So You Want to Talk About Race - Ijeoma Oluo 2018-01-16

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy--from police brutality to the mass incarceration of African Americans--have made it impossible to ignore the issue of race. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair--and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us--both white people and people of color--that language to engage in clear, constructive, and confident dialogue with each other about how to deal with racial prejudices and biases."--National Book Review

"Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action."--Salon (Required Reading)

Looking for Transwonderland - Noo Saro-Wiwa 2012-09-01

A "remarkable chronicle" of a journey back to this West African nation

after years of exile (The New York Times Book Review). Noo Saro-Wiwa was brought up in England, but every summer she was dragged back to visit her father in Nigeria—a country she viewed as an annoying parallel universe where she had to relinquish all her creature comforts and sense of individuality. After her father, activist Ken Saro-Wiwa, was killed there, she didn't return for several years. Then she decided to come to terms with the country her father given his life for. Traveling from the exuberant chaos of Lagos to the calm beauty of the eastern mountains; from the eccentricity of a Nigerian dog show to the decrepit kitsch of the Transwonderland Amusement Park, she explores Nigerian Christianity, delves into the country's history of slavery, examines the corrupting effect of oil, and ponders the huge success of Nollywood. She finds the country as exasperating as ever, and frequently despairs at the corruption and inefficiency she encounters. But she also discovers that it is far more beautiful and varied than she had ever imagined, with its captivating thick tropical rain forest and ancient palaces and monuments—and most engagingly and entertainingly, its unforgettable people. "The author allows her love-hate relationship with Nigeria to flavor this thoughtful travel journal, lending it irony, wit and frankness." —Kirkus Reviews

The Charisma Myth - Olivia Fox Cabane 2013-03-26

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. *The Charisma Myth* shows you how to become more influential, more persuasive, and more inspiring.

Sharenthood - Leah A. Plunkett 2020-12-08

From baby pictures in the cloud to a high school's digital surveillance system: how adults unwittingly compromise children's privacy online. Our children's first digital footprints are made before they can walk—even before they are born—as parents use fertility apps to aid conception, post ultrasound images, and share their baby's hospital mug shot. Then, in rapid succession come terabytes of baby pictures stored in the cloud, digital baby monitors with built-in artificial intelligence, and real-time updates from daycare. When school starts, there are cafeteria cards that catalog food purchases, bus passes that track when kids are on and off the bus, electronic health records in the nurse's office, and a school surveillance system that has eyes everywhere. Unwittingly, parents, teachers, and other trusted adults are compiling digital dossiers for children that could be available to everyone—friends, employers, law enforcement—forever. In this incisive book, Leah Plunkett examines the implications of “sharenthood”—adults' excessive digital sharing of children's data. She outlines the mistakes adults make with kids' private information, the risks that result, and the legal system that enables “sharenting.” Plunkett describes various modes of sharenting—including

“commercial sharenting,” efforts by parents to use their families' private experiences to make money—and unpacks the faulty assumptions made by our legal system about children, parents, and privacy. She proposes a “thought compass” to guide adults in their decision making about children's digital data: play, forget, connect, and respect. Enshrining every false step and bad choice, Plunkett argues, can rob children of their chance to explore and learn lessons. The Internet needs to forget. We need to remember.
