*Women and alcohol* Staddon, Patsy 2015-06-03 Issues relating to alcohol 'misuse' can only properly be understood within their social and environmental contexts. This research and practice based book explores social models of alcohol misuse to offer a sociological approach to its treatment. Through considering the social meaning of women's alcohol use, the book challenges current policy and practice in the field. It raises concerns about the political role of 'treatment' in making women behave, or to be 'well', and aims to develop a new approach to women's drinking and new ways of aiding recovery, at national and local levels.

With contributions from service users, academics and practitioners, this is essential reading for those studying addiction, gender and the social background to alcohol problems.

How Russia Learned to Talk Stephen Lovell 2020-03-06 Russia in the late nineteenth century may have been an autocracy, but it was far from silent. In the 1860s, new venues for public speech sprang up: local and municipal assemblies, the courtroom, and universities and learned societies. Theatre became more lively and vernacular, while the Orthodox Church exhorted its priests to become better preachers. Although the tsarist government attempted to restrain Russia's emerging orators, the empire was entering an era of vigorous modern politics. All the while, the spoken word was amplified by the written: the new institutions of the 1860s brought with them the adoption of stenography.

Russian political culture reached a new peak of intensity with the 1905 revolution and the creation of a parliament, the State Duma, whose debates were printed in the major newspapers. Sometimes considered a failure as a legislative body, the Duma was a formidable school of modern political rhetoric. It was followed by the cacophonous freedom of 1917, when Aleksandr Kerensky, dubbed Russia's 'persuader-in-chief', emerged as Russia's leading

orator only to see his charisma wane. The Bolsheviks could boast charismatic orators of their own, but after the October Revolution they also turned public speaking into a core ritual of Soviet 'democracy'. The Party's own gatherings remained vigorous (if also sometimes vicious) throughout the 1920s; and here again, the stenographer was in attendance to disseminate proceedings to a public of newspaper readers or Party functionaries. How Russia Learned to Talk offers an entirely new perspective on Russian political culture, showing that the era from Alexander II's Great Reforms to early Stalinism can usefully be seen as a single 'stenographic age'. All Russia's rulers, whether tsars or Bolsheviks, were grappling with the challenges and opportunities of mass politics and modern communications. In the process, they gave a new lease of life to the age-old rhetorical technique of oratory.

**Talking to Strangers** Michael Harding 2016-10-06 'Harding writes like an angel' Sunday Times Talking to Strangers, from the No.1 bestselling author of Staring at Lakes, Hanging with the Elephant and On Tuesdays I'm a Buddhist is a book about love, about the stories we share with others, and the stories we leave behind us. Too much wine and a casual browse of an airline website - this is how Michael Harding found himself in a strange flat in Bucharest in early January, which set the tone for the rest of that year. After an intense stint in a high-profile production of The Field, Harding returned to the tranquil hills above Lough Allen and started to plan some dramatic changes to his little cottage. Surely an extension would give him a renewed sense of purpose in life as he approached old age. But as the walls of his home crumbled, so too did his mental health, and he fell, once again, into depression -- that great darkness where life feels like nothing more than a waste of time. And yet, it is in that great darkness that we discover what really makes us human. 'Michael Harding is no ordinary man or memoirist ... a book that champions the kindness (or at least company) of strangers as

essential for that elusive state known as happiness' RTÉ Guide **Life of Jesus in Icons** 2008 "In the Cathedral Church of Mary of the Assumption in Tbilisi, Georgia, in Eastern Europe, "the Word of Life" is proclaimed in the Liturgy, and also told through one hundred and thirty icons of scenes from the Bible, elegantly arranged along the Cathedral's side walls. For the faithful, these icons uncover the thread of love that can draw them to enter, through prayer, into contemplation of the image of the invisible God." "Thirty of these icons, which tell the story of the life of Jesus, are reproduced in this book together with the relevant biblical texts and a commentary written especially for the English language edition by Francis J. Moloney, SDB. Carefully chosen extracts from early Church Fathers shed further light on each of the events portrayed in the icons."--BOOK JACKET.

