**Women, Crime and Criminal Justice** Rosemary L Barberet

2014-04-16 Women, Crime and Criminal Justice is the winner of

the Division of International Criminology's Distinguished Book

Award 2014 and the Academy of Criminal Justice Sciences

International Section's 2015 Outstanding Book Award and the

first fully internationalised book to focus on women as offenders,

victims and justice professionals. It provides background, as well

as specialized information that allows readers to comprehend the

global forces that shape women and crime; analyze different

types of violence against women (in peacetime and in armed

conflict); and grasp the challenges faced by women in justice

professions such as the police, the judiciary and international

peacekeeping. Provocative, highly topical, engaging and written

by an expert in the field, this book examines the role of women in

crime and criminal justice internationally. Topics covered include:

the role of globalization and development in patterns of female

offending and victimization, how a human rights framework can

help explain women's crime, victimization and the criminal justice

response, global women's activism, international perspectives on

violence against women, including femicide, violence in conflict

and post conflict settings, sex work and sex trafficking, women's

access to justice, as well as the increased role of women in

international criminal justice settings. This book will be essential

reading for those involved in the study of development, human

rights, governance, security sector reform, international relations

and public health, as debates about these subjects are

intrinsically linked to the issues surrounding women, crime and

justice. It will also be useful for students taking courses on

gender, crime and criminal justice, violence against women,

international criminal justice and gender studies.

*Desire and Consent in Representations of Adolescent Sexuality with Adults* Maureen Turim 2023-09-29 This book presents an innovative comparative view of how the issue of adolescent sexuality and consent is differently treated in various media. Analyzing teenage sexual encounters with adults across a variety of media, including films, television, novels, and podcasts, the volume takes a positive stance on the expression of teenage sexuality, while remaining sensitive to the power of adults to abuse and manipulate. The anthology treats these representations as negotiations between conflicting forces: desire, sexual self-knowledge, unequal power, and the law, the latter both actual legal statutes and internalized law in the philosophical and psychoanalytic sense. Questions of unequal power inherent in such relations are theorized. The authors examine variations of this configuration of sexual relations between teenagers and adults from different perspectives, to consider how various forms of expression rework it formally. These essays are attuned to both nuances of presentation and contexts of reception, and they consider how aesthetics play a role. Contributing to the general debate about the ways that societies construct and regulate adolescent sexuality, this book will be of great interest to scholars and students of media studies, cultural studies, film studies, television studies, sociology, and gender studies

Women and Children as Victims and Offenders: Background, Prevention, Reintegration Helmut Kury 2016-06-01 This work compiles experiences and lessons learned in meeting the unique needs of women and children regarding crime prevention and criminal justice, in particular the treatment and social reintegration of offenders, and serves as a cross-disciplinary work for academic and policy-making analyses and follow-up in developing and developed countries. Furthermore, it argues for a more humane and effective approach to countering delinquency and crime among future generations. In a world where development positively depends on the rule of law and the related

investment security, two global trends may chart the course of development: urbanization and education. Urbanization will globalize the concepts of “justice” and “fairness”; education will be dominated by the urban mindset and digital service economy, just as a culture of lawfulness will. This work looks at crime prevention education as an investment in the sustainable quality of life of succeeding generations, and at those who pursue such crime prevention as the providers of much-needed skills in the educational portfolio. Adopting a reformist approach, this work collects articles with findings and recommendations that may be relevant to domestic and international policymaking, including the United Nations Studies and their educational value for the welfare of coming generations. The books address the relevant United Nations ideas by combining them with academic approaches. Guided by the Editors’ respective fields of expertise, and in full recognition of academic freedom and “organized scepticism”, it includes contributions by lawyers, criminologists, sociologists and other eminent experts seeking to bridge the gap between academic and policy perspectives, as appropriate, against the international background, including the United Nations developments. The first volume opens with a foreword by Marta Santos Pais, the United Nations Special Representative of the Secretary-General on Violence against Children, and a general introduction by the editors. Part I provides an overview of United Nations principles for crime prevention and the treatment of women and children. Part II concentrates on education and the social learning of children and adolescents. The importance of quality education is stressed as is its impact on the behaviour of children of all ages. It also includes a discussion of the factors that still hinder access to good schooling in many parts of the world. Part III presents international research findings on children, juveniles and women both as victims and offenders. Statistics show overwhelmingly that these groups are more often victims than offenders.

