the history of its ornithology. There has been no comprehensive national publication of this kind since Mullens, Swann and Jourdain's Geographical Bibliography in 1920. The volume also provides a detailed record of the many county and local bird reports and of the ever-increasing number of area surveys produced by statutory and voluntary bodies. The material is arranged by the pre-1974 counties and takes the record up to 1995. There are maps to show the many changes in county boundaries since 1800. The book will be a standard reference work for libraries and collectors, and for anyone interested in the rich and diverse development of local ornithology in its homeland. Contents: A Brief History of Local Recording The Arrangement of This Book The Counties of England The Counties of Wales The Counties of Scotland and The Isle of Man Readership: Ornithologists, bird-watchers, book-collectors/sellers and libraries. Keywords: Birds; Counties; Ornithological

Bibliography; England; Wales; Scotland; Isle of Man  
Reviews: "I have no hesitation in recommending this book to researchers and collectors alike and it should be in all major collections, public and university libraries." *Scottish Bird News*
