Abstract.

Comprehensive Analysis on Human Sexuality -

Variant Sexuality (Routledge Revivals) -

Glenn Wilson 2014-06-17

First published in 1987, this book presents contributions from international authorities reviewing major themes in variant sexuality. Genetic and evolutionary arguments are presented for the preponderance of paraphilia in males, whilst Freudian and psychoanalytic theories are shown to have limited scientific basis. These and other topics are reviewed in an interesting book, which will be of particular value to students of the psychology of sexuality, evolutionary biology and psychiatry, as well as those with a more general interest in the social, behavioural and biological aspects of sexuality.

The Human Ground - Stanley Keleman
1975-06-01

Raising Teens with Sexual Self-Control -

Karen Kropf 2012-01-09

If what you were looking for was a book that would guide you through "The Talk" -- the one where you sweat bullets for months, Mom takes the girls, Dad takes the boys, you go away for that special weekend, lay it all out, then hope to God you never have to discuss it again -- THIS IS NOT THAT BOOK. If what you were looking for is a book that will teach teens how to use condoms consistently and correctly, THIS IS NOT THAT BOOK. That book doesn't exist.

Teens use condoms like they clean their rooms. Always have, and always will. Raising Teens With Sexual Self-Control: A Parent's Survival Guide will help your kids make decisions about sex both of you can live with.

The Human Ground - Stanley Keleman 1975

Beyond the Blue: A Survival Guide for the Male Labeled, and a Healthier Society for All - Chris Warren-Dickins 2021-10-30

Does any of this sound familiar? - Depression snarls at you like a beast; Anxiety burns through the pit of your stomach like a fireball; You are constantly angry and in conflict with people around you; A ten-ton trauma drags you down. Without the right help, any one of these issues can threaten your career, your business, or your personal relationships. What if you discovered that you already carry survival tools to help you to tackle these threats to your emotional and physical well-being? Like blazes on a trail, this Survival Guide will guide you through the rougher paths of the journey that is your life, teaching you how to prepare for these darker days, what to do when the storm arrives, and how to survive and thrive so you do not plunge from disturbance to crisis. Within these pages, you will find advice that is based on the latest research in neuroscience, strategies from the most effective approaches to psychotherapy, and Chris Warren-Dickins's experience as a psychotherapist. This Survival Guide offers an alternative approach to the corner-cut logic that is labeling. When it comes to survival of

legacy.opendemocracy.net on 2018-12-27
by guest

depression, anxiety, relationship conflict and anger, or trauma, labels can sometimes fail to help because we are more complex and sophisticated than that. Chris invites us to look beyond the blue of the male label that was given to us, with an appreciation that our lived reality may differ compared with some of the assumptions associated with this label. These assumptions act as significant obstacles to adequate mental healthcare, and the reality is that there is little opportunity for adequate and accessible mental healthcare for people who have been given the male label. This was already a problem before the pandemic, and now it has become a healthcare crisis. Untreated depression, anxiety, relationship conflict and anger, and trauma pose a risk for all of us in society. This Survival Guide offers adequate and accessible mental healthcare so you can survive and thrive, despite depression, anxiety, relationship conflict and anger, and trauma. If you are still in need of help beyond this book, there is advice about how to separate the good from the bad and ugly forms of professional help. Are you ready to take your next step Beyond the Blue?

Woman's Survival Guide - Victoria Lynn
2014-04-28

"Woman's Survival Guide: How to Tame Your Kitty" is a self help/relationship guide. It examines a woman's sexuality and how we sometimes allow ourselves to be controlled by it instead of controlling it and setting a path to lasting fulfilling relationships.

Handbook of the Evolution of Human Sexuality - Michael R. Kauth 2006

Human sexuality can be better understood by knowing how sexual psychologies may have evolved throughout the ages. Handbook of the Evolution of Human Sexuality presents a detailed examination of human sexuality, the assumptions about concepts and terms pertaining to sexuality, and the latest theories on the evolution of human sexual attraction. Leading experts explore various aspects of evolutionary theory, with a focus on Evolutionary Psychology (EP). Discussions include mate preferences, mating behavior, mate signaling, pheromones, and same-sex attraction. This comprehensive source also presents three groundbreaking theories of the evolution of

same-sex attraction.

Current Catalog - National Library of Medicine (U.S.)

First multi-year cumulation covers six years: 1965-70.

Lying Bodies - Akiko Shimizu 2008

Lying Bodies explores how to survive with invisible, non-normative identities by focusing on literally 'invisible' differences. The first half of the book attempts a theoretical account of the self in the field of vision, drawing on psychoanalytic theories of the formation of the self. In order for the survival of the self with a visual image that both enables and threatens it, the book proposes the strategy of 'the lying body', which combines mimicry with equivocality. The second half of the book demonstrates possible forms of 'the lying body' through an analysis of specific examples of cultural practices, including works by artists Cindy Sherman and Morimura Yasumasa, as well as the claim of invisible sexual differences by feminine-looking lesbians.