**Violence in Popular Culture** Laura L. Finley 2018-11-09 A comprehensive resource, this book reviews current and historical examples of violence in film, television, radio, music, music videos, video games, and novels. Despite decades of attention and various attempts to enact legislation that limits violence in American popular culture, it remains ubiquitous across films, television, radio, music, music videos, video games, and popular fiction. Studies have shown that programs marketed to children are often remarkably violent and that viewing or otherwise consuming such violence has numerous negative effects on children's psychological health. This book sheds light on the scholarship related to violence in popular culture and compares historical and current examples, analyzing popular shows such as Game of Thrones, video games such as Mortal Kombat, young adult fiction including the trilogy The Hunger Games, and more. Not only does Violence in American Popular Culture provide a comprehensive review of the research about the effects of violence in media, but it also offers detailed assessments of violent content in various expressions of popular culture. In addition, it invites readers to compare violence in American popular culture with that globally via entries on violence in popular culture outside the United States. An appendix of additional resources and primary sources gives readers further tools for deepening their understanding of this complex and controversial issue.

mirror opposite of the "ideal" family advocated by the white, colonial authorities. Yet contrary to this image, what provided continuity in the period and contributed to survival was in fact the strength of family connections, their inclusivity and support. This study is based on 150 life story narratives across three generations of forty-five families who originated in the former British West Indies. The author focuses on the particular axes of Caribbean peoples from the former British colonies of Jamaica, Trinidad and Tobago and Barbados, and Great Britain. Divided into four parts, the chapters within each present an oral history of migrant African-Caribbean families, demonstrating the varieties, organization, and dynamics of family through their memories and narratives. It traces the evolution of Caribbean life; argues how the family can be seen as the tool that helps transmit and transform historical mentalities; examines the dynamics of family life; and makes comparisons with Indo-Caribbean families. Above all, this is a story of families that evolved, against the odds of slavery and poverty, to form a distinct Creole form, through which much of the social history of the English-speaking Caribbean is refracted. "Family Love in the Diaspora" offers an important new perspective on African-Caribbean families, their history, and the problems they face, for now and the future. It offers a long overdue historical dimension to the debates on Caribbean families.

**Human Rights in Postcolonial India** Om Prakash Dwivedi  
2016-02-26 This volume looks at human rights in independent India through frameworks comparable to those in other postcolonial nations in the Global South. It examines wide-ranging issues that require immediate attention such as those related to disability, violence, torture, education, LGBT, neoliberalism, and social justice. The essays presented here explore the discourse surrounding human rights, and engage with aspects linked to the functioning of democracy, security and strategic matters, and terrorism, especially post 9/11. They also discuss cases connected with human rights violations in India and underline the need for a transparent approach and a more comprehensive perspective of India's human rights record. Part of the series Ethics, Human Rights and Global Political Thought, the volume will be an important resource for academics, policy makers, civil society organisations, lawyers and those concerned with human rights. It will also be useful to scholars and researchers of Indian politics, law and sociology.

*Bollywood's New Woman* Megha Anwer 2021-06-18 *Bollywood's New Woman* examines Bollywood's construction and presentation of the Indian Woman since the 1990s. The groundbreaking collection illuminates the contexts and contours of this contemporary figure that has been identified in sociological and historical discourses as the "New Woman." On the one hand, this figure is a variant of the fin de siècle phenomenon of the "New Woman" in the United Kingdom and the United States. In the Indian context, the New Woman is a distinct articulation resulting from the nation's tryst with neoliberal reform, consolidation of the middle class, and the ascendancy of aggressive Hindu Right politics.

