Please Enjoy Your Happiness Paul Brinkley-Rogers 2016-01-28

Please Enjoy Your Happiness is a beautifully written coming-of-age memoir based on the English author's summer-long love affair with a remarkable older Japanese woman. Whilst serving as a seaman at the age of nineteen, Paul Brinkley-Rogers met Kaji Yukiko, a sophisticated, highly intellectual Japanese woman, who was on the run from her vicious gangster boyfriend, a member of Japan's brutal crime syndicate the yakuza. Trying to create a perfect experience of purity, she took him under her wing, sharing their love of poetry, cinema and music and many an afternoon at the Mozart Café. Brinkley-Rogers, now in his seventies, re-reads Yukiko's letters and finally recognizes her as the love of his life, receiving at last the gifts she tried to bestow on him. Reaching across time and continents, Brinkley-Rogers

shows us how to reclaim a lost love, inviting us all to celebrate those loves of our lives that never do end.

The New York Times Book Review 1970

Refining Russia Catriona Kelly 2001-08-09 Advice literature (etiquette manuals, guides to hygiene and house management, and treatises on upbringing) enjoyed massive popularity in Russia between the late eighteenth and the late twentieth centuries. It reflected changing attitudes to appropriate behaviour in private and public, to the acquisition of possessions, and not least to national identity (for many Russians, reading how-to books was seen as a way of 'learning how to be a Westerner'). Written or translated by members of the cultural elite trying to encourage what they saw as civilized behaviour, advice literature was also a conduit for changing views of mass readers and of their place in society. This important and engaging book is the first systematic exploration of this hitherto neglected genre of popular printed text. It examines the evolution of advice literature from the Enlightenment to the post-Soviet era, from translations of Fénelon and Madame de Lambert in the 1760s and of Samuel Smiles in the late nineteenth and early twentieth centuries, to tracts by Gogol and Tolstoi, Soviet pamphlets on 'how to be cultured', and post-Soviet guides to 'window treatments'. It draws on a huge range of sources - memoirs, 'novelised conduct books' such as *Anna Karenina*, parody advice literature, letters, and reviews - to examine the broader significance of how-to books,

and their relationship with daily life (byt) as construct and as lived reality. The result is a book that not only makes a major contribution to the study of popular culture, but also throws an unexpected and revealing light on Russian history more broadly.
