**Get the Message?** Lucy R. Lippard 1984

**Ulysses** James Joyce 2022-10-19 Loosely based on the Odyssey, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

**The Cambridge Companion to Hip-Hop** Justin A. Williams 2015-02-12 This Companion covers the hip-hop elements, methods of studying hip-hop, and case studies from Nerdcore to Turkish-German and Japanese hip-hop.

**Broken Greek** Pete Paphides 2020 \*AS READ ON BBC RADIO 4 'BOOK OF THE WEEK'\* 'Lip-lickingly, dance-around-the-living-room good... A smash hit' Observer 'Unflinching and heartwarming' - Adam Kay 'Tender, clever and as funny as it gets ... a heart-piercing joy' - Lauren Laverne 'An exceptional coming-of-age story [...] Pete Paphides may very well have the biggest heart in Britain' - Marina Hyde 'I ADORE this utterly wonderful coming-of-age memoir. Joyful, clever, and a bit heartbreaking' - Nina Stibbe 'Heartfelt, hilarious and beautifully written, Broken Greek is a childhood memoir like no other' - Cathy Newman 'So wonderfully written, such a light touch. Drenched in sentiment yet not in the least sentimental' - John Niven 'It's brilliant. Sad, really funny and beautifully written ... just fantastic' - Alexis Petridis 'A truly beautiful book' - James O'Brien 'Intoxicating' - Kirsty Wark 'Oh, how I love Pete Paphides and this book' - Daniel Finkelstein 'A balm in these times' David Nicholls 'Fantastic ... Can't recommend it highly enough' Tim Burgess \_\_\_\_\_ 'Do you sometimes feel like the music you're hearing is explaining your life to you?' When Pete's parents moved from Cyprus to Birmingham in the 1960s in the hope of a better life, they had no money and only a little bit of English. They opened a fish-and-chip shop in Acocks Green. The Great Western Fish Bar is where Pete learned about coin-operated machines, male banter and Britishness. Shy and introverted, Pete stopped speaking from age 4 to 7, and found refuge instead in the bittersweet embrace of pop songs, thanks to Top of the Pops and Dial-A-Disc. From Brotherhood of Man to UB40, from ABBA to The Police, music provided the safety net he needed to protect him from the tensions of his home life. It also helped him navigate his way around the challenges surrounding school, friendships and phobias such as visits to the barber, standing near tall buildings and Rod Hull and Emu. With every passing year, his guilty secret became more horrifying to him: his parents were Greek, but all the things that excited him were British. And the engine of that realisation? 'Sugar Baby Love', 'Don't Go Breaking My Heart', 'Tragedy', 'Silly Games', 'Going Underground', 'Come On Eileen', and every other irresistibly thrilling chart hit blaring out of the chip shop radio. Never have the trials and tribulations of growing up and the human need for a sense of belonging been so heart-breakingly and humorously depicted. \*Listen along with Pete's BROKEN GREEK playlist on Spotify!\*

**Martin Luther King Jr.'s Opposition to the War in Vietnam** Henry E. Darby 2018-10-26 "The ultimate measure of a man is not where he stands in moments of convenience and in moments of comfort, but where he stands in moments of challenge and moments of controversy" (Martin Luther King Jr.). The purpose of Martin Luther King Jr.'s Opposition to the War in Vietnam is to investigate and describe King's involvement within the Vietnam War and the critical responses that followed. His speaking out against the conflict was not spontaneous; he deliberated two years before doing so. As early as 1965, he made mention of the war, but because of criticisms from senior officials in the civil rights movement, he postponed his efforts. However, on April 4, 1967, he gave his "Beyond Vietnam" speech, which outlined his position on the war. Criticisms were many and severe, ranging from some of his closest associates to that of the Johnson administration. Martin Luther King Jr.'s Opposition to the War in Vietnam is the first published book that deals solely with King's involvement within the Vietnam crisis.

**Preaching about Racism** Carolyn B. Helsel 2018-12-04 Equipping pastors to address racism faithfully from the pulpit. Of all the activities that come with being a minister, sermon preparation can loom largest - especially when racism is the subject. You've got to address racism with your white congregation from the pulpit. But, truthfully, you can't wrap your head around how to preach about this topic thoughtfully and sensitively. In Preaching about Racism, preaching professor and pastor Carolyn Helsel speaks directly to other faith leaders about how to address racism from the pulpit. In her first book, Anxious to Talk about It: Helping White Christians Talk Faithfully about Racism, Helsel addressed the anxiety white Christians experience around conversations about race. In this follow-up, Helsel provides strategies and a theoretical framework for crafting biblical and theological sermons that incorporate insights from social sciences and psychology, gleaned from more than a decade of writing and teaching about racism. Written for the busy pastor, several chapters are quick reads - helpful reminders as you prepare a thoughtful and sensitive sermon - while others dig deeper on the theory behind the crucial work of dismantling racism.

