101 Recipes for Making Wild Wines at Home - John N. Peragine, Jr. 2010

Wild wines are a thing of the world. Each culture has developed its own means of fermenting and distilling various fruits and grains into aromatic, strong spirited drinks to grace tables. Making your own wild wine can be a fun, rewarding project that allows you to take full control of the taste and body of your favorite dinner drink. 101 Recipes for Making Wild Wines At Home has wild wine recipes that will entice your taste buds. These recipes use the best herbs, fruits, and flowers to create some of the most beloved drinks in the world for yourself, friends, and family. The basics of wild wine recipes are laid out here in great detail, providing everything you need to know to both understand and start making your own wines in no time. You will be shown the basic information or dozens of varieties of herbs, fruits, and flowers, including how they are best used in wine recipes, what you need to do to prepare them, and how they will taste, feel, look, and smell in the finished product. You will learn what to do to promote the integrity of your wine and the many different ways to vary the aspects of both white and red wild wines without sacrificing taste. After learning the basics of wild wine making, you will be shown the process of making 101 wild wine recipes that are well-received around the world. This book details special tips and tricks you can use to perfect your wine and to ensure the best possible batch is produced every time. For every aspiring amateur wine maker out there, 101 Recipes for Making Wild Wines At Home is an absolute must.

Healthy Vines, Pure Wines - Pamela Lanier 2021-06-10

Healthy Vines, Pure Wines serves as a guide, which derives its information from real-world sources to share green practices in sustainable viticulture in a practical way. Including a how-to on treating vineyard issues organically, a look at how climate change is affecting viticulture, and a special focus on women in the field, this handbook maintains a forward focus. Also included are 16 case studies on

successful organic, biodynamic, and sustainable wineries from the San Francisco North Bay Region, focusing on how what each has done can be replicated.

An Introduction to Viticulture, Winemaking and Wine - Alan J. Buglass 2022-09-08

This book describes grapevines and how they are grown, protected from diseases and other mishaps, propagated and harvested, and details how the grapes are transformed into the world's many wine styles, by reference to the elementary science and technology that underpins the most important processes. It also describes how different wines taste and, in a less scientific manner, how to buy, appreciate or assess, store and sell them. It is intended for novice vine growers, winemakers, traders, sommeliers and other professionals in the wine trade, but will also serve as a reference book for college and freshmen university students on viticulture, enology and sommelier courses (or other courses that include these subjects), as well as for the teachers of these courses.

Ecotrifty - Deborah Niemann 2012-10-01

A guide to saving a fortune while saving the Earth, from the author of Homegrown & Handmade. Use it up, wear it out, make it do, or do without. Our grandmothers knew the importance of responsible, thrifty choices. But somewhere along the way we lost our way and succumbed to the belief that we can get everything for next to nothing, have it shipped halfway around the world and then—more often than not—just throw it away. This consumer binge is taking its toll. Diet and lifestyle-related illnesses are epidemic, our environment is awash in a sea of plastic, our climate is changing, and the cost of everything is skyrocketing with the price of oil. Are we doomed? No. We can make greener, healthier choices, and we can do it while saving money. Where to start? Ecotrifty is packed with simple, practical ideas and recipes to help you: · Make homemade products for cleaning and skin care · Grow your own food and cook more from scratch · Raise your family without lowering your standards A must-read for anyone who has ever wanted to live a greener life but thought that it would be too expensive, time-consuming, or difficult, this handy, complete guide will show you how small changes can have a huge environmental impact and save you thousands of dollars, all while improving your quality of life. "I support and endorse this wonderful book, 100%!" —Ed Begley, Jr., actor and environmentalist "Her advice does not come across as self-righteous or preachy, but more like insider tips from an experienced do-it-yourselfer." —Publishers Weekly

The Wrath of Grapes - Lewis Perdue 1999-06

Over long, hard decades, American winemakers have won the respect of connoisseurs everywhere. Many of the world's most cherished, and expensive, wines come from the United States.. But today, the unique and eccentric wine industry faces a grim set of challenges that could

transform it forever: oversupply in the face of flat consumption, devastating vineyard diseases, an antiquated distribution system, fierce competition from abroad, attacks from anti-alcohol forces, and an inability to capitalize on wine's proven health benefits. But for you, these woes can be an opportunity, as wine journalist Lewis Perdue explains in this fascinating book. Clearly and crisply, forsaking the snobbish winespeak that helps keep wine mysterious and is itself one of the industry's problems. Perdue takes you behind the scenes to show you why a shakeout is imminent and unstoppable, and how you can benefit from understanding the situation—from drinking better wine less expensively to investing in a business where the perks can be decanted from a bottle. Pull in no punches, naming names, this is an invaluable glimpse into a colorful, competitive, cantankerous world whose current troubles can actually add immeasurable pleasure to your life.

The Oxford Companion to Wine - Jancis Robinson 2015

This wine book provides comprehensive coverage on all aspects of wine making, and puts wine, wine-making and wine drinking into historical perspective.

The Complete Guide to Making Your Own Wine at Home - John N. Peragine 2010

From the basics of distillation to the ingredients used, you will learn all of the basics of home wine making, starting with the wide array of

ingredients available to you, including grapes and berries. You will learn everything required to start and operate a home winery.

The Homebuilt Winery - Steve Hughes 2012-07-04

Build your own winery! Learn how to set up a home winery and construct all the basic equipment for just a fraction of what commercially manufactured products would cost. Leading you through the entire winemaking process, Steve Hughes includes building plans and step-by-step instructions for making more than 30 essential winemaking tools. From fashioning presses and pumps to the best way to fill and cork bottles, *The Homebuilt Winery* covers everything you need to know to affordably enjoy delicious, high-quality homemade wine.
