The Patriarch - G.N. Buffington 2008-01-10
Jacob Sellars, a New York City newspaper reporter, is assigned to cover the memorial services for oil tycoon Joshua Crane, whose corporation has an ambiguous history and suspicious ties to U.S. intelligence agencies. Sellars, who is trying to come to grips with his own troubled past, seizes the chance to write a freelance article about the Crane family, one of New England's most venerated. In the process, Sellars develops an obsessive romance with Crane's granddaughter, a strident critic of the current administration's foreign policy in the Middle East. His investigations uncover the fact that Crane's company is being used as a front by the U.S. government for nefarious activities in oil-producing countries. Despite efforts to silence him, Sellars intends to publish a

blockbuster story revealing the scheme. But he must first survive a beating by thuggish mercenaries, two horrifying terrorist attacks, and his own inner turmoil. Sellars's determination will be the deciding factor in whether he will escape with his life-and his heart-intact. A masterful mix of high-level corruption, personal conflict, love and loss, *The Patriarch* is a vivid portrayal of the world for one American in the decade after the infamous terrorist attacks on September 11, 2001.

Teacups In The Snow - James C. MacIntosh
2006-07-21

Jack Adams was a man with a dream; to hike the Appalachian Trail, from Georgia to Maine. Beset with a month-long delay in starting out, Jack soon found himself lagging seriously behind schedule, a delay which would mean finishing late in the fall, in the cold, northern reaches of Maine. With perhaps, only two or three days remaining until he completed the hike, a strange and bizarre turn of events brought Jack's dream to a screeching halt, plunging him into a situation where he would soon find himself fighting for his life, as well as the life of a complete stranger. Waylaid on the Trail by a deranged giant of a man and feeling the hopelessness and frustration of captivity, Jack was unaware that Kate McGuire, his fiancée, along with his dad, Frank, had hired a tough Maine guide to try and locate him. The plot is thickened by a grisly discovery and the grim realization that some truths in life are hard to bear. Enter Sheriff Wilfred Bowen, a folksy southwestern transplant, whose slow drawl belies the fact that this is one very smart lawman, intent on rooting out the truth. His reliance on his 'gut feelins' inevitably lead him to

Caught In The Fable - Howard Robinson 2015-12-15

It is June of 2002, and Jacob Martin, a Denver-based Private Detective, has been contacted by a client about a very old missing persons case. In January of 1950 the client's father, Hollis Wilson, abruptly disappeared from his home in Albuquerque and was never seen again. Hollis had been a noted nuclear scientist who had worked on the A-bomb at Los Alamos with Robert Oppenheimer. Within days the FBI assigned a Special Agent, but in the end there were no leads, no sightings, no ransom notes. The FBI theorized that Hollis had in fact been a spy, along with his colleague the infamous Klaus Fuchs, who at the time was being tried for treason in a British court. Hollis, the FBI felt, had simply gone to ground before being found out. It was, after all, the era of Alger Hiss and the Rosenbergs. The client is not buying it, however, and claims that new evidence has surfaced that could exonerate his father. Jacob, intrigued by this new development, agrees to take a look. As he visits the old scenes, however, the case takes on an unexpected dark turn, and all of a sudden Jacob is caught up in at least one gruesome murder, maybe more, and the search for a killer who soon puts Jacob's own life in jeopardy.

Rogue Officer - Patricia D. Eddy 2021-08-17

Griffin Hargrove I was CIA elite. Until a terrorist attack stole my arm and most of my hearing. I don't know what my old boss, Austin Pritchard, is thinking, hiring a broken relic like me. But he trusts me, and that kind of loyalty is a balm to my shattered self-worth. Sloane is more beautiful than pictures can show, and bruised in ways that can't easily be seen. No one has told her I'm her bodyguard, but someone better clue her in soon, because she's spooked. And the longer I watch her, the more I need to protect her. Sloane Sanders None of my unspeakable past bleeds through the images plastered across magazines, cosmetics aisles, and the internet. But now, even as I land the biggest job of my career, that past crawls out of the muck. When you hide everything about who you are, it's tough to trust anyone. Until six feet of gorgeousness puts his hard-muscled body between me and a nightmare. A nightmare that's killed once. And if I don't find it in my damaged heart to trust Griff, I'm next. Note: The Gone Rogue series is a spin-off from Patricia D. Eddy's bestselling *Away from Keyboard* series. It contains a found-family band of special ops brothers, gruff heroes, and second chances. Each book can be enjoyed as a standalone.

Many of Jacobs exciting and often dangerous activities involving the Indians are recorded in contemporary accounts. Clearly he experienced the ordinary, but often strange events of their daily lives. He was also witness to the disastrous clash between the Indians and Europeans. Through his unique journal, Jacob helps us to see the forgotten history and very different culture of the Susquehannocks.
