

Global Sex

Global Woman - Barbara Ehrenreich 2003

This anthology examines the unexplored consequences of globalization on the lives of women worldwide. In a world shaped by mass migration and economic exchange on an ever-increasing scale, women are moving around the globe as never before. Every year, millions leave Mexico, Sri Lanka, the Philippines and Eastern Europe to work in the homes, nurseries and brothels of the First World - from Vietnamese mail-order brides to Mexican nannies in LA, from Thai girls in Vietnamese brothels to Czech au pairs in the UK. In the new global calculus, the female energy that flows to wealthy countries to ease a care deficit, is subtracted from poor ones, often to the detriment of the families left behind. Is the main resource now extracted from the Third World no longer gold or silver, but love?

The Global Sex Trade - Karie A. Gubbins 2015-11-26

Trafficking of women for commercial sex is the fastest growing transnational criminal phenomenon. The Global Sex Trade looks at the reality behind this shocking fact, showing how this situation has come about and how it can be changed. In a distinctive and original analysis, Karie A. Gubbins shows the connections between the legalized sex industry and the illegal world of sex trafficking. Pornography creates the demand and, increasingly, trafficking is a form of supply. The result is a mutually beneficial relationship between legal and illegal economies that has allowed the global sex trade to expand and move freely across borders in recent decades. The Global Sex Trade illuminates the economic and political forces involved in women's exploitation and outlines routes to sexual equality. It is a pioneering contribution which will spark debate among feminists and students in gender studies and sociology.

Trafficking and the Global Sex Industry - Karen Beeks 2006

Trafficking of persons (mostly women and children) for commercial sexual activities and forced labor is one of the fastest growing areas of international crime. The United Nations estimates that 4 million men, women, and children become victims of international trafficking each year. Trafficking & the Global Sex Industry focuses on the international trafficking of women and children for forced labor and prostitution. This remarkable anthology takes a broad geographical and economical perspective while also dealing with the specificities of the socio-political background, poverty, opportunity structure, legal conditions, the role of the state, gender structure, and the organization of the trafficking business. The essays create a link from country to country, demonstrating the worldwide nature of the problem. Expertly written and well researched, this collection gives the reader a clearer understanding of the problem and the actions being taken to combat it. Trafficking & the Global Sex Industry will have a broad market for readers on a national and international level, especially among those interested in political science, women's studies, international relations, and criminology.

Global Perspectives on Prostitution and Sex Trafficking - Dalla 2011-04-01

This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven geo-cultural areas of the world. Each of the chapters provides a distinct perspective from which to contemplate the global commercial sex industry as well as a spectrum of implications for continued scholarship and research, legislative maneuvers and policy change, and suggestions for collaboration across NGOs, clinicians, and service providers.

The Industrial Vagina - Sheila Jeffreys 2008-11-19

The industrialization of prostitution and the sex trade has created a multibillion-dollar global market, involving millions of women, that makes a substantial contribution to national and global economies. The Industrial Vagina examines how prostitution and other aspects of the sex industry have moved from being small-scale, clandestine, and socially despised practices to become very profitable legitimate market sectors that are being legalised and decriminalised by governments. Sheila Jeffreys demonstrates how prostitution has been globalized through an examination of: the growth of pornography and its new global

reach the boom in adult shops, strip clubs and escort agencies military prostitution and sexual violence in war marriage and the mail order bride industry the rise in sex tourism and trafficking in women. She argues that through these practices women's subordination has been outsourced and that states that legalise this industry are acting as pimps, enabling male buyers in countries in which women's equality threatens male dominance, to buy access to the bodies of women from poor countries who are paid for their sexual subservience. This major and provocative contribution is essential reading for all with an interest in feminist, gender and critical globalisation issues as well as students and scholars of international political economy.

Sex in Development - Vincanne Adams 2005-04-12

Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes "normal" sexual practices and identities. From sex education in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a "global" agenda reflecting the latest medical science. Sex in Development combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world. Men Who Sell Sex - Peter Aggleton 2014-11-13

All over the world, men as well as women exchange sex for money and other forms of reward, sometimes with other men and sometimes with women. In contrast to female prostitution, however, relatively little is known about male sex work, leaving questions unanswered about the individuals involved: their identities and self-understandings, the practices concerned, and the contexts in which they take place. This book updates the ground-breaking 1998 volume of the same name with an entirely new selection of chapters exploring health, social, political, economic and human rights issues in relation to men who sell sex. Looking at Europe, North America, Latin America and the Caribbean, Africa and the Asia-Pacific, each chapter explores questions such as: What is known about the different ways in which men exchange sex for money or other forms of reward? What are the major contexts in which sexual exchange takes place? What meanings do such practices carry for the different partners involved? What are the health and other implications of contemporary forms of male sex work? Men Who Sell Sex seeks to push the boundaries both of current personal and social understandings and the practices to which these give rise. It is an important reference work for academics and researchers interested in sex work and men's health including those working in public health, sociology, social work, anthropology, human geography and development studies.

