**Love and Joy** Linda Seed 2022-07-29 She's jumping into a drastic change of lifestyle. He's determined to help her see everything she's been missing ... Joy Maxwell has a life people envy. An upscale Los Angeles condo, designer clothes, a big following on Instagram, and looks other women would die for. But it's not easy being in the public eye, and when her career as an influencer starts to go south, Joy goes north—to the small coastal town of Cambria, where she plans to blog about her new, minimalist lifestyle, hoping to parlay it into a book deal. Nix Landry sees the tiny house he built with his own hands as more than a place to live—it's a statement about sustainability, simplicity, and being present for what's important in life. When Joy applies to be his tenant, he's skeptical that this woman with her designer shoes and her salon hairstyle will last more than a week. But the more he gets to know her, the more he takes it as a challenge to show her how much more fulfilling life can be. *Love and Joy* is a stand-alone romance in Linda Seed's *Otter Bluff* series.

social media? When someone lives their whole life online, what could they possibly have to hide? *Ideal Angels* explores exactly that. The story of one man and one woman across one week. They meet, fall in love, and never look back. Eloise's phone is never far away, obsessively cataloguing their ups and downs, with shadows lurking just out of reach. The moments after the flash of the camera, unseen and uncaptured. The threat of inescapable doom. How much can one person be your downfall? "Heart wrenchingly raw" "highly readable from a promising author" "a well-executed story with sparks of brilliance" "Ideal Angels is stylistically bold, pacy, and provocative" "the author should be proud of this novel" "bearing similarities to some of the best I've read" "an exceptional piece of observational narrative" "Genuinely gripping and heartbreaking" "The author finishes his story with a knockout punch" "Fast paced and easy to read" "I found myself swept up in *Ideal Angels* from the opening pages"

**In Limbo** A.D. Aliwat 2021-01-21 "There's something in the air, but it isn't love." Apocalyptic forces both real and imaginary loom large in this sprawling novel set in 2012 New York City. Ray, an Ivy League grad and struggling fledgling journalist, is a few weeks into trying to make ends meet as a bicycle courier when he mounts an investigation to solve the mystery of his own death. Along the way, he strikes up a strange romance with Haruka—a young woman seeking self-empowerment through a malevolent form of online dating—and finds himself taken under the wing of an exalted, aging academic, Emerson, whose Virgil-like guidance might not be all that it seems. Equal parts zany existential detective story, scathing Web 2.0 sendup, and poignant elegy for what was lost in the smartphone revolution, *In Limbo* asks critical psychological and spiritual questions about what it means to be alive— and human— in the 21st century.

Brie hates the Fae and refuses to have anything to do with them, even if that means starving on the street. Gaining unfettered access to the Seelie court is easier said than done. Brie's only choice is to pose as a potential bride for Prince Ronan, and she soon finds herself falling for him. Unwilling to let her heart distract her, she accepts help from a band of Unseelie misfits with their own secret agenda. **Transcendent Parenting** Sun Lim 2019-12-03 Whether members of the family are headed to school or work, smartphones accompany family members throughout the day. The growing sophistication of mobile communication has unleashed a proliferation of apps, channels, and platforms that link parents to their children and the key institutions in their lives. While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone, they may also feel pressured and overwhelmed by this need to always be on call for their children. This book focuses on the phenomenon of transcendent parenting, where parents actively use technology to go beyond traditional, physical practices of parenting. In drawing on the experiences of intensely digitally-connected families in Singapore to tell a global story, Sun Sun Lim argues how transcendent parenting can embody and convey, intentionally or not, the parenting priorities in these households. Chapters outline how parents exploit mobile connectivity to transcend the physical distance between

themselves and their children, the online and offline social interaction environments, and the timelessness of seemingly ceaseless parenting. Transcendent Parenting further explores how mobile communication allows parents to be more involved than ever in their children's lives, leaving readers to question whether or not parents have become too involved as a result. With its clear discussions of the effects of transcendent parenting on parents' wellbeing and children's personal development, Transcendent Parenting will appeal to a broad audience of readers, from scholars, educators and policy makers to parents and young people across the globe.

