Approaching Women - Steve Dean 2020-01-16

Do you want to learn practical ways to seducing her, take her on date, getting her into the bed and win her heart? Do you want to learn the Secrets to eliminate anxiety and increase your social confidence? If yes, then keep reading... The idea of remaining objective rather than subjective is to provide you with clarity. The way you remain objective is to remove your ego from all social interactions with women. For example, picture the woman you want to approach online or in person as a friend of yours. Assume you already know her; this will help calm your nerves for the initial approach. This works

especially well if you get anxious just before a first date. The reason you want to picture her as a friend is because it removes that mental block of thinking she is a complete stranger thus freaking yourself out for no reason. Remember in your mind you may be intimidated to be around her but to me or any other guy she would just be another girl. She only holds the value you create. How crazy is it for you to think someone is too good for you just based on her outer appearance? Unless you're psychic there is no way to assume this. Now, since you are human you may still feel slightly hurt if you misinterpret selection for rejection. If you still feel bothered or hurt then do something that will bring your confidence back up. Say to yourself: I am the captain of my fate, the master of my soul; I have the power, only I am in control and I now release myself of this negative thought. So if you are getting nervous being around or even approaching just know that you are the only one who is provoking that state of mind. The guy

who is able to remove his ego from the social situation knows that even if he doesn't get the desired outcome he wants from the approach or from the date, he is remaining objective because what others think or feel of you have no tangible power over you, meaning if you want freedom you can't let someone else dictate your state of mind. You are special, there is only one of you in the entire world, so the woman who you decide to give a chance to just won the lottery. When you become the best version of yourself you will no longer have approach anxiety. Start small-talk with strangers every now and then, make more eye contact with people, and smile more. This will dramatically increase your comfort level when you realize there is nothing to fear. The invisible obstacle of approach is non-existent, because the obstacles you place in front of yourself I can't see, therefore have no effect over me and I will approach whoever I want. Like Shakespeare said, "Nothing is either good or bad, only thinking makes it so." This book

gives a comprehensive guide on the following:
How to attract women
What is approaching
The best ways to approach
Warm approaches
Eliminating approach anxiety

Dating Tips from a Woman's Point of View - Elizabeth Meadows 2014-09-24

If you are looking for how to get laid on the first date, that's easy, take her to a bar, get her drinking, but not to the point of throwing up. After she's pretty intoxicated, giggling at everything you say, try a few advances, touching her arm, or shoulder, and see if she responds. Dance with her, and do a little grinding, and see if she grinds back. If the answers to these are yes, then offer her, since she can't drive, to come back to your place. Once she's at your place, continue with just a little more alcohol for the nerves. Don't mix alcohol. If she was doing shots at the bar, don't give her beer or wine coolers at your place, or she'll be spending the night with your toilet, not you. Give her just a few more shots, and then do the final move with a kiss. The kiss will tell it all. If she pushes you away, and doesn't take your advances, don't get

discouraged, you still have a chance. Offer her to put a movie on, get a pillow and a blanket, if you have a pull out couch, great, or one big enough for you two to snuggle on. If not, let her lay back to watch the movie. Let her put her feet on your lap. I don't know many woman who would turn down a foot massage. Massaging is a great way to lead to sex. After both feet, work your way up to her calves. Hint: use lotion. It makes her feel more like it's a massage, not you just trying to grope her up. If when you get to her calves, and she's still allowing you to massage, continue on, and then get the thighs. I'm pretty sure you know where to go from there.

'communicate' with each other. Studies further reveal that pheromones subconsciously affect the behavior of insects and animals. Insects that work in colonies such as bees and ants communicate by using these chemicals and skunks ward off other animals by releasing a very unpleasant pheromone-related scent. Animals that belong to the same species send out chemical signals to each other to give the message that they are compatible genetically and that they can be good reproductive mates. In view of all these studies, does it mean that people should just leave it to their pheromones to find their partners? Experts say no. Humans, after all, are gifted with intellect and free will - a combination that insects and other animals don't possess. Every person has a conscious decision when it comes to choosing potential mates. So although biology plays a big role in human attraction, there are still other factors that lead people to be attracted to each other. This book will show you exactly how to attract a girl,

impress her, and get her to like you. You'll find out what it really takes for a man to get the girl of his dreams to like him back. A lot of men often wonder why some individuals of their gender have more success at meeting girls and at having relationships. Is there a trick that these men use? Or are the steps on how to impress a girl and make her like you actually very simple? Read this book and find out the best ways to attract the girl of your dreams. You'd be surprised that even simple things can actually go a long way in getting a girl's attention, and eventually, her heart!
