The Black Wolf - J.A. Redmerski 2022-11-06

□ □ □ □ □ "This series is Spectacular!" - SMI BOOK CLUB □ □ □ □ □ "Mind-f*ck at its finest and I loved every single minute of it." - Amazon Customer □ □ □ □ □ "Say goodbye to your nails..." - Amazon Customer on Killing Sarai □ □ □ □ □ "Dark, compelling, deathly violent and just fan-bloody-tastic!" - Goodreads Reviewer on

Reviving Izabel □ □ □ □ □ "5+ Crushing, Amazing & Shocking STARS" - The Book Enthusiast on The Swan & the Jackal □ □ □ □ □ "There is no going back for me, this series has me completely and utterly addicted..." - Books She Reads *** Since devastating secrets were uncovered by Nora Kessler, Niklas Fleischer and Victor Faust have been divided as business partners and brothers. But ultimately, Niklas is persuaded to lead a mission to Italy, and he sees it as an opportunity to set in motion forgiveness—or

retribution—for his brother's betrayal. The mission: play the role of a wealthy German investor and kidnap a beautiful, notorious madam named Francesca Moretti. No stranger to these types of roles, Niklas is the best man for the job, but this time the risks will be much greater as he will not be doing it alone. Izabel Seyfried, still fresh out of a life of imprisonment and sex slavery, could be negatively affected by the things she will see in Moretti's mansion, and Niklas must keep her in line, so she does not blow their cover and get them killed. But Niklas isn't the only one who must play a role—Nora takes on the humiliating task of playing Niklas's slave, and Izabel must play the role of his lover. On one hand, Niklas couldn't be enjoying himself more. On the other hand, the emotions that continue to rage inside of him might be too much for him to control, and it may be Niklas—not Izabel—who needs to be kept in line. He cannot forget what Victor has done, and this mission may just be

the beginning of his downward spiral. Can the blood bond that Niklas and Victor share as brothers be stronger than resentment? Or will vengeance dig the blade so deep that their bond be eternally severed?

Paris in the Dark - Eric Smoodin 2020-03-27

In *Paris in the Dark* Eric Smoodin takes readers on a journey through the streets, cinemas, and theaters of Paris to sketch a comprehensive picture of French film culture during the 1930s and 1940s. Drawing on a wealth of journalistic sources, Smoodin recounts the ways films moved through the city, the favored stars, and what it was like to go to the movies in a city with hundreds of cinemas. In a single week in the early 1930s, moviegoers might see Hollywood features like *King Kong* and *Frankenstein*, the new *Marlene Dietrich* and *Maurice Chevalier* movies, and any number of films from Italy, Germany, and Russia. Or they could frequent the city's ciné-clubs, which were hosts to the cinéophile subcultures of Paris.

At other times, a night at the movies might result in an evening of fascist violence, even before the German Occupation of Paris, while after the war the city's cinemas formed the space for reconsolidating French film culture. In mapping the cinematic geography of Paris, Smoodin expands understandings of local film exhibition and the relationships of movies to urban space.

Animation: A World History

- Giannalberto Bendazzi
2015-11-06

A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered

artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries.

Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history.

If you can't trust your boyfriend, who can you trust? In this modern Arthurian, nice girl Arriane, aka Ryan, DuLac just found out her bad-boy biker boyfriend, Matt, is a little older than he was letting on. By a few eons. In fact, he is really Merlin--the Merlin, King Arthur's Merlin, the greatest wizard who ever lived. Frozen in a cave for over a fifteen hundred years, he's been woken. But Ryan's not impressed. Tired of being a relationship loser, she'd rather kick his legendary behind. Sure, the world has been crazy ever since the sword and the stone fell out of the sky like a meteor. But despite gruesome gargoyles, an underground world of magic, and the guy driving her crazy, Ryan knows that family is everything. Will Merlin sacrifice hers to save the world? Will she be able to stop him?

