

In Control Saying No To Sexual Pressure

Measuring Ego Development -
L^Xufn Hy 2014-03-05

The topic of ego development developed when psychoanalysis did not fulfill all the initial hopes during its early period of prominence. Clinicians--psychiatrists, psychologists, social workers, and counselors--realized that they needed to know more than their patients' or clients' psychopathology or normalcy and their psychosexual behavior and drives. The method for scoring sentence completions presented in this manual was originally developed for a study of women and adolescent girls. By the time it was first published in 1970, however, the method had already come into use in studies of men and boys. Since then, it has been used with widely varying samples, and the test has been

translated into several other languages. This wide adoption testifies to the need for such a test. The present version of the manual incorporates three major improvements: * it is based on data from, and is intended for use with, both males and females, * its format is easier to use, and * the examples cited reflect current public attitudes. The format of the scoring manual for the Sentence Completion Test (SCT) is radically changed from the original, making it easier to find the correct rating for a response. The rating scale itself is kept simple and the basic concept of ego development is the same. A tutorial is included to assist in calculating the Total Protocol Ratings (TPRs). ALTERNATIVE BLURB!!! The Washington University Sentence

Completion Test, which was developed by Jane Loevinger, is a free-response, semi-projective instrument for the assessment of ego development. The first manual for administering and scoring the test was published in 1970. In addition to its widespread use in the United States, it has also been adopted for use in Canada, the United Kingdom, France, Germany, Italy, the Netherlands, Japan, India, and South Africa. The WUSCT has been used for research in the fields of adolescent personality development, moral development, infancy and parenting, family and gender studies, multiculturalism, religion, psychopathology and psychotherapy, vocational studies, and social and organizational psychology. It is most frequently used by researchers and practitioners in psychology, counseling, social work, and education. This book represents a revised edition of the WUSCT scoring manual, including all items in the 1981 forms, which were revised for use with both men

and women. The content reflects current social attitudes, which have changed on some topics since the publication of the original 1970 manual. Although there have been minor changes in terminology, the conception of ego development is unchanged, and the stages of the construct are essentially the same. The format of the scoring manual, however, has been radically changed for ease of use in rating responses. (The rating scale itself, which is the same for all items, is kept simple.) A tutorial is included to assist in calculating the Total Protocol Ratings.

The Power of Abstinence -

Kristine M. Napier 1996

Now, for every parent concerned about the prevalence of teen sex, The Power of Abstinence offers practical guidance and powerful arguments for joining the new sexual revolution. The results of abstinence education programs are proving their effectiveness: Best Friends, based in Washington, D.C., has successfully reduced the teen

pregnancy rate from 27 percent to 1 percent. Author Kristine Napier, a leading abstinence educator, is committed to helping teenagers stay healthy - physically, emotionally, and mentally, and has spent the past five years helping to expand a sensitive, plainspoken, effective program for schools. With her book in hand, parents will be able to empower their children to say "No" with confidence, develop responsible attitudes toward parenthood, and discover the rewards of waiting.

I'm Saying No! - Beverly Engel 2019-04-02

In spite of the #MeToo and #TimesUp movements, many women are still afraid to say no to unwanted sexual advances and reluctant to report sexual violations. Far too many college students are being raped and are afraid to report it. Women are subjected to sexual harassment, sexual bullying, and sexual pressure every day on the street, at work, and at home but are unable to speak truth to power

or to report these sexual offenses. *I'm Saying No!* is written specifically for these women—women who are still afraid to speak up for themselves, women who need to learn how to do so, and women whose personal history of child sexual abuse or sexual assault as an adult has wounded them so much that they have lost their voice. Here, Beverly Engel—an internationally recognized psychotherapist and acclaimed advocate for victims of sexual, physical, and emotional abuse—offers a groundbreaking program to help all the women who have been silenced by past trauma, women who were raised to believe they didn't have a right to say no, and women who have spoken out in the past only to go unheard. Bold and timely, *I'm Saying No!* offers women the encouragement, support, and guidelines they need in order to become the powerful women they are—women who believe in themselves and stand up for themselves.

