## **Cant Touch My Soul A Guide For Lesbian Survivors Of Child Sexual Abuse**

---

Books In Print 2004-2005 - Bowker Editorial Staff 2004

Asking the Right Questions, 2 - Angela M. Barbara 2007-03

Lesbian, gay, bisexual, transgendered and transsexual (LGBT) people have specific life factors that relate to substance use, factors that include the "coming out" process, societal oppression, loss of family support, and the predominance of bars in LGBT communities. To help therapists explore these concerns with clients, the manual includes interview items that can be used to facilitate discussion during assessment or early in treatment planning. These are: an assessment questionnaire to be used with a standard substance use (or other service) assessment; a guide to help therapists use the assessment instrument; and a glossary of concepts and terms.

*I Know Why the Caged Bird Sings* - Maya Angelou 2009-04-21

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as

long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin

*Allies in Healing* - Laura Davis 2012-11-13

"But what about me?" "Is it possible to go one day without dealing with the survivor's issues?" "Will we ever make love again?" "Will the survivor love me in the end?" "How do I know if I should throw in the towel?" Based on in-depth interviews and her workshops for partners across the country, Laura Davis offers practical advice and encouragement to all partners—girlfriends, boyfriends, spouses, and lovers—trying to support the survivors in their lives while tending to their own needs along the way. She shows couples how to deepen compassion, improve communication, and develop an understanding of healing as a shared activity. Addressing partners' most important questions, *Allies in Healing* covers: The

Basics—answers common questions about sexual abuse. *Allies in Healing*—introduces key concepts of working and growing together. *My Needs and Feelings*—teaches partners to recognize, value, and express their own needs. *Dealing with Crisis*—includes strategies for handling suicidal feelings, regression, and hopelessness. *Intimacy and Communication*—offers practical advice on dealing with distancing, control, trust, and fighting. *Sex*—provides guidelines for coping with flashbacks, lack of desire, differences in sexual needs, and frustration. *Family Issues*—suggests a range of ideas for interacting with the survivor's family. *Partners' Stories*—explores the struggles, triumphs, and courage of eight partners.

against children. It was developed by 10 international and U.S.-based agencies and includes strategy documents and implementation tools. This handbook provides guidance on how to choose and implement interventions based on specific needs and context, and is organised around the 7 key INSPIRE strategies: implementation and enforcement of laws; norms and values; safe environments; parent and caregiver support; income and economic strengthening; response and support services; and education and life skills. The handbook also provides an overview of implementation and impact indicators, drawn from the companion document 'INSPIRE indicator guidance and results framework'. *Gay, Straight, and the Reason Why* - Simon LeVay 2010-09-30

What causes a child to grow up gay or straight? In this book, neuroscientist Simon LeVay summarizes a wealth of scientific evidence that points to one inescapable conclusion: Sexual

orientation results primarily from an interaction between genes, sex hormones, and the cells of the developing body and brain. LeVay helped create this field in 1991 with a much-publicized study in *Science*, where he reported on a difference in the brain structure between gay and straight men. Since then, an entire scientific discipline has sprung up around the quest for a biological explanation of sexual orientation. In this book, LeVay provides a clear explanation of where the science stands today, taking the reader on a whirlwind tour of laboratories that specialize in genetics, endocrinology, neuroscience, cognitive psychology, evolutionary psychology, and family demographics. He describes, for instance, how researchers have manipulated the sex hormone levels of animals during development, causing them to mate preferentially with animals of their own gender. LeVay also reports on the prevalence of homosexual behavior among wild animals, ranging from Graylag geese to the Bonobo

chimpanzee. Although many details remain unresolved, the general conclusion is quite clear: A person's sexual orientation arises in large part from biological processes that are already underway before birth. LeVay also makes it clear that these lines of research have a lot of potential because--far from seeking to discover "what went wrong" in the lives of gay people, attempting to develop "cures" for homosexuality, or returning to traditional explanations that center on parent-child relationships, various forms of "training," or early sexual experiences--our modern scientists are increasingly seeing sexual variety as something to be valued, celebrated, and welcomed into society.

Bastard Out of Carolina - Dorothy Allison  
2012-08-02

'About as close to flawless as any reader could ask for' The New York Times Book Review 'For anyone who has ever felt the contempt of a self-righteous world, this book will resonate within you like a gospel choir. For anyone who hasn't, this book will be an education' Barbara Kingsolver Carolina in the 1950s, and Bone - christened Ruth Anna Boatwright - lives a happy life, in and out of her aunt's houses, playing with her cousins on the porch, sipping ice tea, loving

her little sister Reece and her beautiful young mother. But Glen Waddell has been watching them all, wanting her mother too, and when he promises a new life for the family, her mother gratefully accepts. Soon Bone finds herself in a different, terrible world, living in fear, and an exile from everything she knows. *Bastard Out of Carolina* is a raw, poignant tale of fury, power, love and family. This edition contains an introduction by the author. Dorothy Allison was awarded the 2007 Robert Penn Warren Award for Fiction, and has been likened to Flannery O'Connor, William Faulkner and Harper Lee. [New Books on Women and Feminism](#) - 2005

Crazy Like Us - Ethan Watters 2011-03-24

It is well-known that US culture is a dominant force and a world-wide phenomenon. But it is possible that its most troubling export has yet to be accounted for? America has been the world leader in generating new mental health treatments and modern theories: it exports psychopharmaceuticals and categorises disorders, thereby defining mental illness and health. The outcome of these efforts is just now coming to light: it turns out that the US has not only been changing the way the world talks about and treats mental illness -- it has been changing the mental illnesses themselves. Watters travels from China to Tanzania to bring home the unsettling conclusion that the virus is the US: as Americanized ways of treating mental illnesses are introduced, they are in fact spreading the diseases and shaping, if not creating, the mental illnesses of our time.

**Can't Touch My Soul** - Donna Rafanello 2004

This groundbreaking study of lesbian survivors of childhood sexual abuse is a powerful and critically needed entry in the field of survival and recovery literature. 60 courageous lesbian survivors share their personal stories of recovery from the earliest stages of remembering the abuse, to understanding and ultimately overcoming the defense mechanisms that children adopt to survive it, to addressing the endemic feelings of horrible isolation and shame. This collection provides victims ways in which to become survivors, and endows them with a vision of hope for the future.

**To the Survivors** - Robert Uttaro 2013-10-23  
"To the Survivors weaves together many candid accounts to form a brave and alarming exposé of assault. It is a worthwhile, eye-opening project" (Foreword Clarion Reviews). "An engaging examination of a painful subject, with a focus on healing and forgiveness" (Kirkus Reviews). To the Survivors is a deeply-moving, empowering, and brutally honest book about one man's journey as a rape crisis counselor combined with true stories of sexual violence shared by real survivors in their own words. Gently and beautifully constructed, To the Survivors is moving, tender, sharp, and piercingly true all at once. The reader will encounter uncensored written stories, poems, and interviews shared by women, men, and one transgendered person who have been raped and sexually assaulted. The impact of this work is far reaching - it is multi-cultural, multi-generational, and fully expansive in its ability to reach people's hearts and minds around this critical human issue.

Robert Uttaro believes anyone can benefit from the words in these pages; rape survivor or not.
