**Dangerousness, Risk and the Governance of Serious Sexual and Violent Offenders** - Karen Harrison 2012-03-29

*Dangerousness, Risk and the Governance of Serious Sexual and Violent Offenders* is a fully up-to-date, comprehensive and user-friendly guide on those offenders who are often assessed as being dangerous. Outlining, evaluating and commenting on specific methods, regimes and strategies for dealing with dangerous offenders throughout each chapter, this book begins by considering what a dangerous offender is and providing a brief historical account of how the label has been used for different types of offender over the last three or four centuries. The book examines sentencing policy in addition to early and current dangerousness legislation, evaluating the available sentences specifically designed for dangerous offenders and assessing their use and appropriateness. The role of risk and risk assessment tools is discussed, considering what risk assessment is, the way in which it works and how over recent times it has become more reliable and valid. It looks at the practical realities of how serious sexual and violent offenders are dealt with by the penal system in England and Wales. Finally, specific offender groups are considered, including female offenders, children and young people and mentally disordered offenders. Each chapter considers whether there are any differences in terms of policy, assessment and management strategies when sentencing and managing each distinct group; and if not whether any such modifications are required. This book will be key reading for students of law, criminology, social policy, psychology and sociology and of interest to criminal justice professionals including the police, prison officers, probation officers, psychologists, lawyers and judges.

**Managing Privacy through Accountability** - Carla Ilten 2012-08-13

Draws together contributions from leading figures in the field of surveillance to engage in the discussion of the emergence of

accountability as a means to manage threats to privacy. The first of its kind to enrich the debate about accountability and privacy by drawing together perspectives from experienced privacy researchers and policy makers.

**Offending Identities** - Kirsty Hudson 2013-06-17

Based on in-depth interviews with 32 convicted male sex offenders attending three different treatment programmes, this text explores sex offenders' perspectives on the way they are treated and managed.

**Social Work with Sex Offenders** - Malcolm Cowburn 2016

This topical book explores social work practice with people who have sexually offended. It addresses the emotional impacts of 'facing the sex offender', the importance of values and ethics in practice, it reviews popular and academic understandings of sex offenders and sex crimes. It engages with current practice issues, including assessment and interventions, working in an inter-professional context and supporting workers. Written in an accessible style, and integrating practice exercises throughout the book helps readers reflect on theory, practice and developing emotional resilience. It will appeal to students, practitioners, policy makers and academics, in and beyond the discipline of social work.

**International Perspectives on Gender-Based Violence** - Madhumita Pandey

**The Encyclopedia of New York State** - Peter Eisenstadt 2005-05-19

The Encyclopedia of New York State is one of the most complete works on the Empire State to be published in a half-century. In nearly 2,000 pages and 4,000 signed entries, this single volume captures the impressive complexity of New York State as a historic crossroads of people and ideas, as a cradle of abolitionism and feminism, and as an apex of modern urban, suburban, and rural life. The Encyclopedia is packed with fascinating details from fields ranging from sociology and geography to

history. Did you know that Manhattan's Lower East Side was once the most populated neighborhood in the world, but Hamilton County in the Adirondacks is the least densely populated county east of the Mississippi; New York is the only state to border both the Great Lakes and the Atlantic Ocean; the Erie Canal opened New York City to rich farmland upstate . . . and to the west. Entries by experts chronicle New York's varied areas, politics, and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads, weaving the state's diverse regions and peoples into one idea of New York State. Lavishly illustrated with 500 photographs and figures, 120 maps, and 140 tables, the Encyclopedia is key to understanding the state's past, present, and future. It is a crucial reference for students, teachers, historians, and business people, for New Yorkers of all persuasions, and for anyone interested in finding out more about New York State.

**The Oxford Handbook of Sex Offences and Sex Offenders** - Teela Sanders 2017

Provides comprehensive, even-handed analysis of the myriad of topics related to sex offenses, including pornography, sex trafficking, criminal justice responses, and the role of social media in sex crimes. Extending beyond the existing scholarly research on the topic, this volume teases out the key debates, controversies, and challenges involved in addressing sex crimes.

