

Sexual Conduct The Social Sources Of Human Sexuality

Companion to Sexuality Studies - Nancy A. Naples 2020-06-29

An inclusive and accessible resource on the interdisciplinary study of gender and sexuality Companion to Sexuality Studies explores the significant theories, concepts, themes, events, and debates of the interdisciplinary study of sexuality in a broad range of cultural, social, and political contexts. Bringing together essays by an international team of experts from diverse academic backgrounds, this comprehensive volume provides original insights and fresh perspectives on the history and institutional regulatory processes that socially construct sex and sexuality and examines the movements for social justice that advance sexual citizenship and reproductive rights. Detailed yet accessible chapters explore the intersection of sexuality studies and fields such as science, health, psychology, economics, environmental studies, and social movements over different periods of time and in different social and national contexts. Divided into five parts, the Companion first discusses the theoretical and methodological diversity of sexuality studies. Subsequent chapters address the fields of health, science and psychology, religion, education and the economy. They also include attention to sexuality as constructed in popular culture, as well as global activism, sexual citizenship, policy, and law. An essential overview and an important addition to scholarship in the field, this book: Draws on international, postcolonial, intersectional, and interdisciplinary insights from scholars working on sexuality studies around the world Provides a comprehensive overview of the field of sexuality studies Offers a diverse range of topics, themes, and perspectives from leading authorities Focuses on the study of sexuality from the late nineteenth century to the present Includes an overview of the history and academic institutionalization of sexuality studies The

Companion to Sexuality Studies is an indispensable resource for scholars, researchers, instructors, and students in gender, sexuality, and feminist studies, interdisciplinary programs in cultural studies, international studies, and human rights, as well as disciplines such as anthropology, psychology, history, education, human geography, political science, and sociology.

Postmodern Sexualities - William Simon 2003-09-02

First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

Sexual Conduct - John H. Gagnon 1973

"Sexual Conduct is a major attempt to consider sexuality within a non-biological, social-psychological framework. It is a valuable addition to the study of human sexuality, and will be of interest to students of sociology, psychology, psychiatry, social work, and medicine."--BOOK JACKET.

Sexual Conduct - William Simon 2017-07-05

The first edition of Sexual Conduct, published in 1973, swiftly became a landmark text in the sociology of sexuality. It went on to profoundly shape the ideas of several generations of scholars and has become the foundation text of what is now known as the "social constructionist" approach to sexuality. The present edition, revised, updated, and containing new introductory and concluding materials, introduces a classic text to a new generation of students and professionals. Traditional views of human sexuality posit models of man and woman in which biological arrangements are translated into sociocultural imperatives. This is best summarized in the phrase "anatomy is destiny." Consequently, the almost exclusive concern has been with the power of biology and nature in sexual conduct as opposed to understanding the significance and impact of social life. In Sexual Conduct, Gagnon and Simon lucidly argue that sexual activities, of all kinds, may be understood

as the outcome of a complex psychosocial process of development. Using the social script theory, the authors trace the ways in which sexuality is learned and fitted into particular moments in the lifecycle and in different modes of behavior. Sexual Conduct is a major attempt to consider sexuality within a non-biological, social psychological framework. It is a valuable addition to the study of human sexuality, and will be of interest to students of sociology, psychology, psychiatry, social work, and medicine.

The Psychology of Human Sexuality - Justin J. Lehmiller 2017-12-26

New edition of an authoritative guide to human sexual behavior from a biopsychosocial perspective The thoroughly revised and updated second edition of The Psychology of Human Sexuality explores the roles that biology, psychology, and the social and cultural context play in shaping human sexual behavior. The author - a noted authority on the topic and an affiliate of the acclaimed Kinsey Institute - puts the spotlight on the most recent research and theory on human sexuality, with an emphasis on psychology. The text presents the major theoretical perspectives on human sexuality, and details the vast diversity of sexual attitudes and behaviors that exist in the modern world. The author also reviews the history of sexology and explores its unique methods and ethical considerations. Overall, this important and comprehensive text provides readers with a better understanding of, and appreciation for, the science of sex and the amazing complexity of human sexuality. Features broad coverage of topics including anatomy, gender and sexual orientation, sexual behaviors, sexual difficulties and solutions, prostitution, and pornography Offers more in-depth treatment of relationships than comparable texts, with separate chapters dealing with attraction and relationship processes Includes cutting-edge research on the origins of sexual orientation and gender identity, as well as new treatments for sexually transmitted infections and sexual dysfunctions Is written from a sex-positive perspective, with expanded coverage of cross-cultural research throughout and material that is inclusive and respectful of a diverse audience Includes numerous activities to facilitate dynamic,

