Trafficking of Women and Children in the International Sex Trade
 - United States. Congress. House. Committee on International Relations.
 Subcommittee on International Operations and Human Rights 2000

Children in the Global Sex Trade - Julia O'Connell Davidson 2005-03-11
 An account of the many and varied ways in which children become involved in the sex trade, this work presents the global political and economic inequalities that underpin children's exploitation.

Trafficking in Slavery's Wake - Benjamin N. Lawrance 2012-08-22
 Women and children have been bartered, pawned, bought, and sold within and beyond Africa for longer than records have existed. This important collection examines the ways trafficking in women and children has changed from the aftermath of the "end of slavery" in Africa from the late nineteenth century to the present. The formal abolition of the slave trade and slavery did not end the demand for servile women and children. Contemporary forms of human trafficking are deeply interwoven with their historical precursors, and scholars and activists need to be informed about the long history of trafficking in order to better assess and confront its contemporary forms. This book brings together the perspectives of leading scholars, activists, and other experts, creating a conversation that is essential for understanding the complexity of human trafficking in Africa. Human trafficking is rapidly emerging as a core human rights issue for the twenty-first century. *Trafficking in Slavery's Wake* is excellent reading for the researching, combating, and prosecuting of trafficking in women and children. Contributors: Margaret Akullo, Jean Allain, Kevin Bales, Liza Stuart Buchbinder, Bernard K. Freamon, Susan Kreston, Benjamin N. Lawrance, Elisabeth McMahon, Carina Ray, Richard L. Roberts, Marie Rodet, Jody Sarich, and Jelmer Vos.

The Sexual Trafficking in Children - Daniel S. Campagna 1987-10-30
 The Sexual Trafficking in Children is well written and thoroughly researched. It seems to capture the attention of a wide audience because the book goes into depth about a variety of issues that have not previously been compiled at such a comprehensive level. Criminal Justice

Review This illuminating, sensitive volume confronts this disturbing social problem by providing much-needed information on the crimes, the perpetrators, and the victims of the child sex trade--information that social service practitioners, law enforcement agencies, advocacy groups, and legislators must have to deal effectively with the problem. Based on five years of field research, the study examines the dynamics and characteristics of participants in various underage sex markets, such as child pornography, juvenile prostitution, sex tourism, indenturing, and sex rings. It includes extensive interviews with victims, exploiters, and agency practitioners; field observations of juvenile prostitutions and their pimps and customers in several cities; and case studies derived from the files of police departments and social service agencies. Efforts to help victims overcome the psychological and practical impacts of their experiences are described, as are law enforcement approaches and judicial responses. The authors argue for legislative reform and recommend policies and programs designed to minimize the sexual victimization of minors.

The Tourism We Do Not Talk About. A Study on Sexual Exploitation of Children in Tourism, with a Focus on Argentina and Brazil - Alana Hartmann Matschulat 2018

Countries facing substantial socioeconomic problems where tourism acts as an engine for development often become vulnerable to the phenomenon known as „sex tourism“. South America is a region that shows a high incidence of commercial activities of this kind, which also hides many forms of exploitation, sex trade of children being one of the most serious. What leaves room for its occurrence often are the gaps present in the legislations, along with the obsolete applicability of such laws, or even our indifference as actors capable of provoking social change. This book contains a study that seeks to identify the origins of the occurrence and the legal apparatus available to deal with the incidence of commercial sexual exploitation of children in the region, focusing on Brazil - as a pioneer - and Argentina - a recent country dealing with such an issue. Through an analysis of the evolution of the legal framework in both countries and the international mechanisms the

book is also an invitation to the reader to reflect on this unmentioned side of tourism.

Wish you weren't here. Tourism and child prostitution in Thailand - Miki Garcia 2019-07-01

Master's Thesis from the year 1998 in the subject Communications - Journalism, Journalism Professions, grade: A, City University London, language: English, abstract: I went to Thailand to investigate child sex tourism. 'Young girls in supply and the demand seems limitless. The commercial sexual exploitation of girls is a global, multi-billion dollar industry, pouring money into the hands of private citizens, tourists, governments and the police. No single approach, in a single country, can entirely solve the problem. ' This is a master's degree thesis. The first part consists of a journalistic project (i.e. feature article) and the second part includes the methodology and feedback of the project.