**The Spanish Love Deception** Elena Armas 2022-02-08 A wedding. A trip to Spain. The most infuriating man. And three days of pretending. Or in other words, a plan that will never work. Catalina Martín, finally, not single. Her family is happy to announce that she will bring her American boyfriend to her sister's wedding. Everyone is invited to come and witness the most magical event of the year. That would certainly be tomorrow's headline in the local newspaper of the small Spanish town I came from. Or the epitaph on my tombstone, seeing the turn my life had taken in the span of a phone call. Four weeks wasn't a lot of time to find someone willing to cross the Atlantic-from NYC and all the way to Spain-for a wedding. Let alone, someone eager to play along with my charade. But that didn't mean I was desperate enough to bring the 6'4 blue eyed pain in my ass standing before me, Aaron Blackford. The man whose main occupation was making my blood boil had just offered himself to be my date. Right after inserting his nose in my business, calling me delusional, and calling himself my best option. See? Outrageous. Aggravating. Blood boiling. And much to my total despair, also right. Which left me with a surly and extra large dilemma in my hands. Was it worth the suffering to bring my colleague and bane of my existence as my fake boyfriend to my sister's wedding? Or was I better off coming clean and facing the consequences of my panic induced lie? Like my abuela would say, que dios nos pille confesados. The Spanish Love Deception is an enemies-to-lovers, fake-dating.

'Intro' of the song takes shape when two unknowns meet and fall for each other. Their 'First Verse', a little gloomy as it might sound, is composed when they are parted for the first time. The 'Second Verse', brings the enchanting rhythm back to their lives when their hearts find their way back to each other again. **Good Trouble** Joe Biel 2016-03-15 In 1996, everything about Joe Biel's life seemed like a mistake. He was 18, he lived in Cleveland, he got drunk every day, and he had mystery health problems and weird social tics. All his friends' lives were as bad or worse. To escape a nihilistic, apocalyptic worldview and to bring reading and documentation into a communal punk scene, he started assembling zines and bringing them in milk crates to underground punk shows. Eventually this became Microcosm Publishing. But Biel's head for math was stronger than his ability to relate to people, and it wasn't until he was diagnosed with Asperger's Syndrome that it all began to fall into place. This is the story of how, over 20 years, one person turned a litany of continuing mistakes and seeming wrong turns into a happy, fulfilled life and a thriving publishing business that defies all odds.

**The Politics of Expertise in Cultural Labour** Karen Patel 2020-03-16 What is expertise? In the arts, or cultural work, the experts in this area are commonly regarded to be art critics, dealers or intermediaries. Why are they considered experts? What about the expertise of the artists or cultural workers themselves? This book provides a much-needed account of the concept of expertise in cultural work, providing new insights into the individual experiences of cultural workers and the role of social media in their creative practice and development of expertise. It also explores the potential reasons for inequalities in the sector which centre not only on protected characteristics such as class, gender and race, but increasingly the digital divide. Drawing on interviews with cultural workers and an innovative social media analysis, this book highlights the characteristics of aesthetic expertise in production - the practical skills cultural workers hone and deploy over years of training and creative practice. This is a new take on aesthetic expertise, which is traditionally associated

with those involved in the judgement of culture, such as critics, dealers and intermediaries. The book highlights how social media platforms both enable and constrain the development of practical aesthetic expertise, and the platforms' role in the mediation of the cultural object online. Finally, the book interrogates the power dimensions of expertise, focusing primarily on gender. Drawing on the work of Pierre Bourdieu, it explores how opportunities to develop aesthetic expertise, and the ability to use social media platforms to signal that expertise, are not available to everyone. In this sense, the book adds new perspectives to the growing body of work on inequalities in the creative and cultural industries, as well as scholarship on social media and creative work. The book concludes with the argument that the term 'expertise' needs to be problematised and reclaimed by those who are not equally represented in the cultural industries, using gender as a case in point.

Vegas Brews Michael Ian Borer 2019-10-22 An inside look at how craft beer makers and IPA devotees come together to brew, taste, and enjoy fine ale while also building a sense of community in Las Vegas Equally reviled and revered as Sin City, Las Vegas is both exceptional and emblematic of contemporary American cultural practices and tastes. Michael Ian Borer takes us inside the burgeoning Las Vegas craft beer scene to witness how its adherents use beer to create and foster not just a local culture but a locals' culture. Through compelling, detailed first-hand accounts and interviews, Vegas Brews provides an unprecedented look into the ways that brewers, distributors, bartenders, and drinkers fight against the perceived and preconceived norm about what "happens in Vegas" and lay claim to a part of their city that is too often overshadowed by the bright lights of tourist sites. Borer shows how our interactions with the things we care about—and the ways that we care about how they're made, treated, and consumed—can lead to new senses of belonging and connections with and to others and the places where we live. In a world where people and things

Rocketing to world fame at age twenty-one, Ratajkowski sparked both praise and furor with the provocative display of her body as an unapologetic statement of feminist empowerment. The subsequent evolution in her thinking about our culture's commodification of women is the subject of this book. My Body is a profoundly personal exploration of feminism, sexuality, and power, of men's treatment of women and women's rationalizations for accepting that treatment. These essays chronicle moments from Ratajkowski's life while investigating the culture's fetishization of girls and female beauty, its obsession with and contempt for women's sexuality, the perverse dynamics of the fashion and film industries, and the grey area between consent and abuse. Nuanced, unflinching, and incisive, My Body marks the debut of a fierce writer brimming with courage and intelligence.

