Towards a Christian Tantra - John R. Dupuche 2009

How is it possible to reconcile two facts which seem irreconcilable, and an immersion in the world of Tantra even to the point of initiation? This intriguing account describes an usual spiritual journey which responds honestly and deeply to this mysterious experience, of spirit and body, of discernment and grace, of divine energy and love in all its aspects, during the course of an adventure which links a person to what is essential, unveiling the whole scope, both cosmic and divine, of Life. The author shows how, beyond their obvious differences, the Christian themes of the Word which is expressed as an eternal I am, or of the divine Energy, find striking correspondences in the Tantra, allowing them to resonate together and enrich each other. This work, therefore, follows in the wake of other pioneers such as Henri Le Saux or Christian de Cherg as regards the dialogue with Hinduism and Islam. Consciousness is the Self because God is Love. The essence of tantra is Love.

Katherine Mansfield - Gerri Kimber 2008

This book assesses the reason why Katherine Mansfield's reputation in France has always been greater than in England. It examines the ways in which the French reception of Mansfield has idealised her persona to the extent of crafting a hagiography. Mansfield is placed within the general literary context of her era, exploring French literary tendencies at the time and juxtaposing them with the main literary trends in England. The author determines the motives behind the French critics' desire to put Mansfield on a pedestal, discusses how the three years she spent on French soil influenced her writing and whether the translations of her work collude in the myth surrounding her personality. This book is the first sustained attempt to establish interconnections between her own French influences (literary and otherwise) and the myth-making of the French critics and translators. The book also follows the critical appraisal of Mansfield's life and work in France from her death up to the present day, by closely analysing the differing French critical responses. The author reveals how these various strands combine to create a legend which has little basis in fact, thereby demonstrating how reception and translation determine the importance of an author's reputation in the literary world.

Montessori Madness - Trevor Eissler 2009

"We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. Montessori Madness! explains why the incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book asks parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

Enlightenment and Tantra - Bryan Lobo 2018

The articles in this volume of Documenta Missionalia are for that reader who is not just a curious learner of Tantrism and Christianity but who is also willing to allow the interaction of two religious worldviews to finally arrive at a unique realization and admiration of the ineffable mystery of God. Any reader interested in this theme would find in these articles great intellectual and spiritual depth that could eventually be highly profitable for one's academic and personal life. The authors of the articles in this volume, bearing in mind the perennial necessity of interreligious dialogue for mutual enrichment, have sought a comparative presentation of Tantric and Christian beliefs and practices like the Eucharist, divinization, mystical non-dualistic consciousness, male-female unity, Logos-Vac (Word) "inter-reading", freedom, fullness of joy, and corporeality. To our knowledge, such a diverse thematic presentation of Tantrism and Christianity in one single volume is the first of its kind to date

The Eternity Cure - Julie Kagawa 2017-02-01

But with eternity itself hanging in the balance, the lines between human and monster will blur even further, forcing her to make another impossible choice. Originally published in April 2013.

Poems of Jules Laforgue - Jules Laforgue 1958

"Known primarily at one remove as an influence on later French poets and on such twentieth-century Americans as Hart Crane, Ezra Pound, and T.S. Eliot, Laforgue has not had the firsthand attention that he merits as the most revolutionary innovator of the Symbolist generation. The present bilingual edition, consisting of forty-one poems and the short verse-drama 'The Faerie Council', is intended to help remedy this situation. Poems have been selected from all of Laforgue's published volumes, and the majority of his important poetic works are represented. Patricia Terry's translations and notes should make Laforgue accessible to a far larger audience. Mrs. Terry's introduction combines biographical information with critical analysis and stresses Laforgue's rapidly evolving intentions and the corresponding changes in his style. The philosophical and emotional preoccupations which dominate the early poems gradually acquire the ironic façade which has come to be considered characteristically 'Laforguean'. The latter free-verse poems are somewhat more personal in tone, and are best described in Laforgue's own phrase: psychology in dream form, inextricable symphonies with recurrent melodic phrases"--Descripción del editor, página 4 de la cubierta.

Life Interpretation and the Sense of Illness within the Human Condition - Anna-Teresa Tymieniecka 2012-12-06

In medicine the understanding and interpretation of the complex reality of illness currently refers either to an organismic approach that focuses on the physical or to a 'holistic' approach that takes into account the patient's human sociocultural involvement. Yet as the papers of this collection show, the suffering human person refers ultimately to his/her existential sphere. Hence, praxis is supplemented by still other perspectives for valuation and interpretation: ethical, spiritual, and religious. Can medicine ignore these considerations or push them to the side as being subjective and arbitrary? Phenomenology/philosophy-of-

life recognizes all of the above approaches to be essential facets of the Human Condition (Tymieniecka). This approach holds that all the facets of the Human Condition have equal objectivity and legitimacy. It completes the accepted medical outlook and points the way toward a new 'medical humanism'.

Three Steps on the Ladder of Writing - Hélène Cixous 1993

Three Steps on the Ladder of Writing is a poetic, insightful, and ultimately moving exploration of 'the strange science of writing.' In a magnetic, irresistible narrative, Cixous reflects on the writing process and explores three distinct areas essential for 'great' writing: The School of the Dead--the notion that something or someone must die in order for good writing to be born; The School of Dreams--the crucial role dreams play in literary inspiration and output; and The School of Roots--the importance of depth in the 'nether realms' in all aspects of writing. Cixous's love of language and passion for the written word is evident on every page. Her emotive style draws heavily on the writers she most admires: the Brazilian novelist Clarice Lispector, the Russian poet Marina Tsvetaeva, the Austrian novelists Ingeborg Bachmann and Thomas Bernhard, Dostoyevsky and, most of all, Kafka.

A Compendium of Lacanian Terms - Huguette Glowinski 2001

Jacques Lacan (1901-81) was one of the most original and controversial thinkers of the post-war period. His ideas had a profound effect on the intellectual movements of his time and his work is of continuing importance to a wide range of disciplines: psychoanalytic theory and practice, literary criticism, critical social theory, linguistics, cinema, art criticism and political science. Lacan's ideas can, however, be notoriously difficult: convoluted, idiosyncratic, arcane, and almost always obscure! A Compendium of Lacanian Terms provides students of Lacan with a clear and helpful exposition on some 40 key terms. Each entry outlines the conceptualization of the idea, locating it within Lacanian discourse, and the evolution of the term within the development of Lacan's ideas. A list of references is provided at the end of each entry. The editors' brief essay-like descriptions of key Lacanian terms are a superb idea, much needed in both academic and clinical arenas of psychoanalytic world. - Choice - Jan 2002