**The New Modernist Studies** Douglas Mao 2021-02-04 The first book specifically devoted to the history and prospects of the new modernist studies.

**Fonthill Recovered** Caroline Dakers 2018-05-16 Fonthill, in Wiltshire, is traditionally associated with the writer and collector William Beckford who built his Gothic fantasy house called Fonthill Abbey at the end of the eighteenth century. The collapse of the Abbey's tower in 1825 transformed the name Fonthill into a symbol for overarching ambition and folly, a sublime ruin. Fonthill is, however, much more than the story of one man's excesses. Beckford's Abbey is only one of several important houses to be built on the estate since the early sixteenth century, all of them eventually consumed by fire or deliberately demolished, and all of them oddly forgotten by historians. Little now remains: a tower, a stable block, a kitchen range, some dressed stone, an indentation in a field. Fonthill Recovered draws on histories of art and architecture, politics and economics to explore the rich cultural history of this famous Wiltshire estate. The first half of the book traces the occupation of Fonthill from the Bronze Age to the twenty-first century. Some of the owners surpassed Beckford in terms of their wealth, their collections, their political power and even, in one case, their sexual misdemeanours. They include Charles I's Chancellor of the Exchequer, and the richest commoner in the nineteenth century. The second half of the book consists of essays on specific topics, filling out such crucial areas as the complex history of the designed landscape, the sources of the Beckfords' wealth and their collections, and one essay that features the most recent appearance of the Abbey in a video game.

**Inventing Maternity** Susan C. Greenfield 2021-10-21 Not until the eighteenth century was the image of the tender, full-time mother invented. This image retains its power today. *Inventing Maternity* demonstrates that, despite its association with an increasingly standardized set of values, motherhood remained contested terrain. Drawing on feminist, cultural, and postcolonial theory, *Inventing Maternity* surveys a wide range of sources—medical texts, political tracts, religious doctrine, poems, novels, slave narratives, conduct books, and cookbooks. The first half of the volume, covering the mid-seventeenth to the late eighteenth centuries, considers central debates about fetal development, pregnancy, breastfeeding, and childbearing. The second half, covering the late eighteenth to the mid-nineteenth centuries, charts a historical shift to the regulation of reproduction as maternity is increasingly associated with infanticide, population control, poverty, and colonial, national, and racial instability. In her introduction, Greenfield provides a historical overview of early modern interpretations of maternity. She concludes with a consideration of their impact on current debates about reproductive rights and technologies, child custody, and the cycles of poverty.

*Excavate!* Tessa Norton 2021-03-30 THE LOUDER THAN WAR #1 BOOK OF THE YEAR A ROUGH TRADE, THE TIMES, MOJO, UNCUT, THE HERALD BOOK OF THE YEAR This is not a book about a rock band. This is not even a book about Mark E Smith. This is a book about The Fall group - or more precisely, their world. 'To 50,000 Fall Fans: please buy this inspired & inspiring, profound & provocative, beautiful & bonkers Book of Revelations.' DAVID PEACE 'Mind blowing . . . there is so much to enjoy in this brilliant book.' TIM BURGESS 'A container sized treasure trove . . . I strongly advise you to buy it.' MAXINE PEAKE 'The most wonderful, unashamedly intellectual, pretentious, ridiculous, exciting hymn to this incredible group.' ANDY MILLER, BACKLISTED Over a prolific forty-year career, the Fall created a world that was influential, idiosyncratic and fiercely original - and defied simple categorisation. Their frontman and lyricist Mark E. Smith spun opaque tales that resisted conventional understanding; the Fall's worldview was an education in its own right. Who wouldn't want to be armed with a working knowledge of M. R. James, shipping-dock procedures, contemporary dance, Manchester City and Can? The group inspired and shaped the lives of those who listened to and tried to make sense of their work. Bringing together previously unseen artwork, rare ephemera and handwritten material, alongside essays by a slate of fans, EXCAVATE! is a vivid, definitive record - an illumination of the dark corners of the Fall's wonderful and frightening world.

