually impossible to watch a movie or TV show without preconceived notions because of the hype that precedes them, while a host of media extensions guarantees them a life long past their air dates. An onslaught of information from print media, trailers, internet discussion, merchandising, podcasts, and guerilla marketing, we generally know something about upcoming movies and TV shows well before they are even released or aired. The extras, or “paratexts,” that surround viewing experiences are far from peripheral, shaping our understanding of them and informing our decisions about what to watch or not watch and even how to watch before we even sit down for a show. *Show Sold Separately* gives critical attention to this ubiquitous but often overlooked phenomenon, examining paratexts like DVD bonus materials for *The Lord of the Rings*, spoilers for *Lost*, the opening credits of *The Simpsons*, *Star Wars* actions figures, press reviews for *Friday Night Lights*, the framing of *Batman Begins*, the videogame of *The Thing*, and the trailers for *The Sweet Hereafter*. Plucking these extra materials from the wings and giving them the spotlight they deserve, Jonathan Gray examines the world of film and television that exists before and after the show.
