Winner of The International Book Awards, 2019 The body listens, remembers and speaks to us. We receive the body's messages all the time, although we seldom recognize them. Our body expresses its unmet needs and calls for attention in many ways. And so it is with weight. This is a puzzling matter only because some pieces of the puzzle are not in the box you were handed. Your weight is not a body issue. Excess weight is really a multi-dimensional problem showing up as an oversized body. Popular media is still full of diet and exercise advice that is based on sacrifice and punishment. Too few books use this research to show how weight can be reduced in a happier and healthier way. The Body Nirvana is about gradually letting go of everything that literally and metaphorically weighs you down. It is time to rejoice in your body's vitality and its capacity to take you towards your life's goals!

India in Love - Ira Trivedi 2014

A ground-breaking look at the sexual revolution that is beginning to sweep through urban India. The National Bestseller *India in Love: Marriage and Sexuality in the 21st Century* is a ground-breaking look at the sexual revolution that is starting to sweep through urban India. Bestselling author Ira Trivedi travelled from Shilling in the northeast to Chennai in the south, Konark in the east to Mumbai in the west and over a dozen other cities and towns in order to gain unprecedented insights into changing sexual habits, marriage and love everywhere in the country. The book explores the mating habits of young Indians on college campuses and in offices, examines the new face of Indian pornography and prostitution, probes India's gay revolution and delves into history, economics and sociology to try and understand how the nation that gave

the world the Kamasutra could have become a closed, repressed society with a shockingly high incidence of rape and violence against women the dark underside to the greater sexual freedom that men and women in our cities have begun to enjoy today. Trivedi goes deep into one of the most enduring institutions of Indian society marriage and investigates how it is faring in modern times. She interviews marriage brokers, astrologers, lawyers, relationship counsellors, 'love commandos', parents and nervous young brides and grooms, amongst others, to present a nuanced picture of the state of marriage in the country. She discovers that love marriages are skyrocketing and even the age-old arranged marriage is undergoing a transformation. Also on the rise are divorces, extra-marital affairs, open marriages, live-in-relationships and the like. Supporting her eye-opening reportage with hundreds of interviews, detailed research, authoritative published surveys and discussions with experts on various aspects of sexuality and marriage, Trivedi has written a book that is often startling, sometimes controversial, but is always entertaining and original.

'Bad' Women of Bombay Films - Saswati Sengupta 2019-12-06

This book presents a feminist mapping of the articulation and suppression of female desire in Hindi films, which comprise one of modern India's most popular cultural narratives. It explores the lineament of evil and the corresponding closure of chastisement or domesticity that appear as necessary conditions for the representation of subversive female desire. The term 'bad' is used heuristically, and not as a moral or essential category, to examine some of the iconic disruptive women of Hindi cinema and to uncover the nexus between patriarchy and other hierarchies, such as class, caste and religion in these representations. The twenty-one essays examine the politics of female desire/s from the 1930s to the present day - both through in-depth analyses of single films and by tracing the typologies in multiple films. The essays are divided into five sections indicating the various gendered desires and rebellions that patriarchal society seeks to police, silence and domesticate.
