Making Marriage Modern Christina Simmons 2009-04-10 The nineteenth-century middle-class ideal of the married woman was of a chaste and diligent wife focused on being a loving mother, with few needs or rights of her own. The modern woman, by contrast, was partner to a new model of marriage, one in which she and her husband formed a relationship based on greater sexual and psychological equality. In *Making Marriage Modern*, Christina Simmons narrates the development of this new companionate marriage ideal, which took hold in the early twentieth century and prevailed in American society by the 1940s. The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers, who advocated for a scientific but conservative sex education to combat prostitution and venereal disease. A more radical group of feminists, anarchists, and bohemians opposed the Victorian model of marriage and even the institution of marriage. Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women's rights to acquire and use effective contraception. The "companionate marriage" emerged from these efforts. This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women, use of birth control to create smaller families, and destigmatization of divorce in cases of failed unions. Simmons examines what she calls the "flapper" marriage, in which free-spirited young wives enjoyed the early years of marriage, postponing children and domesticity. She looks at the feminist marriage in which women imagined greater equality between the sexes in domestic and paid work and sex. And she explores the African American "partnership marriage," which often included wives' employment and drew more heavily on the involvement of the community and extended family. Finally, she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period. Though male dominance persisted in companionate marriages, Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality. By raising women's expectations of marriage, the companionate ideal also contained within it the seeds of second-wave feminists' demands for transforming the institution into one of true equality between the sexes.

Straight Talk About Dating James Wegert M. Ed 2010-02-01 Written by a school counselor who talks with people on a regular basis about their relationship problems, *Straight Talk About Dating* is a guide to dating from a Christian perspective for ages 18 and up. Edited to be fast paced and hard hitting, the book challenges the misinformation dispensed daily by the media about dating by communicating crucial practical information including: how to prepare for dating by becoming the type of person that God wants you to date, when and who to date, how to do dating right, how to decide whether or not to continue in a dating relationship, the harmful effects of engaging in make out sessions and having sex before marriage, what real love is, how to decide whether or not to get married, the dangers of living together before marriage, and more. The themes of how much God loves us, how He wants only the best for us, and His willingness to forgive us regardless of what we've done flow throughout the book. The Appendix contains recommendations of other excellent books to read in order to help readers continue on their journey of preparing themselves for dating and marriage. Review: "The use of scripture and personal experiences really gave credibility to the information and provided many challenging perspectives to everyday issues in relationships . . . Wegert gets straight to the point, is honest, and challenges readers to seriously consider things before stepping into a serious relationship." - from online review. From the Author: We have been taught by the media and our popular culture to believe that there is only one approach to dating. The message that we receive relentlessly every day is that when a person wants to start dating all they need to do is begin searching for a person with looks, personality, and possibly money who they like, who they feel attracted to - so that they can "fall in love" with them. Since we watch people start romantic relationships over and over again on TV and in the movies and see our friends starting romantic relationships using this approach and it seems to work - we really believe the fairy tale that all we have to do is search for a person who has everything we want and be ready to "fall in love and live happily ever after." I made this painful mistake in my life. Unfortunately, this approach has several major problems. The first problem is that it's based upon selfishness. Can you see it? A person using this approach is just trying to get what they want for themselves. The second problem is that the result of using this approach is usually heartbreak or worse. In fact, in history the number of broken hearts from using this approach is in the billions - and sadly even after having their heart broken, most people use the same approach over and over again because they don't know what else to do. The third problem with this approach is that it promotes that being lazy is OK - it basically says that a person doesn't have to do much of anything to prepare themselves for dating - just be searching and be ready because you never know when you are going to "fall in love." Doesn't this approach sound a lot like gambling? - part of it's allure is that it's kind of mysterious and exciting. But just like gambling, the odds of winning by having a lifelong loving marriage are stacked against you. But the biggest problem with this approach is that it doesn't include God. Isn't it unbelievably sad that most people use an approach to dating that's based upon a fairy tale, selfishness, and

laziness, that's a lot like gambling, that usually doesn't work, and that doesn't include God? Straight Talk About Dating was written to communicate to young adults age 18 and up about a better approach to dating - an approach that includes God during the preparation for dating, while dating, and when making the decision of whether or not to get married - an approach that will help them to maximize the possibility that they will have a lifelong loving Christian marriage.

Creating a Successful Christian Marriage Cleveland McDonald 2008-04-01 This classic text, written by a father-and-son team, looks at the nuclear family as a social institution and provides guidance for interaction and adjustment during dating, engagement, and early marriage. The authors treat such practical matters as communicating, working through interpersonal differences, and growing in relationships within the family. They also discuss the impact of cultural expectations on family patterns and define ideal family roles developed in Scripture. Other topics covered include parenting, extended family relationships, finances, and nontraditional families. Now available in paperback.

Patriarchal Lineages in 21st-Century Christian Courtship Elizabeth L. Shively 2020-08-10 Drawing from a study of courtship media and ethnographic work at purity retreats and home-school conventions across the Midwest, this is the first inquiry into modern Christian courtship, an alternative to dating that asks young people to avoid both romance and sex until they are ready to be married. Bridging sociological and historical studies of American Christianity with youth and girlhood studies literatures, Elizabeth Shively finds that the courtship system is designed to shore up the patriarchal nuclear family structure at the center of conservative Christianity and ensure predictability in the face of emerging adulthood: single young women work to embody ideals of "luminous femininity" and model themselves after archetypes such as the "Proverbs 31 woman," the "stay-at-home-daughter," and the "mission-minded girl," and courting couples strive to "guard their hearts" against premature emotional intimacy. Nonetheless, participants report that courtship, like other relationships, inevitably carries an element of risk, and it ultimately fails to offer a substantial challenge to the sexist realities of youth dating culture.

[The Shot of a Lifetime](#) Darren Eldred Schmidt 2020-08-20 In "The Shot of a Lifetime" (written for youth, young adults as well as parents and leaders of youth), popular speaker, teacher and author Darren Schmidt explores the answers to many questions related to dating and preparing for eternal marriage such as: I want to prepare myself for eternal marriage but how? Why is dating important? What is considered a date? How can I be a good date? What have living prophets taught about dating, courtship, and preparing for marriage? Is it O.K. to have a boyfriend or girlfriend (steady date) and when is the best time to do it? When it comes to kissing or other physical contact where should I draw the line? What advice would you give for a young adult preparing for marriage? How can I keep myself safe from temptation and sin when it comes to dating and courtship? What can I do to repent if I have slipped? What role does the Savior play in me preparing for and having an eternal marriage? What is real beauty and what should I look for in a future spouse? What blessings await me, as I prepare for and make sacred and eternal covenants in the temple?
