Relating Difficulty D. Charles Kirkpatrick 2013-09-13 *Relating Difficulty* offers insight into the nature of difficulty in relationships across a broad range of human experience. Whether dealing with in-laws or ex-spouses, long-distance relationships or power and status in the workplace, difficulty is an all too common feature of daily life. *Relating Difficulty* brings the academic understanding of relational processes to the everyday problems people face at home and at work. These essays represent a groundbreaking collection of the multidisciplinary conceptual and empirical work that currently exists on the topic. Along with issues such as chronic illness and money problems, contributors investigate contexts of relational difficulty ranging from everyday gossip, the workplace and shyness to more dangerous sexual "hookups" and partner abuse. Drawing on evidence presented in the volume, editors D. Charles Kirkpatrick, Steve Duck, and Megan K. Foley explain how relational problems do not emerge solely from individuals or even from the relationship itself. Instead, they arise from triangles of connection and negotiation between relational partners, contexts, and outsiders. The volume challenges the simple notion that relating difficulty is just about problems with "difficult people" and offers some genuinely novel insights into a familiar everyday experience. This exceptional volume is essential reading for practitioners, researchers and students of relationships across a wide range of disciplines as well as anyone wanting greater understanding of relational functioning in everyday life and at work.

Emotional Relationships Changiz Mohiyeddini 2021-04 Undoubtedly, emotional relationships, as a description of the emotional bond between any two individuals or between an individual and an animal or an object, are one of the most challenging ontogenetic and developmental tasks. Hence, the main purpose of the present edition is to discuss crucial issues related to emotional relationships. The initial chapter provides the reader with a brief introduction into key aspects of emotions that delineate their high degree of importance to humans and their wide range of functions as a highly complex phenomenon. As emotions can be overpowering and become debilitating and intrusive in daily life, thus, the ability to effectively regulate emotions is paramount as it serves as a protective factor against emotional distress. Considering the fact that emotions have a crucial impact on all levels of our work life, Chapter Seven focuses on managing emotions in the workplace, followed by a review on emotional intelligence (Chapter Eight) that recognizes the individual differences in processing and managing emotions in everyday life. Chapter Nine reviews the growing interest in utilizing human-animal relationships for enhancing physical and emotional well-being. Wolf and Brown explore the nature of the life-enhancing relationship between humans and animals and describes the Animal Assisted Play Therapy Program as one illustration of how the human-animal bond may facilitate well-being and can be the foundation for building other relationships.

Couples and Relationships Saveta Draganic Gajic 2018 *Couples and Relationships: Individual and Relational Challenges* discuss the complex connection of individual factors (the personality of a partner) and the couple's relational dynamic from different theoretical and therapeutic perspectives. It takes into account the influence of context (culture, social factors) and personality traits in the assessment of a couple, as well as a review of multiple levels of intervention (from individual to relational therapy) in the therapeutic approach. The topics are processed in line with the latest advances in psychology, psychiatry and psychotherapy, with an emphasis on the need for connection with the practice itself, along with guidelines for experts with different profiles who are working with couples. The content of book cover further the following themes: Relationships - the chances and challenges for an individual (the focus concerns the meaning of love in relationships, specificities of so-called "healthy marriages", components and mechanisms of healing and the destructive power of relationships, as well as the relational problems connected with it); the individual - the chances and challenges for a relationship (the relationship between the personality structure and a partner's choice, and the dyadic relationship); diagnostic dimensions in the appraisal of couples in crises (the influence of personality traits, personality disorders and attachment style on the couple's relationship); therapeutic approaches and possibilities during work with couples in crisis; and the education of experts in the treatment of couples. The modern age, with its varying perspectives on the understanding of the phenomenon of closeness and love in a relationship, presents a challenge not only for the couples, but for the experts dealing with couples in crisis as well. The authors believe that integration of multiple levels in the assessment of a couple (from intrapsychic to the relational), as well as different approaches in couples therapy today, are a necessity which requires significant flexibility to go along with the knowledge and experience of the therapists themselves. This book is meant for experts of the new age who are working with couples (psychotherapists, psychologists, social workers, psychiatrists, etc.), taking into account contemporary partner themes and gives guidelines for professional and personal development of an expert faced with the challenges of the individual, relational and cultural context in a partner dynamic and the therapeutic approach of a couple. The authors have a rich clinical history of practice in working with individuals, individual psychopathology, working with couples, and the education and training of students of medicine, psychology and education in systematic family therapy. Apart from that, the authors are university professors, as well as authors of numerous publications printed in foreign and domestic magazines as well as university textbooks, with decades of experience working in a common multidiscipline team.

Challenge of the Heart John Welwood 1985-10-12 This powerful collection of essays by such notables as D. H. Lawrence, Robert Bly, Anne Morrow Lindbergh, and Rainer Maria Rilke focuses on the challenges of love between men and women, addressing the questions and difficulties arising for people in relationships today. Anyone who is, has been, or hopes to be in an intimate relationship with a person of the opposite sex will find this book "must" reading. The first group of essays deals with the contradictions and possibilities inherent in erotic love, leading to the question posed in the next section: What do men and women really want? The contributors then explore marriage as an ongoing path of personal transformation. That opens into a look at sexuality itself as an especially vivid meeting of two different worlds. The book closes with a group of writings that consider relationship as a vehicle for developing power, wisdom, and inner truth. Carefully selected, threaded together by Welwood's insightful commentary, the essays presented here approach the challenge of intimacy with bravery and gentleness, inspiring the reader toward becoming a "warrior of the heart."

Power Relationships Andrew Sobel 2014-01-13 *The Relationship Laws that Drive Success* There are powerful but invisible laws that determine whether your relationships —with your clients, colleagues, and friends—will thrive or wither. These relationship laws are ever-present. When you align with them, the results are dramatic. Your network will grow rapidly. You'll be seen by clients as a trusted partner rather than an expense to be managed. And you'll find the people around you eager to help you succeed. When you ignore the laws, however, your efforts will falter. Relationship building will seem like very hard work. *Power Relationships* gives readers a unique, entertaining guide to relationship success at work and in life. Each of the 26 laws is illustrated and explained using a compelling, real-life story that shows how to implement it. The second section of the book presents 16 common relationship challenges with specific solutions. You'll read about: The top Citigroup executive whose relationship with a CEO was changed forever on a business trip that exploded into chaos, and how you can use the same principle to deepen your own relationships. The philanthropist who, on the verge of being mugged in a dark parking lot, learns how his actions have had an unimaginable ripple effect across several generations How one of the authors flew halfway around the world and used Law 18—"Make them curious"—to turn a make-or-break, five-minute meeting with a top executive into a long-term relationship. The chance encounter on an airplane with a famous actor that revealed a simple but profound truth. It's Law 25: "Build your network before you need it." Sobel (author of *Clients for Life*, *All for One*, and *Power Questions (with Panas)*)

and Panas (author of *Asking and Supremely Successful Selling*) have sold over half a million books and are the leading authorities in their field. *Power Relationships* is a unique, road-tested guide to relationship success.