Changes in the family

The Sexual History of the Global South - Saskia Wieringa 2013-04-11

The Sexual History of the Global South explores the gap between sexuality studies and post-colonial

cultural critique. Featuring twelve case studies, based on original historical and ethnographic research from countries in Africa, Asia, and Latin America, the book examines the sexual investments underlying the colonial project and the construction of modern nation-states. Covering issues of heteronormativity, post-colonial amnesia regarding non-normative sexualities, women's sexual agency, the policing of the boundaries between the public and the private realm, sexual citizenship, the connections between LGBTQ activism and processes of state formation, and the emergence of sexuality studies in the global South, this collection is of great geographical, historical, and topical significance.

[Sex Work, Health, and Human Rights](#) - Shira M. Goldenberg 2021-04-28

This open access book provides a comprehensive overview of the health inequities and human rights issues faced by sex workers globally across diverse contexts, and outlines evidence-based strategies and best practices. Sex workers face severe health and social inequities, largely as the result of structural factors including punitive and criminalized legal environments, stigma, and social and economic exclusion and marginalization. Although previous work has largely emphasized an elevated burden and gaps in HIV and sexually transmitted infection (STI) services in sex work, less attention has been paid to the broader health and human rights concerns faced by sex workers. This contributed volume addresses this gap. The chapters feature a variety of perspectives including academic, community, implementing partners, and government to synthesize research evidence as well as lessons learned from local-level experiences across different regions, and are organized under three parts: Burden of health and human rights inequities faced by sex workers globally, including infectious diseases (e.g., HIV, STIs), violence, sexual and reproductive health, and drug use Structural determinants of health and human rights, including legislation, law enforcement, community engagement, intersectoral collaboration, stigma, barriers to health access, im/migration issues, and occupational safety and health Evidence-based services and best practices at various levels ranging from individual and community to policy-level interventions to identify best practices and avenues for future research and interventions Sex Work, Health, and Human Rights is an essential resource for researchers, policy-makers, governments, implementing partners, international organizations and community-based organizations involved in research, policies, or programs related to sex work, public health, social justice, gender-based violence, women's health and harm reduction.

Children in the Global Sex Trade - Julia O'Connell Davidson 2005

An account of the many and varied ways in which children become involved in the sex trade, this work presents the global political and economic inequalities that underpin children's exploitation.

Global Sex Workers - Kamala Kempadoo 1998

First Published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

Global Sex - Dennis Altman 2002-09

Global Sex is the first major work to take on the globalization of sexuality, examining the ways in which desire and pleasure—as well as ideas about gender, political power, and public health—are framed, shaped, or commodified by a global economy in which more and more cultures move into ever-closer contact.

[Trafficking & the Global Sex Industry](#) - Karen D. Beeks 2006-02-28

Trafficking & the Global Sex Industry focuses on the international trafficking of women and children for forced labor and prostitution. The essays create a link from country to country, demonstrating the worldwide nature of the problem. Expertly written and well researched, this collection gives the reader a clearer understanding of the problem of human trafficking and the actions being taken to combat it.

Globalization, Prostitution and Sex Trafficking - Elina Penttinen 2007-08-07

Globalization has been traditionally interpreted as a phenomenon that takes place at the macro level and is determined by states and markets. This volume takes a different approach to understanding globalization, showing how through the global sex trade, globalization is embodied and enacted by individuals. Elina Penttinen illustrates how the global sex industry feeds on complex global flows. Drawing on extensive fieldwork on the trafficking of Russian and Baltic female sex workers, she demonstrates how the embodiment and reiteration of globalization on the bodies of gendered individuals are tied to the larger processes of globalization. Appadurai's framework of landscapes of globalization is developed into a framework of shadow sexscapes in order to show how the global sex industry feeds on complex global flows and in turn operates as a form of shadow globalization. Globalization, Prostitution and Sex Trafficking will

be of interest to students and researchers of international relations, globalization and gender studies.