Handbook for Arabic Language Teaching Professionals in the 21st Century Kassem Wahba 2014-06-03 This landmark volume offers an introduction to the field of teaching Arabic as a foreign or second language. Recent growth in student numbers and the demand for new and more diverse Arabic language programs of instruction have created a need that has outpaced the ability of teacher preparation programs to provide sufficient numbers of well-qualified professional teachers at the level of skill required. Arabic language program administrators anticipate that the increases in enrollment will continue into the next decades. More resources and more varied materials are seriously needed in Arabic teacher education and training. The goal of this Handbook is to address that need. The most significant feature of this volume is its pioneer role in approaching the field of Arabic language teaching from many different perspectives. It offers readers the opportunity to consider the role, status, and content of Arabic language teaching in the world today. The Handbook is intended as a resource to be used in building Arabic language and teacher education programs and in guiding future academic research. Thirty-four chapters authored by leaders in the field are

**The Other Talk** Brendan Kiely 2022-09-20 "All too many kids of color get 'the talk.' The talk about where to keep their hands, how to wear their clothes, how to speak, how to act around police-an honest talk, a talk about survival in a racist world. The get "the talk" because they must. But white kids don't get this talk.

Instead, they're barely spoken to about race at all-and that needs to change. The Other Talk begins this much-needed conversation for white kids. In an accessible, anecdotal, and honest account from his own life, Brendan Kiely introduces young readers to white privilege, unconscious bias, and allyship-because racism isn't just an issue for people of color, it's an issue white people have to deal with, too, and it's time we all start doing our part"--

**Greek Festivals, Modern and Ancient** Evy Johanne Håland  
2017-06-20 This volume represents a multi-faceted, cross-period product of fieldwork conducted in contemporary Greece in combination with ancient sources. Based on a comparative analysis of important religious festivals and life-cycle rituals, the book investigates the importance of cults connected with the Greek female sphere and its relation to the official male-dominated ideology. Within these festivals are encountered supplementary, complementary or competing ideologies connected with men and women, and it is shown that there is not a one-way power structure or male dominance within Greek culture, but rather competing powers linked to the two sexes and their respective spheres. In addition to gender, the book also explores the relationship between the “great” and “little” societies, in the form of official and popular religion. As such, it will serve to broaden the reader’s knowledge of ancient, but also modern, society, because it concerns the relationship between various spheres of life which each possess their own competing and overlapping, but also co-existing, value-systems.

*The Women* T. C. Boyle 2011-07-01 Welcome to the troubled, tempestuous world of Frank Lloyd Wright. Scandalous affairs rage behind closed doors, broken hearts are tossed aside, fires rip through the wings of the house and paparazzi lie in wait outside the front door for the latest tragedy in this never-ending saga. This is the home of the great architect of the twentieth century, a man of extremes in both his work and his private life: at once a force of nature and an avalanche of need and emotion that sweeps aside everything in its path. Sharp, savage and subtle in equal measure, *The Women* plumbs the chaos, horrors and uncontainable passions of a formidable American icon.

Thoughtrave: An Interdimensional Conversation with Lady Gaga

Lady Gaga 2016 Thoughtrave is the immediate and most detailed archive of Lady Gaga's emotional, intellectual, philosophical, and spiritual evolution, a reclaiming of her art (and humanity) from within the center of her celebrity during one of the most difficult transitions of her career: Summer 2013-Fall 2014. Lady Gaga: I don't like being used to make money. I feel sad when I am overworked and that I just become a money making machine and that my passion and my creativity take a backseat. That makes me unhappy. So, what did I do? I started to say no. Not doing that. I don't want to do that. I'm not taking that picture. Not going to that event. Not standing by that because that's not what I stand for. Thoughtrave marks perhaps the most important (and unconditional, unpublished, unencumbered) insights into the music industry, the personal battles that accompanied her transition from Stefani to Gaga. "It's one of those rare moments in life when you ask a question of someone you've admired for many years and receive the most honest of answers leading both people into a relationship that was and remains one of the most important of my life," says Baum, a professor, producer, composer, writer, editor, and activist for adjunct professors. As Baum explains to Stefani in one of the many interviews published here for the first time, Robert Craig Baum: It's uncanny for me to

look back at 2008-2011 - when I was intensely meditating on the problem "Why is there any being at all?" - to find evidence of your intervention here with me...to find you, back then...before I knew you. It was almost as if I was playing the Bruce Willis character in Twelve Monkeys, overshooting my mark in time/space, aiming for this particular conversation but speaking through Ereignis (life gives) to a moment I (and many others) call "headphones on." As George Elerick writes in his Introduction to the book, "In Hand-to-Hand Battle for the Users," "The book you hold in your hands easily falls into the category of a transgression. It's as though we are breaking into somewhere we are not meant to be (like a rave) and are invited into the mind of one of today's musical geniuses. Maybe we can even equivocate the experience to that of being a member of the paparazzi. Their whole mode of employment is based on breaking social codes and entering into the lives of everyday-people-turned-rock-stars. That's what this book is, a disruptive invitation to break into the life and mind of Lady Gaga, the person, not just the persona."

