What Do I Say? - Linda N. Edelstein 2011-05-12
The must-have guide to honestly and sensitively answering your clients' questions Written to help therapists view their clients' questions as collaborative elements of clinical work, *What Do I Say?* explores the questions—some direct,

others unspoken—that all therapists, at one time or another, will encounter from clients. Authors and practicing therapists Linda Edelstein and Charles Waehler take a thought-provoking look at how answers to clients' questions shape a therapeutic climate of expression that encourages personal discovery and growth. Strategically arranged in a question-and-answer format for ease of use, this hands-on guide is conversational in tone and filled with personal examples from experienced therapists on twenty-three hot-button topics, including religion, sex, money, and boundaries. *What Do I Say?* tackles actual client questions, such as: Can you help me? (Chapter 1, The Early Sessions) Sorry I am late. Can we have extra time? (Chapter 9, Boundaries) I don't believe in all this therapy crap. What do you think about that? (Chapter 3, Therapeutic Process) Why is change so hard? (Chapter 4, Expectations About Change) Will you attend my graduation/wedding/musical performance/speech/business grand opening? (Chapter 20, Out of the Office) Where are you going on vacation? (Chapter 10, Personal Questions) I gave your name to a friend . . . Will you see her? (Chapter 9, Boundaries) Should I pray about my problems? (Chapter 12, Religion and Spirituality) Are you like all those other liberals who believe gay people have equal rights? (Chapter 13, Prejudice) The power of therapy lies in the freedom it offers clients to discuss anything and everything. It's not surprising then, that clients will surprise therapists with their experiences and sometimes with the questions they ask. *What Do I Say?* reveals how these questions—no matter how difficult or uncomfortable—can be used to support the therapeutic process rather than derail the therapist-client relationship.

If.. - Evelyn McFarlane 2008-12-10

Adolescence is one of the most challenging times of our lives — and, of course, the most fun. What do teens want to know about and ask about? It may be friends, TV, school, romance, music, peer pressure, cliques, proms, parties, gossip, parents, food, hair, videos, shopping, sports, card, the future — just to name a few. And there is nothing more fun for teens than asking friends and schoolmate questions about all these things. With the same imaginative zeal that has made

the If series so wildly popular, Evelyn MacFarlane and James Saywell engage teens with question such as: If you could pick any three friends to go to college with, whom would you take? If you could start a new fashion trend a school, what style would you propose? If you could have any one super power, what would you choose? If you were stranded on an island and could have one CD, movie, and book — what would they be? If you could have starred in any music video in history, which would you pick?

The Sexual Question - Auguste Forel 2015-11-07

The sexual question is of fundamental importance for humanity, whose happiness and well-being depend largely on the best solution of this important problem. In dealing with such a delicate subject I shall endeavor to avoid narrow-mindedness and prejudice; I shall avoid tiresome quotations, and shall only employ technical terms when necessary, as they rather interfere with the comprehension of the subject. I shall take care to explain all those which appear to me indispensable. My opinions on the sexual question are based, on the one hand, on my scientific study of the human brain, and on the other hand on the long personal experience of an alienist who has devoted himself almost as much to normal mentality and questions of social hygiene as to pathological mentality. I have, however, been obliged to rely on the fundamental work of Westermarck with regard to ethnology, this subject being strange to me. Concerning sexual psycho-pathology I have followed the classification of Krafft-Ebing. The sexual question is extraordinarily complex, and we cannot expect to find a simple solution for it as we can for the questions of alcoholism, slavery, torture, etc. The latter are [4]solved in one word—suppression. Suppression of slavery and torture; suppression of the usage of alcoholic drinks. We are concerned here with ulcers artificially produced and preserved in human society; ulcers which must be simply extirpated. Their suppression is nothing but beneficial, since, far from being connected with the normal conditions of human existence, they place it in peril. Sexual instinct and sentiment, on the contrary, have their roots in life itself; they are intimately bound up with humanity, and therefore require quite a different treatment. But human society has guided them into false

and pernicious ways. It is important to turn them from these in order to tranquilize and regulate their course by damming them up and canalizing them. The fundamental axiom of the sexual question is as follows: With man, as with all living beings, the constant object of all sexual function, and consequently of sexual love, is the reproduction of the species. It is therefore necessary to treat the question from the point of view of the natural sciences, physiology, psychology and sociology. This has already been done more than once, but usually in erudite treatises which only look upon one side of the question; or, on the other hand, in a superficial and often frivolous manner. To ensure happiness, humanity should desire to reproduce itself in a manner which elevates progressively all the physical and mental faculties of man, with regard to health and bodily strength, as much as to sentiment, intelligence, will, creative imagination, love of work, joy of living, and the sentiment of social solidarity. Every attempt made to solve the sexual question should, therefore, be directed toward the future and toward the happiness of our descendants.