Ananda Devi Ritu Tyagi 2013-10-10 *Ananda Devi: Feminism, Narration and Polyphony* is the first full-length monograph devoted to Ananda Devi, a dynamic contemporary Francophone writer. Recipient of Prix Louis-Guilloux and Prix Télévision Suisse Romande du Roman, she is described by many as a prototype of a new generation of Mauritian writers. This book analyses Devi's unconventional polyphonic narratives, particularly, her strategies that allow marginalized narrators to disrupt androcentric and dominant structures of narrative construction, thereby creating hybrid magical spaces for feminine expression. Drawing on the notion of feminist narratology that investigates the relation between gender and narrative, this book focuses on a wide range of Western and non-Western narrative strategies such as plot and plotlessness, narrative metalepsis, pluritemporality, multisubjectivity, myths, folktales and magic. It also demonstrates how her texts become the point of convergence of the West and the non-West, the feminine and the androcentric, the real and the

**Stardom in Contemporary Hindi Cinema** Aysa Iqbal

Viswamohan 2020-01-03 In this book, film scholars, anthropologists, and critics discuss star-making in the contemporary Hindi-language film industry in India, also known as "Bollywood." Drawing on theories of stardom, globalization, transnationalism, gender, and new media studies, the chapters explore contemporary Hindi film celebrity. With the rise of social media and India's increased engagement in the global economy, Hindi film stars are forging their identities not just through their on-screen images and magazine and advertising appearances, but also through an array of media platforms, product endorsements, setting fashion trends, and involvement in social causes. Focusing on some of the best-known Indian stars since the late 1990s, the book discusses the multiplying avenues for forging a star identity, the strategies industry outsiders adopt to become stars, and the contradictions and conflicts that such star-making produces. It addresses questions such as: What traits of contemporary stars have contributed most to longevity and success in the industry? How has filmmaking technology and practice altered the nature of stardom? How has the manufacture of celebrity altered with the recent appearance of commodity culture in India and the rise of a hyper-connected global economy? By doing so, it describes a distinct moment in India and in the world in which stars and stardom are drawn more closely than ever into the vital events of global culture. Hindi films and their stars are part of the national and global entertainment circuits that are bigger and more competitive than ever. As such, this is a timely book creates

opportunities for examining stardom in other industries and provides fruitful cross-cultural perspectives on star identities today. "Grounded in rigorous scholarship as well as a palpable love of Hindi cinema, this collection of 19 essays on a dizzying array of contemporary Hindi film stars makes for an informative, thought-provoking, illuminating, and most of all, a joyful read. Pushing boundaries of not only global Star Studies but also film theory as a whole, this de-colonised and de-colonising volume is a must read for film scholars, students and cinephiles!" Dr. Sunny Singh, Senior Lecturer - Creative Writing and English Literature, Sir John Cass School of Art, Architecture & Design, London Metropolitan University "A wide-ranging overview of Hindi cinema's filmi firmament today, focussing on its most intriguing and brightest-burning stars. The variety of approaches to stardom and celebrity by both established and upcoming scholars reveals a web of interconnecting stories and concerns that provide fascinating new insights into the workings of today's Hindi film industry, while shining fresh light on contemporary India and the world we live in." Historically, women, men, and children have all suffered sexual violence, during wartime and peacetime as well as inside and outside their homes. This two-volume title focuses on survivors of rape in a variety of social and cultural contexts. In both volumes, contributors provide case studies elucidating the experiences of a variety of victims—young, old, male, female, straight, and LGBT—in diverse locations around the world to help readers understand how truly pervasive and portentous rape culture is.