The Commercial Sexual Exploitation of Children - Helena Karlén 2011-05-24

A global sex trade is ongoing where the bodies of children are sold and bought like any merchandise. Millions of children are victims. The demand for sex with children is the main driving force in this cynical and lucrative trade. In industrialised countries the situation is often perceived as 'a problem that exists somewhere else', i.e. in the developing world or as something that does not concern us. Even though there are still many more facts and figures needed, we have enough information and awareness to create change for the millions of children that are used as commodities in commercial sexual exploitation, i.e. in child sex tourism, child pornography and trafficking of minors for sexual purposes.

Sex Trafficking - Kimberly A. McCabe 2010-04-12

Global estimates of human trafficking range from 600,000 to four million victims each year with the majority being victims of sex trafficking. This strikingly large range belies the difficulty in gathering, defining, and accountability of sex-trafficking data. Victims of sex trafficking may be forced into pornography, prostitution for the military or militia, spousal prostitution, and prostitution for the sex-tourism industry. In response to

the problem of sex trafficking, many nations have either misunderstood the definition or failed to comprehend the magnitude that have occurs within their borders. The United Nations has defined 'human trafficking' as 'the recruitment, transfer, harboring or receipt of persons by threat or use of force.' Similarly, the U.S. State Department's Trafficking Victims Protection Act 2000 describes severe forms of trafficking as: (a) sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained 18 years of age; or (b) the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery. In *Sex Trafficking: A Global Perspective*, sex trafficking is discussed in terms of its multiple purposes and its victims. The essays provide information to build upon the limited knowledge-base on the subject of sex trafficking and the legislative responses to human trafficking by the various highlighted countries. This collection is unique because it serves the needs of those studying human trafficking from a global perspective by targeting the issue within every geographic region, it provides a general profile of geographic regions in terms of demographic characteristics and political conditions that may support the growth of sex trafficking, and it is written on a basic information-supply-level to provide readers with a foundation on human trafficking throughout the world.

Fighting the US Youth Sex Trade - Carrie N. Baker 2018-09-30

Campaigns against prostitution of young people in the United States have surged and ebbed multiple times over the last fifty years. *Fighting the US Youth Sex Trade: Gender, Race, and Politics* examines how politically and ideologically diverse activists joined together to change perceptions and public policies on youth involvement in the sex trade over time, reframing 'juvenile prostitution' of the 1970s as 'commercial sexual exploitation of children' in the 1990s, and then as 'domestic minor sex trafficking' in the 2000s. Based on organizational archives and interviews with activists, Baker shows that these campaigns were fundamentally shaped by the politics of gender, race and class, and

global anti-trafficking campaigns. The author argues that the very frames that have made these movements so successful in achieving new laws and programs for youth have limited their ability to achieve systematic reforms that could decrease youth vulnerability to involvement in the sex trade.

Child Migration and Human Rights in a Global Age - Jacqueline Bhabha
2016-05-17

The first comprehensive look at the global dilemma of child migration. Why, despite massive public concern, is child trafficking on the rise? Why are unaccompanied migrant children living on the streets and routinely threatened with deportation to their countries of origin? Why do so many young refugees of war-ravaged and failed states end up warehoused in camps, victimized by the sex trade, or enlisted as child soldiers? This book provides the first comprehensive account of the widespread but neglected global phenomenon of child migration, exploring the complex challenges facing children and adolescents who move to join their families, those who are moved to be exploited, and those who move simply to survive. Spanning several continents and drawing on the stories of young migrants, *Child Migration and Human Rights in a Global Age* provides a comprehensive account of the widespread and growing but neglected global phenomenon of child migration and child trafficking. It looks at the often-insurmountable obstacles we place in the paths of adolescents fleeing war, exploitation, or destitution; the contradictory elements in our approach to international adoption; and the limited support we give to young people brutalized as child soldiers. Part history, part in-depth legal and political analysis, this powerful book challenges the prevailing wisdom that widespread protection failures are caused by our lack of awareness of the problems these children face, arguing instead that our societies have a deep-seated ambivalence to migrant children—one we need to address head-on. *Child Migration and Human Rights in a Global Age* offers a road map for doing just that, and makes a compelling and courageous case for an international ethics of children's human rights.