[Selling Sex Overseas](#) - Ko-lin Chin 2012-09-17

Every year, thousands of Chinese women travel to Asia and the United States in order to engage in commercial sex work. In *Selling Sex Overseas*, Ko-lin Chin and James Finckenauer challenge the current sex trafficking paradigm that considers all sex workers as victims, or sexual slaves, and as unwilling participants in the world of commercial sex. Bringing to life an on-the-ground portrait of this usually hidden world, Chin and Finckenauer provide a detailed look at all of its participants: sex workers, pimps, agents, mommies, escort agency owners, brothel owners, and drivers. Ultimately, they probe the social, economic, and political organization of prostitution and sex trafficking, contradicting many of the 'moral crusaders' of the human trafficking world.

Sexuality - Jeffrey Weeks 2009-10-16

For over twenty years, *Sexuality* has provided a cutting edge introduction to debates about sexualities, gender, and intimate life. Previous editions included pioneering discussions of the historical shaping of sexuality, identity politics, the rise of fundamentalism, the social impact of AIDS, the influence of the new genetics, 'global sex', queer theory, 'sex wars', the debates about values, new patterns of intimacy, and much more. In this new edition, Jeffrey Weeks offers a thorough update of these debates, and introduces new concepts and issues. Globalization is now a key way of understanding the reshaping of sexual life, and is discussed in relation to global flows, neo-liberalism, new forms of opposition, cosmopolitanism and the heated debates around sex trafficking and sex tourism. Arguments about the regulation and control of sexuality, and the intersection of various dimensions of power and domination are contextualised by a sustained argument about the importance of agency in remaking sexual and intimate life. In particular, new forms of Lesbian, Gay, Bisexual, Transgender and Queer politics, and the high impact of the debates about same-sex marriage are explored. These controversies, in turn, feed into debates about what is 'transgressive', 'normal', 'ordinary'; into the nature of heter-normativity; and into the meanings of diversity and choice. To conclude, the book turns to questions of values and ethics, recognition, sexual citizenship and human sexual rights. This book displays the succinctness, clarity and comprehensiveness for which Jeffrey Weeks has become well known. It will appeal to a wide range of readers internationally.

[Understanding Global Sexualities](#) - Peter Aggleton 2012-07-26

Over the course of the past thirty years, there has been an explosion of work on sexuality, both conceptually and methodologically. From a relatively limited, specialist field, the study of sexuality has expanded across a wide range of social sciences. Yet as the field has grown, it has become apparent that a number of leading edge critical issues remain. This theory-building book explores some of the areas in which there is major and continuing debate, for example, about the relationship between sexuality and gender; about the nature and status of heterosexuality; about hetero- and homo-normativity; about the influence and intersection of class, race, age and other factors in sexual trajectories, identities and lifestyles; and about how best to understand the new forms of sexuality that are emerging in both rich world and developing world contexts. With contributions from leading and new scholars and activists from across the globe, this book highlights tensions or 'flash-points' in contemporary debate, and offers some innovative ways forward in terms of thinking about sexuality – both theoretically and with respect to policy and programme development. An extended essay by Henrietta Moore introduces the volume, and an afterword by Jeffrey Weeks offers pointers for the future. The contributors bring together a range of experiences and a variety of disciplinary perspectives in engaging with three key themes of sexual subjectivity and global transformations, sexualities in practice, and advancing new thinking on sexuality in policy and programmatic contexts. It is of interest to students, researchers and activists in sexuality, sexual health and gender studies, especially those working from public health, sociological and anthropological perspectives.

The Global Political Economy of Sex: Desire, Violence, and Insecurity in Mediterranean Nation States - A. Agathangelou 2004-10-14

At the intersection of the warmth of hearth and home and the dangers of the street lies the tenuous position of women engaged in reproductive labour, those involved in the sex trade and those in domestic positions. These are women who are vulnerable, exploited, and whose dirty work allows for the reproduction of traditional social mores and roles. Yet while they are used to sustain tradition, dialectically they reflect the

hyperconnections of globalization through the migration of women, the development of placement 'agencies' that often are little but fronts for transnational crime; and the transfer of money from the developed countries to the oppressed world. This book focuses on the interaction of the global and the local

through a close investigation of the political economy of desire and reproduction in three states that blur the line between developed and developing: Greece; Turkey; and Cyprus. These are countries at the crossroads, in flux, whose peripheral siting at the centre of global capitalism provides unusual insight into the dark recesses of patriarchy, paternalism and exploitation.
