

# How To Flirt With A Female Police Officer

**Workplace/women's Place** Paula Dubeck 2002

*Fit, Unfit Or Misfit?* Kathleen P. Decker 2006 This book is the product of a decade of clinical practice, research, and collaboration with a variety of professionals. It presents an overall perspective on the reasons for performing fitness for duty (FFD) evaluations and understanding of the process, why such evaluations are performed and the expectations of the professionals conducting such evaluations. Stress in law enforcement personnel and the reasons why law enforcement professionals experience difficulty is explored. Common causes of unfit officers are examined, including major psychiatric syndromes, personality disorders, and interesting findings regarding family psychiatric history in officers found fit or unfit for duty. Many of the myriad of structured psychological tests that can be used in FFD evaluations are discussed. Medication issues in FFD evaluations are explored as well as the potential impact that medications may have on officers' fitness. Another section of the book explores police officers' expectations of mental health professionals and outlines stereotypes and expectations that law enforcement personnel have regarding mental health personnel. For evaluators, an understanding of the lack of information and misconceptions that officers have may assist them with interacting and educating officers and referring departments. Other sections consider gender and ethnic issues in hiring, stress, and FFD evaluations; duty death and the nature of the stress experienced by law enforcement personnel; police suicide and FFD; how to manage misfit officers; and legal considerations involved in the conduct of FFD evaluations. It is hoped that by reading this book, mental health professionals will be better able to understand and treat the difficulties that law enforcement professionals encounter in the performance of their hazardous and stressful public service. Law enforcement executives may also benefit from understanding how psychological experts determine fitness.

**Beware the Masher** Kerry Segrave 2014-02-07 This book examines the history of sexual harassment in America's public places, such as on the streets and on public transit vehicles, in the period 1880 to 1930. Such behavior was referred to then as mashing with the harasser most commonly being called a masher. It began around 1880 as a response to the women's movement as females in America increased their efforts to gain more freedom of movement and greater independence. Women going out and about on their own, or only with other women, threatened male dominance and control of society. One response by men was to turn to the sexual harassment of those women when they were alone in public places. This book looks at the extent of the problem, editorial opinions on the subject, the tendency to blame the victim, and the responses of women in the streets to the harassment. As well, the actions and reactions of the courts and the actions and reactions of the police are studied. Much of the sexual harassment of this period took place in the daytime hours, in busy areas of cities.

**Changing Roles** Vivien Newman 2021-11-24 Graverobbers, prime-movers in geo-politics, jailbirds, international football celebs. Such terms are not usually associated with women in the 1920s, as women returning docilely to the domestic cage at the end of the First World War has become part of the accepted narrative. Like many war and immediate post war myths, it does contain some truth, but the story of women between 1918 and 1928 is much more complex, often more positive and certainly far more interesting than previously suggested. Changing Roles looks at some of the women who forged new identities for themselves while exploring how their own or their loved ones' wartime experiences influenced the roles they stepped into, sometimes reluctantly, frequently enthusiastically, often successfully. It explores how women fought back against the misogynistic climate of the 1920s, used the Sex Disqualification (Removal) Act to achieve their goals, played their part as full citizens and how the legacy of their global endeavours, achievements and occasional failures is still with us today, spreading far beyond our shores. By telling the stories of both ordinary and extraordinary women whose actions disturbed the status quo, shook the Establishment to its core, and sent shock-waves across the Atlantic, this book presents a cast of fascinating characters ranging from crowned heads to girl gangs, business women to philanthropists, inviting readers to exclaim, "Gosh, I never knew that!"

