*The Tenacity of the Couple-Norm* - Sasha Roseneil 2020-11-05

The Tenacity of the Couple-Norm explores the ongoing strength and insidious grip of couple-normativity across changing landscapes of law, policy and everyday life in four contrasting national contexts: the UK, Bulgaria, Norway and Portugal. By investigating how the couple-norm is lived and experienced, how it has changed over time, and how it varies between places and social groups, this book provides a detailed analysis of changing intimate citizenship regimes in Europe, and makes a major intervention in understandings of the contemporary condition of personal life. The authors develop the feminist concept of 'intimate citizenship' and propose the new concept of 'intimate citizenship regime', offering a study of intimate citizenship regimes as normative systems that have been undergoing profound change in recent decades. Against the backdrop of processes of de-patriarchalization, liberalization, pluralization and homonormalization, the ongoing potency of the couple-norm becomes ever clearer.

**The Transformation of Intimacy** - Anthony Giddens 2013-04-23

The sexual revolution: an evocative term, but what meaning can be given to it today? How does 'sexuality' come into being and what connections does it have with the changes that have affected personal life on a more general plane? In answering these questions, Anthony Giddens disputes many of the dominant interpretations of the role of sexuality in modern culture. The emergence of what the author calls plastic sexuality - sexuality freed from its intrinsic relation to reproduction - is analysed in terms of the long-term development of the modern social order and social influences of the last few decades. Giddens argues that the transformation of intimacy, in which women have played the major part, holds out the possibility of a radical democratization of the personal

sphere. This book will appeal to a large general audience as well as being essential reading for students and professionals.

*Digital Sociology* - K. Orton-Johnson 2013-01-21

Sociology and our sociological imaginations are having to confront new digital landscapes spanning mediated social relationships, practices and social structures. This volume assesses the substantive challenges faced by the discipline as it critically reassesses its position in the digital age.

**Everyday Friendships** - Harry Blatterer 2014-11-14

Everyday Friendship conceptualises the lived experience of intimacy in a world in which the terms and conditions of love and friendship are increasingly unclear. Drawing on writing on friendship, love, and intimacy by such thinkers as Simmel and Kracauer, Elias, Goffman, Luhmann and Honneth, the book charts the modern meaning of intimacy and the freedoms it offers, as well as the continued challenges of entrenched gendered assumptions in everyday relations of affection, trust and respect. It shows that the analysis of the 'small world' of dyads can give important clues about society, and in this case about its gendered makeup. Everyday Friendship seeks to reintegrate into sociology the study of friendship and the analysis of dyads.

Fathers and Daughters - Sue Sharpe 2013-04-15

Fathers and Daughters explores the complex nature of this subject using the voices and experiences of both fathers and daughters. Sue Sharpe provides an examination of the important processes operating within the relationship such as those affecting gender roles, achievement, teenage sexuality, women's relationships with men and ageing. It is an original and captivating treatment of a strangely neglected subject. Sue Sharpe is a free-lance writer and researcher based in London.

Intimacy - Lynn Jamieson 1998-02-04

Are personal relationships deeper and more intimate than ever before or are they increasingly empty and structured by selfish individualism? This exciting new book examines the question in a wide-ranging discussion of the nature of intimacy, focusing on key relationships between parents and children, families, sexual partners, couples and friends.

**Intimate Relationships and Social Change** - Christina L. Scott 2017-09-20

This multidisciplinary volume provides a unique and truly global collection of research on the nature of dating, mating, and coupling, as they occur across a variety of cultures in dynamically shifting societies.

*Intimacy and Power* - D. Layder 2009-08-28

This book explores the nature of intimacy by revealing how the influence of individual, interpersonal and wider social factors create variations in self-disclosure, intimacy games and relationship habits. It describes how the dynamics of power and control in relationships give rise either to mutual satisfaction or to the unraveling of intimacy.

**Living Alone** - Lynn Jamieson 2013-09-19

Exploring the growing global trend of solo living, this highly original study addresses core debates about contemporary social change in the context of globalization, including individualization and connection, the future of family formation, consumption and identities, belonging and 'community', living arrangements and sustainability.