Sex Trafficking - Kathryn Farr 2004-11-05

One million people are trafficked into the sex industry each year. In this timely and provocative study, Kathryn Farr documents the macro and micro impact of trafficking women and children into this industry on a global scale. Farr looks not only at the victims themselves, but also at the sex trade's main players, organized crime structure, economic conditions, and role in which various militaries perpetuate its demand. Sex Trafficking can be incorporated into a variety of courses in sociology, social problems, culture and sexuality, history, and women's studies.

International Children's Rights - Sara Dillon 2010

This book provides an exciting and comprehensive look at the main themes—legal and political—affecting international children's rights today. Designed for use in undergraduate, graduate, and law school settings, it is divided into seven major topics: the role of the United Nations Convention on the Rights of the Child, child labor, children in the global sex industry, children without parental care, children and punishment, children and armed conflict, and, finally, children's rights as interpreted and applied in regional human rights systems. Sara Dillon has brought together a wide variety of writings so that students will understand the underlying controversies relating to each unit. These include academic articles, United Nations reports, evidence provided by non-governmental organizations, and material from many other sources. Introductory sections and notes and questions frame the readings, and facilitate use of the book as a teaching tool. The book is accompanied by a CD containing additional cases, articles, UN documents, etc. "One must heartily welcome this long overdue addition to the human rights literature. The author offers a prominent first-edition casebook, which should satisfy any professor in search of comprehensive coverage of the subject on the rights of children. She covers the labyrinth of legal instruments that are the focal points of this important basket of human rights—as well as the flaws and contradictions inherent in this particular field. The practical blends of cases, commentaries (e.g., law review excerpts), and author's notes and questions have all combined to robustly launch this leading textbook in the field."

Commercial Sexual Exploitation of Children - Brandy Bang 2013-10-14

The commercial exploitation of children is a global crisis (Rahman, 2011; Svensson, 2006). However, media outlets and sociological researchers have successfully situated the problem as a primarily Asian, South American, or Eastern European concern. In the process, the exploitation of children in the United States has largely been ignored. The continued trafficking of international youth into this country, coupled with the growing rate at which American born children are targeted by interstate sex traffickers, speaks to the urgency with which the domestic exploitation of children must be addressed (Walker-Rodriguez & Hill, 2011). In fact, research suggests that an average of 250,000 American children and adolescents are at risk of commercial exploitation each year (Estes & Weiner, 2001). Further, there are indications that current data vastly underestimate the actual numbers of vulnerable and victimized youth (Chase & Statham, 2005). According to the U.S. Department of Justice (2007), no systematic efforts have been made to examine the commercial exploitation of children in this country. The low visibilities of the crime, combined with the inherent vulnerability of the victims, have facilitated the continued victimization of these children. The purpose of this book is to provide a critical analysis of the domestic, commercial exploitation of children, victim and offender characteristics, and the mechanisms which maintain the problem will assist health care providers, researchers, and law enforcement in their efforts with this marginalized and understudied population. The authors begin with a comprehensive review of extant literature in this area. Additionally, case studies of child sexual exploitation are included to further illustrate the severity, complexity, and depravity of commercial exploitation in real life cases.

