Impeachment - Charles L. Black, Jr. 1998-01-01

A guide to presidential impeachment outlines the process, defines the phrase "high Crimes and Misdemeanors," explains the relationship between crimes and impeachable offenses, and lists the most relevant Constitutional provisions

The Oxford Handbook of the Canadian Constitution - Peter Crawford Oliver 2017

The Oxford Handbook of the Canadian Constitution provides an ideal first stop for Canadians and non-Canadians seeking a clear, concise, and authoritative account of Canadian constitutional law. The Handbook is divided into six parts: Constitutional History, Institutions and Constitutional Change, Aboriginal Peoples and the Canadian Constitution, Federalism, Rights and Freedoms, and Constitutional Theory. Readers of this Handbook will discover some of the distinctive features of the Canadian constitution: for example, the importance of Indigenous peoples and legal systems, the long-standing presence of a French-speaking population, French civil law and Quebec, the British constitutional heritage, the choice of federalism, as well as the newer features, most notably the Canadian Charter of Rights and Freedoms, Section Thirty-Five regarding Aboriginal rights and treaties, and the procedures for constitutional amendment. The Handbook provides a remarkable resource for comparativists at a time when the Canadian constitution is a frequent topic of constitutional commentary. The Handbook offers a vital account of constitutional challenges and opportunities at the time of the 150th anniversary of Confederation.

Pluralist Constitutions in Southeast Asia - Jaclyn L Neo 2019-04-04

This book examines the presence of ethnic, religious, political, and ideational pluralities in Southeast Asian societies and how their respective constitutions respond to these pluralities. Countries covered in this book are Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Vietnam. The chapters examine: first, the range of pluralist constitutional values and ideas embodied in the constitutions; secondly, the pluralist sources of constitutional norms; thirdly, the design of constitutional structures responding to various pluralities; and fourthly, the construction and interpretation of bills of rights in response to existing pluralities. The 'pluralist constitution' is thus one that recognises internal pluralities within society and makes arrangements to accommodate, rather than eliminate, these pluralities. *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* - New York Public Library. Research Libraries 1979

Traditions and Transformations - Michaela Hailbronner 2015

German constitutionalism has gained a central place in the global comparative debate, but what underpins it remains imperfectly understood. Its distinctive understanding of the rule of law and the widespread support for its powerful Constitutional Court are typically explained in one of two ways: either as a story of change in a reaction to National Socialism or as the continuation of an older nineteenth-century line of constitutional thought that emphasizes the function of constitutional law as a constraint on state power. But while both narratives account for some important features, their explanatory value is ultimately overrated. This book adopts a broader comparative perspective to understand the rise of the German Constitutional Court. It interprets the particular features of German constitutional jurisprudence and the Court's strength as a reconciliation of two different legal paradigms: first, a hierarchical legal culture as described by Mirjan Damaska, building on Max Weber, as opposed to a more co-coordinated understanding of legal authority such as prevails in the United States and secondly, a more recent paradigm of transformative constitutionalism, which is most often associated with countries like South Africa and India. Using post-war legal history and sociological and empirical research in addition to case law, this book demonstrates how German developments reflect the frequently conflicting demands of these two legal paradigms - yielding an idiosyncratic synthesis in Value Formalism, a specific type of constitutional reasoning, at once pragmatic, open, formalist, and technical. Value Formalism however, also comes with serious problems, such as a lack of self-reflection in the Court's jurisprudence and the closure of constitutional discourse towards laymen.

Reforming the Presidential Nomination Process - Steven S. Smith 2009-11-01

The 2008 U.S. presidential campaign has provided a lifetime's worth of surprises. Once again, however, the nomination process highlighted the importance of organization, political prowess, timing, and money. And once again, it raised many hackles. The Democratic contest in particular generated many complaints—for example, it started too early, it was too long, and Super Tuesday was overloaded. This timely book synthesizes new analysis by premier political scientists into a cohesive look at the presidential nomination process—the ways in which it is broken and how it might be fixed. The contributors to *Reforming the Presidential Nomination Process* address different facets of the selection process, starting with a brief history of how we got to this point. They analyze the importance—and perceived unfairness—of the earliest primaries and discuss what led to record turnouts in 2008. What roles do media coverage and public endorsements play? William Mayer explains the "superdelegate" phenomenon and the controversy surrounding it; James Gibson and Melanie Springer evaluate public perceptions of the current process as well as possible reforms. Larry Sabato (*A More Perfect Constitution*) calls for a new nomination system, installed via constitutional amendment, while Tom Mann of Brookings opines on calls for reform that arose in 2008 and Daniel Lowenstein examines the process by which reforms may be adopted—or blocked.