*Love as Passion* - Niklas Luhmann 2014-12-08

In this important book Niklas Luhmann - one of the leading social

thinkers of the late 20th century - analyses the emergence of 'love' as the basis of personal relationships in modern societies. He argues that, while family systems remained intact in the transition from traditional to modern societies, a semantics for love developed to accommodate extra-marital relationships; this semantics was then transferred back into marriage and eventually transformed marriage itself. Drawing on a diverse range of historical and literary sources, Luhmann retraces the emergence and evolution of the special semantics of passionate love that has come to form the basis of modern forms of intimacy and personal relationships. This classic book by Luhmann has been widely recognized as a work of major importance. It is an outstanding contribution to social theory and it provides an original and illuminating perspective on the nature of modern marriage and sexuality.

**Personal Relationships and Intimacy in the Age of Social Media** - Cristina Miguel 2018-11-11

This book examines how intimate relationships are built, negotiated and maintained through social media. The study takes a cross-platform

approach, analysing three social media platforms of different genres – Badoo, Couchsurfing and Facebook – and exploring two interactive forces that shape the way people communicate through social media: the platforms’ architecture and policies, and actual practises of use.

Combining analysis of the political economy of social media with users’ perspectives of their own practises – as well as exploring the tensions between the two – the book provides a detailed picture of intimacy as a complex structure of continuity and change.

**Researching Families and Relationships** - Caroline King 2011-08-26

This collection focuses on the real life experiences of conducting empirical research about families and relationships, with an emphasis on the actualities of doing research and the experiences of being a researcher.

Personal Relationships Across Cultures - Robin Goodwin 2013-05-13

Is falling in love the same the world over? What makes a 'happy marriage' in different cultures? How does our society influence us in the way we raise our children? Is modern life incompatible with intimacy? In this innovative new text, Robin Goodwin challenges many of the established views on relationships by considering how different cultures view different relationships (love, marriage, friendship, the family, sexual relations). By discussing fundamental differences in values between cultures, alongside other key influences such as social class and education, he explores why these differences occur, and how different political and historical events have challenged existing patterns of relationships. Finally, drawing on research from all parts of the world, he considers how we can use this knowledge to help different communities across the globe cope with their most pressing relational challenges. Dr Robin Goodwin is Reader in Psychology in the Department of Human Sciences at Brunel University, London. He publishes widely on relationships and culture, and lectures about his work across the world.

**Intimacy and Power** - Derek Layder 2009

What makes an intimate relationship truly satisfying? Is there too much pressure on intimacy to succeed in the modern world? Do we expect too much from partners? This book tackles such questions by examining the

social and psychological forces at play in close relationships, and argues that the forms of modern couple intimacy are more varied and complex than recent accounts would suggest. In this respect the book reveals how the combined influence of individual, interpersonal and wider social factors create variation in self-disclosure, intimacy games and relationship habits. By highlighting the way power and control influence the fate of personal relationships Derek Layder identifies the key ingredients of optimal intimacy as well as those that work to undermine or destroy it.

*Social Media and Personal Relationships* - D. Chambers 2013-02-21

This book explores how digital communication generates new intimacies and meanings of friendship in a networked society, developing a theory of mediated intimacies to explain how social media contributes to dramatic changes in our ideas about personal relationships, through themes of self, youth, families, digital dating and online social capital.

**Families in Society** - McKie, Linda 2005-09-21

The enduring and multi-faceted significance of families in society, and their value as a focus for the exploration of social change have ensured that families remain a prominent focus of academic enquiry. This book proposes a new conceptual framework that both challenges and attempts to reconcile traditional and contemporary approaches.

Modern Couples? - Jenny van Hooff 2016-04-15

Have heterosexual relationships become more intimate and equal over the past forty years? Simply put, this is the central question underpinning this book. Within the context of late modern social processes, including most notably individualization and detraditionalization, authors such as Giddens, Beck and Beck-Gernsheim, and Bauman have come to focus on a posited transformation of personal relationships. This has culminated in a sociological debate over the nature of contemporary relationships, with proponents of change celebrating the emergence of an intimacy based on personal satisfaction rather than traditional obligations. Detractors reject this interpretation and instead lament what they consider to be the destruction of commitment and the demoralisation of personal relationships by the rise

of individualism and consumerism. While these two entrenched positions have dominated the debate, a third, marginalised perspective has emerged, which questions the extent to which contemporary relationships have become detraditionalized, and emphasises evidence of continuing gender inequalities. This book is essentially a qualitative empirical investigation of the changes and continuities posited within the

debate, which evaluates existing work and details the findings of van Hooff's research into the relationships of two generations of heterosexual couples. It provides the reader with a grounded interpretation of the evidence, questioning to what extent lived reality has matched the rhetoric within contemporary relationships.