**Rape** - Mithu Sanyal 2019-05-14

From Title IX cases on campus, to #metoo and #timesup, rape is a definitive issue at the heart of feminism, and lately, it's barely out of the news. Cultural critic Mithu Sanyal is picking up where Susan Brownmiller left off in her influential 1975 book *Against Our Will*. In fact, she argues that the way we understand rape hasn't changed since then, even as the world has changed beyond recognition. She contends that it is high time for a new and informed debate about rape, sexual boundaries and consent. Sanyal argues that the way we as a society understand rape tells us not just how we understand sexual violence, but how we understand sex, sexuality, and gender itself. For instance, why is it so hard to imagine men as victims of rape? Why do we expect victims to be irreparably damaged? When we think of rapists, why do we still think of strangers in dark alleys,

rather than uncles, husbands, priests, or boyfriends? The book examines the role of race and the trope of the black rapist, the omission of male victims, and what we mean when we talk about rape culture. She provocatively takes every received opinion we have about rape, and turns it inside out - arguing with liberals, conservatives, feminists and sexists alike.

**Forensic Practice in the Community** - Zoë Ashmore 2014-08-01

Forensic practice in the community is a neglected subject. There are many books looking at forensic work in secure settings, such as prisons or hospitals, but very little has been written about forensic practice in the community. This book describes the current and exciting developments in this area, for both young people and adults, by leaders in their field. It is in the community where interventions with those who have offended are all ultimately tested. Bringing together a range of experts from both the practitioner and academic community, this book covers: •multisystemic therapy for families, •sexual and violent offending, •learning disabilities, •substance misuse, •risk assessment, prediction and management, •personality disordered offenders •resettlement following custody, •desistance of criminal behaviour, •community interventions. Beginning with an overview of forensic practice in the community, the book addresses policy, practice and ethical issues, focusing on the specific dilemmas facing practitioners and providing an analysis of international perspectives. It describes how to meet the challenge of significantly diverting and reducing the prison population through more effective community intervention with adults and young people and also makes suggestions for the future. This book offers a range of recent case studies, has descriptions of new areas of community practice by those working or studying in that area and covers cutting-edge developments in practice and policy. It will be of interest to academics, practitioners and students in forensic psychology, as well as social workers, probation officers, youth offending officers, police officers, criminal justice agencies and mental health professionals.

*The Resettlement of Sex Offenders after Custody* - David Thompson 2017-07-14

Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services.

Introduction to Criminal Justice - Bradley D. Edwards 2019-01-31

Introduction to Criminal Justice, Ninth Edition, offers a student-friendly description of the criminal justice process—outlining the decisions, practices, people, and issues involved. It provides a solid introduction to the mechanisms of the criminal justice system, with balanced coverage of the issues presented by each facet of the process, including a thorough review of practices and controversies in law enforcement, the criminal courts, and corrections. In this revision, Edwards gives fresh sources of data, with over 600 citations of new research results. New sections include immigration policy, disparities in the justice system, Compstat and problem-oriented policing, victim services in the courts, and developments in drug policy. This edition also has expanded coverage of police use of force. Each chapter now includes a text box on a policy dilemma like cash bail or stop-and-frisk policies. Appropriate for all U.S. Criminal Justice programs, this text offers great value for students and instructors.

**The Texas Supreme Court** - James L. Haley  
2013-02-15

"Few people realize that in the area of law, Texas began its American journey far ahead of most of the rest of the country, far more enlightened on such subjects as women's rights and the protection of debtors." Thus James Haley begins this highly readable account of the Texas Supreme Court. The first book-length history of the Court published since 1917, it tells the story of the Texas Supreme Court from its origins in the Republic of Texas to the political and philosophical upheavals of the mid-1980s. Using a lively narrative style rather than a legalistic approach, Haley describes the twists and turns of an evolving judiciary both empowered and constrained by its dual ties to Spanish civil law and English common law. He focuses on the personalities and judicial philosophies of those who served on the Supreme Court, as well as on the interplay between the Court's rulings and the state's unique history in such areas as slavery, women's rights, land and water rights, the rise of the railroad and oil and gas industries, Prohibition, civil rights, and consumer protection. The book is illustrated with more than fifty historical photos, many from the nineteenth and early twentieth centuries. It concludes with a detailed chronology of milestones in the Supreme Court's history and a list, with appointment and election dates, of the more than 150 justices who have served on the Court since 1836.

