Love and gratitude are like a spring coming up out of the ground of your own depths. All that you are is something that is given and at times given freely. Sometimes, you still get tied up and pulled by a string attached to the giving source,

and the source need not be aware of it. Set in the back drop of various places like Dhaka, Bali, Bangalore, Jammu & Kashmir, London, US, Varanasi, a train, cafes and colleges, the anthology *Strings Attached* comes up with sensational stories showing that you are made by either favourable or unfavourable people and the situations. The authors take you through a delightful journey into their minds and hearts by entwining myriad relationships and emotions with glorious words.

The Fantasy Bond - Robert W. Firestone

Most men find themselves doing what they think will make her happy relentlessly, only to find her still unhappy. Only to find that she isn't attracted to you anymore as she leaves to another man. because women have to be the least studied subject by most men. Men study for years how to make money just to get the women but invest zero time in finding out what she wants or how she thinks. need to see him as I'm feeling so bad..." You wake up anxious, you are anxious at the office too, you talk to the people but anxiety remains, later in the evening you are anxious at home too...everything turned into chaos! Your heart beats stronger at the only thought about him. Your thoughts quickly develop and you already imagine your next date. You suddenly postpone any other engagements just to see him and to make your agenda free. Suddenly, you are not interested in meeting other men. Now you are focused only on him. You wonder what to do in order to develop faster your relationship. You try to make him discuss subjects like "what he would do in the situation x", taking into consideration that you want to make your relationship special as soon as you can. While you think about all this, he wonders if it is worth contacting you again. Ironically, even if you think about serious relationship, his reaction is running away. "I'm not feeling ready yet", "you're amazing girl but I don't want a serious

relationship", "I was very busy at work and was unable to contact you". Let's say it directly: all these are lies! But the strangest fact is that we women do accept it. Instead of feeling later abandoned or humiliated, it would be better to start from the beginning again. It is high time to put an end to this vicious circle! If he does not treat you well, do not try to hide this thing and realize this in order to have the possibility to change the things. It is true that the process of conquest can never be easy, but some advice can be useful for conquering your man without exaggerating with sacrifices, i.e. in wise way and applying the most efficient techniques so that you keep "the target" into your hands. I shall present a technique based on "step by step" system that will help you to achieve concrete results! • How to Make Him Believe that the Idea of Serious Relationship Development Belongs to Him • Your Purpose is to Make him Commit at the Maximum! The Truth About Men Will Set You Free - Patricia Allen 2009-06

This is a book for women who are looking to improve their dating experience. More effective dating happens by accepting, versus ignoring, our evolutionary design. Understanding our brain wiring and body reaction differences with men explains a lot. Ever wonder why you get so attached to a man, yet he can remain so casual about your relationship? Or why break-ups are so very hard to get over? This breakthrough book helps you understand exactly how a man's mind (and body) works when it comes to intimacy, and the reasons why dealing with a man can sometimes be so exasperating or emotionally painful. Knowing them helps you realize he may not be doing it you deliberately,

and what genetic mechanisms give you more power than you've ever had before in building a strong, loving intimate relationship. For example, scientific research finds that evolution designed you to become biochemically addicted - to his smell. Biology also drives men sexually, but their main "addiction" is to seek multiple mating partners. Evolution also wisely provides that if a certain hormone gets produced in his brain, he'll become just as bonded as you are. There are rules for a successful relationship. Women feel that guys evade them. Guys feel that women invade them. To have a satisfying love life, or a fulfilling dating experience, know how to play by the rules, and play to win! Dr. Pat Allen, Ph.D, MFT, has helped women, men and couples do this for over 30 years; and her workshops have helped tens of thousands of relationships to succeed. After a lifetime studying the SCIENCE of relationships, the energies that drive men and women, and how those energies can be balanced in harmony, you

now have access to her latest discoveries. This research refutes many of today's pop theories about relationships, and dismantles basic assumptions of the feminist movement. It's not the first time Dr. Pat Allen offered such contrarian advice. In her bestseller, "Getting to 'I Do'," she described how women can achieve satisfying marital relationships. In this new book, she describes the genetics of what MEN do in their quest for sex (and love), and how women consciously and unconsciously react to these actions. It's time for women to have their consciousness raised about male sexual behaviors, based on scientific research into human mating practices. When you know the evolutionary sources of such behavior, you are empowered to claim the high ground, adopt effective counter-behaviors, and rise above any victim mentality. Knowing the truth about men and their sexual responses will free you to implement new, scientifically proven mating strategies that will increase your chances for

without changing who you are." So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life - how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh*t and becoming an honest broker. "A detailed guide to modern sexual ethics" Sydney Morning Herald "There's nothing subtle about Mark Manson. He's crude and vulgar and

doesn't give a f*ck . . . He's as painfully honest as he is outrageously funny" Huffington Post [Mindset Your Manners](#) - Nicole Gravagna 2016-11-18

As a trained neuroscientist, the author explains the behavior and related emotions stemming from conflict in relation to neurobiology. The exercises provided throughout the book coupled with numerous personal stories (including her own) all help point out these patterns of our beliefs. Through neuroscience, we can see why conflict and change are so hard. It's our wiring! With this knowledge, you can overcome struggle and get on with your exceptional life.

Attached - Amir Levine 2012-01-05

“Over a decade after its publication, one book on dating has people firmly in its grip.” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence

today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. *Attached* guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.