Sexuality, Self & Survival - Stanley Keleman
1971

Finding Our Way - Allison Abner 1995

Answers questions about body type, sexuality, friendship, family, health, and self-confidence

[Exploring the Dimensions of Human Sexuality](#) - Greenberg 2016-02-19

Fully revised and updated with the latest data in the field, the Sixth Edition of *Exploring the Dimensions of Human Sexuality* represents all aspects of human sexuality and explores how it affects personality, development, and decision making. Using a student-friendly interpersonal approach, the text discusses contemporary concepts as well as controversial topics in a sensitive manner, and covers the physiological, biological, psychological, spiritual, and cultural dimensions of human sexuality. *Exploring the Dimensions of Human Sexuality* is an essential text for teaching sexuality and presents an integrated view of human sexuality that encourages students to pursue positive decisions, sexual health, and a lifetime of wellness.

The Prostitution of Sexuality - Kathleen Barry
1995

Barry (sociology, Pennsylvania State U.)

Downloaded from
legacy.opendemocracy.net on 2018-12-27
by guest

considers sexual exploitation a political condition and thus the foundation of women's subordination and the base from which discrimination against women is constructed. She argues for the need to integrate the struggle against sexual exploitation in prostitution into broader feminist struggles and to place it, as one of several connected issues, in the forefront of the feminist agenda. Annotation copyright by Book News, Inc., Portland, OR

The Modernist Art of Queer Survival -

Benjamin Bateman 2017-10-02

Whether we speak of queer bodies targeted for harassment, queer sensibilities derided as dangerous, or queer intimacies denied legitimacy, we acknowledge a close companionship between queerness and precariousness. Queerness remains continuously under threat; these threats to survival can be immediate, as in the AIDS crises, or more subtle and entrenched. Many queer lives thus end prematurely and drastically-but not all end in the physical expiration of life. Some terminate gradually and even unconsciously in the countless concessions to normativity demanded by dominant cultures that perceive, through a perverse set of projective identifications, their own survival as imperiled by queerness. The *Modernist Art of Queer Survival* explores an archive of modernist literature that conceives survival as a collective enterprise linking lives across boundaries of race, time, class, species, gender, and sexuality. As social Darwinism promoted a selfish, competitive, and combatively individualistic understanding of survival, the five modernists examined in *The Modernist Art of Queer Survival* countered by imagining how postures of precarity, vulnerability, humility, and receptivity can breed pleasurable and ecologically sustainable modes of interdependent survival. These modes prove particularly vital and appealing to queer bodies, desires, and intimacies deemed unfit, abnormal, or unproductive by heterosexist ideologies. Authors and texts discussed include Henry James's "The Beast in the Jungle," Oscar Wilde's *De Profundis*, E.M. Forster's *Howards End* and *A Passage to*

India, and Willa Cather's "Consequences" and Lucy Gayheart.

Love from Both Sides - Stephanie Riseley 2008
In this memoir, memorial, and celebration, Stephanie Riseley shares the deeply emotional and powerfully physical story of the continued relationship between her and her husband Dan after his sudden death. Exploring the ways in which love and forgiveness can transcend the boundaries of life and death, the book intends to change perceptions of the emotional and spiritual relationships two people can share. Problematic marriages and challenging relationships will take on positive new dimensions.

Framing the Sexual Subject - Richard Parker 2000-01-23

Focusing on the social and political dimensions of sexual experience, this book examines the social construction of sexual subjectivities, the dynamics of sexual oppression, and the struggle for sexual rights and empowerment in countries and cultures around the globe.

Sexuality, Self and Survival - Stanley Keleman 1973-01-12

Ex-Gay No Way - Jallen Rix 2010-09

Bringing to light an extreme fundamentalist Christian view, this insider's perspective offers hope to people grappling with the aftereffects of a cult-like movement often known as "reparative Therapy." The movement assumes that going from gay to straight is easily changeable and change-worthy, despite decades of psycho/sexual research to the contrary. Although it did not succeed in making the author - a Southern Baptist who attended an ex-gay ministry at a young age - straight, it did undermine his self-esteem and confuse him significantly, thus leading him to pursue an advanced degree in sexology in order to help others in similar positions. Offering a detailed comparison of the ex-gay world and the phenomenon known as Religious Abuse, this manual shares a personal journey through the hopeless mistreatment and manipulative system of ex-gay ministries and the recovery process involved in regaining strength, acceptance, and self-worth.
