It includes entries on genres and subgenres, national and regional traditions from around the world, and important autobiographical writers, as well as articles on related areas such as oral history, anthropology, testimonies, and the representation of life stories in non-verbal art forms.

Toni Morrison and Motherhood

- Andrea O'Reilly 2012-02-01

Traces Morrison's theory of African American mothering as it is articulated in her novels, essays, speeches, and interviews. Traces Morrison's theory of African American mothering as it is articulated in her novels, essays, speeches, and interviews. Mothering is a central issue for feminist theory, and motherhood is also a persistent presence in the work of Toni Morrison.

Examining Morrison's novels, essays, speeches, and interviews, Andrea O'Reilly illustrates how Morrison builds upon black women's experiences of and perspectives on motherhood to develop a view of black

motherhood that is, in terms of both maternal identity and role, radically different from motherhood as practiced and prescribed in the dominant culture. Motherhood, in Morrison's view, is fundamentally and profoundly an act of resistance, essential and integral to black women's fight against racism (and sexism) and their ability to achieve well-being for themselves and their culture. The power of motherhood and the empowerment of mothering are what make possible the better world we seek for ourselves and for our children. This, argues O'Reilly, is Morrison's maternal theory—a politics of the heart. "As an advocate of 'a politics of the heart,' O'Reilly has an acute insight into discerning any threat to the preservation and continuation of traditional African American womanhood and values ... Above all, Toni Morrison and Motherhood, based on Andrea O'Reilly's methodical research on Morrison's works as well as feminist critical resources,

proffers a useful basis for understanding Toni Morrison's works. It certainly contributes to exploring in detail Morrison's rich and complex works notable from the perspectives of nurturing and sustaining African American maternal tradition." — African American Review "O'Reilly boldly reconfigures hegemonic western notions of motherhood while maintaining dialogues across cultural differences." — Journal of the Association for Research on Mothering "Andrea O'Reilly examines Morrison's complex presentations of, and theories about, motherhood with admirable rigor and a refusal to simplify, and the result is one of the most penetrating and insightful studies of Morrison yet to appear, a book that will prove invaluable to any scholar, teacher, or reader of Morrison." — South Atlantic Review "...it serves as a sort of annotated bibliography of nearly all the major theoretical work on motherhood and on Morrison as an author ... anyone conducting serious

study of either Toni Morrison or motherhood, not to mention the combination, should read [this book] ... O'Reilly's exhaustive research, her facility with theories of Anglo-American and Black feminism, and her penetrating analyses of Morrison's works result in a highly useful scholarly read." — Literary Mama "By tracing both the metaphor and literal practice of mothering in Morrison's literary world, O'Reilly conveys Morrison's vision of motherhood as an act of resistance." — American Literature "Motherhood is critically important as a recurring theme in Toni Morrison's oeuvre and within black feminist and feminist scholarship. An in-depth analysis of this central concern is necessary in order to explore the complex disjunction between Morrison's interviews, which praise black mothering, and the fiction, which presents mothers in various destructive and self-destructive modes. Kudos to Andrea O'Reilly for illuminating Morrison's 'maternal standpoint' and

helping readers and critics understand this difficult terrain. Toni Morrison and Motherhood is also valuable as a resource that addresses and synthesizes a huge body of secondary literature." — Nancy Gerber, author of Portrait of the Mother-Artist: Class and Creativity in Contemporary American Fiction "In addition to presenting a penetrating and original reading of Toni Morrison, O'Reilly integrates the evolving scholarship on motherhood in dominant and minority cultu

The Perils of Pedagogy - John Greyson 2013

Whether addressing HIV/AIDS, the policing of bathroom sex, censorship, or anti-globalization movements, John Greyson has imbued his work with cutting humour, eroticism, and postmodern aesthetics. Mashing up high art, opera, community activism, and pop culture, Greyson challenges his audience to consider new ways that images can intervene in both political and public spheres. Emerging on the Toronto scene in the late

1970s, Greyson has produced an eclectic, provocative, and award-winning body of work in film and video. The essays in The Perils of Pedagogy range from personal meditations to provocative textual readings to studies of the historical contexts in which the artist's works intervened politically as well as artistically. Notable writers from a range of disciplines as well as prominent experimental and activist filmmakers tackle questions of documentary ethics, moving image activism, and queer coalitional politics raised by Greyson's work. Close to one hundred frame captures and stills from almost sixty works, along with articles, speeches, and short scripts by Greyson - several never before published - supplement the collection. Celebrating thirty years of passionate, brilliant, and affecting moviemaking, The Perils of Pedagogy will fascinate both specialists and general readers interested in media activism and advocacy, censorship, and freedom of expression.

Mother Outlaws - Andrea O'Reilly 2004-05-13

Feminist scholars of motherhood distinguish between mothering and motherhood, and argue that the latter is a patriarchal institution that is oppressive to women. Few scholars, however, have considered how mothering, as a female defined and centred experience, may be a site of empowerment for women. This collection is the first to do so. *Mother Outlaws* examines how mothers imagine and implement theories and practices of mothering that are empowering to women. Central to this inquiry is the recognition that mothers and children benefit when the mother lives her life, and practices mothering, from a position of agency, authority, authenticity and autonomy.