interactive classroom environments Written for students of human sexuality and anyone interested in the topic, The Psychology of Human Sexuality offers a guide to the psychology of human sexual behavior that is at once inclusive, thorough, and authoritative in its approach.

Sexual Development in Childhood - John Bancroft 2003-12-11

Approached with either "indifference" or "panic" in our culture, discussion of childhood sexuality remains submerged within political and moral debates that have historically impeded its understanding. In contrast, Sexual Development in Childhood brings together respected researchers and clinicians to assess the current state of knowledge about childhood sexuality. The result is a comprehensive presentation of the latest research that is rational, balanced, and thorough. The wide-ranging essays in Sexual Development in Childhood seek collectively to answer many of the most vital questions in the field of childhood development. What is childhood sexuality, and why should it be studied? How should it be measured, and what research methods are most useful? What are the current empirical results of research, and in what direction do these studies intend to go in the future? The essays offered in answer to these questions propose to help us understand both the normal range of sexual development in children and the consequences of abusive sexual experiences—objectives that should make this volume an essential resource for teachers, advocates, and social policy professionals as well as for researchers and clinicians.

Male Homosexuals - Martin S. Weinberg 1975

Handbook for Conducting Research on Human Sexuality - Michael W. Wiederman 2012-12-06

Human sexuality researchers often find themselves faced with questions that entail conceptual, methodological, or ethical issues for which their professional training or prior experience may not have prepared them. The goal of this handbook is to provide that guidance to students and professionals interested in the empirical study of human sexuality from behavioral and social scientific perspectives. It provides practical and concrete advice about conducting human sexuality research and

addresses issues inherent to both general social scientific and specific human sexuality research. This comprehensive resource offers a unique multidisciplinary examination of the specific methodological issues inherent in conducting human sexuality research. The methodological techniques and advances that are familiar to researchers trained in one discipline are often unfamiliar to researchers from other disciplines. This book is intended to help enrich the communication between the various disciplines involved in human sexuality research. Each of the 21 self-standing chapters provides an expert overview of a particular area of research methodology from a variety of academic disciplines. It addresses those issues unique to human sexuality research, such as: * how to measure sexuality variables; * how to design studies, recruit participants, and collect data; * how to consider cultural and ethical issues; and * how to perform and interpret statistical analyses. This book is intended as a reference tool for researchers and students interested in human sexuality from a variety of disciplines, including psychology, sociology, family science, health communication, nursing, medicine, and anthropology.

Online Matchmaking - M. Whitty 2007-03-14
Online Matchmaking examines the joys, fears, and disappointments of hooking up with people in cyberspace. Unlike many other books in the field, this collection includes studies by experts from a range of disciplines including Communications, Cultural Studies, Health, Journalism, Psychology, Rhetoric, and Sociology.

Sex, Gender and Social Change in Britain since 1880 - Lesley A. Hall 2017-09-16
Sexual attitudes and behaviour have changed radically in Britain between the Victorian era and the twenty-first century. However, Lesley A. Hall reveals how slow and halting the processes of change have been, and how many continuities have persisted under a façade of modernity. Thoroughly revised, updated and expanded, the second edition of this established text: • explores a wide range of relevant topics including marriage, homosexuality, commercial sex, media representations, censorship, sexually transmitted diseases and sex education • features an entirely new last chapter which brings the narrative right up to the present day

• provides fresh insights by bringing together further original research and recent scholarship in the area. Lively and authoritative, this is an essential volume for anyone studying the history of sexual culture in Britain during a period of rapid social change.

