The Politicization of Safety Jane K. Stoeber 2019-02-26 A look at gun control, campus sexual assault, immigration, and more that considers the future of responses to domestic violence. Domestic violence is commonly assumed to be a bipartisan, nonpolitical issue, with politicians of all stripes claiming to work to end family violence. Nevertheless, the Violence Against Women Act expired for over 500 days between 2012 and 2013 due to differences between the U.S. Senate and House, demonstrating that legal protections for domestic abuse survivors are both highly political and highly vulnerable. Racial and gender politics, the move toward criminalization, reproductive justice concerns, gun control debates, and political interests are increasingly shaping responses to domestic violence, demonstrating the need for greater consideration of the interplay of politics, domestic violence, and how the law works in people's lives. *The Politicization of Safety* provides a critical historical perspective on domestic violence responses in the United States. It grapples with the ways in which child welfare systems and civil and criminal justice responses intersect, and considers the different, overlapping ways in which survivors of domestic abuse are forced to cope with institutionalized discrimination based on race, gender, sexual orientation, and immigration status. The book also examines movement politics and the feminist movement with respect to domestic violence policies. The tensions discussed in this book, similar to those involved in the #metoo movement, include questions of accountability, reckoning, redemption, healing, and forgiveness. What is the future of feminism and the movements against gender-based violence and domestic violence? Readers are invited to question assumptions about how society and the legal system respond to intimate partner violence and to challenge the domestic violence field to move beyond old paradigms and contend with larger justice issues.

Restorative Justice for Domestic Violence Victims Marilyn Fernandez 2010-06-02 Using both qualitative and quantitative data and methodologies, *Restorative Justice for Domestic Violence Victims* illuminates the complex nature of intimate partner violence and of its victims' lives. Religion and Men's Violence Against Women Andy J. Johnson 2015-04-14 This reference offers the nuanced understanding and practical guidance needed to address domestic violence, sexual assault, and human trafficking in diverse religious communities. Introductory chapters sort through the complexities, from abusers' distorting of sacred texts to justifying their actions to survivors' conflicting feelings toward their faith. The Future of African Customary Law Jeanmarie Fenrich 2011-07-18 Customary laws and traditional institutions in Africa constitute comprehensive legal systems that regulate the entire spectrum of activities from birth to death. Once the sole source of law, customary rules now exist in the context of pluralist legal systems with competing bodies of domestic constitutional law, statutory law, common law and international human rights treaties. This book promotes discussion and understanding of customary law and explores its continued relevance in sub-Saharan Africa. The volume considers the characteristics of customary law and efforts to ascertain and codify customary law, and how this body of law differs in content, form and status from legislation and common law. It also addresses a number of substantive areas of customary law including the role and power of traditional authorities; customary criminal law; customary land tenure, property rights and intestate succession; and the relationship

between customary law, human rights and gender equality.

It includes chapters on working with women with additional vulnerabilities, working with perpetrators, impacts on physical and mental health, child protection issues, assessment and intervention strategies, and long-term approaches. *Social Work and Intimate Partner Violence* is an up-to-date book bringing together all the most important information in the area for social workers, and is essential reading for all students and newly qualified professionals.

Building Financial Empowerment for Survivors of Domestic Violence Judy L. Postmus 2023-02-10 Each year, millions of women throughout the world experience violence and abuse at the hands of their intimate partner. Abusers coercively control them by using a variety of tactics ranging from physical or sexual violence to emotional or psychological abuse. An additional tactic often used includes financial abuse in which the abuser controls the money in the family, exploits the victim's financial standing, and interrupts her efforts to be self-sufficient. The impact of financial abuse can leave women financially trapped in the relationship with limited financial management skills, knowledge, or self-confidence. Indeed, survivors often mention financial barriers as a top reason for keeping them trapped by the abuser in the relationship. Curiously, little of the research on domestic violence has sought to either fully understand the impact of financial abuse or to determine which intervention strategies are most effective for the financial empowerment of survivors. *Building Financial Empowerment for Survivors of Domestic Violence* aims to address this critical knowledge gap by providing those who work with survivors of domestic violence with practical knowledge on how to empower the financial well-being and stability of survivors. Specifically, every practitioner, human service provider, criminal justice practitioner, financial manager, and corporate supervisor should be screening the women they encounter for economic abuse, and when such abuse is found, they should work with the women toward developing financial safety plans and refer survivors to financial empowerment programs to assist survivors to become free from abuse.

How Survivors of Abuse Relate to God Susan Shooter 2016-04-29 Grappling with theological issues raised by abuse, this book argues that the Church should be challenged, and ministered to, by survivors. Paying careful attention to her interviews with Christian women survivors, Shooter finds that through painful experiences of transformation they have surprisingly become potential agents of transformation for others. Shooter brings the survivors' narratives into dialogue with the story of Job and with medieval mystic Marguerite Porete's spirituality of 'annihilation'. Culminating in an engagement with contemporary feminist theology concerning power and powerlessness, there emerges a set of principles for authentic community spirituality which crosses boundaries with God, supports appropriate human boundaries and, crucially, listens attentively. Appealing to Church leaders, students, practitioners and practical theologians, this book offers a creative and ethical theological enquiry as well as some spiritual anchor points for survivors.

