Josie Unlimited - Stephen Shifflett 2007-06

An awkward but handsome fifteen-year-old, Donnie Darning has a brilliant mind but a dysfunctional family. His father is overbearing, and his mother drowns her problems in alcohol. Fortunately, his dismal world doesn't compare to the vast universe he finds inside books, but he is tired of living life vicariously through reading stories. Josie Rosado changes all that. Beautiful and exotic, the seventeen-year-old daughter of a Romani immigrant has just moved in with her family next door to Donnie. Josie is charismatic and worldly, a wonderful mystery to be solved, and Donnie is immediately captivated by her spiritedness. Josie shows Donnie how exciting the world can be, whether they're flying kites in the park or having moonlit tête-à-têtes on the roof. They soon become inseparable, living in their own bubble of existence. But one day, they come home to find a Lincoln Continental parked in Josie's driveway. Donnie discovers that Josie has a secret, but can she trust him enough to reveal it? Donnie must protect Josie, even if it destroys his family's good name-and his life.

Race & Class on Campus - Jay Rochlin 1997

Racism. Is it alive and well and living on college campuses across the United States? Is it a factor in high dropout rates and other crises affecting minority college students, and if so, how? Are controversial programs of affirmative action proving to be a solution--or are they part of the problem? Here are some insights into the hot issues sparking debate over equal opportunity and American education. In these pages, through the use of a fictional character, author Jay Rochlin presents more than forty very real African American and Mexican American men and women who struggled to earn degrees at a large, nationally recognized university in the west. Their goals, their gains, and their disappointments echo the experiences of millions of others around the country during much of the twentieth century. Perhaps most important, their true stories will provide inspiration to the many young people who wonder whether pursuing the dream of a college education is possible for them. Readers will warm to the words of Carlos Véz-Ibáñez, learning as a toddler from his father that the university represented toda la sabiduría del mundo, "all the wisdom in the world." Their hearts will go out to young Laura Banks, barred as a black woman from a "whites only" pool and the swimming class required for her degree in physical education. In the face of open hostility and closed doors, these students and many others persevered. When they were shunned by Anglo social clubs, they created their own. When they were assigned "back of the room" seating because of discrimination, they rose above it. And when their ultimate goal--graduation--was threatened by racism, they fought it. Looking back, many in the book remember coming from poor families who nonetheless considered themselves middle class and, as such, simply expected their children to go to college. This family support--bolstered by the students' own drive, ambition, and sense of responsibility--

seemed to be pivotal to their success. Thus the book comes out strongly on the side of critical race theorists, who emphasize individual effort as a means of combating racism and personal narratives as a way of analyzing the complex issue. These pages are filled with the voices of everyday men and women. Their language is straightforward and from the heart. Their message is timely, in the midst of current debates over race, class, and affirmative action. And their words--for American education and for the country as a whole--carry force and meaning guaranteed to reach far into the future.

**Emilio** - Julia Mercedes Castilla 1999-10-31  
Emilio is not only new in his school, he's new to the entire country. He and his family have just come from Central America to Houston, and everything is terribly different in the big city—not only the surroundings, but the language and customs they find here. Uncomfortable with his looks, his size, his unfamiliarity with everything, Emilio shrinks into the shadows in his classes. He does find friends among other immigrants, such as Ali, and he tries to keep out of the way of the rough crowd. But only when his teacher introduces him to the world of numbers does he begin to find himself. Yet there is danger even in embracing the world of math studies, too, and Emilio once again faces hardship and isolation. Emilio is a tale of overcoming fear of the unknown to adapt and prevail over circumstances through will and perseverance.

As Emilio makes his own way in this new world, his trials, failures, and successes become a model for all young readers who would accept and embrace responsibility for their own lives.

**Youth, Language, and Identity** - Diane Gérin-Lajoie 2011

This book is a path-breaking examination of identity construction among minority-language youth. Based on a three-year study at two

English-language high schools in the Montreal area, it builds on Diane Gérin-Lajoie's previous work on Francophone minority identity in Ontario and extends her analysis to Canada's other official language minority: anglophones living in Quebec. The book begins with an overview of the social and educational reality of Quebec's anglophone minority, and then presents the findings on students' language practices. The central chapters sketch identity portraits of the study's participants, and the later chapters pursue analyses of the themes raised by the study. The result is an original contribution to the understanding of language and identity that will be of interest to school administrators and teachers working in minority-language communities in Canada, and to scholars working on issues of minorities in the social sciences.