**Hindi Cinema** Nandini Bhattacharya 2013-05-07 Hindi Cinema is full of instances of repetition of themes, narratives, plots and characters. By looking at 60 years of Hindi cinema, this book focuses on the phenomenon as a crucial thematic and formal code that is problematic when representing the national and cinematic subject. It reflects on the cinema as motivated by an ongoing crisis of self-formation in modern India. The book looks at how cinema presents liminal and counter-modern identities emerging within repeated modern attempts to re-enact traumatic national events so as to redeem the past and restore a normative structure to happenings. Establishing structure and event as paradigmatic poles of a historical and anthropological spectrum for the individual in society, the book goes on to discuss cinematic portrayals of violence, gender embodiment, religion, economic transformations and new globalised Indianness as events and sites of liminality disrupting structural aspirations. After revealing the impossibility of accurate representation of incommensurable and liminal subjects within the historiography of the nation-state, the book highlights how Hindi cinema as an ongoing engagement with the nation-state as a site of eventfulness draws attention to the problematic nature of the thematic of nation. It is a useful study for academics of Film Studies and South Asian Culture.

**Sexual Violence in Intimacy** M. Gabriela Torres 2020-11-26

Integrating interdisciplinary and cross-cultural analysis, this volume advances our understanding of sexual violence in intimacy through the development of more nuanced and evidence-based conceptual frameworks. Sexual violence in intimacy is a global pandemic that causes individual physical and emotional harm as well as wider social suffering. It is also legal and culturally condoned in much of the world. Bringing together international and interdisciplinary research, the book explores marital rape as individual suffering that is best understood in cultural and institutional context. Gendered narratives and large-scale surveys from India, Ghana and Africa Diasporas, Pacific Islands, Denmark, New Zealand, the United States, and beyond illuminate cross-cultural differences and commonalities. Methodological debates concerning etic and emic approaches and de-colonial challenges are addressed. Finally, a range of policy and intervention approaches—including art, state rhetoric, health care, and criminal justice—are explored. This book provides much needed scholarship to guide policymakers, practitioners, and activists as well as for researchers studying gender-based violence, marriage, and kinship, and the legal and public health concerns of women globally. It will be relevant for upper-level students and scholars in anthropology, sociology, psychology, women's studies, social work and public and global health.

**Crimes Against Women In India** Mamta Mehrotra 2014-01-01

The Book deals with contemporary issues of rape; the aftermath and THE judgment. Rape is rampant in the country. No girl or women for that matter is safe; whether at home; workplace or on the road. With or without a chaperon she is subjected to all kinds of humiliations. A woman is not safe even in the so called safe environment of her home. The person who takes oath to protect her sometimes; rather most of the times becomes one whom she has to fear. She is unsafe even with him. Is it right? This subject of rape has been extensively dealt in this book; cited with many instances from the present times. It also deals with the verdicts passed on these atrocities. Like Draupadi a woman needs protection for there are innumerable men ready to pounce at her and subject her to un-mentionable humiliation. But where is Krishna? Who is there to protect her? Treat her as a human and not as an article to be used and thrown. Is the judiciary blind like Dhritarashtra or helpless like Bhishma. The book deals with many such issues. And the question remains: Are women safe?

**Moving in the Shadows** Liz Kelly 2016-04-15 In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001, from 3.0 million in 1991 to 4.6 million in 2001. Whilst much has been written about the impact of these demographic changes in relation to policy issues, black and minority women and children remain under-researched. Recent publications have tended to focus on South Asian women, forced marriage and 'honour' related violence. Moving in the Shadows brings together for the first time in a single volume, an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women, whilst foregrounding the experiences of minority women, the

communities they are part of, and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence minority women experience; the continuum of violence; the role of culture and faith in the control of women and girls; the types of intervention within multi-cultural and social cohesion policies; the impacts of violence on British-born and migrant women and girls; and the intersection of race, class, gender and sexuality highlighting issues of similarity and difference. Taken together, they provide a valuable resource for scholars, students, activists, social workers and policy-makers working in the field.