**Street Sounds** Ziad Fahmy 2020-08-25 As the twentieth century roared on, transformative technologies—from trains, trams, and automobiles to radios and loudspeakers—fundamentally changed the sounds of the Egyptian streets. The cacophony of everyday life grew louder, and the Egyptian press featured editorials calling for the regulation of not only mechanized and amplified sounds, but also the voices of street vendors, the music of wedding processions, and even the traditional funerary wails. Ziad Fahmy offers the first historical examination of the changing soundscapes of urban Egypt, highlighting the mundane sounds of street life, while "listening" to the voices of ordinary people as they struggle with state authorities for ownership of the streets. Interweaving infrastructural, cultural, and social history, Fahmy analyzes the sounds of modernity, using sounded sources as an analytical tool for examining the past. Street Sounds also reveals a political dimension of noise by demonstrating how the growing middle classes used sound to distinguish themselves from the Egyptian masses. This book contextualizes sound, layering historical analysis with a sensory dimension, bringing us closer to the Egyptian streets as lived and embodied by everyday people.

**Gender, Power and Sexuality** Pamela Abbott 2016-07-27 Gender, Power and Sexuality is a collection of original and exciting articles by well-known feminists which makes a major contribution to our understanding of the ways in which men exercise control over girls and women in their daily lives, in the home, at school, at work and in the courts. Women are seen to resent and challenge male power, but, the institutionalisation of male power is shown to mitigate against women taking control over their own lives.

**Friends** Jennifer C. Dunn 2019-12-04 A cultural phenomenon for a decade, Friends ranked in the top ten for every year of its original run, an accomplishment unmatched by any other scripted series. And more than twenty-five years since its theme song promised "I'll be there for you," Rachel, Monica, Phoebe, Joey, Chandler, and Ross are still entertaining audiences around the world. As the characters maneuvered their ways through dating, love, and the occasional conflict, their loyalty to each other remained steadfast. In *Friends: A Cultural History*, Jennifer C. Dunn explores why the show immediately took hold of viewers and how the series remained must-see TV for so long. Dunn examines the cultural landscape that allowed a show not centered on traditional sitcom norms of family and career to become such a critical and commercial success. The author also addresses how the show's complicated depictions of gender roles and class distinctions—as well as its lack of ethnic diversity—did not detract from its popularity. In addition to exploring memorable plotlines, cherished moments, and the quirks of the principal players, this book analyzes the show's enduring cultural relevance. Featuring a discussion of the show's 25 best episodes, *Friends: A Cultural History* offers an engaging look at the series that has resonated with generations of television viewers.

**The Diary of Edwin Clarke** Edwin Gulliver Clarke 2016-12-12 In 1901 Edwin Gulliver Clarke left behind his comfortable, English middle-class life as the son of a bank manager to become a mounted trooper in the British South Africa Police in Rhodesia - now Zimbabwe. When he died in 1955, Clarke left behind a unique handwritten diary of his service. **Aggressors in Blue** Tom Barker 2020-01-20 This book presents a powerful and thorough investigation into police deviance and sexual misconduct in the US. Drawing on news reports, official government press releases and academic research sources, Barker examines a wide array of cases including sexual harassment, sexual abuse, child molestation and police killings, including those of prisoners behind bars. Substantiated with additional cases from the UK, Russia and beyond, analysis is also conducted of the experiences of the victims of those crimes. *Aggressors in Blue* argues that this misconduct has its roots in the nature of the law enforcement occupation, and outlines the typical conditions which enable police sexual abuse to take place. This is a bold new investigation which speaks to students and academics in criminal justice, criminology and social justice in particular, as well as to scholars, social justice advocates, law enforcement professionals, policy-makers and academics in other related disciplines.

**Policewomen** Kerry Segrave 2014-02-10 Women in policing have seen three phases of acceptance. Beginning in about 1880, they were admitted as police matrons with extremely limited duties. Next they were accepted as policewomen around 1910-1916, when that title was officially bestowed on them. Finally came assignment of females as general duty officers in the late 1960s and early 1970s. Not coincidentally, an active women's movement was the driving force behind all three phases. As women in policing went from matrons to regular officers, they faced harassment and discrimination that only worsened as they neared equality. Many still face it today. This book examines the history of policewomen from 1880 to 2012--particularly in the U.S.--and tells the story of their gradual recognition by the professional establishment of male officers.