Empowering and Healing the Battered Woman Mary Ann Dutton, PhD 1992-08-15 The book spells out in practical, concrete terms what it really means to place the pathology outside the battered woman. The novelty in this approach lies in the implications for practice: battered women are not 'sick' - they are in a 'sick' situation. 'Practical and comprehensive, an excellent guide for clinicians and other interveners'. Mary Ann Dutton's book, *Empowering and Healing the Battered Woman*, integrates psychological theory with detailed information on the real-life dimensions of abused women's posttraumatic responses and the strategies for assessment that form a part of each chapter are particularly valuable. Dutton's approach of understanding women's experiences of violence in context and of empowering abused women will also serve to empower and free those providing services to women victims of partner violence. - Angela Browne, PhD, University of Massachusetts Medical School (Author, *When Battered Women Kill*) Drawing upon her vast clinical, academic, and forensic background, Mary Ann Dutton shows us that women experience abuse in many different ways and employ a wide range of techniques to survive the abuse. She then offers numerous suggestions for working with battered women, all predicted on ethical, feminist principles. Although geared toward clinicians, this book is a great resource for battered women's advocate, law enforcement officials, and attorneys - for anyone who comes into contact with battered women. - Sue Osthoff, Director, National Clearinghouse for the Defense of Battered Women Finally, a book on battered women that shelter workers can recommend to traditionally trained therapists. Dutton provides a conceptual framework for understanding the differing needs of battered women: support, advocacy, and healing. Not all battered women are the same. Dutton details both the assessment processes and therapeutic approaches that acknowledge those differences. - Anne L. Ganley, PhD, Domestic Violence Program, Seattle V.A. Medical Center

- Women's Empowerment for Sustainability in Africa** Robert Dibley 2019-01-17 This book uses an open, explorative approach to deal with the different aspects of gender discrimination and gender empowerment policies, as well as their impact on economic development and capacity-building in several African countries. It uses primary and secondary data to present the argument that, without the full input of women, sustainable development will not be achieved in many African countries. This book is the first text written by knowledgeable gender issue experts that understand the culture of, and lived and conducted research in, Africa. It provides many examples of the relationships between gender and economic development around the African continent, highlighting different processes and practices. As such, the contributors here illustrate the impact of weak gender policies, and the ability to adequately develop female capacity building that could lead to wide-spread sustainable economic growth in Africa. They also explore a wide range of new dimensions and variables that are commonly ignored by other text books on gender equality. The book will help graduate, undergraduate students and other readers to understand women's policies in the past, present, and future by analysing and illustrating cultural, political and socio-historical contexts which have shaped women's role in the economic and sustainable development of Africa.

Furthermore, the book incorporates recent empirical studies, thereby endowing readers with valuable insights into the specific challenges encountered in the region. By contributing to current research on gender-based violence in Europe, this publication is an invaluable resource for researchers, students, policymakers, and general readers interested in gender-based violence and the fight against it in the Central and Eastern European region.
- Sharing Our Stories of Survival** Sarah Deer 2008 A general introduction to the social and legal issues involved in acts of violence against Native women, this book's contributors are lawyers, social workers, social scientists, writers, poets, and victims. In the U.S. Native women are more likely than women from any other group to suffer violence, from rape and battery to more subtle forms of abuse, and Sharing Our Stories of Survival explores the causes and consequences of such behavior. The stories and case-studies presented here are often painful and raw, and the statistics are overwhelmingly grim; but a countervailing theme also runs through this extremely informative volume: Many of the women who appear in these pages are survivors, often strengthened by their travails, and the violence examined here is human violence, meaning that it can be changed, if only with much effort and education. The first step is to lay out the truth for all to see, and that is the purpose accomplished by this book.

The Heart of Intimate Abuse Linda G. Mills, PhD, LCSW, JD 1998-08-31 This startling analysis of violence within intimate relationships contends that every abusive relationship has, paradoxically, a heart of its own. Practitioners must acknowledge and engage this dynamic emotional center in order for interventions to succeed. The Heart of Intimate Abuse takes a broad, critical view of standard responses to abuse by today's criminal justice, social work, and medical systems--especially those that respond to violence with coercive interventions such as mandatory arrest, prosecution, and reporting laws. Here is a bold vision of the core dynamics of abuse in families--a vision that professionals can use to realize new policies and implement effective interventions that reach the heart of intimate abuse.

The Development of a Family Domestic Violence Program to Enhance Effectiveness in Standardized Domestic Violence Treatment Renae DellaCroce 2018-01-12 Domestic violence starts with a pattern of behavior that is not against the law, but it becomes damaging to individuals and destroys families. Many believe the social myths that domestic violence victims should divorce offenders, therapy for the offenders is punishment, victims who are ordered into therapy are re-victimized, and children do not need therapy. Most treatment for domestic violence is given only to offenders and neglects the victims and children involved. As a licensed therapist and counselor, Dr. DellaCroce believes family domestic violence treatment is the best approach to ending the cycle of maltreatment and abuse found in families today. In The Development of a Family Domestic Violence Program to Enhance Effectiveness in Standardized Domestic Violence Treatment, she presents thorough research and observations on domestic violence to help others create and implement practical treatment programs.