Great Answers to Difficult Questions about Sex - Linda Goldman 2010-02-15

What does sex mean? Where do babies come from? Why is my body changing? Sex is never an easy subject for discussion and adults often struggle to find the right words when talking about it with children. This book explores children's thoughts and feelings on the subject of sex and provides parents and other caring adults with guidance on how to respond to difficult questions. The author explores some of the most common questions children ask about sex and provides sensitive yet candid answers, phrased in a way that children will be able to understand and relate to. Each chapter is devoted to a particular issue, such as how babies are made, relationships, and the differences between boys and girls. The book recognizes the emotions and reactions of children and family members and includes separate conclusions for adults and children. This guide offers useful advice for parents and carers and will also be of interest to counsellors and other professionals working with children.

Sex Education - Florin Constantinescu 2020-09-14

What is sex education? Is sex education important? Why should people know things they haven't shown interest in yet? Is sexuality good? It is bad? Is it allowed? Isn't it allowed? Here are some of the hundreds of questions that populate every person's mind, especially during puberty, adolescence and youth. Questions unknowingly left unanswered by a society obsessed with hypocritical and schizoid behaviors, a society that condemns things that are absolutely natural but is extremely tolerant of things that spring from the darkest behaviors. What are the sources of information about sexuality and sex education? Well, in the order of interest shown

by young people, they are the media (television and the Internet), discussions with friends, syrupy books, discussions with parents and explanations at school. The smartest know that television is incredible, the Internet is full of untalented actors who play extremely poorly defined roles, friends talk more from what they hear and from their own imagination, it is difficult to discuss with parents, both out of reluctance as well as their lack of time, and at school there are some notions of the anatomy of the reproductive system absolutely without salt and pepper, sterile information presented pompously under the name of Sex Education. And then how can a young man who wants to be well informed know something about such a nebulous field of sexuality? Of course, the bravest and without too many pretensions of prudence rush fearlessly into the real exploration of this sexuality, and too many of them end up in hospitals, with consequences for life, premature parents or with souls torn into thousands of pieces. For this reason we believe that correct information, free of prejudices and false modesty can save the life and future of any young person. It is important to know that sex life involves certain dangers and pitfalls, like any other aspect of our lives, and it is desirable that these difficulties be overcome, because information always means power. This paper tries to answer some of the questions of young people, questions that address a wide range of interests and topics, all related to sex education. The reader will find short and succinct answers, without unnecessary and tedious details, about the questions that trouble him. We hope that the reader will find the information interesting and will become more educated and better prepared for the trials of life, after completing this paper.

The Limits of Autobiography - Leigh Gilmore 2023-07-15

In *The Limits of Autobiography*, Leigh Gilmore analyzes texts that depict trauma by combining elements of autobiography, fiction, biography, history, and theory in ways that challenge the constraints of autobiography. Astute and compelling readings of works by Michel Foucault, Louis Althusser, Dorothy Allison, Mikal Gilmore, Jamaica Kincaid, and Jeanette Winterson explore how each poses the questions "How have I lived?" and "How will I live?" in

relation to the social and psychic forms within which trauma emerges. First published in 2001, this new edition of one of the foundational texts in trauma studies includes a new preface by the author that assesses the gravitational pull between life writing and trauma in the twenty-first century, a tension that continues to produce innovative and artful means of confronting kinship, violence, and self-representation.

If... Volume 3 - Evelyn McFarlane 2007-12-18
 From the Introduction: "Love. Romance. Sex. From the imaginative lover to the imaginary one, our imaginations play central role in our love lives. Pity the person who believes there exists no connection between the heart and the imagination, or pity their lover, anyway. From the first time we begin to discover there's a thing called love—tumultuous, chaotic, confusing, frightfully powerful, and stunningly joyous—we begin to imagine what might be if . . . And as long as we are able to love (in other words, as long as we are alive), our imaginations help us through it, fill in the gaps, make us hopeful, steel our nerves, augment our romantic ideas, protect our humility, guide our actions, and help keep things interesting. Would we dare enter into love otherwise? Yet as wonderful and wrenching as romantic love can be, it remains startlingly incomprehensible, and the mysteries of our own hearts tantalize us. Can we know more? Are we meant to? Ask yourself some of these questions, and ask those you love, or would like to. Where will they take you? What will they reveal? Do you have the courage to answer? Be prepared for anything. And always, always, treasure the game of love. We would like to add that some of the following questions are rather direct, and personal, and not everyone will choose to ponder them, but in no case do we intend offense."

