Signs of Attraction - Laura Brown 2016-06-14

"Brown offers a powerful look into the world of hearing loss... a notable and groundbreaking debut by an author to watch. An empowering and satisfying romance." -- Kirkus Reviews Do you know what hearing loss sounds like? I do. All my life I've tried to be like you. I've failed. So I keep it hidden. But on the day my world crashed down around me, Reed was there. He showed me just how loud and vibrant silence can be, even when I struggled to understand. He's unlike anyone I've ever known. His soulful eyes and strong hands pulled me in before I knew what was happening. And as I saw those hands sign, felt them sparking on me, I knew: imperfect could be perfect. Reed makes me feel things I've never

felt. It's exciting . . . and terrifying. Because he sees me like no one else has, and I'm afraid of what he'll find if he looks too closely. The only thing that scares me more than being with him? Letting him go. An Avon Romance

Highly Sensitive People - Vayana Ariz 2020-09-01

The following topics are included in this 2-book combo: Book 1: Are highly sensitive people all introverts? When can you classify someone as being highly sensitive? Are empaths the same as highly sensitive people? If you're a highly sensitive person, what can you do to be happy? These and other questions will be answered in this clear and concise guide. Aside from such topics about happiness, traits, secret talents, and life vision, relationship tips are given, and common concerns will be addressed. And the last chapter will specifically focus on being highly sensitive as a man. Book 2: Are you or is anyone you know a highly sensitive person? In order to answer that question, we have to study the subject, and what distinguishes such a person from others who have "regular" levels of sensitivity. The journey begins in a person's childhood. Highly sensitive children react differently to the heightened impulses that enter their brains. These stimuli shape their character, their behavior, and their talents. Being in love with or related to someone with high sensitivity has its benefits and challenges as well. They typically don't like being rushed. They don't like too much drama or too much stimulation of the senses. It's good to know what to say to them and what not to say to people with sensitive personalities. Last but not least, being highly sensitive can have a lot of benefits, ranging from creativity to emotional connection. If you want to understand all these things, then start reading the E-Book or listen to the audiobook today!

Mastering the Law of Attraction - J.D. Rockefeller 2016-06-28

You get what you think. Like attracts like. You attract what you focus on. You have probably been hearing these statements again and again in the last two decades. Is it true? Although it sounds interesting, some skeptics believe that the law of attraction really works. Why shouldn't it? We always tend to get what we focus on. When we focus on the fact that a job interview is going to be a disaster, it usually does turn into one.

When we think about how we are going to panic when we enter the examination hall, the likelihood is that that's exactly what's going to happen. These are experiences that many of us have gone through. As usual, most of us find it easier to remember the negative events and not the positive events. If we focus on something negative and it happens, then we can surely focus on something positive and it will happen too. This is the general premise of the law of attraction. Made popular by the book "The Secret" and the movie by the same name, the law of attraction is quite simple. It just says that like attracts like. So, if you focus on bad things, you will attract disaster. If you focus on good things, you will attract happiness. But this is easier said than done. It seems to sound easy, but many people find it difficult when they try to follow this principle. They want something, they focus on the lack of it, and that's what they get...lack of it. This is where most people tend to go wrong. The law of attraction is about focusing on abundance and not on lack. So, if you focus on the fact that you already have what you desire, you will get it. But if you focus on the fact that you don't have something and would like to have it, you never get it. In that case, how can you use the law of attraction to manifest your desires and your dreams into reality? Many people have been successful in manifesting their desire for money, a soul mate, a house, a great career, and so on and so forth. You can too. Just read this guide that aims to help you understand how you can manifest your desires into reality and where you may go wrong.

Love Signals - David Givens 2006-01-10

A world renowned anthropologist explores the nonverbal signs, signals, and cues human beings exchange to attract and keep their mates. As a medium of communication, Love's silent language predates speech by millions of years. Today, we still express emotions and feelings largely apart from words. The postures, gestures, and facial cues of attraction are universal, in all societies and cultures. According to Dr. Givens, courtship moves slowly through five distinct phases: attracting attention, recognition phase, conversation phase, touching phase, making love. Since potential mates "test" each other before uniting as one, courtship is a choreographed give and take of signs granting physical and

emotional closeness. Love Signals is part ethnography and part how-to. Dr. Givens documents the little courting rituals witnessed in elevators, on subways, and in the workplace. He examines the essential role the face plays in courtship and how it can be optimally displayed. He decodes the body to find silent messages given off by shoulders, neck, arms, hands, waist, calves, ankles, feet, and toes. Dr. Givens analyzes expressive shapes, colors, and markings encoded in arm wear, shoulder wear, leg wear, and shoes. He deciphers the background messages of spaces, places and interiors to learn how environs help or hinder in the meeting process. Chemical cues emanating from aromas, tastes, steroids, sterols, and hormones strongly shape a partner's feelings, so they are explored as well. The book suggests ways to gaze, ways to read eyes across a room, and ways to sit, stand, align, walk dress, and lift a drink to participate in the fascinating adventure of finding, winning, and keeping a mate. Knowing the unspoken vocabulary of love signals will give readers an edge. What this means for courtship is that the reader becomes able to read unspoken motives, emotions, and feelings with great clarity and precision. The more readers know about the nonverbal idiom of attraction, the more likely they will find a loving, lasting partner.

Law of Attraction - Jenny Hashkins 2020-06-03

This title contains two books, which are the following: Book 1: Have you seen any signs from the universe? Are things going your way or do you wish that things would be better? These are some of the things people asking themselves when they want to work on their future. I hope you have asked yourself the same things, because the secret key is in the chapters of this book. The first part of this book will go over finding your soulmate. Once you have found him or her, be sure to fight to keep the relationship intact and don't lose it. Next, the book will talk about reasons that you might not be rich yet. Sure, there are the obvious ones, like the economy or your job, but there may be hidden factors that are

blocking you from achieving the income level that you are after. In the last section of this guide, you will be shown what kinds of signs the universe puts in your path. To ignore them, would be foolishness. Therefore, learn more about them, and you will have greater success in aligning your with the universe's. Book 2: How can you be happier? What does science say about it? These and many other questions will be answered. There is a literal Q&A in this book about the law of attraction, joy, and other topics related to it. Another topic in this book, is vibrations. As some of us know (maybe you do, too), the law of attraction is based on vibrations. Those vibrations are sent out and attract the things we want because of our thoughts and behavior. Raising our vibrations, therefore, would be crucial to accomplish our dreams. Here, you will learn how to do that, because it is definitely possible.

The Kybalion concept, what it means, and how it applies to the law of attraction. Meditation and signs that you are in the midst of a spiritual awakening. Many people go through transition phases in their lives and don't make the most out of these moments, because they simply don't understand how they can help them. Book 2: The power of our subconscious minds is strong. Many people don't know what to do with those mysterious forces, so in this guide, you can explore more what they mean and where they come from. Moreover, these things are connected to emotional intelligence, a discipline and quality that has been highlighted more often since recently. And how about becoming a free soul? What does that mean?
