

# Taoist Sexual Meditation Connecting Energy

**Taoist Yoga and Sexual Energy** - Eric Steven Yudelove 2000

In 100 Days to Better Health, Good Sex & Long Life, Eric Yudelove provided the foundation course in Taoist practice. Now he takes you to the next level, referred to as "Beginning Internal Alchemy." Gather the energies from the five major internal organs, harmonize them, and change them from negative to positive. It's a process of refining yourself so you can absorb energy from nature and the cosmos, thus becoming a universe in miniature.

**The Healing Energy of Shared Consciousness** - Mantak Chia 2011-02-23

How to connect with universal energy for inner peace, happiness, and individual and global

healing • How to transform the energy around us into positive loving energy • How to perform the World Link meditation to unite with global consciousness • How to fuse the observing mind, the conscious mind, and the mind of awareness  
Western science now recognizes the three "minds" associated with the three tan tiens of Taoism: the observing mind centered in the brain, the conscious mind centered in the heart, and the mind of awareness centered in the lower abdomen. By unifying the three minds--what in Chinese is called Yi--we can transform the energy around us into positive loving energy and be empowered to manifest our goals and dreams. This can lead to a more balanced, less negative way of life and offers a way to gain

inner peace, wholeness, and happiness as well as the ability to heal yourself and others. In *The Healing Energy of Shared Consciousness*, Master Mantak Chia shows how to fuse the three minds and form the Protective Sacred Circle of Fire, which creates a seal around us allowing in only good energy and intentions. He explains step-by-step how to perform the World Link meditation to connect with global and universal energy for inner peace, happiness, and healing. Accessible even for those who have never worked with the Universal Healing Tao, this practice offers a way to unite people all over the world in a form of shared consciousness that amplifies collective loving energy to benefit the world.

sensitive, intuitive, and creative--rather than the masculine approach that focuses on strength, endurance, and control. In this comprehensive guide to Taoist tantric arts for women, author Minke de Vos reveals how to channel natural sexual energy to evolve the Divine within and heal deep-rooted negative emotions and traumas related to sexuality. She explores techniques from the Universal Healing Tao system, such as the Inner Smile and Ovarian Breathing, to cleanse the uterus of negative emotions and fill your creative center with compassionate vibrations. She offers sexual energy practices to prevent chronic conditions like cancer, depression, and osteoporosis and heal issues related to PMS, menopause, and libido. She explains how to experience the three different kinds of female orgasm and provides detailed, illustrated instructions for exercises such as breast self-massage for emotional transformation and jade-egg yoni yoga to strengthen the pelvic floor and stimulate inner

pleasure and utilize the abundance of reproductive power that is otherwise wasted in non-procreative sex. Combining the study of sex with traditional Chinese medicine, these practices stimulate and sustain sexual desire through the meridians and pressure points and enhance relationships by harmonizing male (yang) and female (yin) energies. Using easy-to-follow illustrations, Taoist Foreplay guides lovers through simple acupressure massage routines connecting all the points and channels that increase pleasure and spark arousal. It shows how to prolong peak moments, maintain sexual health through prostate massage and jade egg exercises, and sustain the intensity of first love through all the seasons of a maturing relationship. It also explains how to reveal and overcome incompatibility with the Taoist Zodiac. From foreplay to climax, these practices offer a way to keep the flame of sexual energy alive.

**Cosmic Fusion** - Mantak Chia 2007-08-27  
A guide to the advanced practice of Inner

Alchemy, which brings the physical body into balance with the energy body • Presents the second level of Inner Alchemy practices that use the eight forces of the pakua (bagwa) to collect, gather, and condense chi in the body • Explains how to balance negative emotional energy with positive energy to detoxify, nourish, and integrate the physical and the energy body with the forces of nature • Shows how to collect and channel the greater energies of the stars and planets to create unity between what is above and below Cosmic Fusion is an advanced level of Inner Alchemy that teaches how to bring the physical body into balance with the energy body- a necessary prerequisite for the formation of the universal body, the pearl of compassion that is one with Original Creation and the Universal Tao. Cosmic Fusion works with the expression of the eight pakua (bagwa) of Chinese cosmology, through which all creation is divided and given form, nature, and definition. Cosmic Fusion exercises establish the spiritual body firmly in

the lower abdomen, where chi energy is gathered and distributed to all parts of the body--and into all creation. The fully illustrated exercises in this book also show how to collect and channel the greater energies of the stars and planets. By “fusing” all these different energies together, a harmonious whole is created, a unity of what is above and below. As heavenly and earthly forces are brought into balance, the life perfectly suited to the practitioner manifests, allowing the spirit body to prepare to move into worlds beyond--and back.