**Domestic Violence in Asia** Emma Fulu 2013-08-15 This book explores changing patterns of domestic violence in Asia. Based on extensive original research in the Maldives, it argues that forces of globalisation, consumerism, Islamism and democratisation are changing the nature of domestic relations, with shifting ideas surrounding gender and Islam being particularly significant. The book points out that domestic violence has been relatively low in the Maldives in comparison with other Asian countries, as a result of, the book argues, a history of relatively equal gender relations, an ideology of masculinity that is associated with calmness and rationality where violence is not considered an acceptable means of dealing with problems, and flexible marriage and divorce practices. The book shows how these factors are being undermined by new ideas which emphasise the need for wifely obedience, increasing gender inequality and the right of husbands to be coercive.

arranged marriage, scholars have thus far concentrated exclusively on American and European cultures from choice marriages, not yet fully exploring the psychology of arranged marriages. India is a prominent South Asian nation that continues to retain the historical tradition of arranged marriages in the 21st century. This book therefore provides a timely addition to marital research as it offers a comprehensive and systematic psychological examination on Indian arranged marriages. This book explores the role of individual, interactional, contextual, and cultural factors in predicting marital satisfaction in individuals who were in arranged marriages and living in India. The discussion is drawn from a survey collecting data from individuals married through the arranged marriage system in India. In light of this empirical study, the book considers the cross-cultural applicability of Western findings and proposes some key methodological and clinical considerations for examining marital relationships in Indian arranged marriages. Providing useful, much-needed scholarly insight on arranged marriages and widening the research conceptualization of marriage, this book will be of particular interest to scholars of Social Psychology, Sociology, Marital and Cross-cultural studies.

India's Family in Transition J.P. Singh 2022-12-26 This book is a summary of research papers published either in leading professional journals from India and abroad or unpublished papers presented in some international seminar or workshop during 1980-2010. But all the papers have been thoroughly recast in view of the latest facts and figures and presented in a thematically coherent manner. It is a fresh attempt to bridge the gap between demographic processes and family structure in the Indian context. This study has also tried to cover changes in marital practices. The study sets off a long-overdue dialogue between anthropology/sociology and demography in the Indian context. The prime purpose of this book is to provide a comprehensive overview of the state of family in contemporary India. This book will be found useful by scholars, students and professionals who work with families and also by laypeople interested in family matters of India.

practitioners. Despite advances made in the investigation of sexual offences, evidence still points to a continued belief in the culpability of victims in their own victimization and a gap between the estimated incidence of sexual violence and the conviction of perpetrators. Adopting an implicitly and explicitly critical stance to contemporary policy responses that continue to fail in addressing this problem, this book focuses on attitudes and behaviour towards sexual violence from the point of view of the individual experiencing the violence – perpetrator and victim – and situates them within a broader societal frame. It is through an understanding of social processes and psychological mechanisms that underpin sexual violence that violence can be combated and harm reduced, and at this individual level that evidence-based interventions can be designed to change policy and practice. The Handbook is split into four sections: 'Legacies: Setting the Scene' offers a critical overview of historical, legal and cultural processes which help to explain the origins of current thinking and offer steers for future developments 'Theories and Concepts' examines contemporary thinking on sexual violence and reviews explanatory frameworks from a number of perspectives 'Acts of Sexual Violence' reviews a number of specific types of sexual violence, elaborating the range of circumstances, victims and perpetrators with a view to addressing the general and pervasive nature of such violence thus contradicting narrow cultural stereotyping 'Responding to Sexual Violence' overviews and evaluates current policies and practices and offers new ideas to develop different types of interventions. The editors' conclusion not only draws out the key themes and ideas from contributions to the Handbook, but also considers the nature of and the extent to which any progress has been made in understanding and responding to sexual violence. This will be a key text for students and academics studying sexual violence and an essential reference tool for professionals working in the field including police officers, probation staff, lawyers and judges.

