"The entire field of film historians awaits the AFI volumes with eagerness."--Eileen Bowser, Museum of Modern Art Film Department

Westerns and the Trail of Tradition - Barrie Hanfling 2016-04-21

Over the past century, the western has fluctuated in popularity. By 2010 it has come to stand, to the dismay of many, at one of its lowest points. Beginning with 1929 and the advent of talkies (In Old Arizona), the author discusses the cultural and industry trends, the directors, producers, studios and especially the stars, and looks at the ways in which their personalities (and financial ups and downs) affected the way westerns were shot. The improvements in technology through the years, the trick horses, the fistfight choreography, the evolution of plotlines—these are fascinating indicators of the way Americans themselves were changing.

Frederic Remington - Peter H. Hassrick
2016-05-31

One of America's most popular and influential American artists, Frederic Remington (1861-1909) is renowned for his depictions of the Old West. Through paintings, drawings, and sculptures, he immortalized a dynamic world of cowboys and American Indians, hunters and horses, landscapes and wildlife. Frederic Remington: A Catalogue Raisonné II is a comprehensive presentation of the artist's body of flat work, both in print and on this book's companion website. Beautifully illustrated with

more than 150 figures and 100 color plates, this book offers insightful essays by notable art historians who explore Remington's experiences in Taos, New Mexico, and other parts of the West. The chapters include analyses of Remington's artistic development from an illustrator to a fine art painter, his search for and understanding of "men with the bark on," his relationship with the famed illustrator Howard Pyle, and the shared imagery of Remington and "Buffalo Bill" Cody. A chapter considering Remington's enduring bond with the horse and its representation in his paintings follows an examination of Remington's ties to Theodore Roosevelt that reveals how the two men helped move the American conscience toward wildlife preservation. An assessment of the authentication process for evaluating Remington's works opens the collection: Remington is perhaps the most frequently faked American artist. The book features a unique

that brings together more than 3,000 reproductions of the artist's flat works, including the complete original 1996 edition of the Catalogue Raisonné and nearly 300 previously unknown or relocated pieces. Each entry includes the title, date, medium, size, inscriptions, provenance, and exhibition and publication history of the work, as well as select commentary. The online catalogue is fully searchable and will be continuously updated as new information becomes available. Based on decades of scholarship and research, the revised Remington Catalogue Raisonné is an essential resource for scholars, collectors, museum curators, historians of the American West, and anyone seeking definitive information on the art of Frederic Remington. Frederic Remington: A Catalogue Raisonné II is published in cooperation with the Buffalo Bill Center of the West, Cody, Wyoming.

Tropical Cowboys - Ch. Didier Gondola
2016-04-10

“An innovative and original study that sheds light on masculinity, youth culture, performative violence, and the circuit of global imagery.”
—Stephan F. Miescher, author of Making Men in Ghana During the 1950s and 60s in the Congo city of Kinshasa, there emerged young urban male gangs known as “Bills” or “Yankees.”

Modeling themselves on the images of the iconic American cowboy from Hollywood film, the Bills sought to negotiate lives lived under oppressive economic, social, and political conditions. They developed their own style, subculture, and slang and as Ch. Didier Gondola shows, engaged in a quest for manhood through bodybuilding, marijuana, violent sexual behavior, and other transgressive acts. Gondola argues that this street culture became a backdrop for Congo-Zaire’s emergence as an independent nation and continues to exert powerful influence on the country’s urban youth culture today. “Aligns social banditry with popular cultural formations and subcultures. This has been a longstanding feature of Didier Gondola’s scholarship that is of great interest.” —Peter J. Bloom, University of California, Santa Barbara “Its approach in terms of poverty and unemployment combined with a subtle interest in performance and the creation of an original culture makes this book an eye-opener. Joaquin, the Terrible - Joseph E. Badger 1881

Americanizing the Movies and Movie-Mad Audiences, 1910-1914 - Richard Abel
2006-08-28

This engaging, deeply researched study provides the richest and most nuanced picture we have to date of cinema—both movies and movie-going—in the early 1910s. At the same time, it makes clear the profound relationship between early cinema and the construction of a national identity in this important transitional period in the United States. Richard Abel looks closely at sensational melodramas, including westerns (cowboy, cowboy-girl, and Indian pictures), Civil War films (especially girl-spy films), detective films, and animal pictures—all popular genres of the day that have received little critical

attention. He simultaneously analyzes film distribution and exhibition practices in order to reconstruct a context for understanding moviegoing at a time when American cities were coming to grips with new groups of immigrants and women working outside the home. Drawing from a wealth of research in archive prints, the trade press, fan magazines, newspaper advertising, reviews, and syndicated columns—the latter of which highlight the importance of the emerging star system—Abel sheds new light on the history of the film industry, on working-class and immigrant culture at the turn of the century, and on the process of imaging a national community.

The First Texas News Barons - Patrick L. Cox
2009-04-20

Newspaper publishers played a crucial role in transforming Texas into a modern state. By promoting expanded industrialization and urbanization, as well as a more modern image of Texas as a southwestern, rather than southern, state, news barons in the early decades of the twentieth century laid the groundwork for the enormous economic growth and social changes that followed World War II. Yet their contribution to the modernization of Texas is largely unrecognized. This book investigates how newspaper owners such as A. H. Belo and George B. Dealey of the Dallas Morning News, Edwin Kiest of the Dallas Times Herald, William P. Hobby and Oveta Culp Hobby of the Houston

Post, Jesse H. Jones and Marcellus Foster of the Houston Chronicle, and Amon G. Carter Sr. of the Fort Worth Star-Telegram paved the way for the modern state of Texas. Patrick Cox explores how these news barons identified the needs of the state and set out to attract the private investors and public funding that would boost the state's civic and military infrastructure, oil and gas industries, real estate market, and agricultural production. He shows how newspaper owners used events such as the Texas Centennial to promote tourism and create a uniquely Texan identity for the state. To balance the record, Cox also demonstrates that the news barons downplayed the interests of significant groups of Texans, including minorities, the poor and underemployed, union members, and a majority of women.

Writing the Story of Texas - Patrick L. Cox

2013-03-01

The history of the Lone Star state is a narrative dominated by larger-than-life personalities and often-contentious legends, presenting interesting challenges for historians. Perhaps for this reason, Texas has produced a cadre of revered historians who have had a significant impact on the preservation (some would argue creation) of our state's past. An anthology of biographical essays, *Writing the Story of Texas* pays tribute to the scholars who shaped our understanding of Texas's past and, ultimately, the Texan identity. Edited by esteemed historians Patrick Cox and Kenneth Hendrickson, this collection includes insightful, cross-generational examinations of pivotal

individuals who interpreted our history. On these pages, the contributors chart the progression from Eugene C. Barker's groundbreaking research to his public confrontations with Texas political leaders and his fellow historians. They look at Walter Prescott Webb's fundamental, innovative vision as a promoter of the past and Ruthe Winegarten's efforts to shine the spotlight on minorities and women who made history across the state. Other essayists explore Llerena Friend delving into an ambitious study of Sam Houston, Charles Ramsdell courageously addressing delicate issues such as racism and launching his controversial examination of Reconstruction in Texas, Robert Cotner—an Ohio-born product of the Ivy League—bringing a fresh perspective to the field, and Robert Maxwell engaged in early work in environmental history.