Despite the number of parenting books flooding the marketplace, Marni Jackson discovered she wasn't prepared when she became a mother at the age of thirty-seven. Nights without sleep, steeped in equal parts love, anxiety and bodily fluids, combined with the most intense tenderness warring against a sea-change of self forced her to ask the question: why didn't anybody tell me it would be like this? Social Reproduction - Meg
Luxton 2006

Using a feminist political
economy approach,
contributors document the
impact of current socio-
economic policies on states,
markets, households, and
communities. Relying on
impressive empirical research,
they argue that women bear
the costs of and responsibility
for care-giving and show that
the theoretical framework
provided by feminist analyses
of social reproduction not only
corrects the gender-blindness
of most economic theories but
suggests an alternative that
places care-giving at its centre.
In this illuminating study, they
challenge feminist scholars to
re-engage with materialism
and political economy to
engage with feminism.

The Force of Vocation - Ruth
Panofsky 2006-04-15

Adele Wiseman was a seminal
figure in Canadian letters.
Always independent and wilful,
she charted her own literary

career, based on her unfailing

belief in her artistic vision. In
The Force of Vocation, the first
book on Wiseman's writing life,
Ruth Panofsky presents
Wiseman as a writer who
doggedly and ambitiously
perfected her craft, sought a
wide audience for her work,
and refused to compromise her
work for marketability. Based
on previously unpublished
archival material and personal
interviews with publishers,
editors, and writers, The Force
of Vocation charts Wiseman's
career from her internationally
acclaimed first novel, The
Sacrifice, through her near
career-ending decisions to
move into drama and non-
fiction, to her many years as a
dedicated mentor to other
writers. In the process,
Panofsky presents a
remarkable and compelling
story of the intricate
negotiations and complex
relationships that exist among
authors, editors, and
publishers.

When couples make the

journey through their first year of parenthood they confront the challenges of their new responsibilities with varying degrees of support and a range of personal resources. When *Couples Become Parents* examines the ways in which divisions based on gender both evolve and are challenged by heterosexual couples from late pregnancy through early parenthood. Following the experiences of forty heterosexual couples in various socio-economic positions, Bonnie Fox traces the intricate interplay of social and material resources in the negotiations that occur between partners, the resulting divisions of paid and unpaid work in their families, and the dynamics in their relationships. Exploring the diverse reactions of these women and men, *When Couples Become Parents* provides significant insights into the early stages of parenthood, the limitations of nuclear families, and the gender inequalities that often develop with parenthood.

Textual Mothers/Maternal Texts - Elizabeth Podnieks
2011-04-07

Textual Mothers/Maternal Texts focuses on mothers as subjects and as writers who produce auto/biography, fiction, and poetry about maternity. International contributors examine the mother without child, with child, and in her multiple identities as grandmother, mother, and daughter. The collection examines how authors use textual spaces to accept, negotiate, resist, or challenge traditional conceptions of mothering and maternal roles, and how these texts offer alternative practices and visions for mothers. Further, it illuminates how textual representations both reflect and help to define or (re)shape the realities of women and families by examining how mothering and being a mother are political, personal, and creative

narratives unfolding within both the pages of a book and the spaces of a life. The range of chapters maps a shift from the daughter-centric stories that have dominated the maternal tradition to the matrilineal and matrifocal perspectives that have emerged over the last few decades as the mother's voice moved from silence to speech. Contributors make aesthetic, cultural, and political claims and critiques about mothering and motherhood, illuminating in new and diverse ways how authors and the protagonists of the texts "read" their own maternal identities as well as the maternal scripts of their families, cultures, and nations in their quest for self-knowledge, agency, and artistic expression.

Do Men Mother - Andrea Doucet
2018-04-09

The second edition of Andrea Doucet's *Do Men Mother?* builds upon the award winning first edition to further illuminate fathers' candid reflections on caring and the intricate social worlds that men

and women inhabit as they 'love and let go' of their children. Including interviews with over one hundred fathers - from truck drivers to insurance salesmen, physicians to artists - Doucet illustrates how men are breaking the mould of traditional parenting models. This edition expands her argument wider and deeper, building on changes to the theoretical work that informs the field, her own intellectual trajectory, and the fieldwork of revisiting six fathers and their partners a decade after her initial interviews. She continues to examine key questions such as: What leads fathers to trade earning for caring? How do fathers navigate through the 'maternal worlds' of mothers and infants? Are men mothering or are they redefining fatherhood? In asking and unravelling the question 'Do men mother?' this study tells a compelling story about Canadian parents radically re-envisioning child care and domestic responsibilities in the twenty-first century.

Mothers and Daughters -

Andrea O'Reilly 2000

In 1976, Adrienne Rich wrote in *Of Woman Born*: Motherhood as Experience and Institution that 'the cathexis between mother and daughter' is essential, distorted, misused 'is the great unwritten story.' In the quarter century since Rich wrote those words, the topic of mothers and daughters has emerged as a salient issue in feminist scholarship. Using women's writing, film, feminist theory, and personal experience, contributors to *Mothers and Daughters* explore how the mother/daughter relationship is represented and experienced as a site of empowerment. This volume will offer readers an important and welcome chapter in the story of the complex relationship that is a part of nearly every woman's life.