50 Great Myths of Human Sexuality - Pepper Schwartz 2015-04-20

50 Great Myths of Human Sexuality seeks to dispel commonly accepted myths and misunderstandings surrounding human sexuality, providing an enlightening, fascinating and challenging book that covers the fifty areas the author's believe individuals must understand to have a safe, pleasurable and healthy sex life. Dispels/Explores commonly accepted myths and misunderstandings surrounding human sexuality Includes comparisons to other countries and cultures exploring different beliefs and how societies can influence perceptions Areas discussed include: pre-marital sex, masturbation, sexual diseases, fantasy, pornography, relationships, contraception, and emotions such as jealousy, body image insecurity, passionate love and sexual aggression Covers both heterosexual and same-sex relationships
Psychiatry in Practice - Andrea Fiorillo 2016-03-03

Psychiatry in Practice: Education, Experience, and Expertise provides detailed advice and useful tips for early career psychiatrists, and all others who wish to enhance their practical psychiatry skills. Each chapter is written by prominent early career psychiatrists from around the world, offering relevant and timely advice to those who are newly qualified, as well as a global perspective on the practical issues faced today. Covering a variety of topics from 'Psychiatric Emergencies' to 'Ethics and clinical practice in psychiatry', chapters include vignettes of scenarios that may be encountered, making this book pertinent and easily applicable to many early career situations. Skills related to personal management and managing resources are often not taught during training but are key to establishing a career in psychiatry - this book will help the new clinician to develop professionally. The emphasis on practicality ensures psychiatrists are prepared for the needs of the modern health service and society at large, and ensures patients across the world

experience the best treatment available.

Sex at Dawn - Christopher Ryan 2021-01-05

The 10th-anniversary edition of the book that radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care, and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. Shocking, enlightening, and ultimately inspiring, *Sex at Dawn* offers a revolutionary understanding of why we live and love as we do.

Sex and Disability - Robert McRuer 2012-01-04

This collection brings together scholars and artists in disability studies, sexuality, queer theory, and feminism, to show how much sexuality studies and disability studies have to learn from each other.

The History of Sexuality - Michel Foucault
1990-04-14

Why we are so fascinated with sex and sexuality—from the preeminent philosopher of the 20th century. Michel Foucault offers an iconoclastic exploration of why we feel compelled to continually analyze and discuss sex, and of the social and mental mechanisms of power that cause us to direct the questions of what we are to what our sexuality is.

Handbook of the Sociology of Sexualities - John DeLamater 2015-06-19

This volume provides researchers and scholars with a broad overview of the contributions of social psychologists and sociologists to the study of sexual relationships and sexual expression across the life course. These contributions include analyses of the dynamics of several types of contemporary sexual relationships - e.g., short-term, long-term non-exclusive, and committed. Chapters analyze the influence of major social institutions - e.g., religion, family and economy - on them. The content and scope of this volume have been carefully chosen to balance coverage of traditional emphases - dating, marriage, commercial sex work, sex education - with new and cutting edge materials - embodiment, Trans*, asexualities. Sections review major theoretical perspectives and the principal research methods. Coverage of sexual orientation is integrated throughout. This volume provides excellent resources for anyone interested in research on sexualities.

Identity and Community in the Gay World - Carol A. B. Warren 1974

An ethnographic and theoretical study of identity, community, world, and gayness. The widest focus of the book is world, and the narrowest is identity.

Sex - Nikol Hasler 2015-05-26

Sex: An Uncensored Introduction provides honest, in-depth information about sex, sexual orientation, masturbation, foreplay, birth control options, and protection against disease. This revised and updated edition includes updated information about everything from STIs to new sex-related legislation as well as brand new sections on sexting, online dating and safety, and sex-related bullying of all kinds. The hilariously straightforward contents of the book will be augmented by a new foreword written by a trusted "sexpert" to lend added expertise to this new edition.

The Sexual Self - Michael S. Kimmel 2007
Abstract.

Oxford Textbook of Global Public Health - Roger Detels 2017

Sixth edition of the hugely successful, internationally recognised textbook on global public health and epidemiology, with 3 volumes comprehensively covering the scope, methods, and practice of the discipline