*Mimetic Desires* Harshita Mruthinti Kamath 2022-11-30 Through an exploration of subjects such as Gandhi impersonators, performance artists, and ritual participants, *Mimetic Desires* makes an intervention toward understanding the phenomenon of impersonation and guising in South Asia and the world. This volume defines impersonation as the temporary assumption of an identity or guise in social and aesthetic performance that is perceived as not one's own, and guising as sartorial and kinetic play more generally. Interrogating the legitimacy of the purported dialectic between the "real/original" and "fake/dupe," *Mimetic Desires* refutes the ordering of identity along the lines of a binary or dichotomy that presupposes the myth of an original identity. By peeling back the layers of performative masks to reveal the process of the masquerade itself, we can see that those with the most social capital are often those with the most power and opportunities to impersonate "up" and "down" social hierarchies. The book's twelve chapters disclose sites and processes of sociopolitical power facilitated by normative markers of social status relating to race, ethnicity, gender, caste, class, and religion—and how those markers can be manipulated to express and enhance individual and group power. The first comprehensive study to focus on impersonation in South Asia, *Mimetic Desires* expands on previous scholarship on impersonation and guising in vernacular theatre, dance, public processions, and religious rituals. It is particularly in conversation with the robust scholarship on gender performance in South Asia's theatrical and dance forms. *Mimetic Desires* explores some of the contexts and forms of impersonation in South Asia, with its remarkable array of performing arts, to gain insight into the very human and quotidian practices of impersonation and guising.

analyses the pivotal visual and narrative conventions employed in popular Hindi films through the combined prism of film studies and classical Indian philosophy and ritualism. The book shows the films outside Western paradigms, as visual manifestations and outcomes of the evolution of classical Hindu notions and esthetic forms. These include notions associated with the Advaita-Vedānta philosophical school and early Buddhist thought, concepts and dynamism stemming from Hindu ritualism, rasa esthetic theories, as well as Brahmanic notions such as dharma (religion, law, order), and mokṣa (liberation). These are all highly abstract notions which the author defines as "the unseen": a cluster of diversified concepts denoting what subsists beyond the phenomenal, what prevails beyond the empirical world of saṃsāra and stands out of this world (alaukika), while simultaneously being embodied and transformed within visual filmic imagery, codes and semiotics that are teased out and analyzed. A culturally sensitive reading of popular Hindi films, the interpretations put forward are also applicable to the Western context. They enable a fuller understanding of religious phenomena outside the primary religious field, within the vernacular arenas of popular culture and mass communication. The book is of interest to scholars in the fields of Indology, modern Indian studies, film, media and cultural studies.

impact of these demographic changes in relation to policy issues, black and minority women and children remain under-researched. Recent publications have tended to focus on South Asian women, forced marriage and 'honour' related violence. *Moving in the Shadows* brings together for the first time in a single volume, an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women, whilst foregrounding the experiences of minority women, the communities they are part of, and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence minority women experience; the continuum of violence; the role of culture and faith in the control of women and girls; the types of intervention within multi-cultural and social cohesion policies; the impacts of violence on British-born and migrant women and girls; and the intersection of race, class, gender and sexuality highlighting issues of similarity and difference. Taken together, they provide a valuable resource for scholars, students, activists, social workers and policy-makers working in the field.

**Social Movements and the Indian Diaspora** Movindri Reddy  
2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs, from the rise of Al Qaeda to the revolutions in North Africa and the Middle East, the study of Diasporas and transnational identities has become more relevant. Using case studies from Fiji, Mauritius, Trinidad and South Africa, this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora. It analyses the way in which diasporas are

defined by themselves and others, and the types of social movements they participate in, showing how these are critical indicators of the threat they are perceived to pose. The book examines the notions of national and transnational identity, and how they are determined by the placement of Diasporas in the transnational locality. It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation-state, and simultaneously separates them from the perceived motherland, thus displacing them from both states and situating them in a transnational locality. It is from this placement that social movements among Diasporas gain salience. As outsiders and insiders, they are well placed to offer a formidable challenge to the host state, but these challenges are limited by their hybrid identities and perceived divided loyalties. Providing an in-depth analysis of Indian Diasporas, the book will be of interest to those studying South Asian Studies, Migration and Diaspora Studies.
