World Literature, Cosmopolitanism, Globality Gesine Müller 2019-10-21 From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.

Parents Who Cheat Ana Nogales 2010-01-01 Nationally known psychologist Ana Ledwin Nogales addresses the affects of parental infidelity on childhood development—and on these children's relationships as adults. Many books explore the affects of marital infidelity on a marriage, but *Parents Who Cheat* is the first book to examine not only how this behavior contributes to the breakdown of a family structure but how it directly affects the children in that family. With compassion and piercing insight, Dr. Ana Ledwin Nogales explains how adultery damages a child's understanding of love, marriage, and trust. As these children grow toward adulthood, their ability to have healthy relationships is compromised. Through stories of children struggling to understand their parents' adultery, as well as case histories of adult children coping with unresolved issues related to parental infidelity, Dr. Nogales shows how destructive habits are formed and points the way toward healing and the creation of healthier relationships with parents and partners.

Parents Who Cheat Ana Nogales, Ph.D. 2009-07 Explores the impact adultery has on children with regard to their understanding of trust, love, and marriage while providing guidance for breaking the cycle of such destructive habits, techniques for repairing a broken family, and methods for developing healthy relationships. 25,000 first printing. [Count on Me](#) Las Comadres Para Las Americas 2012-09-04 Friendships can bring us peace, fill the emotional shortcomings in our romantic relationships, and help us remember what lies deep inside every one of us. For more than twenty-five years, the international organization Las Comadres Para Las Americas has been bringing together thousands of Latinas to count on, lean on, help, and advise one another. Comadre is a powerful term. It encompasses the most important relationships that exist between women: best friends, confidantes, coworkers, advisers, neighbors, godmothers to one's children, and even midwives. Edited by acclaimed author and editor Adriana V. López, this collection of stories features twelve prominent Latino authors who reveal how friendships have helped them to overcome difficult moments in their lives. Fabiola Santiago, Luis Alberto Urrea, Reyna Grande, and Teresa Rodríguez tell their stories of survival in the United States and in Latin America, where success would have been impossible without a friend's support. Esmeralda Santiago, Lorraine López, Carolina De Robertis, Daisy Martínez, and Dr. Ana Nogales explore what it means to have a comadre help you through years of struggle and selfdiscovery. And authors Sofia Quintero, Stephanie Elizondo Griest, and Michelle Herrera Mulligan look at the powerful impact of the humor and humanity that their comadres brought to each one's life, even in the darkest moments.

Gender Mosaics Dana Vannoy 2001 "Gender mosaics reflects a sociological point of view on gender. It emphasizes both the social construction of gender in everyday interactions and gender as a stratification system built into social institutions. Through these readings, students come to see how gendered behavior results in a stratification system in which men and women wield unequal power and unequal opportunity for self-determination, both in personal relationships and in the social organizations of society"--Cover.

THE LIVING GOD ON EARTH Prahalad Rao 2020-02-03 For over a decade now, the country has been witnessing rising disharmony in the lifestyle of youngsters, worst affected of whom are the aspiring students for higher studies. Love affairs, marital discord, social tensions, ideological conflicts among different faiths, castes, creeds, working executives, crimes against women, infanticide, etc. are driving them to a state of desperation and frustration, birthing negativity. All of the above ills are considered as reasons for the development of psychological, physiological, and social conflicts and confrontations within relationships, society, educational institutions, working environments, and so on. A sense of solitude and desertion seems to be enveloping today's youngsters and teenagers, pushing them to the extreme end of life - suicide. This is attributable to the loss of self-belief coupled with the pressure to have an edge over others in competitive spheres of life. Another hugely disturbing factor is that school-going kids are resorting to extreme steps in life due to failure in examinations and other such disgracing circumstances brought upon them in general, mostly occurring in schools. They belong to a different age and, of late, their levels of sensitivity have sharply risen in their comparative self-analysis. The author, Prahalad Rao, is an ordinary person who believes in himself and GOD, the Qualities of God as written in the Holy Scriptures and recited daily by all the Faiths that insulate a person from becoming a victim of negativity and give new hope for appreciating the essence, purpose and meaning of life - to struggle and succeed. Struggling itself is a way of life for different people in different ways; it includes spiritual and physical, the combination of which creates a sense of self-respect - the foundation for human survival. The author found it obligatory to wake them up through the ways and means GOD has created for humans. The author believes the book will reawaken self-belief, self-faith, self-confidence, and self-conviction by sensitising oneself to what is hidden within one's SELF which can become a GLOW to appreciate life and the beautiful nature that enables the birth of POSITIVITY IN LIFE.

Invisible No More Andrea J. Ritchie 2017-08-01 "A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence." —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

8 Ways to Wellbeing for Recovering People Sonnee D. Weedn 2019-10 Therapeutic Lifestyle Changes (TLCs) identified in 8 Ways to Wellbeing for Recovering People are an under-utilized, but profoundly effective treatment for optimizing mental health and supporting recovery from most psychiatric issues, such as addiction, anxiety, depression, eating disorders and trauma. Based on the exhaustive research of Roger Walsh, M.D., Ph.D. At the University of CA at Irvine, these TLCs described and amplified in this workbook serve as core curriculum for inpatient or outpatient programs, as well as individual use. Why "lifestyle changes?" Because research shows that Therapeutic Lifestyle Changes, such as changing one's diet, getting regular exercise, relaxation, healthy recreation, time outdoors in nature, fostering supportive relationships, a spiritual

practice and service to others, can be enormously beneficial for both mental and physical health and wellbeing. TLC's can help with addiction and reduce the risk of relapse. Of course, Therapeutic Lifestyle Changes are not the whole answer; no one thing is. However, they are a very valuable and proven modality in recovery treatment. Dr. Weedn's 8 Ways Workbook brings TLC's to the recovering person through an easy to use, yet very effective means; a well thought out road map towards positive change that supports recovery on many levels.

Sexing the Body Anne Fausto-Sterling 2020-06-30 Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society, and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms -- sex/gender, nature/nurture, and real/constructed -- and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and, as such, should not be forced to compromise their differences to fit a flawed societal definition of normality.
