Composition Notebook Floral - Coloring Journals 2017-02-20

Looking for a composition notebook that is far superior to the boring, black and white comp book standard? We've got you covered. This composition notebook is college ruled on the inside so you can use it for school, work, or whatever you use these notebooks for, but the cover sets it apart from a normal comp book, making it a great gift for anyone who loves flowers. In fact, it's a cute gift idea for your friend that loves flowers and crafty stuff, and it's also useful, so the person you give it to is going to think about you every day, and isn't that the real purpose of any gift? The other thing that

makes this composition notebook special (and what would make it a great gift for your mom, girlfriend, wife, or really, anyone who loves flowers) is that the cover of this notebook features hand-drawn images that can be colored like a regular coloring book. Once you (or your gift recipient) colors it, you have a one-of-a-kind notebook, and if you (or they) happen to be feeling inspired, you (or they) can extend the drawing to the back cover of the book and color that as well. If you are looking for birthday gifts for mom, thank you gifts, unique gifts, a coloring book, a composition notebook that is anything but ordinary, or anything in between, this composition notebook is for you! Here are some things you can do with this lovely floral composition notebook: give it to your mom as a birthday gift, give it as a unique thank you gift, use it as a cheap yet thoughtful Christmas present, The original artwork pushes this over the top. Did we mention that this was lovingly hand-drawn by a 75 year old grandmother? Oh yes, it was. Tell your mother that when you give this to her as a Mother's Day gift. If you were to pair this with, say, a pair of colored pencils that you can also acquire from Amazon, that would maybe push it over the edge into the domain of the "best gift anyone has ever given anyone." Does this qualify as one of the most original gifts? We think so. Here's the thing. Amazon wants us to write 4,000 characters about this book, which is actually a lot. More than you would think. Like, even professional writers and publishers don't usually write that much about their books, and these are books that they spent YEARS writing. We could also tell you that the drawings are done with a black pen, then scanned and PhotoShopped and formatted as a composition book. We could tell you that people LOVE these books and that they are bestsellers. We could tell you that you can write your genius thoughts in here, or that you can do some drawings, or that this bad boy has 200 pages in it, or that once you experience the awesomeness of the colorable composition notebook, you are never going to want another notebook (ALL of which are true). Or, we could give you a list of words that might also apply to this title and its superiority as a gift: Christmas gift ideas, Christmas presents, gifts for girlfriends, ideas, gifts for her, mothers day gift ideas, gift ideas

for girlfriend, present gift, perfect gift, good birthday gifts, good presents, xmas presents, ideas for Christmas, good gifts, last minute gift ideas, last minute gifts, Christmas gift ideas for girlfriend, top gifts, creative, cute, good, cheap, best, unique, ideal, mom, mother, grandmother, great, ideas, woman, unusual, love, adults, friends, recommendations, for me, cool, birthday, to get, ladies, original, shopping, prime, different, fun, relaxing, holidays, gifts for her, girls,