*Nietzsche and the Rhetoric of Nihilism* Tom Darby 1989 New readings and perspectives on Nietzsche's work are brought together in this collection of essays by prominent scholars from North America and Europe. They question whether Nietzsche's work and the conventional interpretation of it is rhetorical and nihilistic.

*Adult Webcam Studio 101 - a Money Making Guide for E-Pimps* Darby Jones 2017-03-09 We have all heard stories of web cam models making hundreds of thousands of dollars, but what are opportunities are there for technically minded guys (and girls) who would prefer to be managers than performers? Running a professional studio requires a great deal of expertise but is ideally suited to somebody with a background in computing. No matter whether you are an acknowledged Stack Overflow expert or an anonymous coward that lurks among the Slashdot trolls, becoming a web cam studio owner is a great way to become your own boss. This book is a how-to guide on getting started before your current job is outsourced to Bangalore or replaced completely by artificial intelligence algorithms. From selecting a location to recruiting models, this book will guide you through the process of setting up a fully functioning studio anywhere in the world. It explains all the equipment that you will need to get started as well as how to train your models and get the very best out of each one. There is a full chapter on the increasingly complex areas of model marketing and branding, as well as a very detailed look at the vast potential of off-line profits, ranging from custom videos and personalised picture sets to fetish exotica, such 'burusera' underwear sales and intimately flavoured pussy pops. The demand for model related products will certainly make your eyes pop. It also takes an indepth look at subjects such as teledildonics and virtual reality. This book is unique in that it even anticipates the death of the camgirl, explaining how they are quickly being replaced by AI-powered, digital chatbots. The author uses his own wide ranging experience and unique perspective to reveal one of the most profitable new industries of the new millennium.

**War in Human Civilization** Azar Gat 2008 In this truly global study, Azar Gat sets out to unravel the 'riddle of war' throughout human history, from the early hunter-gatherers right through to the unconventional terrorism of the twenty-first century.

**Punk 57** Penelope Douglas 2016 "MISHA I can't help but smile at the lyrics in her letter. She misses me. In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other teacher paired me up with her student, Ryen. My teacher, believing Ryen was a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything. The best take-out pizza. Android vs. iPhone. Whether or not Eminem is the greatest rapper ever... And that was the start. For the next seven years, it was us. Her letters are always on black paper with silver writing. Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules. No social media, no phone numbers, no pictures. We had a good thing going. Why ruin it? Until I run across a photo of a girl online. Name's Ryen, loves Gallo's pizza, and worships her iPhone. What are the chances? F\*ck it. I need to meet her. I just don't expect to hate what I find. RYEN He hasn't written in three months. Something's wrong. Did he die? Get arrested? Knowing Misha, neither would be a stretch. Without him around, I'm going crazy. I need to know someone is listening. It's my own fault. I should've gotten his phone number or picture or something. He could be gone forever. Or right under my nose, and I wouldn't even know it. \*Punk 57 is a stand alone New Adult romance. It is suitable for ages 18+."--Amazon.com

**Liberty Hill's Vietnam Fighting Men** Henry E. Darby 2013-11 Liberty Hill's Vietnam Fighting Men is an interesting chronicle of eight African Americans who were killed in Vietnam. It also features four selected veterans with each giving an oral history of varying perspectives of the war, ranging from "I never felt I would get killed" to "I killed many." The Liberty Hill community sent the unbelievable number of sixty-four of its residents to Southeast Asia to fight in Vietnam. The reader will find Liberty Hill's Vietnam Fighting Men to be a remarkable narrative of the contribution of Liberty Hill to the United States Armed Forces, specifically, and to the nation, generally, during the Vietnam War.

**Singapore in Global History** Derek Thiam Soon Heng 2011 This important overview explores the connections between Singapore's past with historical developments worldwide until present day. The contributors analyse Singapore as a city-state seeking to provide an interdisciplinary perspective to the study of the global dimensions contributing to Singapore's growth. The book's global perspective demonstrates that many of the discussions of Singapore as a city-state have relevance and implications beyond Singapore to include Southeast Asia and the world. This vital volume should not be missed by economists, as well as those interested in imperial history.

*Pagan Portals - Herbs of the Sun, Moon and Planets* Steve Andrews 2016-05-27 Pagan Portals - Herbs of the Sun, Moon and Planets combines herbalism with astrology and explains how the ancient herbalists like Culpeper assigned specific herbs to planetary rulers. Various characteristics were used to decide what planet ruled particular herbs. Mars is the God of War and herbs that have this planet as their ruler display aggressive properties and appearance, such as thorns or red berries or sap. Dragon trees have red resin known as Dragon's Blood. The book is divided into sections for each group of herbs. So there are seven divisions for herbs of the Sun, Moon, Mars, Venus, Mercury, Jupiter and Saturn, each containing seven herbs. Herbs of the Sun, Moon and Planets will be essential reading for herbalists and gardeners, and will also appeal to those with a general interest in the occult and astrology.

