Twentieth-Century Sexuality - Angus McLaren 1999-09-08

This book provides a fascinating history of sexuality in twentieth-century Europe and North America. Angus McLaren draws upon legal, medical and literary sources to demonstrate how modern sexuality has been shaped by race, class, gender and generational preoccupations.

The Misfit of the Family - Michael Lucey 2003-08-25

In more than ninety novels and novellas, Honoré de Balzac (1799-1850) created a universe teeming with over two thousand characters. The *Misfit of the Family* reveals how Balzac, in imagining the dense, vividly rendered social world of his novels, used his writing as a powerful means to understand and analyze—as well as represent—a range of forms of sexuality. Moving away from the many psychoanalytic approaches to the novelist's work, Michael Lucey contends that in order to grasp the full complexity with which sexuality was understood by Balzac, it is necessary to appreciate how he conceived of its relation to family, history, economics, law, and all the many structures within which sexualities take form. The *Misfit of the Family* is a compelling argument that Balzac must be taken seriously as a major inventor and purveyor of new tools for analyzing connections between the sexual and the social. Lucey's account of the novelist's deployment of "sexual misfits" to impel a wide range of his most canonical works—*Cousin Pons*, *Cousin Bette*, *Eugenie Grandet*, *Lost Illusions*, *The Girl with the Golden Eyes*—demonstrates how even the flexible umbrella term "queer" barely covers the enormous diversity of erotic and social behaviors of his characters. Lucey draws on the thinking of Michel Foucault and Pierre Bourdieu and engages the work of critics of nineteenth-century French fiction, including Naomi Schor, D. A. Miller, Franco Moretti, and others. His reflections on Proust as Balzac's most cannily attentive reader suggest how the lines of social and erotic force he locates in Balzac's work continued to manifest themselves in twentieth-century writing and society.

Families We Keep - Rin Reczek 2022-05-17

"There is no "till death do us part" vow between parents and children. And yet, parent-child relationships are far more enduring than the marital relationships that made this phrase famous. The life-long parent-child tie is so ubiquitous and taken-for-granted that it doesn't need an oath. This unspoken pledge is our birthright; in times of good and bad, sickness and health, parents and their children are bound for life. But, not every parent-child tie is healthy and helpful. And what's remarkable is this imperative persists even when these relationships are

unsatisfactory or even deeply damaging. Why do we stay in these parent-adult child relationships? And how do we stay bonded amidst rejection and pain? This book answers these questions. Drawing on interviews with 76 LGBTQ adults and 44 of their parents, the authors explain that conflictual, rejecting, and even abusive ties with parents endure because of what they call compulsory kinship: the overarching socio-cultural forces that tell us we have to stay in this bond, no matter what. That is, what we think of as the "natural" and inevitable connection between parents and adult children is actually created and sustained by sociocultural forces of compulsory kinship. With their empirical data the authors show why LGBTQ people justify their adherence to the specific compulsory kinship, using the rationales of love and closeness, parental growth, and the uniqueness of the parent-child tie. Further, they reveal how LGBTQ people stay in difficult relationships with parents through a new type of family work called "conflict work."--

Homosexuality and Family Relations - Marvin B Sussman 2012-11-12

Sussman, PhD, this informative and enlightening volume examines the multiple varieties of family forms in which gay men and lesbians live, addresses the ramifications of homosexuality on family relationships, and explores the countless aspects of parenthood as they are experienced by gay men and lesbians, including adoption and foster care by lesbians and gay men, and the choice of increasing numbers of lesbians to bear children through artificial fertilization. Any professional who is interested in the family--educators, clinicians, academicians, researchers, and students, as well as others interested in families and in human sexuality and men's and women's studies--family science, gay studies, nursing, medicine, law, psychology, sociology, social work--will find this book useful, insightful, and unique.

Same Sex Intimacies - Catherine Donovan 2003-09-02

Our families are increasingly a matter of choice, and the choices are widening all the time. This is particularly true of the non-heterosexual world, where the last ten years have seen a popular acceptance of same sex partnerships and, to a lesser extent, of same sex parenting. Based on extensive interviews with people in a variety of non-traditional relationships, this fascinating new book argues that these developments in the non-heterosexual world are closely linked to wider changes in the meaning of family in society at large, and that each can cast light on the other. *Same Sex Intimacies* gives vivid accounts of the different ways non-heterosexual people have been able to create meaningful intimate relationships for themselves, and highlights the role of individual agency and collective endeavour in forging these roles: as friends, partners, parents and as members of communities. This topical book will provide compelling reading for students of the family, sexuality and lesbian and gay studies.

The Family Book about Sexuality - Mary Steichen Calderone 1990

Discusses all aspects of human sexuality including teenage sex, pregnancy, AIDS facts, pornography, abortion, homosexuality, and sexual problems.

