What Makes Love Last? John Gottman 2013-09-10 "One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. *A Love You Can Trust* shows couples how

to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

Out of the Doghouse Robert Weiss 2017-01-03 DATING, RELATIONSHIPS, LIVING TOGETHER & MARRIAGE. Typically, men are good at creating rifts in relationships but terrible at mending them, especially after they've repeatedly betrayed their partner through sexual infidelity. For the most part, cheating men are both intimacy-challenged and empathy-challenged, and, as such, they lack the skills needed to overcome the damage wrought by their infidelity. Robert Weiss has spent over twenty years in the treatment of sex and intimacy issues, helping both cheating men and their betrayed spouses. In *Out of the Doghouse* he shares his expertise, illuminating the ways in which men can move beyond their usual feeble efforts to smooth things over. Sure, saying "I'm sorry" and trying to "buy forgiveness" with flowers and jewelry may temporarily calm the stormy seas, but these actions do nothing to re-establish trust, which is what a distraught woman needs if she hopes to feel better about her relationship over the long-term.

How to Tell If Your Partner Has Been Cheating Kym Kostos 2014-11-07 Aside from the feelings we get when we first enter a relationship, once the "newness" wears off and the "honeymoon" is over, sometimes we wonder if our partner is cheating on us. Whether you've been cheated on before or not or if there are signs, maybe lipstick on his collar or she is getting texts in the middle of the night that she just "has" to reply to. Sometimes our instincts tell us that something isn't right and we should further investigate our instincts.- Take note that affairs cost money. Hotels or motels, dinners, etc... Has she been spending more money on these type of things? Has she been buying sexy underwear, bras and lingerie that she didn't before? And have you been able to see her in her new sexy outfits or is she being secretive about wearing them out? Check credit card bills or look

for receipts that indicate an increase in spending habits. - Keep a close eye on her phone habits. If she is disappearing into your bedroom or the guest room for long conversations? Is she texting for an unusually long amount of time than she had been before? Women tend to like to spend a lot of time on the phone communicating, if there is an unusual amount of time, more than usual, that she is spending on the phone then be aware, she just may have a new lover in her life.- It's human nature not to make eye contact with someone if you are being dishonest with them. Is your wife avoiding making eye contact with you when you two have a conversation? Try looking into her eyes when you talk to her and see what her eyes tell you. If she doesn't make eye contact with you or if she avoids it all together chances are is that she is hiding something from you. More than likely, she is cheating on you.- Is there a sudden change in her appearance? When a couple is married for a long period of time, they tend to be relaxed in appearance. Look for signs of your wife suddenly dressing up more, wearing more make-up, wearing a new perfume scent, buying lingerie that you never see her wear, etc... When she starts to tend to her appearance more, chances are it's not for you. Women always want to look their best when starting in a new relationship or an affair.And many many more!

Warning Signs Calvin Klein 2016-04-25 Dear Reader, In today's life, there are a few questions that I am frequently facing. I am sure most people have also been asked such queries. Among these, one of the most heartbreaking questions has got to be "Is my boyfriend cheating on me?" As a matter of fact, I'll usually hear this question at least once a day, sometimes even more. Every situation is different; sometimes I can definitely tell if it's a yes or a no, but most answers are a lot more complicated. Infidelity doesn't usually come out of the clear blue sky, and it's almost always easy to spot the signs and signals that something is wrong. Usually, before someone acts out to consciously violate the trust of a loving relationship, there is a period of unsettled sadness or restlessness. If you know the signs, it isn't too hard to figure out when something is wrong, even if your mate is not vocalizing his concerns. This eBook has been written with love, as well as with the genuine desire to help you identify signs that your partner is cheating on you. Recognizing the signs of a cheating spouse can save you, a lot of heartache and in some cases even salvage your relationship if it can be mended. It is often more distressing to wonder if your spouse is cheating than it is to find out one way or the other if he or she has been stepping out on you. Some relationships can survive infidelity. However, before you can decide what to do next, it's best to figure out where you stand right now. No matter what your hunches tell you, it is always best to get hard evidence before confronting a potential cheater. Regardless of what happens... remember that we all deserve to be in healthy relationships with people who love us. You're no exception to this rule. If your man is doing you wrong, there's someone else out there who will treat you right. Trust me.