*The Female Thermometer* Terry Castle 1995 A collection of the author's essays on the history and development of female identity from the 18th to the early 20th centuries. Throughout the book are woven themes which

are constant in Castle's work: fantasy, hallucination, travesty, transgression and sexual ambiguity.

*Thought X* Robin Ince 2017-04-20 Featuring leading scientists acting as consultants on the stories, and writing scientific afterwords, bringing the theory featured in the stories to life, including Prof. Sarah Bridle (Jodrell Bank), Prof. Jonathan Wolff and Prof. Frank Jackson (the inventor of the 'Mary's Room' thought experiment). Science is always telling stories. Whether in the creation myths of evolution or the Big Bang, or in the eureka moments of science history, narrative – just as much as metaphor – is a key tool in the scientist's surprisingly literary toolkit. Perhaps the most interesting use of story is the thought experiment, the intuition pump, that draws on the most instinctive parts of the imagination to crack otherwise perplexing problems. From Newton's Bucket, to Maxwell's Demon, from Einstein's Lift to Schrödinger's Cat – all are examples of 'fiction' being used at the highest level, not just to explain, but to deduce, to prove. In this unique anthology, authors have collaborated with leading scientists, to bounce literary, human narratives against purely theoretical ones, alloying together real stories with abstract ones, to produce truly extraordinary results. Full list of thought experiments: The Twin Paradox, The Grandfather Paradox, Maxwell's Demon, Laplace's Demon, Mary's Room, The Chinese Room, Schrödinger's Cat, Galileo's Boat, The Infinite Monkey Typing Pool, Einstein in a Lift, Einstein Chasing a Beam of Light, Newton's Bucket, Olber's Paradox.

*The Barbarian's Beverage* Max Nelson 2005-02-25 There has been a very long and rich European beer-making tradition which developed independently of any traditions in the Middle East or Egypt. This text demonstrates the important technological as well as ideological contributions made by the Europeans to the history of beer.

*African Conflicts and Informal Power* Mats Utas 2012-09-13 In the aftermath of an armed conflict in Africa, the international community both produces and demands from local partners a variety of blueprints for reconstructing state and society. The aim is to re-formalize the state after what is viewed as a period of fragmentation. In reality, African economies and polities are very much informal in character, with informal actors, including so-called Big Men, often using their positions in the formal structure as a means to reach their own goals. Through a variety of in-depth case studies, including the DRC, Sierra Leone and Liberia, this comprehensive volume shows how important informal political and economic networks are in many of the continent's conflict areas. Moreover, it demonstrates that without a proper understanding of the impact of these networks, attempts to formalize African states, particularly those emerging from wars, will be in vain.

**Herbs of the Northern Shaman** Steve Andrews 2000

*Fun and Software* Olga Goriunova 2014-08-28 Fun and Software offers the untold story of fun as constitutive of the culture and aesthetics of computing. Fun in computing is a mode of thinking, making and experiencing. It invokes and convolutes the question of rationalism and logical reason, addresses the sensibilities and experience of computation and attests to its creative drives. By exploring topics as diverse as the pleasure and pain of the programmer, geek wit, affects of play and coding as a bodily pursuit of the unique in recursive structures, Fun and Software helps construct a different point of entry to the understanding of software as culture. Fun is a form of production that touches on the foundations of formal logic and precise notation as well as rhetoric, exhibiting connections between computing and paradox, politics and aesthetics. From the formation of the discipline of programming as an outgrowth of pure mathematics to its manifestation in contemporary and contradictory forms such as gaming, data analysis and art, fun is a powerful force that continues to shape our life with software as it becomes the key mechanism of contemporary society. Including chapters from leading scholars, programmers and artists, Fun and Software makes a major contribution to the field of software studies and opens the topic of software to some of the most pressing concerns in contemporary theory.