*Sexism and God-talk* Rosemary Radford Ruether 2002 Using feminist theology as a tool to expose the male-centred bias of classical theology, Ruether articulates a faith which incorporates both genders in their totality, and which embraces a full humanity. Whereas the traditional paradigm begets domination and subordination, Ruether's feminism seeks a mutuality which allows for variety and particularly in women and men. Examining ways in which the female has been (uncomfortably) accommodated within the Christian tradition in ecclesiology and Mariology, the author looks at ways of rehabilitating these images, and engages creatively in the areas of the doctrine of creation, Christology, ministry and eschatology. At the heart of this work is the argument that the dominant Christian tradition, if it is challenged and corrected by feminism, offers viable and credible categories for interpreting human existence and building redemptive communities.

Sex, Drugs and Coca Puffs is ostensibly about movies, sport, television, music, books, video games and kittens, but really it's about us. All of us.

removed is as fundamental as wearing makeup or using hair conditioner; it's become something we do to make ourselves look better. Now, for any woman considering her options, Joan Rivers takes the mystery out of cosmetic surgery with a practical overview, aided and informed by the country's top plastic surgeons, of almost every single cosmetic procedure legally performed in America today. She takes readers step-by-step through these entire processes, from finding the right doctor to the bruising truth about recovery and the facts about cosmetic surgery's very real risks. But don't worry -- there's dish, too. Filled with Rivers' personal anecdotes about life under the knife, *Men Are Stupid...And They Like Big Boobs* is also rife with Hollywood gossip about who's done what and how often. Part comic musing, part bitch-fest, and part hands-on advice, this is a bracingly funny, wildly frank, and genuinely passionate argument for a woman's right to do whatever it takes to be beautiful, to feel better about herself, and most of all to be happy -- not only with who she is, but who she wants to be. Throughout the book, Joan Rivers is right there, guiding and encouraging with no apologies, no excuses, and absolutely no shame. Take it from the woman who enjoys having it all -- done.

**Talkin' with Your Mouth Full** Steve Fagin 1998 Steve Fagin is an artist whose videos incorporate, challenge, and cross over into the realm of literary and cultural studies. *Talkin' with Your Mouth Full* includes not only scripts of Fagin's works but critical responses to--and meditations on--a variety of his influential videos by a distinguished, if intriguingly disparate, group of artists and scholars. Combining elements of criticism with various modes of artistic expression, these responses take the form of reviews, letters, interviews, and in one case an imaginary TV programming schedule. Interspersed with--and sometimes literally interrupting--the video scripts, these contributions interact with one another on multiple levels and complement Fagin's scripts. **Russian Talk** Nancy Ries 1997 As one of the first Western ethnographers working in Moscow, Nancy Ries became convinced that talk is one crucial way in which Russian identity is constructed and reproduced. Listening to the grim stories people used to characterize their lives during perestroika, and encountering the florid pessimism with which Muscovites described the unraveling of Soviet governance, Ries realized that these dire tales played a crucial role in fabricating a sense of shared experience and destiny. While many of the narratives aptly depicted the chaotic social and political events, they also promoted key images of "Russianness" and presented Russian society as an inescapable realm of injustice, absurdity, and suffering. At the height of perestroika in the early 1990s, Moscow residents commonly used the phrase "complete ruin" to refer to the disintegration of Russian society, encompassing in that phrase the escalation of crime, the disappearance of goods from stores, the fall of production, ecological catastrophes, ethnic violence in the Caucasus, the degradation of the arts, and the flood of pornography. Ries argues that such stories became a genre of folklore consistent in their lamenting, portentous tone and their dramatic, culturally poignant details.

**Female Icons** Carl Rollyson 2005 This volume represents more than twenty-five years of writing about female icons and biography. Rollyson provides the bits and pieces that resulted not only in his biography of Marilyn Monroe but also in much of the work he has subsequently done on Lillian Hellman, Martha Gellhorn, Rebecca West, Susan Sontag, and on the nature of biography itself. This book includes a selection of Rollyson's New York Sun book reviews dealing with female icons such as Mary Stuart, Mary Wollstonecraft, The Brontës, Marie Curie, Harriet Tubman, Zelda Fitzgerald, and Sylvia Plath. Rollyson's writing about icons has provoked him to question the process by which selves are defined. Discovering the shaping mechanisms of the self is simultaneously a way of understanding how biographies are built. In the end, this book should be of interest not merely to devotees of Monroe, Sontag, and other icons but also to anyone curious about the nature of biography and the biographer.
