**Indigenous Archaeology** Joe Watkins 2001-01-17 Watkins' book is an important contribution in the contemporary public debates in public archaeology, applied anthropology, cultural resources management, and Native American studies.

Kokoschka and Alma Mahler Alfred Weidinger 1996 Oskar Kokoschka first met Alma Mahler on April 12, 1912, exactly eleven months after the death of her husband - the composer Gustav Mahler. Three days later, the much younger Kokoschka proposed to her in a passionate letter and they embarked on a stormy relationship which was to last only three years. This short and passionate affair greatly influenced his work. Kokoschka, born in Austria in 1886, was both an artist and writer. He led a turbulent life and travelled extensively, before settling in England where he became a British Subject in 1947. He died in Switzerland in 1980, just days before his 94th birthday.

Kokoschka's work was greatly influenced by Gustav Klimt and medieval artists such as Lucas Cranach and Albrecht Durer, painting in a distinctive Expressionist style in his early career. Kokoschka and Alma Mahler explores their passionate relationship, illustrating and discussing the 20 paintings, 70 drawings and prints, and 7 fans that bear witness to this incredibly intense and fateful relationship. His works reflect his love and overwhelming desire, the impressions gained from his travels, and the depths of his despair. The fascinating picture portrayed by the author includes hitherto unpublished material, in particular Alma Mahler's diary from 1912-1913.

*Love by Numbers* Luisa Dillner 2010-12-09 Far from the nonsense of typical agony aunts, this relationship advice will be based on science: using extensive scientific fieldwork from psychology and

sociology journals as well as other serious research, Dr. Luisa Dillner gives you the right answers to those often recurring questions: what are the chances of making a long distance relationship work? How can I get my boyfriend to stop flirting? Is your relationship better if you don't argue? In this essential book about love, women will finally get some intelligent information about relationships and men will get the facts and figures they have always been curious about but never knew they could find. The book is divided into each stage of a relationship, from dating to parenthood and beyond, and its easily readable question and answer format makes it perfect material for the bedside table.

*Youth, University, and Canadian Society* Paul Axelrod 1989 Paul Axelrod and John Reid take the reader through one hundred years of the complex and turbulent history of youth, university, and society. Contributors explore the question of how students have been affected by war and social change and discuss who was able to attend university and who was not, showing how access to privilege has changed over the years.

*Visions of Suburbia* Roger Silverstone 2012-11-12 Suburbia. Tupperware, television, bungalows and respectable front lawns. Always instantly recognisable though never entirely familiar. The tight semi-detached estates of thirties Britain and the infenced and functional tract housing of middle America. The elegant villas of Victorian London and the clapboard and brick of fifties Sydney. Architecture and landscapes may vary from one suburban scene to another, but the suburb is the embodiment of the same desire; to create for middle class middle cultures, middle spaces in middle America, Britain and Australia. *Visions of Suburbia* considers this emergent architectural space, this set of values and this way of life. The contributors address suburbia and the suburban from the point of view of its production, its consumption and its representation. Placing suburbia centre stage, each essay examines what it is that makes suburbia so distinctive and what it is that has made suburbia so central to contemporary culture.

*The Max Planck Handbooks in European Public Law* Armin von Bogdandy 2020-02-27 The Max Planck Handbooks in European Public Law describe and analyse public law of the European legal space, an area that encompasses not only the law of the European Union but also the European Convention on Human Rights and, importantly, the domestic public laws of European states.

Recognizing that the ongoing vertical and horizontal processes of European integration make legal comparison the task of our time for both scholars and practitioners, the series aims to foster the development of a specifically European legal pluralism and to contribute to the legitimacy and efficiency of European public law. The first volume of the series began this enterprise with an appraisal of the evolution of the state and its administration, offering both cross-cutting contributions and specific country reports. The third volume (the second in chronological terms) continues this approach with an in-depth appraisal of constitutional adjudication in various and diverse European countries. Fourteen country reports and two cross-cutting contributions investigate the antecedents, foundations, organization, procedure, and outlook of constitutional adjudicators throughout the Continent. They include countries with powerful constitutional courts, jurisdictions with traditional supreme courts, and states with small institutions and limited ex ante review. In keeping with the focus on a diverse but unified

legal space, each report also details how its institution fits into the broader association of constitutional courts that, through dialogue and conflict, brings to fruition the European legal space. Together, the chapters of this volume provide a strong and diverse foundation for this dialogue to flourish.