**The Managed Heart** Arlie Russell Hochschild 2012-03-31 In private life, we try to induce or suppress love, envy, and anger through deep acting or "emotion work," just as we manage our outer expressions of feeling through surface acting. In trying to bridge a gap between what we feel and what we "ought" to feel, we take guidance from "feeling rules" about what is owing to others in a given situation. Based on our private mutual understandings of feeling rules, we make a "gift exchange" of acts of emotion management. We bow to each other not simply from the waist, but from the heart. But what occurs when emotion work, feeling rules, and the gift of exchange are introduced into the public world of work? In search of the answer, Arlie Russell Hochschild closely examines two groups of public-contact workers: flight attendants and bill collectors. The flight attendant's job is to deliver a service and create further demand for it, to enhance the status of the customer and be "nicer than natural." The bill collector's job is to collect on the service, and if necessary, to deflate the status of the customer by being "nastier than natural." Between these extremes, roughly one-third of American men and one-half of American women hold jobs that call for substantial emotional labor. In many of these jobs, they are trained to accept feeling rules and techniques of emotion management that serve the company's commercial purpose. Just as we have seldom recognized or understood emotional labor, we have not appreciated its cost to those who do it for a living. Like a physical laborer who becomes estranged from what he or she makes, an emotional laborer, such as a flight attendant, can become estranged not only from her own expressions of feeling (her smile is not "her" smile), but also from what she actually feels (her managed friendliness). This estrangement, though a valuable defense against stress, is also an important occupational hazard, because it is through our feelings that we are connected with those around us. On the basis of this book, Hochschild was featured in *Key Sociological Thinkers*, edited by Rob Stones. This book was also the winner of the Charles Cooley Award in 1983, awarded by the American Sociological Association and received an honorable mention for the C. Wright Mills Award.

**The Social Life of Coffee** Brian Cowan 2008-10-01 What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

**Straight** Hanne Blank 2012-01-31 It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

*Psychoanalysis of Technoscience* Hub Zwart 2019-02-20 This book presents a psychoanalysis of technoscience. Basic concepts and methods developed by Freud, Jung, Bachelard and Lacan are applied to case histories (palaeoanthropology, classical conditioning, virology). Rather than by disinterested curiosity, technoscience is driven by desire, resistance and the will to control. Moreover, psychoanalysis focusses on primal scenes (Dubois' quest for the missing link, Pavlov's discovery of the conditioned reflex) and opts for triangulation: comparing technoscience to "different scenes" provided by novels, so that Dubois's work is compared to missing link novels by Verne and London and Pavlov's experiments with Skinner's *Walden Two*, while virology is studied through the lens of viral fiction.

**The Convoluted Key** Elle Carter Neal 2020-06 A low-conflict magical mystery adventure involving good witches.

Now Sasha must choose between trusting Sexton or giving him up for good.

**The Dark Side of Samuel Pepys** Geoffrey Pimm 2018-02-28 This historical biography reveals how the famous diarist of Restoration England used his professional position to act as a sexual predator. Samuel Pepys is popularly known as the founder of the modern navy, a member of the Royal Society and, most of all, as a unique and frank diarist. Less well known is that he was a serial sexual offender by modern standards; a voyeur, a groper, and a rapist. Set against the London society of Charles II's restoration, and extensively using Pepys' own words, this book concerns his numerous extramarital affairs. It demonstrates how he used his position of power and influence to advance the careers of his subordinates—in return for the sexual favors of their wives. With his own descriptions, translated from the strange mix of languages and the seventeenth-century shorthand he used to camouflage the content, the reader witnesses in graphic detail how Pepys set about achieving his lascivious objectives - on occasion resorting to physical force where persuasion or bribery failed. Whether she be wife, daughter, mother, or humble maidservant, no woman was safe from his rapacious sexual appetite.

**The IUCN Invertebrate Red Data Book** Sue Wells 1983

*Porn After Porn* Aa. Vv. 2014-12-19T00:00:00+01:00 After the "digital turn," expansion of sexual representations has taken shape quantitatively (thanks to the multiplication of production and distribution channels) and qualitatively (giving rise to a plurality of new representational forms). In this context, several social groups - including women and non-normative sexual subcultures - have obtained full citizenship rights within the "pornosphere," moving beyond their traditional marginalization or, indeed, exclusion. These "nonconventional" pornographies exist in a dialectical relationship with mainstream production in so far as they are at the same time a development and a repudiation of the latter (on an aesthetic, economic and political level). This volume investigates the emergences of alternative pornographies, highlighting their discursive heterogeneity, their cultural status and connections to identities and non-normative practices, and their role in redefining the very idea of pornography. The publication maps the main areas relating to alternative pornographies, such as alt porn, queer pornography, indie porn, post porn, feminist pornography, and amateur porn. With a foreword by Feona Attwood
