Rethinking the Sex Offender Registry

Relative to Parole and Recidivism - Kathy E.

Williams 2017-05-30

This work was originally submitted in completion of a Master's of Science in Strategic Management with Indiana Wesleyan University.

While our society demands and should expect protection from sexual offenses, those who have become part of that category need to have opportunity for successful reentry. Our current system is designed to support that balance but often works against the outcome. This work examines the registry through the eyes of

Indiana's stipulations which are a reasonable standard of comparison to most other states. It also explores whether higher levels of parole violations for sex offenders falsely inflates recidivism statistics. Hopefully, the writing will give the reader consideration and inspiration to contact their legislators for needed changes in the system.

Indianapolis Monthly - 2004-03

Indianapolis Monthly is the Circle City's essential chronicle and guide, an indispensable authority on what's new and what's news. Through coverage of politics, crime, dining, style, business, sports, and arts and entertainment, each issue offers compelling narrative stories and lively, urbane coverage of

Indy's cultural landscape.

Female Sexual Offenders - Theresa A. Gannon
2010-10-28

Featuring a collection of essays by leading experts, *Female Sexual Offenders: Theory, Assessment and Treatment* is the first book to bring together current research, clinical assessment, and treatment techniques of female sexual offenders into one accessible volume. Describes the most recent research data regarding female sexual offenders, covering such issues as female-perpetrated sexual abuse

prevalence and juvenile offenders Includes an assessment of the risk of recidivism, international treatment initiatives, and a discussion on the use of the polygraph with female sexual offenders Features practitioner-focused essays which evaluate current assessment strategies, treatment needs, effectiveness, and processes for female sexual offenders

Sex Offender Registration and Notification - 1999

Assessment and Treatment of Sex Offenders - Anthony R. Beech 2009-03-04

A comprehensive resource for practitioners working with sexual offenders. Discusses assessments and interventions, as well as providing a comprehensive literature review. There are around 10,000 convictions or cautions for sexual offences in the UK each year; early evidence suggests that treatment programmes can halve re-conviction rates Edited by a

Advanced Criminal Investigations and Intelligence Operations - Robert J Girod
2014-06-26

Tradecraft is a term used within the intelligence community to describe the methods, practices, and techniques used in espionage and clandestine investigations. Whether the practitioner is a covert agent for the government or an identity thief and con man, the methods, practices, tactics, and techniques are often the same and sometimes learned from the same sources. *Advanced Criminal Investigations and Intelligence Operations: Tradecraft Methods, Practices, Tactics, and Techniques* reveals how intelligence officers and investigators conduct

their tradecraft. You'll learn how to plan an operation, how to build an identity and cover story for deep cover operations, and how to detect those who have created false identities for illegal purposes. You'll also get insight into the technical aspects of intelligence (the INTs), counterintelligence, and criminal investigations, and legal considerations for conducting intelligence investigations. Topics include: A discussion of black bag operational planning HUMINT (human intelligence)—the gathering of information from human sources DAME (defenses against methods of entry), forced entry into buildings, safes and combination locks, and automobile locks PSYOPS (psychological operations) and the use of social networks ELINT (electronic intelligence) and SIGINT (signals intelligence)—electronic interception of intelligence, bugs, wiretaps, and other communications interceptions EMINT (emanations intelligence), which concerns the emanation of data, signals, or other intelligence

Survey of State Criminal History Information Systems (2008, 10th Ed.) -

Owen M. Greenspan 2010-08

This report is based upon the results from a survey conducted of the administrators of the State criminal history record repositories in March-June 2009. Fifty-six jurisdictions were surveyed. Responses were received from 53 jurisdictions. It presents a snapshot as of Dec. 31, 2008. In addition, the FBI was the source for some of the information relating to criminal history records, including State participation in the Interstate Identification Index (III) system (the national criminal records exchange system) and the number of III records maintained by the FBI on behalf of the States; the number of

records in the protection order file; and the number of sex offender records in the FBI National Crime Information Center files. Charts and tables.

No Easy Answers - 2007

No Easy Answers is the first comprehensive study of US sex offender registration, community notification and residency restriction laws, their public safety impact, and the effect they have on former offenders and their families. It concludes the laws are poorly crafted and misguided, failing to protect children from sex crimes but making it nearly impossible for former offenders to rebuild their lives. In many states, everyone convicted of a sex crime must register and the requirement can last for life. The requirements are overbroad in scope and overlong in duration. As a result, there are more than 600,000 registered sex offenders, including individuals convicted of sexual sex between teenagers, prostitution, and public urination, as well as those who committed their only offenses

decades ago. Unfettered public access to online sex offender registries exposes registrants to harassment, ostracism, and even violence, with little evidence that this form of community notification protects anyone from sexual violence. Residency restrictions prohibit former offenders from living within a designated distance (anywhere from 500 to 2,500 feet) from places where children gather. The restrictions have the effect of banishing former offenders from entire towns, forcing them to live far from home, families, jobs, and treatment, and hindering law-enforcement supervision. The restrictions may have no impact on the likelihood of recidivism. Sex offender laws reflect public concern that children are at grave risk of sexual abuse by strangers who are repeat offenders. The real risks children face are quite different: statistics demonstrate that most sexual abuse of children is committed by family members or persons known and often trusted by the victim, and by someone who has not

previously been convicted of a sex offense. The laws also reflect the widely shared but erroneous belief that sex offenders continually repeat their offenses. Authoritative studies, however, indicate that three out of four adult offenders do not reoffend.

Federal Probation - 2003

The Mythology of Crime and Criminal Justice -
Victor E. Kappeler 2017-07-18

The social construction of crime is often out of proportion to the threat posed. The media and advocacy groups shine a spotlight on some crimes and ignore others. Street crime is highlighted as putting everyone at risk of victimization, while the greater social harms from corporate malfeasance receive far less attention. Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior. Interest groups promote their agendas by appealing to

public fears. Justifications often have no basis in fact, but the public accepts the exaggerations and blames the targeted offenders. The net-widening effect of more laws and more punishment catches those least able to defend themselves. This innovative alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice. Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system. Kappeler and Potter dissect popular images of crimes and criminals in a cogent, compelling, and engaging manner. They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths—and the collateral damage of basing policies on mythical beliefs. The authors encourage skepticism about commonly accepted beliefs, offer readers a fresh perspective, and urge them to analyze important issues from novel vantage points.