Healing Love through the Tao - Mantak Chia  
2005-07-15

A new edition of the bestseller • The first book to reveal in the West the Taoist techniques that enable women to cultivate and enhance their sexual energy • Reveals Taoist secrets for shortening menstruation, reducing cramps, and compressing more chi into the ovaries for greater sexual power • Teaches the practice of

total body orgasm For thousands of years the sexual principles and techniques presented here were taught by Taoist masters in secret only to a small number of people (sworn to silence), in the royal courts and esoteric circles of China. This is the first book to make this ancient knowledge available to the West. The foundation of healing love is the cultivation, transformation, and circulation of sexual energy, known as jing. Jing energy is creative, generative energy that is vital for the development of chi (vital life-force energy) and shen (spiritual energy), which enables higher practices of spiritual development. Jing is produced in the sexual organs, and it is energy women lose continually through menstruation and child bearing. Mantak Chia teaches powerful techniques developed by Taoist masters for the conservation of jing and how it is used to revitalize women's physical, mental, and spiritual well-being. Among the many benefits conferred by these practices are a reduction in the discomfort caused by

menstruation and the ability to attain full-body orgasm.

**The Alchemy of Sexual Energy** - Mantak Chia 2009-12-23

Taoist techniques for replenishing our internal energy with universal cosmic energy • Shows how to transform excess sexual energy (Ching Chi) into self-healing energy • Presents advanced Cosmic Healing Chi Kung practices, which gather the limitless resources of Cosmic Chi for healing • Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body's internal energy, but we must learn how to harness excess sexual energy and transform it into chi, or life-force energy. When we circulate the sexual energy in the Microcosmic Orbit--a continuous energy loop that runs up the spine and down the front of the body--we transform it into self-

healing energy that can be stored in the organs and the three tan tiens: energy centers in the brain, the heart center, and the lower abdomen. The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao. The more we open the flow of our internal energy the more capable we are of connecting to the cosmic energy that exists outside ourselves in the universe. By learning to open the three tan tiens to the six directions, the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body. This energy, too, can be stored in the three tan tiens and used as needed for healing. When we learn to flow in this way with the energy of the Tao, life ceases to be a struggle.

darkness that stimulate the release of DMT by the pineal gland • Shows how to transform sexual energy into life-force energy to feed the soul body The Lesser Enlightenment of Kan and Li practice combines the compassion of the heart energies (yang/fire) with sexual energies originating in the kidneys (yin/water) to form and feed the soul or energy body. Practice of the Chinese formula Siaow Kan Li (yin and yang mixed) uses darkness technology to literally “steam” the sexual energy (jing) into life-force energy (chi) by re-versing the location of yin and yang power. This inversion places the heat of the bodily fire from the heart center beneath the coolness of the bodily water of the sexual energy of the perineum, thereby activating the liberation of transformed sexual energy. Darkness technology has been a key element of Taoist practice--and of all Inner Alchemy traditions--throughout the ages. A total darkness environment stimulates the pineal gland to release DMT into the brain. The darkness

actualizes successively higher states of consciousness, correlating with the accumulation of psychedelic chemicals in the brain. In the darkness, mind and soul begin to wander freely in the vast realms of psychic and spiritual experience. Death is no longer to be feared because life beyond the physical body is known through direct experience. The birth of the soul is not a metaphor. It is an actual process of converting energy into a subtle body. Developing the soul body is the preparation for the growth of the immortal spirit body in the practice of the Greater Enlightenment of Kan and Li.