childhood, swap stories from their pasts, and confide in each other. But the more they learn about each other, the more their lives become inextricably intertwined. With a structure that parallels Homer's *Odyssey*, Eléctrico W recounts their nine days together and the adventures that proliferate to form a constellation of successive ephemeral connections and relationships. Women, Monstrosity and Horror Film - Erin Harrington 2017-08-10
Women occupy a privileged place in horror film. Horror is a space of entertainment and excitement, of terror and

dread, and one that relishes the complexities that arise when boundaries - of taste, of bodies, of reason - are blurred and dismantled. It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the reproductive, the maternal and the sexual to expose the underpinnings of the social, political and philosophical othering of women. This book offers an in-depth analysis of women in horror films through an exploration of 'gynaehorror': films concerned with all aspects of female reproductive horror, from reproductive and sexual organs, to virginity, pregnancy, birth, motherhood and finally to menopause. Some of the themes explored include: the intersection of horror, monstrosity and sexual difference; the relationships between normative female (hetero)sexuality and the twin figures of the chaste virgin and the voracious vagina dentata; embodiment and subjectivity in horror films about pregnancy and abortion; reproductive

technologies, monstrosity and 'mad science'; the discursive construction and interrogation of monstrous motherhood; and the relationships between menopause, menstruation, hagsploitation and 'abject barren' bodies in horror. The book not only offers a feminist interrogation of gynaeohorror, but also a counter-reading of the gynaeohorrific, that both accounts for and opens up new spaces of productive, radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic. It therefore makes a unique contribution to the study of women in horror film specifically, while also providing new insights in the broader area of popular culture, gender and film philosophy.

[Confession of a Serial Killer](#) - Katherine Ramsland, PhD 2016-09-06

In 1974, Dennis Lynn Rader stalked and murdered a family of four in Wichita, Kansas. Since adolescence, he had read about serial killers and

imagined becoming one. Soon after killing the family, he murdered a young woman and then another, until he had ten victims. He named himself "B.T.K." (bind, torture, kill) and wrote notes that terrorized the city. He remained on the loose for thirty years. No one who knew him guessed his dark secret. He nearly got away with his crimes, but in 2004, he began to play risky games with the police. He made a mistake. When he was arrested, Rader's family, friends, and coworkers were shocked to discover that B.T.K. had been among them, going to work, raising his children, and acting normal. This case stands out both for the brutal treatment of victims and for the ordinary public face that Rader, a church council president, had shown to the outside world. Through jailhouse visits, telephone calls, and written correspondence, Katherine Ramsland worked with Rader himself to analyze the layers of his psyche. Using his drawings, letters, interviews, and Rader's unique codes, she presents in

meticulous detail the childhood roots and development of one man's motivation to stalk, torture, and kill. She reveals aspects of the dark motivations of this most famous of living serial killers that have never before been revealed. In this book Katherine Ramsland presents an intelligent, original, and rare glimpse into the making of a serial killer and the potential darkness that lives next door.

World Religions and Norms of War - Vesselin Popovski
2009

Recent armed conflicts have drawn fresh attention to age-old questions concerning when war can be justified and what methods and targets are permissible during war. Over more than two millennia, the world's leading religious traditions --Hinduism, Judaism, Buddhism, Christianity, and Islam --have provided guidance in these contested domains. This volume examines how the religions have responded to pressing moral challenges such as offensive and defensive war, the protection of

noncombatants, asymmetric tactics, terrorism, and weapons of mass destruction. Written by an international team of distinguished specialists in their respective traditions, "World Religions and Norms of War" takes the reader on a journey through the evolution of attitudes and teachings related to the ethics of war. It systematically explores the historical roots and interpretations of norms within these traditions, linking them to the challenges of modern warfare. This combination of deep historical analysis and application to contemporary issues provides valuable insight and even prompts us to rethink our understanding of the role and influence of religion in the state and politics.

there lived a man who was one of the most gifted and abominable personages in an era that knew no lack of gifted and abominable personages. His name was Jean-Baptiste Grenouille, and if his name has been forgotten today. It is certainly not because Grenouille fell short of those more famous blackguards when it came to arrogance, misanthropy, immorality, or, more succinctly, wickedness, but because his gifts and his sole ambition were restricted to a domain that leaves no traces in history: to the fleeting realm of scent . . .
