You're right to be cautious when you hear these words: "I'm telling you, we're just friends." Good people in good marriages are having affairs. The workplace and the Internet have become fertile breeding grounds for "friendships" that can slowly and insidiously turn into love affairs. Yet you can protect your relationship from emotional or sexual betrayal by recognizing the red flags that mark the stages of slipping into an improper, dangerous intimacy that can threaten your marriage.

[Trust Issues In Relationships](#) - Kara Lawrence 2020-08-16

The #1 Reason Why You Have Trust Issues and Why Feeling Messed Up Doesn't Mean You'll Never Find Real Love Let's face it - we're all messed up. Unless you've never been in a relationship before or you don't have questionable family dynamics, chances are that some type of betrayal has happened in your life. So, what do we do about such problems? We usually dump all of that baggage on people who have nothing to do with our screwed up past. Raise your hand if you've been betrayed before and you're taking it out on your current partner now. You're not alone! Betrayal trauma makes us many unpleasant things - jealous, anxious, whiny, needy, insecure... Trust issues are detrimental for one more key reason: self-sabotage. You don't want to be hurt ever again, which is why you do your best to kill the potential for something serious before it has even happened. Sound familiar? Do you envision yourself dying alone, surrounded by a thousand cats? Your outcome doesn't have to be this grim. Betrayal trauma hurts, whether it has been inflicted on you by a parent, a friend, or a romantic partner. This, however, doesn't mean you'll never get over it or that you'll never discover real love. In *Trust Issues in Relationships*, you will discover: Why trusting is so hard but is also the greatest thing on earth The #1 reason why you have trust issues and what you can do to fix it The F-word in the world of betrayal trauma (that stands for forgiveness, get your mind out of the gutter!) Why sweeping trauma under the carpet never works, and why you have to face your issues Anxious attachment and how it can kill a good relationship One exercise psychologists believe is vital for building trust with your partner The beauty of vulnerability and openness 10 signs your trust issues have really messed you up And much more. Right now, it may seem as if the hurt is never going to end. After all, you've been cheated so many times in the past that history is bound to repeat itself, isn't it? Not if you break the vicious cycle. Understand that you have agency and can say: "Enough!" Being your own advocate and taking charge can help you understand insecurities, work through past trauma, and get your partner involved in the process. You deserve love and can make wholesomeness happen, no matter how damaged you've been before. Putting an end to trust issues depends on your inner motivation. Broken Promises, Mended Hearts - Joel D. Block 2001-12-06

It is Dr. Block's firm belief that when couples feel emotionally safe with each other, their relationship is more passionate, open, uninhibited, and sexually alive. Filled with inspiring case studies from Dr. Block's private practice, this book offers couples an innovative, solution-oriented approach to restoring trust and repairing love relationships shattered or eroded by betrayal. Includes chapters covering: Recognizing the Signs of Trust . . . and Mistrust Dance Away Lovers: The Trust-Mistrust Relationship Jealousy, Lover's Hell The Frontier of Trust: Sexual Fidelity Restoring Trust "Through a spirited, imaginative exploration of love relationships, Block develops a useful roadmap for those who want their relationship to be meaningful." --Daniel Acaoz, founder, American Journal of Family Therapy

[Redefining Anxiety](#) - Dr. John Delony 2020-11-17

Anxiety is real—but it isn't the end of your story. Dr. John Delony knows

what anxiety feels like. He's walked that dark road himself, but he found light and hope on the other side of it. Bringing together his own journey and two decades of counseling and research, he walks you through: The four biggest myths about anxiety and the life-changing truth Practical steps you can take today to start getting your life back Long-term strategies for healing to help you move forward John will show you that most of what you've heard about anxiety is wrong. Things like: If you have anxiety, you're broken and need to be fixed Anxiety is a disease that can only be cured with medicine Anxiety is caused by your genetics While mental health is complex, our culture has made anxiety into something it's not. For the majority of people who face anxiety, the truth is simpler than we think: anxiety is an alarm. It's a signal—nothing more and nothing less. Anxiety is simply our body's way of telling us something is wrong. If we stop and listen, we can calm the alarm and move forward into healing and hope.
