

# Best Message To Attract A Girl

*How to Get a Girl to Like You* - Alex Leandres 2014-10-16

According to scientists, biology and chemistry both play big roles in the attraction between people. Pheromones, chemicals released by the body, allow animals of the same species to 'communicate' with each other. Studies further reveal that pheromones subconsciously affect the behavior of insects and animals. Insects that work in colonies such as bees and ants communicate by using these chemicals and skunks ward off other animals by releasing a very unpleasant pheromone-related scent. Animals that belong to the same species send out chemical signals to each other to give the message that they are compatible genetically and that they can be good reproductive mates. In view of all these studies, does it mean that people should just leave it to their pheromones to find their partners? Experts say no. Humans, after all, are gifted with intellect and free will - a combination that insects and other animals don't possess. Every person has a conscious decision when it comes to choosing potential mates. So although biology plays a big role in human attraction, there are still other factors that lead people to be attracted to each other. This book will show you exactly how to attract a girl, impress her, and get her to like you. You'll find out what it really takes for a man to get the girl of his dreams to like him back. A lot of men often wonder why some individuals of their gender have more success at meeting girls and at having relationships. Is there a trick that these men use? Or are the steps on how to impress a girl and make her like you actually very simple? Read this book and find out the best ways to attract the girl of your dreams. You'd be surprised that even simple things can actually go a long way in getting a girl's attention, and eventually, her heart!

If so then keep reading. ☐☐ This easy-to-use, step-by-step guide shows you how to text a girl, what to text, and when to text it to her. You might be messing up with your chances to get a lovely lady to date, when you make calls that you do not know where to go next after the initial greeting and "how are you doing" part of the call. You should not burry yourself in bad experiences that you have gone through so far, because here is an eBook that will give you a different direction of introducing yourself to lovely women and striking a conversation that will lead to a productive date. The solution that this book provides is in the techniques of texting, because you do not have to reach to a lady through a call only. Texting can do wonders when done in the right way, and that is what we are going to show you in this book. We know facing a lady for the first time is always very nervous and this is where many men fail, when they walk away feeling like losers and the ladies are left wondering what a coward you are. The information in this book has been narrowed down to using texting as a tool to lure a lady and make her want to be with you and stick with you as your woman. When used properly, texting will reveal the kind of person you are and the lady will be able to know the kind of a man she is giving her time to. Eventually she will make her mind whether to agree to your request or simply throw your pleas to the usual dustbin of losers. The battle starts when you plan to engage a certain lady in a conversation, because the process of asking her for the number is an action that gives many men Goosebumps. Not to worry, we will show you how to take that first step and get the vital number that will link you to that lovely lady who is giving you sleepless nights when you think of how lovely she is, and how much you want to spend time with her. We however need to get some facts right before we get too much into the power of texting when you want a woman. Your failure to get the lady you want may be due to poor interaction or communication techniques, and the fact that you can type some lovely words on your Smartphone instead of voicing them does not guarantee that the lady will accept your requests.
