Researching Sex and Lies in the Classroom Pat Sikes

2009-12-04 The Anglophone world is gripped by a moral panic centred on child abuse in general and fear of the paedophile in particular. Evidence suggests an alarming rise in the number of false allegations of sexual abuse being made against teachers, and demonstrates that the fallout from being falsely accused is far-reaching and sometimes tragic. Many people in this position cannot sustain family relationships, have breakdowns, and are often unable to return to the classroom when their ordeal is over. Researching Sex and Lies in the Classroom draws on in-depth qualitative research exploring the experiences, perceptions and consequences for those who have been falsely accused of sexual misconduct with pupils, and for the family members, friends and colleagues affected by or involved in the accusation process. The book also highlights the dilemmas and difficulties the authors themselves have faced researching this field, such as: ethical and methodological concerns over whether or not the teachers had indeed been falsely accused, or were guilty and taking advantage of this project to construct an alternative, innocent identity the difficulty of obtaining institutional ethical clearance to undertake and publish research which challenges master narratives concerning children and their protection the reluctance of funders to support research in controversial and sensitive areas. Researching Sex and Lies in the Classroom reveals findings which are both informative and shocking. It interrogates the appropriateness of current investigative and judicial procedures and practices, and it raises general questions about the surveillance and control of research and academic voice. It will be

of great benefit to academics and researchers interested in this field, as well as postgraduate students, teachers and other professionals working with the fear of allegations of abuse.

2014-01-20 The book is about good leadership, for leaders to lead by actions and not by words of lies from their mouths. Leaders should be doggedly determined to give the people fair leadership. Nakinostran was struck and devastated by the mercilessly cruelest earthquake disaster. In the aftermath of the earthquake, there were spontaneous nuclear plant meltdowns across the country. The survivors watched helplessly all the nuclear plants melting down like candle waxes. Nakinostran was a well developed nation with greatest leaders seen by the people as only second to God because of their excellent leadership of oneness, love, peace and development and equality, not this fake equality we only let out of our mouths. The people, like any other, seeing the level of devastations, had different personal views, doubts and fears. They saw these devastations as their greatest obstacle to

returning to a normal life again. Most of them had lost all hopes in life because of the malignant complications of the wickedest earthquake. Many people said that's it; Nakinostran is finished. But the doggedly determined young president, Henry Rupchang was only angered and bitterly touched at heart by the deaths. He had the courage and determination that the country will rise again. He was undaunted. He mustered what supports he could for the reconstructions of the country. He continuously told his people that nothing is impossible under this cone-shape heaven that 'umbrellaed' our earth. His commitment was undiminished and despite the devastations, he unflinchingly told them the nation will rise again. All the leaders in the country bust the gut to reconstruct the country and with unity they worked as a people, though not without some distractions from some protesters. The leaders didn't lost a second in their sleep...did the president succeed...as in the end, it was a heartwarming people.

Dante and the Origins of Italian Literary Culture Teodolinda Barolini 2009-08-25 In this book, Teodolinda Barolini explores the sources of Italian literary culture in the figures of its lyric poets and its “three crowns”: Dante, Petrarch, and Boccaccio. Barolini views the origins of Italian literary culture through four prisms: the ideological/philosophical, the intertextual/multicultural, the structural/formal, and the social. The essays in the first section treat the ideology of love and desire from the early lyric tradition to the Inferno and its antecedents in philosophy and theology. In the second, Barolini focuses on Dante as heir to both the Christian visionary and the classical pagan traditions (with emphasis on Vergil and Ovid). The essays in the third part analyze the narrative character of Dante’s Vita nuova, Petrarch’s lyric sequence, and Boccaccio’s Decameron. Barolini also looks at the cultural implications of the editorial history of Dante’s rime and at what sparso versus organico spells in the Italian imaginary. In the section on gender, she argues that the didactic texts intended for women’s use and instruction, as explored by Guittone, Dante, and

Boccaccio—but not by Petrarch—were more progressive than the courtly style for which the Italian tradition is celebrated. Moving from the lyric origins of the Divine Comedy in “Dante and the Lyric Past” to Petrarch’s regressive stance on gender in “Notes toward a Gendered History of Italian Literature”—and encompassing, among others, Giacomo da Lentini, Guido Cavalcanti, and Guittone d’Arezzo—these sixteen essays by one of our leading critics frame the literary culture of thirteenth-and fourteenth-century Italy in fresh, illuminating ways that will prove useful and instructive to students and scholars alike.

Six Single Dads' Nanny Nicole Casey 2020-01-05 I signed up for one, and guess how many I got?- SIX. Alright, girl. Now, keep calm. They might be flirty, wild and irresistible, but they are still the Dads of the seven kids I now babysit. What kids? You ask. Sorry. Allow me to start over. When I applied for the position for a nanny, I was for real. I mean, I majored in Children Psychology, so I am damn serious. What I didn't expect, was that signing on for one, had landed me SIX. That's SIX drop-dead gorgeous single dads, working with me day in and day out. The men had formed the Single Dads' Club to 'shuffle' their dad duties with their children and had even taken to shuffling their women. But I won't be their next target. Nope, I don't think so. I am taking care of the children, not the dads. This can't happen. No matter how seductive they are. But with their deep voices and soul-penetrating eyes, staying off Santa's naughty list just became so much harder. I need them to do filthy things to me. Fill me up, turn me over and do whatever they have in mind to me. And when their little act of seduction turns into something serious, we start to like one another a little too much. Perfect start to the holidays, huh? But when that one anonymous letter was sent to my door, I couldn't take it any longer. I knew that good things don't come easy. I was right. They have a HUGE secret, and it's going to ruin Christmas for everyone. Nicole's Note: Six Single Dads' Nanny is a sizzling Reverse Harem love story filled with mystery, suspense, enough steam to melt the snow and feel-good holiday sweetness. It's the fifth book in my Reverse Harem Romance series - Love by Numbers, but it can be read as a standalone. You won't want to miss the holiday surprise at the end of the story! Her Naughty Holiday (Mills & Boon Blaze) (Men at Work, Book 2)

Tiffany Reisz 2016-11-01 A feast she wasn't expecting!

Birkbeck Word Association Norms Helen Moss 1996 This is a reference work containing free association norms for over 2000 words in the English language collected over the last eight years from groups of 40-50 British English speakers aged between 17 and 45. These norms provide the information that, for example, 67% of people give dog as the first word they think of in response to the word cat, that 24% give the word society in response to the word pillar, and given the name Michael, 65% say Jackson, whereas less than 5% say Heseltine or Caine. These norms will be of use to researchers and students in many fields of psychology, especially language and memory, where the degree of association between pairs of words is often an important experimental variable. The main part of the book contains an alphabetical list of all associative responses and their frequency for each of the 2464 stimulus words. In addition, there is an index of stimulus words organised according to semantic category to aid selection of experimental materials. Full methodological details of the collection and compilation of the data are also provided in the introduction.