emotional and spiritual development • Shows step-by-step how to remove negative emotions from the organs in which they are lodged by neutralizing and transforming the negativity back into positive energy • Includes basic and advanced-level meditations Fusion of the Five Elements is the necessary first step in the Taoist practice of Inner Alchemy, in which one learns to control the generation and flow of emotional, mental, and physical energies within the body. It is a series of meditations designed to locate and dissolve negative energies trapped inside the body by making a connection between the five outer senses (experienced through the ears, eyes, nose, mouth, and tongue) and the five major negative emotions (anger, hate, worry, sadness, and fear). When the body is cleared of negative energy, universal chi energy flows freely and productively, nourishing both body and soul. The practice is divided into two parts. The first works with controlling the forces of the five elements on the five major organs of the

body by learning the elements' effects upon each other and how to balance and utilize these energies properly. The advanced Fusion exercises then show how to channel the greater energies of the stars and planets to strengthen internal weaknesses and crystallize positive energy. By "fusing" all the different kinds of energy together, a harmonious whole is created--the key to manifesting an Immortal existence.

Elements and Cosmic Fusion practices and is the final step in preparation for the Practice of the Immortal Tao. Master Mantak Chia shows how to open the Great Bridge Channel and the Great Regulator Channel--the last of the eight psychic channels that connect the twelve organ meridians and enable energy to flow from one meridian to another. By opening these psychic channels in conjunction with the Microcosmic Orbit, practitioners can balance and regulate the energy flow throughout the body to protect all the body's centers. Master Chia also illustrates the Spinal Cord Microcosmic Orbit practice, which strengthens and wraps the spinal cord with energy, and the practice of Sealing the Aura, which creates a thicker aura to protect the body and facilitate the reception of higher frequencies of the Universal Force. Mastery of the practices in this book enables the creation of the energy body needed to receive the larger Universal Force vibrations accessible through the Practice of the Immortal Tao.

Wisdom Chi Kung - Mantak Chia 2008-06-24  
Taoist meditation practices for increasing and maintaining mental awareness, memory, and clarity • Details techniques to increase the level of chi energy in the brain • Explains how to synchronize the left and right brain by activating the body's energetic potentials • Shows that by emptying the mind there is more energy to heal the body  
Wisdom Chi Kung teaches practitioners how to revitalize the brain: to repair function, increase memory, and expand capacity. Every day we use up so much of our brain's capacity to function that we have very little left at the end of the day. By thinking or worrying too much, the brain can use up to 80 percent of the body's entire energy reserve. Learning to stop the brain, to empty the mind from the ceaseless chatter of the "monkey mind," and then recharge it with chi energy can increase our mental capacity, focus, and clarity. Using the Inner Smile meditation technique, practitioners learn how to recharge chi energy for the brain in

a form that is most useful. Practitioners smile and empty the mind into the lower tan tien and the organs. The organs then transform this chi energy. When the mind is empty, the energy transformed by the organs is sent back to the brain to revitalize it. This process synchronizes the left and right brain by activating and tapping in to the body's energetic potentials. As the mind continues to empty, receive, and also enhance the transformed chi energy, it is able to open itself to connect with universal chi energies and fill the body with enhanced life force.

Self to achieve enlightenment and immortality • Explains how to circulate the life force, or chi, by balancing yang (male) and yin (female) currents of bioenergy • Includes an overview of the complete Taoist body/mind/spirit system along with newly refined methods of activating the life force • The sequel to the classic *Awaken Healing Energy Through the Tao* In 1983, Mantak Chia introduced the "Microcosmic Orbit" to the West. Prior to that time, most of the Eastern energy practices transmitted to the West were incomplete, dealing only with the ascending yang/masculine channel, which shoots life-force energy up the spine. The Microcosmic Orbit showed practitioners how to establish the descending yin/feminine channel of the life-force energy loop. Within Taoist systems, cultivating feminine energy has always been seen as the key to gaining balance and wholeness. *Healing Light of the Tao* presents the more advanced methods of chi cultivation in the Microcosmic Orbit, offering a full understanding of Taoist spiritual

theory through its comprehensive overview of the complete Taoist body/mind/spirit system. The book also includes more advanced meditation methods for absorbing the higher frequencies of Earth Force, Cosmic Force, and Universal Force (Heavenly chi) into the basic orbit. It establishes a spiritual science that not only emphasizes practical benefits to health, sexual vitality, and emotional balance, but also shows how changes made in the energy body can lead to physical rejuvenation that the Taoists called immortality.