**Cowboys and Fishermen** Michael Hance 2000-04-24 When a young man is confronted with the death of his grandfather, he goes about preparing himself to say goodbye. Along the way, we are let in on the very special relationship shared by the boy and the old man, lessons learned by each as they struggled with growing up and growing old. Into this relationship, we are also introduced to the boys father, who found in the old man a surrogate father and role model for how a man should act. We follow this relationship from the time the old mans daughter brings here young boyfriend home, through crises of careers and health, of relating to a growing son, to dealing with the death of the only true mentor in the mans life. As a result of the complexities faced by the three men, the novel explores the often lonely world in which men compare them selves against the masculine ideal, a world where fears and doubts are considered signs of weakness, where what a man can do with his muscles is often in conflict with what he can do with his heart. As we move through the novel, we also meet several other men whose experiences serve to underline the realities of being a man: Alex is the old mans brother. The two share a stormy relationship that stems from the early influences on their lives of their illiterate father. In time however they eventually settle into an acceptance of each others differences. Ed is a friend of the old man who saw his own father die as a result of trying to save his son. Austin suffered the disapproval of his lifestyle and the brutal loss of the only man he ever loved. Stans relationship with Mike shows the surprising tenderness shared by brothers who otherwise see themselves as tough guys. The women in the lives of these men are an underlying influence of strength and guidance, providing

certain qualities that the men are often incapable of showing or even realizing. The boys grandmother, mother and sister, and the woman who becomes his wife act as foils and friends, lovers and protectors, appeasers as well as provocateurs of the male ego. Providing further proof to these roles are other wives, mothers and lovers that show the soft side of men, the sides they are often loathe to reveal to their peers. Set primarily in the beautiful and rugged cottage country of Ontario, *Cowboys and Fishermen* demonstrates the need men have for one another and the dependancy they share for the women who have touched their lives.

Visible Thought Geoffrey Beattie 2004-06-01 Are you saying one thing whilst your hands reveal another? Are you influenced by other people's body language without even knowing it? Darting through examples found anywhere from the controlled psychology laboratory to modern advertising and the Big Brother TV phenomenon, official Big Brother psychologist Geoffrey Beattie takes on the issue of what our everyday gestures mean and how they affect our relationships with other people. For a long time psychologists have misunderstood body language as an emotional nonverbal side effect. In this book Geoffrey Beattie ranges across the history of communication from Cicero to Chomsky to demonstrate that by adding to or even contradicting what we say, gestures literally make our true thoughts visible. A unique blend of popular examples and scientific research presented in language that everybody can understand, Visible Thought is an accessible and groundbreaking text that will appeal to those interested in social psychology and anyone who wants to delve beneath the surface of human interaction. Geoffrey Beattie is the official Big Brother psychologist and Professor at the Department of Psychology, University of Manchester. He is a recipient of the Spearman Medal awarded by the British Psychological Society for 'published psychological work of outstanding merit'.

*Anita Brenner* Susannah Joel Glusker 1998 Journalist, historian, anthropologist, art critic, and creative writer, Anita Brenner was one of Mexico's most discerning interpreters. In this book, her daughter, Susannah Glusker, traces Brenner's intellectual growth and achievements from the 1920s through the 1940s. This intellectual biography brings to light a complex, fascinating woman who bridged many worlds--the United States and Mexico, art and politics, professional work and family life. Journalist, historian, anthropologist, art critic, and creative writer, Anita Brenner was one of Mexico's most discerning interpreters. Born to a Jewish immigrant family in Mexico a few years before the Revolution of 1910, she matured into an independent liberal who defended Mexico, workers, and all those who were treated unfairly, whatever their origin or nationality. In this book, her daughter, Susannah Glusker, traces Brenner's intellectual growth and achievements from the 1920s through the 1940s. Drawing on Brenner's unpublished journals and autobiographical novel, as well as on her published writing, Glusker describes the origin and impact of Brenner's three major books, *Idols Behind Altars*, *Your Mexican Holiday*, and *The Wind That Swept Mexico*. Along the way, Glusker traces Brenner's support of many liberal causes,