**Readings in Sexualities from Africa** Rachel Spronk 2020-02-04 Images and stories about African sexuality abound in today's globalized media. Frequently old stereotypes and popular opinion inform these stories, and sex in the media is predominately approached as a problem in need of solutions and intervention. The authors gathered here refuse an easy characterization of African sexuality and instead seek to understand the various erotic realities, sexual practices, and gendered changes taking place across the continent. They present a nuanced and comprehensive overview of the field of sex and sexuality in Africa to serve as a guide through the quickly expanding literature. This collection offers a set of texts that use sexuality as a prism for studying how communities coalesce against the canvas of larger political and economic contexts and how personal lives evolve therein. Scholars working in Africa, the U.S., and Europe reflect on issues of representation, health and bio-politics, same-sex relationships and identity, transactional economies of sex, religion and tradition, and the importance of pleasure and agency. This multidimensional reader provides a comprehensive view of sexuality from an African perspective.

**Nanovision** Colin Milburn 2010-07-01 The dawning era of nanotechnology promises to transform life as we know it. Visionary scientists are engineering materials and devices at the molecular scale that will forever alter the way we think about our technologies, our societies, our bodies, and even reality itself. Colin Milburn argues that the rise of nanotechnology involves a way of seeing that he calls "nanovision." Trekking across the technoscapes and the dreamscapes of nanotechnology, he elaborates a theory of nanovision, demonstrating that nanotechnology has depended throughout its history on a symbiotic relationship with science fiction. Nanotechnology's scientific theories, laboratory instruments, and research programs are inextricable from speculative visions, hyperbolic rhetoric, and fictional narratives. Milburn illuminates the practices of nanotechnology by examining an enormous range of cultural artifacts, including scientific research articles, engineering textbooks, laboratory images, popular science writings, novels, comic books, and blockbuster films. In so doing, he reveals connections between the technologies of visualization that have helped inaugurate nano research, such as the scanning tunneling microscope, and the prescient writings of Robert A. Heinlein, James Blish, and Theodore Sturgeon. He delves into fictive and scientific representations of "gray goo," the nightmare scenario in which autonomous nanobots rise up in rebellion and wreak havoc on the world. He shows that nanoscience and "splatterpunk" novels share a violent aesthetic of disintegration: the biological body is breached and torn asunder only to be refabricated as an assemblage of self-organizing machines. Whether in high-tech laboratories or science fiction stories, nanovision deconstructs the human subject and galvanizes the invention of a posthuman future.

**Interwar London after Dark in British Popular Culture** Mara Arts 2022-03-04 This book explores the representation of London's nightlife in popular films and newspapers of the interwar period. Through a series of case-studies, it analyses how British popular media in the 1920s and 1930s displayed the capital after dark. It argues that newspapers and films were part of a common culture, which capitalized on the transgressive possibilities of the night. At the same time both media ensured that those in authority, such as the police, were always shown to ultimately be in control of the night. The first chapter of the book provides an overview of the British film and newspaper industries in the interwar period. Subsequent chapters each explore a specific aspect of London's nightlife. In turn, these chapters consider how films and newspapers of the interwar period depicted women navigating the street at night; the Metropolitan Police's involvement in nightlife; and the capital's newly built and expanded suburbs and public transport network. Finally, the book considers how newspapers and films depicted themselves and one another.

**Making Gender, Making War** Annica Kronsell 2011-09-08 *Making Gender, Making War* is a unique interdisciplinary edited collection which explores the social construction of gender, war-making and peacekeeping. It highlights the institutions and processes involved in the making of gender in terms of both men and women, masculinity and femininity. The "war question for feminism" marks a thematic red thread throughout; it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war. Contributors analyze how war-making is intertwined with the making of gender in a diversity of empirical case studies, organized around four themes: gender, violence and militarism; how the making of gender is connected to a (re)making of the nation through military practices; UN SCR 1325 and gender mainstreaming in institutional practices; and gender subjectivities in the organization of violence, exploring the notion of violent women and non-violent men.