Sex, Preference, and Family - David M. Estlund 1998-06-18

The public furor over issues of same sex marriages, gay rights, pornography, and single-parent families has erupted with a passion not seen since the 1960s. This book gathers seventeen eminent philosophers and legal scholars who offer commentary on sexuality (including sexual behavior, sexual orientation, and the role of pornography in shaping sexuality), on the family (including both same-sex and single-parent families), and on the proper role of law in these areas. The essayists are all fiercely independent thinkers and offer the reader a range of bold and thought-provoking proposals. Susan Moller Okin argues, for instance, that gender ought to be done away with--that differences in biological sex ought to have "no more social relevance than one's eye color or the length of one's toes"--and she urges that we look to same-sex couples as a model for households and families in a gender-free society. And Cass Sunstein suggests that the Supreme Court case *Loving vs. Virginia* (which overthrew the ban on interracial marriages in Virginia) might be a precedent for overturning laws that bar same-sex marriage: just as *Loving* overturned miscegenation laws because they were at the service of white supremacy, Sunstein shows, the laws against same-sex marriages and homosexuality are at the service of male supremacy, and might also be overturned. Of vital importance to anyone interested in sexuality, homosexuality, gender, feminism, and the family. *Sex, Preference, and the Family* both clarifies the current debate and points the way toward a less divisive future.

Locked in the Family Cell - Kathryn A. Conrad 2004

Locked in the Family Cell is the first book on Ireland to provide a sustained and interdisciplinary analysis of gender, sexuality, nationalism, the public and private spheres, and the relationship between these categories of analysis and action. Kathryn Conrad examines the writers and activists who are resistant to simplistic nationalist constructions of Ireland and its subjects. She exposes the assumptions and the effects of national discourses in Ireland and their reliance on a limited and limiting vision of the family: the heterosexual family cell. By actively situating theoretical readings and concerns in practice, Conrad follows the lead of scholars such as Lauren Berlant, Gloria Anzaldúa, Ailbhe Smyth, and others who have encouraged dialogue not only among scholars in different academic disciplines but between scholars and activists. In doing so she provides not only a critique of interest to scholars in a variety of fields but also a productive political intervention.

Gender, Family and Sexuality: The Private Sphere in Italy, 1860-1945 - P. Willson 2004-06-30

This lively collection of essays presents a range of innovative research on the history of the private sphere in Liberal and Fascist Italy, with a particular focus on sexuality, gender and race - all aspects which have received scarce attention in much of the existing historiography. It includes articles on foundlings and their mothers, the role of midwives, changing attitudes to sexuality, adultery trials, the Fascist persecution of

homosexuals, debates about divorce and (going beyond Italy to its empire) the treatment of mixed race children and their mothers in Eritrea. Key themes of this collection include the contrasting attitudes of the Liberal and Fascist governments to the role of the state in the private sphere, the influence of the Church and the impact of new 'scientific' and medical approaches to maternity, sexuality and demography.

Porneia - Aline Rousselle 1988-01

Life Together - Stephen Barton 2005-01-01

In these wide-ranging studies, Stephen Barton shows that Christian theology and the Christian scriptures have a vital contribution to make to contemporary wisdom about our common life. The subjects he addresses are relevant to the concerns of many people today. What he has to say about the family, sexuality, community and biblical interpretation is both informative and creative. Running through the book is the issue of the appropriate use of the Bible: how the sacred text may speak in ways which are life-giving. Stephen Barton claims that questions about the interpretation of the Bible have to be set in the larger context of what it means to be the church. A central argument is that the Bible is the kind of text the truth of whose witness is discovered above all in the lives of individuals and communities seeking to share by grace in the life of the Trinity.

Becoming Reinaldo Arenas - Jorge Olivares 2013-04-11

Domestic Disturbances, Patriarchal Values - Marianna Muravyeva 2017-10-02

This book offers an in-depth analysis of several national case studies on family violence between the sixteenth and nineteenth centuries, using court records as their main source. It raises important questions for research on early modern Europe: the notion of absolute power; sovereignty and its applicability to familial power; the problem of violence and the possibility of its usage for conflict resolution both in public and private spaces; and the interconnection of gender and violence against women, reconsidered in the context of modern state formation as a public sphere and family building as a private sphere. Contributors bring together detailed studies of domestic violence and spousal murder in Romania, England, and Russia, abduction and forced marriage in Poland, infanticide and violence against parents in Finland, and rape and violence against women in Germany. These case studies serve as the basis for a comparative analysis of forms, models, and

patterns of violence within the family in the context of debates on political power, absolutism, and violence. They highlight changes towards unlimited violence by family patriarchs in European countries, in

the context of the changing relationship between the state and its citizens. This book was originally published as a special issue of the *Journal of the History of the Family*.