**California Supreme Court Service** - 2003

*Foundations for Youth Justice* - Anne Robinson  
2014-02-01

How can youth justice refocus its attention on the rights and perspectives of young people in transition? Foundations for Youth Justice outlines youth justice practices in their current state of flux in the United Kingdom as New Labour policies receive direction under the vastly different Coalition Government. Anne Robinson explores opportunities for a fresh orientation that places young people at the center. She outlines the risks and problems that modern society creates for them and asks when, and how, society should respond to youth behaviors that cause harm to others. The result is a bold—and realistic—remodelling of youth

justice practices.

**Parliamentary Debates (Hansard).** - Great Britain. Parliament. House of Commons 2010

**Handbook of Probation** - Loraine Gelsthorpe 2013-05-13

This Handbook is an essential text for anybody working in probation, studying the subject as part of wider criminology or criminal justice course. It provides a comprehensive, authoritative and up-to-date source of information and analysis about all aspects of the work of the Probation Service.

**The Sex Offender Register** - Terry Thomas 2021-04-12

The Sex Offender Register examines the origins, history, structure and legalities of the UK sex offender register, and explores how political and public opinion has influenced the direction the policy of registration has taken. Delving into the origins of the UK sex offender register and how the registration policy has evolved, this book provides an understanding of the register and its contribution to public protection while attempting to see the register as a policy that has grown and developed and as having an organic life of its own. The sex offender register is designed as a form of public protection rather than a punishment, requiring offenders to notify the police of their circumstances and to accept a degree of offender management from the police. The book:

- puts the development of the register in its political, social and ethical context
- considers the position of children and young people as offenders
- outlines the movement of registered offenders across international borders
- analyses how offenders can be removed from the register
- explores how other countries in the UK manage sex offenders through registers
- asks questions about the efficacy of the register and what contribution it makes to public protection
- looks at specific aspects of registration including the management of information
- delves into the experience of life on the register
- examines the influence of public opinion
- discusses the role of the police as custodians of the register and as offender managers. Exploring the different pressures brought to bear on the register, this book provides an authoritative starting point for police officers, social workers, probation

officers, magistrates, students of Criminology, Criminal Justice and Policing, and the general reader wanting to understand where the UK sex offender register originated from and how it operates today.

**The Resettlement of Sex Offenders After Custody** - David Thompson 2019-02-04

Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services. The research was commissioned by Circles UK and funded by the Wates Foundation and the University of Leeds, School of Law. es of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services. The research was commissioned by Circles UK and funded by the Wates Foundation and the University of Leeds, School of Law.

**Sex Offender Registry, State of Indiana** - Indiana Criminal Justice Institute 1995

**Contemporary Sex Offender Risk Management, Volume II** - Hazel Kemshall

Downloaded from  
[legacy.opendemocracy.net](http://legacy.opendemocracy.net) on 2023-04-26  
by guest

2017-11-25

This book, the second of two volumes edited by Kemshall and McCartan, focuses on responses to sexual offending, and how risk is used by policy makers, stakeholders, academics and practitioners to both construct and respond to unknown and known sex offenders within the contexts of criminal justice, health and social policy. The chapters provide an oversight of contemporary policies, practices and debates within the area to help both professionals and researchers. The collection focuses on emerging areas (crime linkage, predictive policing, sexual

offending across borders, desistance, and public health approaches), as well as more traditional topics (multi-agency working, risk assessment, sex offender policies, and treatment). The authors examine how professionals can use multi-agency approaches to prevent sexual violence, and assessing the impact of desistance on framing sex offender management. A bold and engaging volume, this edited collection will be of great importance to scholars and practitioners working reframing traditional approaches to sex offender management in a contemporary fashion.