**How to Love Yourself (and Sometimes Other People)** Lodro Rinzler 2015-09-15 How to Love Yourself (and Sometimes Other People) is a smart, hip guide for spiritual seekers who want to experience more love and stability in all forms of relationships. Told from the unique vantage points of authors Meggan Watterson and Lodro Rinzler, this book explores staying anchored in the foundation of self-love as you navigate the natural (and often stormy) cycle of a relationship. Their dual perspectives as teachers and scholars of Christian mysticism and Buddhism make for a rich and fascinating dialogue that covers everything from sex, self-worth, falling in (and out of) love, deep friendships, to breakups—and how to maintain an open heart through it all. At its core, this book is about learning to love yourself no matter what. Meggan and Lodro suggest that you are worthy of love, both self-love and the love of others. They aren't experts on how to get that man or lady to fall in love with you, nor are they experts on how to have "the perfect relationship." They are spiritual teachers who know that relationships have a life of their own, and can speak to the human element of what it means to experience them fully. In the process, they share deeply personal, revealing, honest anecdotes and spiritual practices to assist you with the inevitable ebbs and flow of love in all its manifestations.

*Good Faith Hunting* Henry Stewart 2012-12-18 Church attendance in the United States and other Western nations is rapidly declining, and the losses are not solely because "young people don't like church." Baby boomers are also leaving, frequently because the church leadership assumes a believer's faith and how it plays out is constant over a lifetime. Boomers are a transition generation, undergoing profound faith journeys as they transition through life's phases. Many churches struggle to connect with people on a journey because the corporate, modernist mindset doesn't have room for changes and journey. *Good Faith Hunting* is a book of hope for church leaders and major influencers who want to celebrate the faith journeys of baby boomers and others through life, allegiance, and experience, as an opportunity to show the love of Christ as they sojourn alongside people in their community.

*Psyche and Soul in America* Robert H. Abzug 2021 Rollo May (1909-1994), internationally known psychologist and philosopher, came from modest roots in the small town Protestant Midwest intending to do 'religious work' but eventually became a psychotherapist and author. During the 1950s and 1960s, his books combined existentialism and other philosophical approaches, psychoanalysis, and a spiritual-philosophy to interpret the damage bureaucratic and technocratic aspects of modernity and their inability of individuals to understand their authentic selves. '*Psyche and Soul in America*' deals not only with May's public contributions but also to his turbulent inner life as revealed in unprecedentedly intimate sources in order to demonstrate the relationship between the personal and public in a figure who wrote about intimacy, its loss, and ways to regain an authentic sense of self and others.--

## **Same-Sex Desire and Love in Greco-Roman Antiquity and in the Classical Tradition of the West** Beerte C. Verstraete

2014-05-01 New and surprising insights into homoeroticism of times past In ancient times, the Greek god Eros personified both heterosexual and homosexual attractions. Same-Sex Desire and Love in Greco-Roman Antiquity and in Classical Tradition of the West explores the homosexual side of the vanished civilizations of Greece and Rome, and the resulting influence on the Classical tradition of the West. Respected scholars clearly present evidence that shows the extensive nature of homoeroticism and homosexuality in the Classical world. Iconography such as vase decoration and carved gemstones is presented in photographs, and the text includes an examination of a wide selection of literature of the times with an eye to opening new vistas for future study. Same-Sex Desire and Love in Greco-Roman Antiquity and in Classical Tradition of the West lays to rest the myths generally accepted as truth about Greco-Roman views on homosexuality and brings fresh insights to philological and historical scholarship. This book provides nuanced, humanistic discussions on the common phenomena of same-sex desire. Topics include Greek pederasty and its origins, the Greek female homoeroticism of Sappho, homosexuality in Greek and Roman art and literature, and the emergence of the gay liberation movement with the influence of discussions of Greek and Roman homosexuality in the twentieth century. **Oxford Casebook of Forensic Psychiatry** Nigel Eastman

2023-05-30 Designed as a companion to the Forensic Psychiatry (Oxford Specialist Handbook), Second Edition, this new casebook complements the domains of both theory and practice put forward in the handbook, but also works as a standalone volume for those who wishes to enhance their decision making in cases they may confront in their discipline. Organised into three sections, the casebook allows the practitioner to think through not only the technical medical aspects of real-life clinical cases, but also the legal and ethical aspects. Part A provides an introduction to the theory and practice of decision-making; Part B presents cases across clinical, legal, and ethical domains; and Part C offers frameworks for critiquing decisions. This robustly discursive approach to a fact-based but also value-laden discipline enhances the opportunity to put knowledge into practice. The Oxford Casebook of Forensic Psychiatry expresses the concept that 'knowing is the only part of deciding', offering an essential practitioner's guide to decision making in clinical, forensic, and legal psychiatry.

