Where Evil Lies - Jorgen Brekke 2014-01-02

A murder at the Edgar Allan Poe Museum in Richmond, Virginia, bears a close resemblance to one in Trondheim, Norway. The corpse of the museum curator in Virginia is found flayed in his office by the cleaning staff; the corpse of an archivist at the library in Norway, is found inside a locked vault used to store delicate and rare books. Richmond homicide detective Felicia Stone and Trondheim police inspector Odd Singsaker find themselves working on similar murder cases, committed the same way, but half a world away. And both murders are somehow connected to a sixteenth century palimpsest book--The Book of John--which appears to be a journal of a serial murderer back in 1529 Norway, a book bound in human skin.

Butcher Bird - Richard Kadrey 2023-01-05

Spyder Lee is a happy man who lives in San Francisco and owns a tattoo shop. One night an angry demon tries to bite his head off before he's saved by a stranger. The demon infected Spyder with something awful - the truth. He can suddenly see the world as it really is: full of angels and demons and monsters and monster-hunters. A world full of black magic and mysteries. These are the Dominions, parallel worlds full of wonder, beauty and horror. The Black Clerks, infinitely old and infinitely powerful beings whose job it is to keep the Dominions in balance, seem to have new interests and a whole new agenda. Dropped into the middle of a conflict between the Black Clerks and other forces he doesn't fully understand, Spyder finds himself looking for a magic book with the blind swordswoman who saved him. Their journey will take them from deserts to lush palaces, to underground caverns, to the heart of Hell itself.

While studying advanced physics at a prestigious European university, Elisa Robledo was invited to join a select research team on a secret project to manipulate String Theory. It was the opportunity of a lifetime for the eager young scientist—the chance to actually view monumental events from the far distant past: dinosaurs roaming the Earth, life during the Stone Age, the crucifixion of Christ. But on a remote island in the

Indian Ocean, the team's experiments went horribly awry . . . and something terrible was awakened. Now, years later, Elisa's former colleagues are dying, one by one. The nightmare they created by meddling with Time is taking a shocking and gruesome toll. And only by uncovering the sinister truth behind the science can Elisa hope to survive the dark, devouring forces that mean to destroy her and the world she knows.
