**Posthumanism and the Graphic Novel in Latin America** - Edward King 2017-07-03

Latin America is experiencing a boom in graphic novels that are highly innovative in their conceptual play and their reworking of the medium. Inventive artwork and sophisticated scripts have combined to satisfy the demand of a growing readership, both at home and abroad.

*Posthumanism and the Graphic Novel in Latin America*, which is the first book-length study of the topic, argues that the graphic novel is emerging in Latin America as a uniquely powerful force to explore the nature of twenty-first century subjectivity. The authors place particular emphasis on the ways in which humans are bound to their non-human environment, and these ideas are productively drawn out in relation to posthuman thought and experience. The book draws together a range of recent graphic novels from Argentina, Brazil, Chile, Mexico and Uruguay, many of which experiment with questions of transmediality, the representation of urban space, modes of perception and cognition, and a new form of ethics for a posthuman world. Praise for *Posthumanism and the Graphic Novel in Latin America* '...well-referenced and... well considered - the analyses it brings are overall well-executed and insightful...' *Image and Narrative*, Jan 2018, vol 18, no 4

**The Unruly Woman** - Kathleen Rowe Karlyn 2011-01-20

Unruly women have been making a spectacle of themselves in film and on television from Mae West to Roseanne Arnold. In this groundbreaking work, Kathleen Rowe explores how the unruly woman—often a voluptuous, noisy, joke-making rebel or "woman on top"—uses humor and excess to undermine patriarchal norms and authority. At the heart of the book are detailed analyses of two highly successful unruly women—the comedian Roseanne Arnold and the Muppet Miss Piggy. Putting these two figures in a deeper cultural perspective, Rowe also examines the evolution of romantic film comedy from the classical Hollywood period to the present, showing how the comedic roles of actresses such as Katharine Hepburn, Barbara Stanwyck, and Marilyn Monroe offered an alternative, empowered image of women that differed sharply from the "suffering heroine" portrayed in classical melodramas.

**Edible Insects** - Arnold van Huis 2013

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

**Pluriverse** - Ashish Kothari 2019

This is a collection of over a hundred essays on alternatives to the dominant processes of globalized development, including its structural roots in modernity, capitalism, state domination, and masculinist values. The book presents views and practices from around the world in a collective search for an ecologically and socially just world.

**Understanding Media** - Marshall McLuhan 2016-09-04

When first published, Marshall McLuhan's *Understanding Media* made

history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

**Tales from the Pit** - David G. Schwartz 2016

Dealing in a casino presents challenges and rewards not seen in many workplaces. With hundreds of thousands of dollars at stake every minute, table games pits are high-stress workplaces. Managing a workforce of dealers and attending to the needs of players brings stresses of its own. In 2015, the University of Nevada, Las Vegas's Center for Gaming Research received a grant from the UNLV University Libraries Advisory Board that enabled it to undertake an oral history project intended to capture the stories of table games managers, including both those currently working in the field and those who have retired. Drawn from these interviews, *Tales from the Pit* provides an overview of how the interviewees felt about a variety of topics, ranging from their experiences breaking in as new dealers to their transitions to management and the changes the industry has seen over their careers. The current and former managers speak candidly about the owners, bosses, dealers, and players who made each day challenging. This book illuminates the past several decades of casino history through the words of those who lived and made it.

**Food at Work** - Christopher Wanjek 2005

This volume establishes a clear link between good nutrition and high productivity. It demonstrates that ensuring that workers have access to nutritious, safe and affordable food, an adequate meal break, and decent conditions for eating is not only socially important and economically viable but a profitable business practice, too. *Food at Work* sets out key points for designing a meal program, presenting a multitude of "food solutions" including canteens, meal or food vouchers, mess rooms and kitchenettes, and partnerships with local vendors. Through case studies from a variety of enterprises in twenty-eight industrialized and developing countries, the book offers valuable practical food solutions that can be adapted to workplaces of different sizes and with different budgets.

