The Resettlement of Sex Offenders after Custody David Thompson 2017-07-14 Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community. People leaving prison with such convictions often have difficulties in resettling. They carry the burden of the conviction itself, which may be both stigmatising and isolating, and they are the subject of sex offender register requirements, parole and other supervisory conditions. Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country. They work closely with the police and probation services but rely entirely on volunteers prepared to give up their time to work with people often otherwise shunned by communities. Circles offer support to the person concerned but also hold them accountable for their future behaviour. They aim to ensure there are 'no more victims'. This book is based on original research and provides a close-up picture of how these Circles of Support and Accountability work in practice. It brings together for the first time the voices of all the participants, from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services.

Desistance from Sexual Offending Kelly Richards 2021-12-23 This book explores how Circles of Support and Accountability can reduce sexual reoffending. The release of a notorious sex offender from prison strikes fear into members of the public. Media coverage often provokes further panic, casting such offenders as irredeemable monsters and ticking time bombs, destined to continue preying on innocent children and women. In the West, governments have responded by enacting heavily punitive and exclusionary policies, such as public sex offender registers, indefinite

detention, and lifetime correctional supervision. A radically different approach - Circles of Support and Accountability (CoSA) - emerged alongside these measures. CoSA are groups of trained volunteers who collectively resist the exclusionary impulse, instead actively supporting those with sexual offence convictions to reintegrate into communities. Despite their seemingly counterintuitive nature, the research is clear that CoSA reduce sexual reoffending far better than more popular draconian sex offender management policies. However, little is understood about how CoSA work. This book begins to address this gap by proposing a new way of understanding how CoSA reduce sexual reoffending. Drawing on 65 in-depth interviews with CoSA participants, it offers a new theoretically-informed empirical explanation of CoSA's capacity to promote desistance from sexual offending, and to turn those convicted of sexual offenders into law-abiding and productive members of the community. Ultimately it is a call to action, demonstrating that we, the community, must play a more central role in integrating people with sexual offence convictions if we desire safer communities for our children and our selves. This work illuminates new directions for research, policy, and practice, and is essential reading for academics and students engaged in the study of criminology and criminal justice, restorative justice, sexual violence, and reentry

The Sex Offender Housing Dilemma Monica Williams 2018-05-08 "When a South Carolina couple killed a registered sex offender and his wife after they moved into their neighborhood in 2013, the story exposed an extreme and relatively rare instance of violence against sex offenders. While media accounts would have us believe that vigilantes across the country lie in wait for predators who move into their neighborhoods, responses to sex offenders more often involve collective campaigns that direct outrage toward political and criminal justice systems. No community wants a sex offender in its midst, but instead of vigilantism, [the author] argues, citizens often leverage moral, political, and/or legal authority to keep these offenders out of local neighborhoods. Her book, the culmination of four years of research, 70 in-depth interviews, participant observations, and studies of numerous media sources, reveals the origins and characteristics of community responses to sexually violent predators (SVP) in the U.S. Specifically, [this book] examines the placement process for released SVPs in California and the communities' responses to those placements. Taking the reader into the center of these related issues, [the author] provokes debate on the role of communities in the execution of criminal justice policies, while also addressing the responsibility of government institutions to both groups of citizens."--

Serving as the only New Zealand-specific criminal justice text, this book takes a direct look at what is unique about the country's criminal justice system and recent crime trends. Crime rates peaked in the early 1990s and have fallen since. Newbold considers why this happened through factors such as economy, ethnic composition, changing cultural trends, and legislative developments in policing and criminal justice. He unpacks various types of crime separately—violent crime, property crime, drug crime, gang crime, organised crime, etc.—and examines each in terms of the various complex factors affecting it, using

illustrative examples from recent high-profile cases. The cover photo for Crime, Law and Justice in New Zealand was taken by Jono Rotman.
