Love and Intimacy in Online Cross-Cultural Relationships - Wilasinee Pananakhonsab 2016-11-16

This book challenges assumptions about the motivations that drive women from relatively poor, developing countries to use intermarriage dating sites to find partners from relatively wealthy, developed countries. It is generally assumed that economic deprivation or economic opportunities are the main factors, but this book instead focuses on the work of women's imagination in online cross-cultural relationships, including the role of desire, love and intimacy. The experiences of Thai women are used to explore how they initiate, develop and maintain love and intimacy with Western men across distance and time. The book shows that, in the absence of opportunities to search and meet partners from geographically distant parts of the world, the technology of the internet offers new ways of searching for and managing relationships and has significant consequences for local experiences and expectations of love and partnering. The book will be of interest to scholars and students with an interest in family and intimate life, gender and sexualities, Asian and Thai studies, globalization and nationalism, culture and media, sociology and anthropology.

The Rosie Project - Graeme Simsion 2013-10-01

The international bestselling romantic comedy "bursting with warmth, emotional depth, and...humor," (Entertainment Weekly) featuring the oddly charming, socially challenged genetics professor, Don, as he seeks true love. The art of love is never a science: Meet Don Tillman, a brilliant yet socially inept professor of genetics, who's decided it's time he found a wife. In the orderly, evidence-based manner with which Don approaches all things, he designs the Wife Project to find his perfect partner: a sixteen-page, scientifically valid survey to filter out the drinkers, the smokers, the late arrivers. Rosie Jarman possesses all these qualities. Don easily disqualifies her as a candidate for The Wife Project (even if she is "quite intelligent for a barmaid"). But Don is intrigued by Rosie's own quest to identify her biological father. When an unlikely relationship develops as they collaborate on The Father Project, Don is forced to confront the spontaneous whirlwind that is Rosie—and the realization that, despite your best scientific efforts, you don't find love, it finds you. Arrestingly endearing and entirely unconventional, Graeme Simsion's distinctive debut "navigates the choppy waters of adult relationships, both romantic and platonic, with a fresh take (USA TODAY). "Filled with humor and plenty of heart, The Rosie Project is a delightful reminder that all of us, no matter how we're wired, just want to fit in" (Chicago Tribune).

My Girlfriend Has Many Cars: Internet Dating and Other Adventures - Brian Poulton 2022-10-17

Poulton's autobiography begins with fond recollections of his childhood and teenage years growing up in South Africa. His army days will bring a smile of recognition to many of the men conscripted into the South African Defence Force and include the story of a night-time accident between a Land Rover and an elephant. In 1983, Poulton achieves his dream of obtaining his private pilot's licence and officially becomes an aviation junkie. His numerous adventures in the clouds include a close call when an aborted landing results in a piece of barbed wire fencing wrapped around the undercarriage of his plane, leaving him with only one working brake. After the painful breakup of his marriage, Poulton ventures into the wild world of internet dating, exposing readers to the good, the bad, and the ugly of his numerous relationships. Finally, after dating many women, he meets his partner and best friend, Kathy. Ten years later, now both retired, they're still living happily together, which Poulton hopes will inspire lonely people to take the plunge into searching for a partner online. This author has never allowed life to pass him by, as his raunchy escapades will reveal.

Persuasive Imagery - Linda M. Scott 2003-04-02

This volume synthesizes and advances existing knowledge of consumer response to visuals. Representing an interdisciplinary perspective, contributors include scholars from the disciplines of communication, psychology, and marketing. The book begins with an overview section intended to situate the reader in the discourse. The overview describes the state of knowledge in both academic research and actual practice, and provides concrete sources for scholars to pursue. Written in a non-technical language, this volume is divided into four sections: Image and Response - illustrates the difficulty encountered even in investigating the basic influences, processes, and effects of "mere exposure" to imagery. Image and Word - presents instances in which the line between words and pictures is blurred, such as the corporate logo which is often pictorial in nature but communicates on an abstract level usually attributed to words. Image and the Ad - contributes to our appreciation for the exquisite variations among advertising texts and the resultant variability in response, not only to different ads but among different viewers of the same ad. Image and Object - carries the inquiry of visual response over the bridge toward object interaction. Having traveled a path that has gone from the precise working of the brain in processing visual stimuli all the way to the history of classical architecture, readers of this volume will have a new respect for the complexity of human visual response and the research that is trying to explain it. It will be of interest to those involved in consumer behavior, consumer psychology, advertising, marketing, and visual communication.