The Legacy of Racism for Children - Margaret C. Stevenson 2020
 "The Legacy of Racism for Children: Psychology, Law, and Public Policy is the first volume to review the intersecting implications of psychology, public policy, and law with the goal of understanding and ending the challenges facing racial minority youth in America today. Proceeding roughly from causes to consequences - from early life experiences to

adolescent and teen experiences - each chapter focuses on a different domain, explains the laws and policies that create or exacerbate racial disparity in that domain, reviews relevant psychological research and its implications for those laws or policies, and calls for next steps. Chapter authors examine how race and ethnicity intersect with child maltreatment (including child sex trafficking, corporal punishment, and memory for and disclosures of abuse), child dependency court decisions, custody and adoption, familial incarceration, the "school to prison pipeline," police/youth interactions, jurors' perceptions of child and adolescent victims and defendants, and U.S. immigration law and policy"-

Not a Choice, Not a Job - JANICE G. RAYMOND 2013-07-15

A generation ago, most people did not know how ubiquitous and grave human trafficking was. Now many people agree that the \$35.7 billion business is an appalling violation of human rights. But when confronted with prostitution, many people experience an odd disconnect because prostitution is shrouded in myths, among them the claims that ôprostitution is inevitable,ö and ôprostitution is a job or service like any other.ö In *Not a Choice, Not a Job*, Janice Raymond challenges both the myths and their perpetrators. Raymond demonstrates that prostitution is not sex but sexual exploitation, and that legalizing and decriminalizing the system of prostitutionùas opposed to the prostituted womenùpromotes sex trafficking, expands the sex industry, and invites organized crime. Specifically, Raymond exposes how legalized prostitution in the Netherlands, Germany, Australia, and Nevada worsens crime and endangers women. In contrast, she reveals, when governments work to prevent the demand for prostitution by prosecuting pimps, brothels, and prostitution usersùas in Norway, Sweden, and Icelandùtrafficking does not increase, women are better protected, and fewer men buy sex. Raymond expands the boundaries of scholarship in womenÆs studies, making this book indispensable to human rights advocates around the world.

Child Exploitation and Trafficking - Virginia M. Kendall 2011-12-16
 This book covers the history and present-day realities of the epidemic of

child sexual exploitation and the law enforcement efforts to combat it. Written from the perspective of those who have spent their careers investigating, prosecuting, and adjudicating these cases, the authors provide fresh, practical thinking to this challenging legal area.

Trafficking and the Global Sex Industry - Karen Beeks 2006

Trafficking of persons (mostly women and children) for commercial sexual activities and forced labor is one of the fastest growing areas of international crime. The United Nations estimates that 4 million men, women, and children become victims of international trafficking each year. *Trafficking & the Global Sex Industry* focuses on the international trafficking of women and children for forced labor and prostitution. This remarkable anthology takes a broad geographical and economical perspective while also dealing with the specificities of the socio-political background, poverty, opportunity structure, legal conditions, the role of the state, gender structure, and the organization of the trafficking business. The essays create a link from country to country, demonstrating the worldwide nature of the problem. Expertly written and well researched, this collection gives the reader a clearer understanding of the problem and the actions being taken to combat it. *Trafficking & the Global Sex Industry* will have a broad market for readers on a national and international level, especially among those interested in political science, women's studies, international relations, and criminology.

Sex Slaves and Discourse Masters - Doctor Jo Doezema 2013-07-18

Why is the international community so concerned with the fate of prostitutes abroad? And why does the story of trafficking sound so

familiar? In this pioneering new book, Jo Doezema argues that the current concern with trafficking in women is a modern manifestation of the myth of white slavery. Combining historical analysis with contemporary investigation, this book sheds light on the current preoccupations with trafficking in women. It examines in detail sex worker reactions to the myth of trafficking, questions the current feminist preoccupation with the 'suffering female body' and argues that feminism needs to move towards the creation of new myths. The analysis in this book is controversial but crucial, an alternative to the current panic discourses around trafficking in women. An essential read for anyone who is concerned with the increased movement of women internationally and the attempts of international and national governments to regulate this flow.

Children in the Global Sex Trade - Julia O'Connell Davidson 2005

An account of the many and varied ways in which children become involved in the sex trade, this work presents the global political and economic inequalities that underpin children's exploitation.

Unbearable to the Human Heart - Panudda Boonpala 2002

Child trafficking is emerging as a global issue affecting millions of children and families around the world. This report explores emerging policy responses and lessons learned from efforts to combat this complex problem. Aspects discussed include: defining the problem; the links between trafficking and child labour; initiatives at local, national, regional and international level; the empowerment of individuals; education as prevention; law enforcement; mapping and situational analysis.