Mothers Surviving Child Sexual

Abuse - Carol-Ann Hooper
2013-01-11

Despite increased recognition of the high incidence of child sexual abuse, little attention has so far been paid to the women on whom children primarily depend for care and protection - their mothers. Informed by theory and research on other situations involving loss, secrecy and moral dilemmas, as well as the rapidly accumulating knowledge of child sexual abuse, *Mothers Surviving Child Sexual Abuse* offers a new analysis of mother's reactions and responses, presenting a fresh perspective on a shocking problem for practitioners and policy-makers involved in child protection, as well as students and lecturers of social work and social studies and women's studies.

Sexuality in Adolescence -
Meredith Temple-Smith
2015-08-11

Sexuality in Adolescence: The Digital Generation provides a comprehensive and up-to-date overview of research and theory about adolescent

sexuality in today's world. The book examines biological, social and health-related approaches and reviews qualitative and quantitative research from psychology, sociology, epidemiology and medicine, emphasising the interplay between perspectives and privileging the voices of young people as they discuss the joys and pains of sexual awakening. The focus is on understanding healthy sexual development and its many variations, but problems and issues arising as young people make their journey to adult sexuality are also considered. The book presents global research on many key issues of our time, including the impact of media and technology on adolescent sexuality, changes in adolescent sexual behaviors and beliefs, sexual risk taking, sex education, and teen pregnancy and abortion. This fully revised and updated third edition of *Sexuality in Adolescence* also addresses the crucial issues of sexual diversity, sexual safety and sexual communication,

including coercion, peer pressure and double standards. In *Sexuality in Adolescence: The Digital Generation*, the authors aim to promote sexual wellbeing, and argue for the importance of the adolescent period as a time for engendering healthy sexual attitudes and practices. This book will be valuable reading for students in the social, behavioural and health sciences who are interested in adolescent development and the topic of sexuality, as well as for professionals working with young people and families. School Library Journal - 2003

How to Help Your Child Say No to Sexual Pressure - Josh McDowell 1987

Sex Without Consent - Shireen J Jejeebhoy 2013-07-04
The pressing need to break the silence on non-consensual sex among young people – an issue shrouded by denial, underreporting and stigma – is self-evident. Despite the growing body of research regarding young people's

sexual behaviours, the study of coercive sexual experiences has generally been overlooked by both researchers and national programmes. Available evidence has been scattered and unrepresentative and despite this evidence, non-consensual sex among young people is perceived to be a rare occurrence. This volume dispels any such misconception. It presents a disturbing picture of non-consensual sex among girls as well as boys, and among married as well as unmarried young women in a variety of settings. This volume documents, moreover, the expanse of non-consensual experiences that young people face – from unwanted touch to forced penetrative sex and gang rape. Although the focus is on young females, the volume also sheds light on the experience of young males as both victims and perpetrators. This pioneering volume highlights key factors placing young people at risk, whilst outlining the significant distinctive health and social

implications they face. Sex Without Consent also documents the unsupportive - and sometimes abusive or negligent - roles of families, teachers, health care providers and law enforcement agents, outlines promising efforts intended to prevent non-consensual sex or support survivors, and argues for profound changes in norms and values that tolerate or encourage non-consensual sex. The editors, based at the Population Council (New Delhi), the World Health Organization (Geneva), and Family Health International (Virginia) argue compellingly for a radical review and reform of existing programmes designed to prevent this kind of abuse and to support young survivors of sexual trauma in the developing world. Addressing the magnitude, determinants and consequences of sex without consent, this volume provides evidence-based directions for programming.