**Fearful Avoidant Attachment** Janis Bryans Psy.D Do you feel disconnected with your partner? Does their hot & cold attitude confuse you, leaving you feeling that you can't communicate your needs? Are you worried about drifting apart? Attachment styles are the way that we connect with other people. They are generally developed by infants and further refined by children, adolescents and adults. Many of the fears, beliefs and behavioral patterns you emulate as an adult are derived from how you felt in the first few years of life. People who develop a fearful avoidant attachment style often desire closeness. They seek intimacy from partners. However, they may be unable to achieve the deep connection that they long for. The reason for this is because their attachment experiences have taught them to be fearful of intimacy. In some cases, their personality leads them to reject close bonds. This can spur a cycle of rocky relationships and extreme emotional highs and lows. A person with a fearful avoidant attachment lives in an ambivalent state of being, afraid of being both too close to or too distant from others.

Understanding fearful avoidant attachment can help you to understand why you react the way you do in relationships. If you believe that a loved one has this style of attachment, understanding where the instincts come from may also help you to respond to them. People with fearful avoidant attachment may show signs of: - Stormy, highly emotional relationships. - Conflicting feelings about relationships (desiring a romantic relationship and being fearful of being hurt or left by a significant other). - A negative view of themselves and elevated anxiety. - A tendency to seek out faults in partners or friends so that they can

create an excuse to leave a relationship. - A fear or anxiety about being inadequate for a partner or relationship. - Withdrawing from relationships when things get intimate or emotional. - A resistance to commitment and intimacy. They attempt to keep their feelings at bay but are unable to; they can't just avoid their anxiety or run away from their feelings. Instead, they are overwhelmed by their reactions and often experience emotional storms. The person who is close to a fearful avoidant may feel: - Unvalued. - Not good enough. - Tentative. - As though they are doing something wrong. - Emotionally deprived. - Unimportant. - Unable to truly connect. - Held at arm's length. - Confused. - Lonely. - Abandoned and depressed. Such feelings, if experienced too often or too intensely, may ultimately make a relationship non-sustainable. The good news is that you can change the attachment style. It may take time, work and a great deal of understanding from people in life. However, it is possible for to build intimate, secure relationships that fulfill and help you to feel safe. If you do not intervene immediately, those who have a relationship with a fearful avoidant person will end up having to settle for a relationship made up of distances, misunderstandings and conflicts until the relationship is totally broken. Everything that you have built together will be lost forever. Understanding and managing the wounds of attachment is the best gift that you can give to your relationship.

PHOTO ART THERAPY Jerry L. Fryear 1992-01-01 PHOTO ART THERAPY: A JUNGIAN PERSPECTIVE illuminates and guides the reader through new possibilities for art therapy practice, approached by the authors as a creative interaction with different artistic media and therapeutic methods. Although the book is based on Jungian theory and practice, the authors carefully explore cooperation with other therapeutic perspectives, all of which are in keeping with Jung's belief in transcendent universals and multifaceted therapeutic practices. The book is divided into

four sections: Self-Understanding, Alleviating Distress and Symptoms, Group Therapy, and Discussion. Wherever possible and practical, photo art therapy work done by clients as illustrations of the concepts is included. The text not only demonstrates innovative ways of combining artistic media but allows clients to articulate the inner workings of the therapeutic process through an engaging series of dialogues and narrations. The book establishes a twofold landmark in elucidating art therapy's close and vital connections to both phototherapy and the discipline of Jungian psychotherapy.

