**Thomas Register of American Manufacturers and Thomas Register Catalog File** - 2002

Vols. for 1970-71 includes manufacturers' catalogs.

**THE WAVES** - Virginia Woolf 2017-12-06

The book is Virginia Woolf's most experimental novel, first published in 1931. It consists of soliloquies spoken by the book's six characters: Bernard, Susan, Rhoda, Neville, Jinny, and Louis. Also important is Percival, the seventh character, though readers never hear him speak through his own voice. The monologues that span the characters' lives are broken up by nine brief third-person interludes detailing a coastal scene at varying stages in a day from sunrise to sunset. As the six characters or "voices" alternately speak, Woolf explores concepts of individuality, self, and community. Each character is distinct, yet together they compose a gestalt about a silent central consciousness. Bernard is a story-teller, always seeking some elusive and apt phrase; Louis is an outsider, who seeks acceptance and success; Neville desires love, seeking out a series of men, each of whom become the present object of his transcendent love; Jinny is a socialite, whose Weltanschauung corresponds to her physical, corporeal beauty; Susan flees the city, in preference for the countryside, where she grapples with the thrills and doubts of motherhood; and Rhoda is riddled with self-doubt and anxiety, always rejecting and indicting human compromise, always seeking out solitude. Percival is the god-like but morally flawed hero of the other six, who dies midway through the novel on an imperialist quest in British-dominated colonial India. Although Percival

never speaks through a monologue of his own in *The Waves*, readers learn about him in detail as the other six characters repeatedly describe and reflect on him throughout the book. The novel follows its six narrators from childhood through adulthood. Adeline Virginia Woolf (25 January 1882 - 28 March 1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.

**Murder With Peacocks** - Donna Andrews 2006-02-07

*Three Weddings...And a Murder* So far Meg Langslow's summer is not going swimmingly. Down in her small Virginia hometown, she's maid of honor at the nuptials of three loved ones--each of whom has dumped the planning in her capable hands. One bride is set on including a Native American herbal purification ceremony, while another wants live peacocks on the lawn. Only help from the town's drop-dead gorgeous hunk, disappointingly rumored to be gay, keeps Meg afloat in a sea of dotty relatives and outrageous neighbors. And, in whirl of summer parties and picnics, Southern hospitality is strained to the limit by an offensive newcomer who hints at skeletons in the guests' closets. But it seems this lady has offended one too many when she's found dead in suspicious circumstances, followed by a string of accidents--some fatal. Soon, level-headed Meg's to-do list extends from flower arrangements and bridal registries to catching a killer--before the next catered event is her own funeral...

*Translating Style* - Tim Parks 2014-06-03

Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating

critical essay on the author concerned, showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself.

**Pandæmonium 1660-1886** - Humphrey Jennings 2012-10-04

Collecting texts taken from letters, diaries, literature, scientific journals and reports, *Pandæmonium* gathers a beguiling narrative as it traces the development of the machine age in Britain. Covering the years between 1660 and 1886, it offers a rich tapestry of human experience, from eyewitness reports of the Luddite Riots and the Peterloo Massacre to more intimate accounts of child labour, Utopian communities, the desecration of the natural world, ground-breaking scientific experiments, and the coming of the railways. Humphrey Jennings, co-founder of the Mass Observation movement of the 1930s and acclaimed documentary film-maker, assembled an enthralling narrative of this key period in Britain's national consciousness. The result is a highly original artistic

achievement in its own right. Thanks to the efforts of his daughter, Marie-Louise Jennings, *Pandæmonium* was originally published in 1985, and in 2012 it was the inspiration behind Danny Boyle's electrifying Opening Ceremony for the London Olympic Games. Frank Cottrell Boyce, who wrote the scenario for the ceremony, contributes a revealing new foreword for this edition.

*The Making of Horror Movies* - Jennifer Selway 2021-06-09

A fascinating journey through society's changing preoccupations as reflected in horror films—plus profiles of the genre's top actors and directors. It wasn't until 1973 that a horror film—*The Exorcist*—was nominated for an Oscar for Best Picture, and critics are still divided today, many regarding them with amused condescension. The public's view is also sharply divided. Some cinema-goers revel in the thought of being made very, very afraid, while others avoid horror films because they don't want to be frightened. This guide, which is for both the fan and the more fainthearted, steers an illuminating path through a genre that has, since the early days of cinema, split off into many subdivisions—folk horror, slasher movies, Hammer, sci-fi horror, psychological thrillers, zombie movies, among others. Times change but moviemakers can always find a way to tap into what we fear and dread, whether it's blood-sucking vampires or radioactive mutations, evil

children, or the living dead. This book also gives concise biographies of the many actors and directors who saw their careers—for better or worse—defined by their association with horror movies, and who created a genre that is instantly recognizable in all its forms and continues to find new and ingenious ways of scaring us in the dark.

**The Woman who Went to Bed for a Year** - Sue Townsend 2012

The day her gifted twins leave home for university, Eva climbs into bed and stays there. For seventeen years she's wanted to yell at the world, 'Stop! I want to get off'. Finally, this is her chance. Perhaps she will be able to think. Her husband Dr Brian Beaver, an astronomer who divides his time between gazing at the expanding universe, an unsatisfactory eight-year-old affair with his colleague Titania and mooching in his shed, is not happy. Who will cook dinner? Eva, he complains, is either having a breakdown or taking attention-seeking to new heights. But word of Eva's refusal to get out of bed quickly spreads. Alexander the dreadlocked white-van man arrives to help Eva dispose of all her clothes and possessions and bring her tea and toast. Legions of fans are writing to her or gathering in the street to catch a glimpse of this 'angel'. Her mother Ruby is unsympathetic: 'She'd soon get out of bed if her arse was on fire.' And, though the world keeps intruding, it is from the confines of her bed that Eva at last begins to understand freedom. *The Woman Who Went to Bed for a Year* is a funny and touching novel about what happens when someone stops being the person everyone wants them to be. Sue Townsend, Britain's funniest writer for over three decades, has written a brilliant novel that eviscerates modern family life. Sue Townsend is Britain's favourite comic author. Her hugely successful novels include eight *Adrian Mole* books, *The Public Confessions of a Middle-Aged Woman (Aged 55¾)*, *Number Ten*, *Ghost Children*, *The Queen and I* and *Queen Camilla*, all of which are highly acclaimed bestsellers. She has also written numerous well-received plays. She lives in Leicester, where she was born and grew up.