Health and Cultural Values Vitalis Pemunta Ngambouk 2011-01-18 This book provides a nuanced analysis of the transformations that the ritual cutting of Female Circumcision (FC) recently underwent within the changing medical and institutional context of the HIV/AIDS pandemic among Ejagham tribes in Southwest Cameroon. Based on local level ethnography, it captures the multivocal perspectives and agency of participants thereby putting to question the uncritical feminist stance that "Third World Women" lack agency and are chattel. As the highest rite of patriarchy, the quintessential icon of gendered personhood and femininity, FC remains salient even when it is no longer the criterion for membership into the Moninkim secret society especially within the new medical and institutional context of the HIV/AIDS pandemic because it is intertwined with the whole cultural political economy of the Ejaghams. The commercialization of this feminine institution charged with feminine personhood through its spectacular performances (enacting matrimonial relations) within and beyond the Ejagham locale is evidence of its continuous centrality in the life world of participants. By focusing on health alone, anti-HIV/AIDS and anti-FC interventions by both the state and civil society actors miss the point. FC is increasingly becoming a human, social, gender rights and development issue calling for a multi-pronged development approach. The threat of the HIV/AIDS pandemic led to ferocious intergenerational debates over moral values about female inordinate sexuality and to the double appropriation of the concept of human security. Conservatives maintain that FC tempers women's sexuality and is therefore a useful mechanism to keep women in matrimonial service, a moral check on inordinate sexuality and a "native" antidote against the scourge of the pandemic. Anti-FC advocates point to the bloodletting entailed by the ritual procedures as fuelling the spread of the pandemic through the spread of diseases with HIV/AIDS inclusive among participants. A third group of cultural insiders opt for the cautious appropriation of modernity while simultaneously maintaining tradition: medicalisation of the ritual procedures. By reducing the complexity and nuances of the ritual cutting to health alone, anti-FC activism has instead produced a backlash marked by simultaneous contestation and practice. Paradoxically, the anti-FC campaigns have resulted in the privatization of FC on increasingly younger girls. However, the recent waiving of the ritual cutting as a precondition for membership into the Moninkim cult—because of the ageing of the initial initiates, the health risk of the HIV/AIDS pandemic and anti-FC advocacy campaigns by local NGOs—shows that change is underway. Simultaneously, inter-tribal marriages with members of non-circumcising tribes and romantic love relationships beyond the purview of the traditional patriarchal orbit have led younger lovers increasingly to seek mutually satisfying love relationships for which FC, a "virtuous cut," becomes an obstacle.

**Toms and Dees** Megan J. Sinnott 2004-06-30 A vibrant, growing, and highly visible set of female identities has emerged in Thailand known as tom and dee. A "tom" (from "tomboy") refers to a masculine woman who is sexually involved with a feminine partner, or "dee" (from "lady"). The patterning of female same-sex relationships into masculine and feminine pairs, coupled with the use of English derived terms to refer to them, is found throughout East and Southeast Asia. Have the forces of capitalism facilitated the dissemination of Western-style gay and lesbian identities throughout the developing world as some theories of transnationalism suggest? Is the emergence of toms and dees over the past twenty-five years a sign that this has occurred in Thailand? Megan Sinnott engages these issues by examining the local culture and historical context of female same-sex eroticism and female masculinity in Thailand. Drawing on a broad spectrum of anthropological literature, Sinnott situates Thai tom and dee subculture within the global trend of increasingly hybridized sexual and gender identities.

**The Worth of Women's Work** Anne Statham 1988-01-01 Many common assumptions about work are challenged in this book. For example, the findings refute the common assertion that work tasks can be categorized into "instrumental," or task activities, versus "caretaking," or people-oriented activities. It is shown that, regardless of the type of job, tasks are accomplished through the management of relationships. Other findings show that workers devise ingenious methods for maintaining dignity in the face of blatant oppression, a conclusion neglected in traditional studies of work where prestige hierarchies are presumed to affect workers' feelings about themselves. This book integrates findings from qualitative studies of women's work experiences in 13 occupations. The methods for gathering the data include participant observation, unstructured interviews, analysis of diaries, and review of historical documents. These methodologies permit unanticipated patterns to emerge from the data. Hence, *The Worth of Women's Work* not only presents new insights into women's work experiences, but simultaneously takes a much-needed step in developing a framework for integrating qualitative research.