*The Infinite Thread* Alexandra Kennedy 2011-03-15 The loss we feel when a loved one dies is profound, often accompanied by regret for all that we didn't say or do. Such regret can hinder emotional growth and create wounds that affect all other aspects of our lives. But loss doesn't necessarily mean the end of a connection with a loved one. In fact, it can open the doors to a unique relationship that offers intimacy, healing, and renewal. In *The Infinite Thread*, author Alexandra Kennedy helps us deal with loss in a powerful new way: by using active imagination, letters, and inner dialogue to re-create and heal past relationships. In doing so, we also amend the often-strained ties with those still living. *The Infinite Thread* strips away the veils of mystery surrounding death and transcends preconceptions about death and dying. Rich with opportunities for reflection, it brings enormous comfort to anyone who has ever lost a loved one or been faced with their own mortality.

The Films of Steven Spielberg provides for the first time a collection of critical writings by professional film critics about the director and his films, bringing together many articles and reviews scattered in often inaccessible specialist publications and professional journals. The opinions vary from complimentary to critical, but they definitely provide a well-rounded view of the films and the director. Twelve of Spielberg's major box office sellers are represented in essays that vary complexity ranging from the heavily theoretical to the more general. Transition and Change in the Lives of People with Intellectual Disabilities David May 2000-12 One claim made for the policy of care in the community was that it would rescue people with intellectual disabilities from social marginality. To what extent has this promise been fulfilled and their lives transformed? David May presents the lives of people from this group as a series of transitions and offers us a view of the world that is as complex and changeable as any other. Each section covers a different aspect of choice, opportunity and transition on the lifepath, for example, \* moving from home to school \* leaving school \* employment \* living independently and \* growing old The contributors have extensive research experience in the field of intellectual disabilities and provide a comprehensive review of this research, drawing out the implications for policy and practice. This book will be an invaluable resource for professionals and carers working with those with intellectual disabilities, as well as their families.

**Law and healing** Margaret Brazier 2023-03-14 This book delves into medico-legal history, travelling back in time to explore English law's fascinating and often acrimonious relationship with healing and healers. Challenging assumptions that medical law is a recent development, Law and healing traces the regulation of healers from the Church's dominance to legal battles fought among medical practitioners. As well as considering the history of the regulation of healers, this book addresses moral issues such as abortion, bodily sovereignty, and the use of cadavers in research. It highlights how fundamental legal and ethical questions continue to resurface, for example, from controversy in the Renaissance over human dissection to modern-day debates about organ donation. Law and healing provides a colourful but critical account of the longstanding - and often fraught - relationship between two fundamental pillars of human society.

An International Psychology of Men Chris Blazina 2011-01-19

This text is the first to provide a contextual understanding of the clinical issues that affect men and masculinity across a wide range of cultural and national settings. It demonstrates that gender can no longer be viewed as an isolated characteristic; in an era of increased globalization, mental health professionals need to take ethnic and cultural issues into account to provide adequate care for male patients. Numerous international perspectives are offered by the contributing authors, authorities from countries such as Australia, Argentina, Denmark, Canada, India, Ireland, and South Africa, on theoretical and clinical innovations for working with men. Their chapters also offer insight into the socio-cultural contexts for counseling men in and from their respective countries by exploring the ways in which "being a man" is socially defined, what unique challenges men face, and how these challenges can be negotiated within their specific cultural settings. Topics addressed will include boyhood notions of manhood, relationship concerns and power, fatherhood, and men's body image across the life span. This text will ultimately enable mental health practitioners to have a better understanding of how to work more effectively with male clients.

**Special Care Babies and their Developing Relationships** Dr Anne Mcfadyen 2019-10-25 Special care babies are at the centre of a complex system of relationships involving both family members and professionals. Prematurity, disability and life-threatening situations create a crisis which is likely to have a different meaning for each participant. Each baby's developing relationships will both influence and be influenced by relationships within the hospital and the family system. Special Care Babies and their Developing Relationships puts professionals in touch with how babies, their parents and the staff who care for them actually experience neonatal care. The book explores institutional, cultural and family beliefs about prematurity and considers the differences in beliefs and in needs

of parents and staff. Anne McFadyen argues that to support the key mother-child relationship, these differences must be acknowledged, as they are at the heart of the relationship between two crucial systems which have the power to influence the baby's survival and the rest of his or her life.