Constitutional Remedies in Asia - Po Jen Yap 2019-03-07

Many jurisdictions in Asia have vested their courts with the power of constitutional review. Traditionally, these courts would invalidate an impugned law to the extent of its inconsistency with the constitution. In common law systems, such an invalidation operates immediately and retrospectively; and courts in both common law and civil law systems would leave it to the legislature to introduce corrective legislation. In practice, however, both common law and civil law courts in Asia have devised novel constitutional

remedies, often in the absence of explicit constitutional or statutory authorisation. Examining cases from Hong Kong, Bangladesh, Indonesia, India, and the Philippines, this collection of essays examines four novel constitutional remedies which have been judicially adopted - Prospective Invalidation, Suspension Order, Remedial Interpretation, and Judicial Directive - that blurs the distinction between adjudication and legislation.

Constitutional Law - Geoffrey R. Stone 2023-02-16

Constitutional Law, Ninth Edition by Geoffrey R. Stone, Louis M. Seidman, Cass R. Sunstein, Mark V. Tushnet, Pamela S. Karlan, Aziz Z. Huq, and Leah M. Litman guides students through all facets of constitutional law, exploring traditional constitutional doctrine through the lens of varying critical and social perspectives informed by political theory, philosophy, sociology, ethics, history, and economics. Buy a new version of this textbook and receive access to the Connected eBook with Study Center on CasebookConnect, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. Connected eBooks provide what you need most to be successful in your law school classes. Constitutional Law, Ninth Edition takes a comprehensive approach to the way in which constitutional law arises. It offers instructors carefully edited cases and rich, interdisciplinary material for classroom discussion. Logically organized for a two-semester course, the first part of Constitutional Law tackles issues concerning separation of powers and federalism; the second part addresses all facets of individual rights and liberties. Constitutional Law, Ninth Edition, also provides thoughtfully selected content on the First Amendment, to give students a well-rounded understanding of religion and free speech issues. New to the Ninth Edition: Extensively revised treatment of the Religion Clauses. Revamped material on abortion rights given *Dobbs v. Jackson Women's Health Organization*. More focused and tightened presentation of judicial review, federalism, and other areas. Professors and students will benefit from: The text's attention to policy, including discussion of competing critical and social perspectives. An interdisciplinary approach that draws on political theory, philosophy, sociology, ethics, history, and economics. Thoughtful editing, including both lightly and more tightly edited cases, that balances close textual analysis with comprehensive converge of important opinions and pivotal cases. Streamlined treatment of First Amendment law, so that it efficiently

provides the necessary fundamentals in free speech and religious liberties jurisprudence. A comprehensive coverage that is ideal for a two-semester course.

Foreign Relations Law - Curtis A. Bradley 2020-02-02

The purchase of this ebook edition does not entitle you to receive access to the Connected eBook on CasebookConnect. You will need to purchase a new print book to get access to the full experience including: lifetime access to the online ebook with highlight, annotation, and search capabilities, plus an outline tool and other helpful resources. A leading casebook on foreign relations law, authored by widely cited scholars who also have pertinent government experience, *Foreign Relations Law: Cases and Materials, Seventh Edition*, examines the law that regulates how the United States interacts with other nations and with international institutions, and how it applies international law within its legal system. The book offers a compelling mix of cases, statutes, and executive branch materials, as well as extensive notes and questions and discussion of relevant historical background. New to the Seventh Edition: Addition of a third author, Ashley Deeks, a scholar with government experience as well as significant expertise in national security law, the laws of war, and intelligence gathering New excerpt of and extensive notes on the Supreme Court's 2018 "travel ban" decision, *Trump v. Hawaii* Coverage of the Supreme Court's 2018 Alien Tort Statute decision, *Jesner v. Arab Bank* Extensive discussion of recent treaty terminations by the Trump administration Discussion of the ongoing litigation concerning "sanctuary jurisdictions" in some states and localities Notes and questions on recent war powers developments, including on the use of force against the Islamic State and in Syria Updated notes and questions throughout the book to take account of recent cases, statutes, executive branch actions, and scholarship Professors and students will benefit from: Clear and logical progression of the materials, starting with the powers of government institutions and then proceeding to specific substantive topics Coverage of both cutting-edge legal developments and relevant historical background Integration of leading scholarship into the notes and questions rather than in long excerpts of secondary materials Balanced presentation of controversial topics, with probing questions to consider in class discussions Combination of theoretical analysis with practical insights from real-world examples