Model Programs for Adolescent Sexual Health - Tabitha Benner, MPA 2008-05-22

Model Programs for Adolescent Sexual Health is a directory of the most promising and proven effective sexual education and prevention programs in the United States. The programs included in this volume were selected for their demonstrated positive impact on STI, pregnancy, and HIV/AIDS-related risk behaviors by a group of eminent HIV/AIDS expert scientists. The programs also show effective prevention strategies aimed at a variety of ages (children, adolescents, college students); a variety of ethnic and cultural orientations (Latino, African-American, GLBT, and more); and for use in a variety of settings (schools, community settings, medical clinics, and more). The following information is provided for each program listed in the directory: The

Program Abstract summarizes the program, including its target clientele, site, approach, components, length, staffing requirements, program materials, and implementation costs The Program Rationale and History explains how the program was designed, and its underlying theoretical framework and assumptions Program Schedule explains the goals and activities of each program session Program Materials explains the necessary materials needed to implement the program (note that not all materials are included in this directory; however all can be ordered from Sociometrics) How to Implement the Program explains the ground rules and other necessary steps prior to implementation Evaluating the Program explains how the program was evaluated for its effectiveness

STDs - Diane Yancey

2002-01-01

Explains different types of sexually transmitted diseases, how they are contracted, their symptoms, and treatment.

Sex Equity and Sexuality in Education - Susan Shurberg Klein

Neither sex equity nor sexuality are new topics to educators, but little attention has been given to their combination. This book identifies critical issues that researchers, reformers, and educators have failed to address publicly. The authors show that it is necessary for educators to increase their understanding of ways that sex education can be sex equitable and ways that sexuality contributes to sex inequities in general education. The book covers sexuality issues of special concern to minority, disabled, and homosexual students, latchkey children, and early parents. The discussions show why it is important to break the barriers of silence, confusion, and disunity to enable females and males of all ages to receive equal opportunities and outcomes in and through education.

The Oxford Handbook of Practical Ethics - Hugh

LaFollette 2005-09-15

This is a guide to contemporary thought on ethical issues in all areas of human activity - personal, medical, sexual, social, political, judicial, and international, from the natural world to the world of business.

A Baby Doesn't Make the Man - Raymond M. Jamiolkowski 2001

Discusses reasons why teenage boys engage in sex, the consequences of irresponsible sexual activity, and alternative ways for young men to feel good about themselves.

In Control - Anna Kreiner 1999

Discusses different kinds of sexual pressure and considers ways young people can negotiate with their partners and determine their own values and ethics regarding sex.

Yes, Your Kid - Debby Herbenick, PhD 2023-11-14

Parents of teenagers and young adults have enormous catching up to do to understand how sexting, internet porn, TikTok, and more have shaped sex for young people. Too often, parents wear blinders when it comes to the sex lives of their

children. They hear the statistics—how 80% of college students have engaged in rough sex or how one in four teens have sent or received a sext—and think, “Not my kid.” Yes, Your Kid is the reality check parents need about what sex is like today—so they can better educate and support their tweens, teens, and college students. Combining insights from cutting-edge research, conversations with real students, and on-the-ground legal experience, Yes, Your Kid provides: An overview of key topics in sexuality, from communication and consent to pornography and rough sex, describing how things have changed Real-world legal stories illustrating today’s consensual sex pitfalls and clear tips for how to help your child avoid them Age-appropriate tools to talk with tweens and teens about bodies, puberty, technology, birth control, and consent Concrete advice parents can share directly with their children so that—if and when their children become sexually

active with partners—they are more likely to have safer, consensual sex Inclusive sexuality education tips for parents of young people on the autism spectrum Authoritative, supportive, sex-positive, and facts-forward, Yes, Your Kid provides parents with the frank, accurate information they and their children need to safely navigate today's sexual landscape.

From childhood to independence: A guide to parenting through the teenage years -

Coping With an Abusive Relationship - Carlene Cobb
2000-12-15

Discusses the symptoms and effects of emotional, physical, and sexual abuse.

The Power of Character - Michael S. Josephson 2004
Essays about character from 41 of the country's most distinguished, interesting and accomplished citizens, including CBS's Dan Rather; Harvard's Alan M. Dershowitz; radio host Dr. Laura Schlessinger; best selling author Daniel Goleman; spiritual leader Marianne Williamson, and many more.
Object Relations Individual Therapy - Jill Savege Scharff
2000-12-01
Emphasizing the transformational possibilities that grow out of their relational model of therapy, David E. and Jill Savege Scharff invite us into the territory of interactive journeys with individual patients. A contemporary classic.