**All that is Solid Melts Into Air** - Marshall Berman 1983

The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

**Global Crisis, Local Voices** - Gabriele Piazza 2019-04-01

In an interconnected and globalized world, the voices of the local communities struggle to make themselves heard on the international stage. But many issues that arise within international relations have consequences for ordinary lives and are therefore closely connected. Climate change, warfare and migration are all examples of this. They are often discussed in abstract terms with relation to international diplomacy, but threaten the actual livelihoods of small communities and ordinary people. This was the setting of the conference 'Global Crisis, Local Voices', held in May 2018. This journal is a compilation of the papers presented at that conference, which was the second 'DEN International Student Conference'. The conference and this publication is one of the many projects that the Democratic Education Network (DEN) is responsible for since its launch in 2016. This book is a collection of diverse works, all written by student authors from a range of different universities. From Democracy and Ideology, to Climate Change and China, it covers numerous concepts, ideas and geographical regions, that are often found in the studies of Politics and International Relations. This book is the result of passion and hard work from all students involved in its production and it is a project that we in DEN are incredibly proud of and hope to continue in the future. "I encourage you to read these publications to catalyse views in you that stimulate great debate that helps you become part of the compassionate, progressive and responsible movement of young people that will help overcome injustices in the world and make the world a better place." Dr Peter Bonfield OBE FEng Vice-Chancellor and President University of Westminster

Comedy and Distinction - Sam Friedman 2014-04-24

This book was shortlisted for the 2015 BSA Philip Abrams Memorial Prize. Comedy is currently enjoying unprecedented growth within the British culture industries. Defying the recent economic downturn, it has exploded into a booming billion-pound industry both on TV and on the live circuit. Despite this, academia has either ignored comedy or focused solely on analysing comedians or comic texts. This scholarship tends to assume that through analysing an artist's intentions or techniques, we can somehow understand what is and what isn't funny. But this poses a fundamental question - funny to whom? How can we definitively discern how audiences react to comedy? *Comedy and Distinction* shifts the focus to provide the first ever empirical examination of British comedy taste.

Drawing on a large-scale survey and in-depth interviews carried out at the Edinburgh Festival Fringe, the book explores what types of comedy people like (and dislike), what their preferences reveal about their sense of humour, how comedy taste lubricates everyday interaction, and how issues of social class, gender, ethnicity and geographical location interact with patterns of comic taste. Friedman asks: Are some types of comedy valued higher than others in British society? Does more 'legitimate' comedy taste act as a tangible resource in social life - a form of cultural capital? What role does humour play in policing class boundaries in contemporary Britain? This book will be of interest to students and scholars of sociology, social class, social theory, cultural studies and comedy studies.

Evictions - Rosalyn Deutsche 1996

Since the 1980s a great deal has been written about the relationship between art, architecture, and design, on the one hand, and the city or social space on the other. In *Evictions* Rosalyn Deutsche investigates the dominant uses of this interdisciplinary discourse, exploring topics that range from public art and homelessness to the repression of feminism in critical theories of public space. The book also intervenes in debates taking place in art, architecture, and urban studies about the meaning of public space, and places these struggles within broader contests over the definition of democracy. Opposing the nostalgic belief that democracy's survival demands a return to the ideal of a unitary public sphere, Deutsche contends that plurality and conflict, far from undermining public space, are the conditions of its possibility and extension.

*The Darker Side of Western Modernity* - Walter Dignolo 2011-12-16

DIVA new and more concrete understanding of the inseparability of colonialism and modernity that also explores how the rhetoric of modernity disguises the logic of coloniality and how this rhetoric has been instrumental in establishing capitalism as the econ/div

**The Popol Vuh** - Lewis Spence 2019-11-13

Transcribed from the original Mayan hieroglyphs, the *Popol Vuh* relates the mythology and history of the Kiché people of the Guatemalan Highlands of Central America. As is often the case with ancient texts, the *Popol Vuh*'s significance lies in the scarcity of early accounts of Mesoamerican cultures, largely due to the purging of documents by the Spanish conquistadors. Today there remains no document of greater importance to the study of pre-Columbian mythology. This text of the *Popol Vuh* — which is translated variously as "Book of the Community," "Book of Counsel," or, more literally, "Book of the People" — begins as pure mythology and gradually develops into pure history, progressing from heroic legends to the deeds of authentic historical figures. It tells of the gods who created mankind, as well as a great flood and other stories with intriguing parallels to the myths of different cultures. This edition features the classic translation by the distinguished folklorist Lewis Spence.