The Sexual Question: A Scientific, Psychological, Hygienic and Sociological Study - Auguste Forel 1926

My object is to study the sexual question under all its aspects: scientific, ethnological, pathological and social, and to seek the best solution of the numerous problems connected with it. Unfortunately, in publications dealing with this subject, eroticism usually plays a considerable part, and it is difficult for an author to abstract himself from this, for it is reflected

unconsciously in his thoughts. As all sentiment, more or less, warps judgment, it is the duty of scientific criticism to eliminate eroticism in order to be exact and impartial. We shall, therefore, do all that is possible to free ourselves from it in the course of the present study. The sexual question is of fundamental importance for humanity, whose happiness and well-being depend largely on the best solution of this important problem. In dealing with such a delicate subject I shall endeavor to avoid narrow-mindedness and prejudice; I shall avoid tiresome quotations, and shall only employ technical terms when necessary, as they rather interfere with the comprehension of the subject. Frenchay Aphasia Screening Test - Pamela Enderby 2006-10-06

The Frenchay Aphasia Screening Test was developed for use by non-specialists, such as junior medical staff, nurses, occupational therapists and others, to assist in identifying patients who have linguistic disturbances. This test is brief and simple to administer, can be used in a busy ward or home situation and has good reliability when used by non-specialists.

Men Who Sell Sex - Peter Aggleton 2014-11-13

All over the world, men as well as women exchange sex for money and other forms of reward, sometimes with other men and sometimes with women. In contrast to female prostitution, however, relatively little is known about male sex work, leaving questions unanswered about the individuals involved: their identities and self-understandings, the practices concerned, and the contexts in which they take place. This book updates the ground-breaking 1998 volume of the same name with an entirely new selection of chapters exploring health, social, political, economic and human rights issues in relation to men who sell sex. Looking at Europe, North America, Latin America and the Caribbean, Africa and the Asia-Pacific, each chapter explores questions such as: What is known about the different ways in which men exchange sex for money or other forms of reward? What are the major contexts in which sexual exchange takes place? What meanings do such practices carry for the different partners involved? What are the health and other implications of contemporary forms of male sex work? *Men Who Sell Sex* seeks to push the boundaries both of current personal and social understandings and the practices to which these give rise. It is an important reference work for academics and researchers interested in sex work and men's health including those working in public health, sociology, social work,

anthropology, human geography and development studies.

In Case You're Curious - Planned Parenthood 2019-09-10

Did you ever walk out of class having even more questions than when you walked in? You may feel that way about History or Math, but what about your Sexual Health class (if you even had one)? If you're anything like most of the youth in America today, your head is probably spinning with a swirling, high-speed hurricane of questions. It is totally normal to be curious and to have questions about relationships, bodies, consent . . . you name it! But where can your average teen go to get all the reliable and accurate answers they need? In Case You're Curious (ICYC), a text-and-answer program conceived by Planned Parenthood, has been providing this educational service for teens for years. And now In Case You're Curious: Questions about Sex from Young People with Answers from the Experts is a big book of answers with funny and educational illustrations, to the most popular and most interesting questions young people have about birth control, development, sexually transmitted diseases, and so much more. Within these pages you will find non-judgmental (and fun!) answers meant to educate teens without the uncomfortable silence or weird eye contact often associated with "The Talk." With questions like "Does masturbating give you a disease?" and "Is the pineapple thing true?" In Case You're Curious isn't afraid to tackle the nitty-gritty questions you may think twice about raising your hand to ask in your Sexual Health class or at home.

Studies in the Psychology of Sex v6 - Havelock Ellis 2015-11-07

A man's sexual nature, like all else that is most essential in him, is rooted in a soil that was formed very long before his birth. In this, as in every other respect, he draws the elements of his life from his ancestors, however new the recombination may be and however greatly it may be modified by subsequent conditions. A

man's destiny stands not in the future but in the past. That, rightly considered, is the most vital of all vital facts. Every child thus has a right to choose his own ancestors. Naturally he can only do this vicariously, through his parents. It is the most serious and sacred duty of the future father to choose one half of the ancestral and hereditary character of his future child; it is the most serious and sacred duty of the future mother to make a similar choice.[1] In choosing each other they have between them chosen the whole ancestry of their child. They have determined the stars that will rule his fate. In the past that fateful determination has usually been made helplessly, ignorantly, almost unconsciously. It has either been guided by an instinct which, on the whole, has worked out fairly well, or controlled by economic interests of the results of which so much cannot be said, or left to the risks of lower than bestial chances which can produce nothing but evil. In the future we cannot but have faith—for all the hope of humanity must rest on that faith—that a new guiding impulse, reinforcing natural instinct and becoming in time an inseparable accompaniment of it, will lead civilized man on his racial course. Just as in the past the race has, on the whole, been moulded by a natural, and in part sexual, selection, that was unconscious of itself and ignorant of the ends it made towards, so in the future the race will be moulded by deliberate selection, the creative energy of Nature becoming self-conscious in the civilized brain of man. This is not a faith which has its source in a vague hope. The problems of the individual life are linked on to the fate of the racial life, and again and again we shall find as we ponder the individual questions we are here concerned with, that at all points they ultimately converge towards this same racial end. Since we have here, therefore, to follow out the sexual relationships of the individual as they bear on society, it will be convenient at this point to put aside the questions of ancestry and to accept the individual as, with hereditary constitution already determined, he lies in his mother's womb.