The Happiness Effect Donna Freitas 2017 Sexting. Cyberbullying. Narcissism. People-and especially the media-are consumed by fears about the effect of social media on young people. We hear constantly about the dangers that lurk online, and about young people's seemingly pathological desire to share anything and everything about themselves with the entire world. Donna Freitas has

traveled the country, talking to college students about what's really happening on social media. What she finds is that, while we focus on the problems that make headlines, we are ignoring the seemingly mundane, but much more widespread, problems that occur every day. Young people, she shows, feel enormous pressure to look happy all the time-and not just basically content, but blissful, ecstatic, inspiring and successful in their personal, professional, and academic lives-regardless of how they actually feel. Of course, these young adults are not that happy, at least not all of the time, and the constant exposure to the seemingly perfect lives of other people on social media only makes them feel worse. What's more, far from wanting to share everything about themselves, they are terrified of sharing something that will come back to haunt them later in life. The rise of social media has brought about a dramatic cultural shift: the need to curate a perfect identity online that often has little to do with reality. The consequences, Freitas shows, can be very real. Drawing on an online survey and in-person interviews with students from thirteen campuses around the U.S, Freitas offers a window into the social media generation and how they use Facebook, Snapchat, and Twitter, and other online platforms. She presents fascinating insights about how these people are consciously creating alternate identities for themselves, while also suffering from the belief that the other people they encounter online really are as perfect as their profiles appear. This is an eye-opening look at the real world of social media today

**Medical Heroes and Heretics** Wayne Martin 1977 Orthodox science -- particularly in the medical profession -- has for centuries resisted change. It traces back at least as far as Socrates who was done to death for corrupting youth with his innovative ideas. In recent times, practically all the great advances in medicine have been made against a powerfully entrenched orthodoxy. Wayne Martin's book is about some of the men involved -- then and now: Oliver Wendell Holmes, Sr., who made physicians wash their hands; Louis Pasteur, who postulated the connection between bacteria and certain diseases; Frederick Banting, who discovered insulin; Jonas Salk, who solved the mystery of polio, to mention but a few. These men all braved the wrath of the medical establishment of their day. Heretics they were, but Heroes they became. Similarly, today a group of brave pioneers are fighting the same fight. They are, says the author, the heroes of tomorrow: Ernst Krebs, Jr., Evan Shute, Dean Burk, Denis Burkitt, Virginia Livingston and a dozen others, all of whose careers and findings are described here by a man who has pursued his topic for the past ten years.

take more than hand-wavy Jedi mind tricks: Scientists require proof. So, like any self-respecting biologist, Olive panics and kisses the first man she sees. That man is none other than Adam Carlsen, a young hotshot professor--and well-known ass. Which is why Olive is positively floored when Stanford's reigning lab tyrant agrees to keep her charade a secret and be her fake boyfriend. But when a big science conference goes haywire, putting Olive's career on the Bunsen burner, Adam surprises her again with his unyielding support and even more unyielding...six-pack abs. Suddenly their little experiment feels dangerously close to combustion. And Olive discovers that the only thing more complicated than a hypothesis on love is putting her own heart under the microscope.

Social in that these media facilitate public and interpersonal interaction, locative in that this social communication is geographically placed, and mobile in so much as the media is ever-present. The Asia-Pacific region has been pivotal in the production, shaping and consumption of personal new media technologies and through social and mobile media we can see emerging certain types of personal politics that are inflected by the local. The six case studies that inform this book—Seoul, Tokyo, Shanghai, Manila, Singapore and Melbourne—offer a range of economic, socio-cultural, and linguistic differences, enabling the authors to provide new insights into specific issues pertaining to mobile media in each city. These include social, mobile and locative media as a form of crisis management in post 3/11 Tokyo; generational shifts in Shanghai; political discussion and the shifting social fabric in Singapore; and the erosion of public and private, and work and leisure paradigms in Melbourne. Through its striking case studies, this book sheds new light on how the region and its contested and multiple identities are evolving, and concludes by revealing the impact of mobile media on how place is shaped, as well as shaping, practices of mobility, intimacy and a sense of belonging.
