All the Light We Cannot See Anthony Doerr 2014-05-06 \*NOW A NETFLIX LIMITED SERIES—from producer and director Shawn Levy (Stranger Things) starring Mark Ruffalo, Hugh Laurie, and newcomer Aria Mia Loberti\* Winner of the Pulitzer Prize and National Book Award finalist, the beloved instant New York Times bestseller and New York Times Book Review Top 10 Book about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris, and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure’s reclusive great uncle lives in a tall house by the sea. With them they carry what might be the museum’s most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the Resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure’s converge. Doerr’s “stunning sense of physical detail and gorgeous metaphors” (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in

*The Model* Harlow Layne 2023-07-31 The moment I heard Ryder's voice I was a goner. As a photographer, I was used to working with beautiful people, but Ryder Williams was the most perfect male specimen that had ever stood before me. I knew without a doubt it would take no time at all for him to be the next big thing... or for him to steal my heart. Model and photographer, we shouldn't cross that line, but there was no stopping the passion we felt. Nothing else mattered. Not the age difference. Not that he was a client. Not even our pasts. After my assistant caught us together, he was gone. I tried to put him out of my head, until fate threw him back into my life and my bed. Time and time again we're brought together, should I keep fighting or finally accept what my heart

*Bloodmoon Cove Spirits Series, Book 7: Bone of My Bone* Karen Wiesner 2023-08-31 Nestled on Lake Superior in northern Wisconsin is a small, secluded town called Bloodmoon Cove with volatile weather, suspicious folk...and newly awakened ghosts. Don't close your eyes... How to bury what won't stay dead...? When Bennet Ryan was eight years old, he met Ice and fell for her. Yet who Ice was and where she came from was an enigma she adamantly concealed. When they were 19, Bennet demanded she entrust her secrets to him or he'd move on. Every year since he met her, she'd disappeared at the end of September. After Bennet left her, he'd worried she wouldn't come back within two weeks the way she always had before. His worst fear materialized when she didn't return. Now, at 20, Bennet is the new deputy sheriff in Erie County. Still grieving a year after her disappearance, he's floored when Ice reappears. As they fall in love all over again, September is approaching rapidly. Bennet is compelled to solve the mystery of Ice. The deeper he delves, the more certain he is that the hole the Mino-Miskwi elders tore in the veil between the living and the dead a century ago has created a maelstrom of twisted horror. How can he possibly save the woman he loves from an entity that wears the name of creation's first murderer, bears an immortal seal, and made a pact with the devil himself?

**Medical Heroes and Heretics** Wayne Martin 1977 Orthodox science -- particularly in the medical profession -- has for centuries resisted change. It traces back at least as far as Socrates who was done to death for corrupting youth with his innovative ideas. In recent times, practically all the great advances in medicine have been made against a powerfully entrenched orthodoxy. Wayne Martin's book is about some of the men involved -- then and now: Oliver Wendell Holmes, Sr., who made physicians wash their hands; Louis Pasteur, who postulated the connection between bacteria and certain diseases; Frederick Banting, who discovered insulin; Jonas Salk, who solved the mystery of polio, to mention but a few. These men all braved the wrath of the medical establishment of their day. Heretics they were, but Heroes they became. Similarly, today a group of brave pioneers are fighting the same fight. They are, says the author, the heroes of tomorrow: Ernst Krebs, Jr., Evan Shute, Dean Burk, Denis Burkitt, Virginia Livingston and a dozen others, all of whose careers and findings are described here by a man who has pursued his topic for the past ten years.

Woodcutter's Grim, the Guardians have sworn an oath to protect the town from the childhood horrors that lurk in the black woods. Without them, the town would be defenseless...and the terrors would escape to the world at large. Loosely based on "Little Snow White" by the Brothers Grimm. The year is 2093. When the evil in Woodcutter's Grim unleashed with a vengeance fifty years ago, humans turned into ghouls that avoided the sun and water...and had the innate instinct to contaminate others with their evil. In no time at all, the evil spread and wiped out most of the world's population before the Protectorate--the guardians sworn to protect Woodcutter's Grim and those outside against the evil pervading it--came up with a way to hold the threat at bay, not completely but enough to save those few left. In these years, everything has changed, from occupations to marriage. A curfew has been imposed and all live within the heavily-fortressed walls on the Shaussegeny Estate. Few children are born and those that are have a mutated form of dwarfism that makes them barren. Protectorate hunters patrol the world outside in the daylight. They are the last of humanity with no idea how much future they actually have left. Unofficial Guardian and hunter, Reece Pallaton, wonders what it's all for and whether he'll lose everyone he cares about in this endless battle. Fellow Protectorate Brethren, Mishell "Shell" Anderson insists that they can find a cure, a way to survive and push back the evil, that life will someday go back to normal. But Reece is beginning to believe that the battle he and what's left of humanity are waging can never be won...until he discovers the source of the evil, the mirror that's only the opposite half of the "glass darkly" world he lives in, and his own terrifying connection to both.