The Guyde - Howie Reith 2016-11-19

The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

How to Get a Girlfriend Dating Online - Robert Belland 2011-02-01

The goal of this book is simple: to guide ANY guy through the process of picking out the BEST women to chat with, exactly what to say to them, and how to inspire these women to feel enough attraction and comfort to meet in person. What can YOU do slightly differently than the last 50 guys who tried emailing her that same day? Be different (in a fun way) without seeming desperate, needy, or creepy. This book explains and explores the common mistakes men are making dating online AND explains, step-by-step, EXACTLY what to say in order to stand out and get dates. This book outlines the FOUR FOUNDATIONS of successful (online) dating: Attraction, Rapport, Leading, and Escalation. - ATTRACTION is about tension and her emotional response to you. - RAPPORT is about intimacy and her emotional connection with you. - LEADING is about challenging your fears and taking action while communicating sincerity through your actions. - ESCALATION is about consistently increasing the intensity of your relationship via attraction and rapport so that it goes where ever you want it to go. WHAT YOU'LL DISCOVER IN THIS BOOK: - Exactly to say in your first email so that she's MOST likely to respond to you. - 8 tragic but typical mistakes you should NEVER make when first chatting with her online. - 5 ways she's indicating she's "ready" to meet you (but

you might be missing.)- 10 things you SHOULD be doing to make or break your online profile.- 10 detailed examples of men's profiles, and what's good and bad about them.- Learn which types of photos make women click your profile, and which make her run for the hills!- MANY examples of the types of emails other men will be sending her so that YOU can learn how to avoid sounding like "just another creep."- How to be DIRECT in such a way that will invite her to desire you more.- 7 amazing openers that you can use anytime that I've tested and used to meet many amazing women online, and why they work so well.- Etc, etc, etc...Getting the girl online isn't rocket science. It's not black magic. It's not surprising or wierd. BUT it's almost universally misunderstood. What makes a girl reject the last 99 guys but respond to you? It's simple. Being different, being playful, and being attractive. The core teachings of my books. As a matter of fact it's EASIER to be different than the last 99 guys simply because the last 99 guys are all saying the exact same things and all making the exact same mistakes. I wrote this book to help the average guy, like you and me, stand out from the online dating crowd in order to catch the girl we REALLY want, and ultimately deserve. She WANTS you to find her and attract her... now read this book and learn the fastest path to your first date!

Online Dating Secrets - Adam Pearson 2017-07-13

Why You Should Read This Book I remember it like it was yesterday. My life was so boring and so pathetic. Until November 2012, I was a complete failure with women. I could not talk to women, approach women, or even message a woman. I was scared petrified. I'll give you a real life example: There was this girl. I knew her in real life. A friend of a friend had given me some information about a job, in the same market as she worked in, and she had recently lost her job, (a different friend told me), so I added her on Facebook after like an hour of contemplating, then typed a message, deleted it, and this went on for about 3 hours, and it was 10 lines. If that was completely innocent, just imagine how useless I would have been, if I had tried online dating back then... One day I read an article in a magazine about a guy who had slept with over a hundreds of women in less than two years!!! This article wasn't saying much about dating tips or secret technique, but I was fascinated and suddenly willing to face the fact that I need to learn something new to successfully date hot women. I asked myself one simple question that changed my way of thinking about dating & relationships... If we can learn how to start a business, how to repair a car or how to speak a new language, can we learn how to date, flirt, love and have success with women? What Do You Think? Of Course We Can... I'm pretty sure that with the help of a good teacher with good dating tips from a good dating guide, sky is the limit, no matter how you look, no matter your age, no matter your size, etc. This is why, five years ago, I took my credit card and bought all the Internet Dating Relationship Guides that were available on the market at that time... and it cost me \$247 exactly... nothing less... I still remember the bill on my credit card... If on one side I can tell you that it cost me a lot of money... on the other side I can also tell you that I learn a lot from it... Some of these dating books were just awesome, while some others were just a suite of words from experts who seem to know nothing about how to date women, or seem to live in a kind of imaginary world with imaginary women, where nobody else lived. I would even say that most of what's being taught in some "experts' dating advice books" isn't working at all... The bad thing is that all those bad experts are just fooling men into thinking that this "popular understanding" of how to relate with women actually works. They're somewhere trying to make you believe that if you keep using their online dating techniques (techniques they've probably never tried), that one day it will all work out... but believe me, it won't. For sure, now I know what works and what doesn't... Men who have success with women and have the opportunity to date beautiful hot young women are much happier in life than all others that can't. Success makes them proud and more confident in all aspects of their life. This is why you can't afford to ignore this book. There are a lot of advantages of being successful when dating women, but the biggest advantage is that it has a direct effect on all other aspects of your life. Just imagine the strong effect your new hot girlfriend can have on your friends, family, employer or associates... Believe me, the day you walk hands in hands with a dream girl, you feel more confident, and it completely changes the way others see you. You are suddenly seen as someone who deserves respect. Even your boss will be more likely to offer you a promotion, a bonus or a pay raise... It's time! So regardless of where you live on this Earth, just as long as you can get on the internet, I will show you the  *Online Dating Secrets*  to get Hot Girls! *The Girlfriend's Fabulous Guide to Real Estate* - Christine Denty 2016-07-20
